McNary is a billionaire. He's struck it rich. Chloride and bromide, sulphide and oxide and all the other duds in his \$100,000 mine.

During this month of March there has been paid into the City Treasury on fines \$150. This pays the wages of City Marshal Dodson.

Mrs. Furish has received a new supply of school girl hats, really nobly; also ladies walking hats for the spring trade. Go for them, young ladies.

The Gillett mill is running steadily; the cam shaft is all right again, and bullion will once more come plentifully. The Tip-top mine is looking better than ever.

Peters Brothers and Charley Wurth of Chino Valley are doing an excellent business in their saloon and also feeding horses, mules, etc., of the traveling public.

C. A. Carpenter is working on the Valenciana mine, Humburg District, and parties are expected soon to look at and interest themselves in this valuable property.

A. J. Robert, of Groom Creek, has a fine prospect in his Black Hawk and Gray Eagle mines. He has plenty of rich ore, large ledges, and now awaits the capitalist to say "how much?"

We hear that John Kirwagen is an aspirant for the Shrievalty of this county at the ensuing election next November. He hasn't told us, but we've heard it whispered in the wind.

Navin the Adrian Mayor and forger of city bonds was captured at Maricopa yesterday, and sent east. There was a reward of \$1000 for his delivery and expenses paid. The way of the transgressor is certainly hard.

Charley Taylor, when he came in from his Laughing Water farm a few days since, stopped at Meeville and examined the mine and mine. He speaks well of Mev at the front in the mill, and Gobin as chief at the mine.

Henry Wickenburg has now in his Iconoclast mine, Black Canyon, 10 feet of excellent gold ore. His mine is one of the fine mines in that section. We wish Henry, who is a brave man and an excellent citizen, unbounded success in all his mining and other enterprises.

Colorado and Nevada prospectors have turned their attention to Arizona, and pronounce it far ahead of any country they have ever prospected, and in the amount of mineral leads and richness. Everywhere our prospectors go they meet them coming in.

J. L. Fisher, who is selling goods as cheap as the cheapest, received a fine, new safe for his store this morning. He has increased his business to that extent whereby he finds it impossible to get on without a first-class iron coop, in which to store away surplus cash and all valuable papers.

A special postoffice agent should be appointed for Arizona. Our Territory is large, fast filling up with people, the post-offices are becoming numerous, business increasing, and there is work sufficient right here to keep an active man busy all the time. Let us by all means have an agent.

The stage for the A. & P. R. R. this morning went out loaded down. Mr. Baker, local agent, went out with the coach to see that stations and all other things are properly arranged, so that no hitch may take place which will prevent the mails from coming in and going out on time.

We hear that two of Prescott's most worthy young people are going to have the marital knot tied on the 29th inst. They are sensible, because they are properly mated and well able to set up for themselves in the world. Comfort and happiness in large quantity is in store for them.

THE CIRCUS.—We observed passing through town this morning what we took to be the advance guard of Byland's circus, at least we thought we recognized the old pint horse belonging to it. The mule and dog along with the outfit seem to be something new, however they struck us as proper for a circus.

The insurance business is getting to be of considerable magnitude in Arizona. A great many of the best companies in the Union are represented in this Territory by active agents, who send out a great deal of money every year. As yet no losses of magnitude have transpired, and, taking the business in all its different phases, it is a good one for the insured and the companies doing the insuring.

A gentleman who has recently been in the Cave Creek country tells us that the Rock River mine, which could have been purchased a short time since for \$75,000, which is not a hundredth part of its value. The ledge near is 200 feet, with 3 feet of ore worth \$2,500 to the ton. The value of Arizona mines are yet unknown on the outside.

The wounding of Virgil Earp some months ago and the killing of Morone. Some days ago at Tombstone, has brought the wrath of the friends of the Earps to the surface and they have killed Frank Stillwell, whom they blamed with the murder of the last night of the Earps. The end is not yet. The fire is kindled and well burning on both sides, and will end in the total extinction of all the parties in the controversy. It is wrong, and should be stopped, but the waters of the Santa Cruz are not sufficient to extinguish the flames.

Where is the last Alta Arizona Cureton in Prescott. Davis & Co. should look out for the editorial department in the absence of the editor, or has Cureton discharged them for that cruel "gawk." Had it not been for the "gawk" Gosper would have been Governor, and don't you forget it, in which event he would have "tossed his finger at the breeze," an "oroidal" mine or any other small thing, gave the noble hambletonian.

D. F. Mitchell, Clerk of Board of Supervisors, has been on a mining expedition to the Santa Maria county, where he found everything in good shape—mines looking large and rich—ledges numerous.

