FOR VICE PRESIDENT, CHESTER A. ARTHUR, New York. FOR COUNTY TREASURER, W. C. BASHFORD, Prescott.

FOR DISTRICT ATTORNEY, J. P. HARGRAVE, Prescott. FOR PROBATE JUDGE, A. O. NOYES, Prescott.

NOT A CANDIDATE. CAMP GRANT, July 31st, 1880. Col. BROWLAW, Secretary Yavapai County.

Elsewhere in the MINER appears a telegram from Hon. M. W. Stewart, stating that he cannot, with justice to himself and his extensive business, become a candidate for Delegate to Congress.

TOO MUCH BUSINESS ON HAND. Ex-Governor Safford was telegraphed yesterday to know if he would be a candidate for nomination at Phoenix, to which he sent the following reply.

LOOKING TOWARDS ARIZONA.—A New York dispatch of recent date says: Leading capitalists and others interested in western mines predict a more active interest the coming fall in mining stocks.

THE ALBUQUERQUE DAILY GOLDEN GATE OF THE 23d says: "Trains are now running on the Atlantic and Pacific 35th parallel R.R. Two railroads."

As the Port of Guaymas is the terminus of the great Atchison and Tepeka R.R. and just at present creating considerable attention, we have thought proper to copy the following from a letter written by an intelligent gentleman who is on the ground and knows whereof he speaks.

The Port of Guaymas is situated on the western side of the Gulf of California, (called on Spanish maps by its original name of the Gulf or Sea of Cortez.)

The harbor is safe at all seasons and will accommodate vessels of all sizes; those of deepest draught lie in the outer anchorage; small coasters come in near the Custom House wharf.

The population is about 5,000. The commerce consists of the import of foreign goods, groceries, hardware, machinery, lumber, wine and spirits, from San Francisco and Europe, and the export of hides and treasure to San Francisco.

The vicinity of Guaymas is fertile. Water is at present supplied by water carts, which are filled at wells on the outskirts of the town. A project is entertained of bringing a supply of pipes from the "Rancho of San Jose de Guaymas," about nine miles from here, the necessary surveys and plans for which are now being made.

The climate is very hot in summer, and in winter cool, without frost in the Southern part of the State; the rainfall is very low on the Coast, but much more abundant in the agricultural districts. Guaymas is very healthy, the death rate being exceptionally small.

A Lion Captured—Stretched Out With Lasso. For some time past an old and gigantic mountain lion has been playing havoc with the young colts and calves of different herds around Walnut Creek, and so great had the destruction of young animals become of late that a party of experts with the lasso decided upon the capture of the monster.

From Salt River. I am coming by and by. You will see my picture in the paper. I brought a dog and a cat and a lamb. Bringing a dog and a cat and a lamb. Sing hey! the sweet potato that I am.

DR. TANNER VERY WEAIR. New York, Aug. 3.—Dr. Tanner's thirty-sixth day of fasting found him very weak and sick, but the prospects are that he will hold out for forty days. He is now on his thirty-seventh.

PHILADELPHIA, Aug. 3.—Rev. Thomas Miller was held in \$20,000 to answer for his share in the alleged fraudulent practice in the Philadelphia University of Medicine and Surgery. The Court refused to reduce the bail of \$20,000 of Dr. Charles Kenrich of Buchanan's Medical College.

CHICAGO, Aug. 3.—The election in Kentucky passed off quietly. Gains were made by the Republicans in very few counties. Alabama gives at least 50,000 Democratic majority.

THE RECENT OAKLAND TRAGEDY. San Francisco, Aug. 3.—Schroeder, who killed Dr. Lefevre in Oakland, was to-day held to answer without bail. His counsel gave notice of application to the Supreme Court for a writ of habeas corpus.

GLADSTONE'S CONDITION. London, Aug. 3.—Gladstone passed a fair night. There is no increase in the local maldy fever.

VICTORIA STILL ROAMING. San Antonio, Aug. 3.—A dispatch received at these headquarters says that Victorio's band attempted to pass north between Eagle Creek and Fort Guadalupe, with an engagement took place, in which the Indians were repulsed and the position held until the arrival of Captain Vico, when a sharp encounter took place between the troops and the Indians. The latter were repulsed, seven being killed and many more wounded. One soldier was killed, and Lieut. Callaway wounded. The engagement lasted three hours.

REVOLUTIONARY MIXED. Havana, Aug. 2.—Advices from the City of Mexico of July 27th state that disorders and revolts are reported recently from various parts of the Republic, though not inspiring fears. The opposition are enraged at Gonzalez's success. They call Diaz a bloody despot and say that Gonzalez will be worse. Diaz has called Gonzalez to the Capital. The situation of the country is confused.

THE DEMOCRATIC CONVENTION OF 1868 pronounced the reconstruction acts "unconstitutional, revolutionary and void." Hancock was a candidate before that convention. He is now expected to be the nominee of the party.

AN ARMY OFFICER IN RUSSIA does not seem to count for much—the sub-lieutenant who murdered Madame Skobeleff committed the crime because she refused to allow her to marry her daughter, and she was a Knight of the Order of St. George, too.

THE TUCSON DEMOCRACY JUNCT. Tucson, Aug. 4th.—The Democrats are jubilant over the difficulty of the Republicans in getting a suitable candidate for Delegate to Congress, and think that with Stewart out of the way they can make a clean sweep. The Democracy united for delegate, but not for county officers.

WHAT LAMAR SAYS. New York, Aug. 4th.—Senator Lamar, Secretary Democratic State Committee of Alabama, telegraphed to the World from Montgomery, Alabama, that the sweeping Democratic majority was due to the fact that there were no regular nominations made for County officers; that there was simply one race between Democrat candidates. The election was the quietest one ever held in the State.

THE ELEPHANT IS KING.—Who that has seen the wild elephant roaming his native jungles can deny that he is the king of beasts? Sir Samuel Baker says: "The king of beasts is generally acknowledged to be the lion; but no one who has seen a wild elephant can doubt for a moment that the title belongs to him in his own right. Lord of all created animals in might and sagacity, the elephant roams through his native forests. He browses upon the lofty branches, upturns young trees from their moorings, and from plain to forest he stalks majestically against him, at one spring from the foot of their surmount, behold the claimants flying the air, with half the bones in their bodies broken."—Sanderson, in Auld Beasts in India, p. 157.

THE OLD WOMAN READY TO CONTEST TO SAVE HER NECK. Omaha July 31.—The old man and woman arrested and lodged in jail the first of the week, on suspicion of being the notorious Bender and wife, who committed so many murders in Kansas in 1873, and escaped, are very likely to be proven the original Benders. They were tramping, and inquired if anything had been heard of the Benders in their neighborhood. Mr. Hoffman, who was their neighbor in Kansas, identifies them both, Bender, as he is now called, acknowledged that he knew Hoffman, who called on him in his cell. In the course of conversation Bender acknowledged to having anything had been heard of the Benders in their neighborhood.