It has been asserted that Stillwell, who was killed last Tuesday, was a deputy under J. H. Behan, of Cochise county, at the time of his death. Such was not the case. Some time ago Behan appointed him deputy for some special business, but as Stillwell failed to square his official accounts, Behan discharged him.

The road leading from Prescott to Turkey Creek is said to be in bad repair, and the attention of the Board of Supervisors is called to this important fact. We expect, and must get support from that direction, and the roads should, by all means, be kept in good repair.

We hear that wages of good miners at the Tiptop mine have been reduced from \$4 to \$3.50 per day, in consequence of which laborers are scarce just now in that camp. The mine however, is producing better ore than ever before, and the mill is doing excellent work making bullion.

With the advent of the iron highway there will be a great many new firms to engage in business in Prescott. Chicago merchants, who are the most wide-awake, have their eyes on this section, and it would not surprise us to see goods landed into Prescott and sold, from that and other Eastern cities, in six days.

On account of securing important improvements on the line, the A. & P. and Prescott stage will leave at 5 o'clock tomorrow morning. This, we learn, is an earlier hour than the stages will leave in the future after the improvements contemplated have been made. Two coaches of this line are expected to arrive here tomorrow.

A. L. Meoller has rented his building on the corner near the old Court House to a Chicago gentleman for a wholesale boot, shoe and harness establishment. The premises are small, but it was the best the gentleman could do. A live man, who will advertise his wares, sell cheap, and keep a good stock, can hardly fail in realizing a large income.

Malone, who was executed in Prescott, four years ago, gave his body to the physicians, who dissected the same and kept the skeleton for scientific investigation. A night or two since some one, who evidently wanted to perpetrate a joke, stole the bones and deposited them nicely on the platform of the we on the northwest corner of Plaza. Marshal Dodson espied the sack and kept an eye out for the party who wanted to be funny, but that gent failed to make himself known. The skeleton is now to be deposited in a grave.

Lassoed a Lion. Joe Dixon, the young son of J. H. Dixon, of Skull Valley, has been diligent for years in rearing a few head of sheep. Two or three nights since a Mountain Lion got into Joe's fold and succeeded in killing three of the young gentlemen's finest pets. This was not the only loss he sustained, and he determined upon the death of his lion-hounds. He mounted his pinto horse and went in search of the transgressor. The search was not long when Joe found the wretch perched upon a tree. He succeeded in throwing a lasso over his gentle form, when off went Joe on his pinto charger for home, where he arrived with the helpless carcass of a ten-foot lion, which weighed 100 pounds. Good work for a boy.

Quite a number of the ladies of Prescott proceeded to the residence of Rev. R. A. Windes, pastor of the Baptist Church, yesterday afternoon, and without invitation took possession of the house. It was a manifest to the reverend gentleman and his wife that the ladies meant business, and soon after their arrival, Ruthersford's express followed with a load of valuable articles for the family. Among the articles we noticed one set of parlor chairs, one ladies' case rocker, one combination bed spring-mattress, two elegant bed quilts—one a tulip and the other a cross-hatch pattern, one suit of clothes for the Pastor, a set of dishes, cups and saucers, a supply of coffee, flour, butter, cakes, etc., etc. In the evening quite a number of young gentlemen and ladies, who were entirely unexpected, made a similar call on this family and left many articles of value together with a nice sum of money. These evidences of good will on the part of those who contributed to the donation (many of whom could not be present) no doubt will gladden the hearts of the good family for many days, and will make the donors certainly all the richer.

Will allow any pugilist travelling expenses coming to the above place, or will accept challenge on the conditions.

THE "T. J. B'S." Over forty of our most fashionable young people assembled at Howey's hall last evening and participated in one of the pleasantest dancing parties that has been given in Prescott. They went for enjoyment and amusement, and they had it to the fullest extent. This was the first of a series of parties to be given by the T. J. B. Club. The name is aquatic, and such are the parties to be.

We don't thank the gentleman who lied to the Democrat in regard to the Mixer consolidating with the Courier. The Courier is probably content with its independent policy. As for the Mixer it knows nothing but Republicanism "straight," and will bend its lines to anything less moderate or more severe. We would not employ a man who did not come under this heading.

It is now known that the Earp party, at Tucson, killed Stillwell. Sheriff Paul telegraphed Sheriff Behan to arrest the Earps as they went to Tombstone. Behan attempted to arrest them, but they drew their guns and refused to be taken, immediately leaving Tombstone. Behan and Paul are after them.

TEN DOLLARS A DAY.—On Thursday Marshal Dodson handed Mr. McCue of Antelope, over to the City Recorder for drunkenness and breaking the peace. He was fined \$10, which he paid. Again, last night he was "fill" of benzine and was again juggled. This morning before the City Recorder he pled guilty, and paid another \$10 into the City treasury. The Marshal says he can stand it as long as Mr. McCue can.
