

WEEKLY MINER

C. W. BEACH, Editor and Proprietor.

25 CENTS PER WEEK

E. C. DAKE, Business Manager, in the office of the Miner, daily and weekly, in that city. He is authorized to do all business in the name of the proprietor.

Chas. W. Beach is Agent for the Miner in San Francisco, especially in the Mining Department.

Official Paper of Yavapai County

From Wednesday's Daily.

Agua Fria had a poor down rain last night.

Mr. Campbell of the Peck is on a visit to Prescott.

Our County jail has now ten prisoners within its walls.

"Hoe and Horn" begins to assume a newspaper aspect.

Dance at Tom Miller's new residence in Skull Valley on Friday evening.

Walnut Grove had a rain yesterday which caused the ravines and gulches to run high.

There are a great many people from the country in attendance on the District Court.

The funeral of the little child of Mr. and Mrs. Cook was largely attended to-day from the M. E. Church.

We hear that the repairs upon the Court House tower will not be completed yet for four or five days.

It is said that the recent sickness at the Needles which carried off several persons so quickly was Asiatic cholera.

Antelope, the Walapai beauty, has been presented by one of Prescott's aesthetic young gentlemen with a red parrot.

For Rent—A dwelling house, with five rooms, near the plaza; good water. Enquire at the Miner office.

A heavy rain fell last evening at the Dairy ranch of J. D. Cook five miles north of town.

Bishop Udall declares his innocence in the pugny case and relies upon his friends to assist him in gaining his freedom.

A telegram received to-day states that work on the branch road will be resumed as soon as all freight tariffs are arranged.

John Marks and Mr. Goldman of Phenix departed homeward this morning after a sojourn in Prescott of 8 days.

Apache country has been favored with plenty of rain and foods are reported in bad condition.

Prescott has a new Catholic priest, an Italian by birth. The Bishop has gone back to Tucson, also several Sisters.

The Estate mill, of Messrs. Cox and Craigh, has started up, we are informed, on ore belonging to Secretary Van Arman and his partner.

Yesterday and to-day Messrs. Baker, Wilder and other stock men loaded at Ash Fork 30 tons of cattle which are going to the Kansas market.

Joseph Dougherty, who was formerly in co-partnership with J. W. Dougherty, has purchased the O. K. store and will continue business at the old stand.

Harry Carpenter, who is about to visit Yuma and become one of the prison officers at that place, resigned from the Prescott Rifles at their meeting last evening.

Potatoes are selling below cost in the Prescott market, and we would suggest to farmers and all those interested to not overstock the market.

Fire.—The large quartz mill at Providence, Cal., was a few days since destroyed by fire. All men in consequence have been discharged, and work of all kind is at standstill.

George W. Stewart has a lengthy and well written article in the San Francisco Mining and Scientific Press of August 8th. He has a good opinion of our quartz and placer mines.

Skull and Kirkland Valleys were visited last night by a heavy rain—about the first of the season. This will cause grass to grow in that section, much to the delight of cattle and horses.

Several officers and soldiers from Whipple were before the U. S. Grand Jury this morning, with a view of throwing some light upon the murder or death of a colored soldier at Whipple a few days since.

The rumor is current in Prescott, that a shock of an earthquake was vividly felt at Whipple last night. Was it really a rocking of the earth, or did some of the "coon" soldiers stationed at Whipple put up a job on the unsuspecting? If it was a genuine shock, then it failed to reach Prescott.

Many friends of Judge John Howard will urge President Cleveland to favor him with a consulship to China. He is a father to the Celestials of this city and would take well over the great waters in the City of the Big Wall. We don't want to part with our friend, but hope he will be successful all the same.

DECLINED.—"S. L. R." writing from Silver City, New Mexico, is informed that his communication is rejected, as it seems to be of a personal nature and reflects upon a well known attorney of this county. We have not put the Miner up as a cannon with which to shoot people indiscriminately.

We acknowledge the receipt of an illustrated Monthly, called "Outing," containing an article from the pen of Capt. Jno. G. Bourke, who served so long and faithfully on General Crook's staff in Arizona and elsewhere. The article is interesting and treats of Gen. Crook's campaign two years ago in the Sierra Madre Mountains of Mexico.

Governor Tritle has been applied to for a requisition for the delivery of Albino Aguerre, who killed John Macor-mack, district commissioner from Graham county to the New Orleans exposition, who was murdered at Clifton, on the 7th inst. As there was no evidence before the Governor showing that Aguerre did the killing, the petition was denied.

A water train running west on the A. & P. R. R. between Truxton and Hackberry, on Tuesday morning last, was thrown from the track by colliding with a cow, and two ladies who were riding in the caboose were seriously injured. Mrs. Downing, wife of the yard master at Peach Springs, had her leg broken above the knee and was otherwise badly hurt, while Mrs. Brady of the same place was badly shaken up. About 600 feet of the track was torn up, and the passenger train was delayed six hours in consequence.—Mohave County Miner.

[Mrs. Downing has since died of her injuries.—Ed. Miner.]

Across the ocean in the flowery kingdom the rice eaters of Asia celebrate every fifth day as a holiday or Sunday making six for each month. Here in America where they work for themselves they do not recognize our Sunday, but adhere to their Chinese Sabbath day. A Celestial of some intelligence told us that "Melican man's religion no good," whereupon we accused him of being a heathen; belonging to a race who feed their dead by placing on their graves carcasses of hogs, hens and other substantial. The Chinaman cut our conversation short by asserting that a hog, chicken or plate of rice on the grave of the departed would do as much good as two or three bushels of flowers.

From Thursday's Daily.

John Chart is up from Thompson Valley.

The case of Gilligan vs. Al Cook was tried in the Justice Court to-day.

Captain Carrington left Whipple this morning for California with the rifle team.

Messrs. Black and Planet are up from Kirkland Valley, and tell us that no rain has yet visited that section.

Lieut. Bingham we are told leaves for St. Louis on Sunday morning. It is said he will not return to Ariz. na.

Photography has attained such a degree of perfection that a bullet from a gun can be readily taken at its lightning speed.

For nose bleeding try bathing the face and neck in cold water. Ether applied to the back of the neck is a sure remedy.

James Stockdale, a well known prospector and sporting man, died in Tucson on the 5th inst. from an overdose of morphine.

The blindness in cattle herds is, we learn from a scientific source, caused by heat and flies. This theory has also been advanced by some of our cattle men who have watched the disease.

Ben Belcher, the genial traveler for Guss Ellis & Co., leaves to-day on a visit to the mining camps at Tiptop, Peck, etc. He will in fact continue his trip to Prescott.—Gazette.

Pima County ten years ago was in debt \$91,000. Four years after the debt was reduced to twenty-eight thousand. Still further on six years, the County has rolled up a debt of about \$460,000. Doing well.

J. H. Carpenter gave his friends last evening a social party before leaving for Yuma, where he goes as one of the Territorial Prison officers. Harry has many friends in Prescott who wish him all luck and prosperity in his new field of labor.

We are told that Tim Hawkins has struck his fortune over in the Bradshaw country. Ore on exhibition from his find at the store of Bones & Spencer shows plenty of free gold. If the ledge has size it certainly must be of considerable value.

Cataract mines are looming up and ore secured which justifies shipment to Colorado for treatment. The canyon of Cataract Creek has been located for a distance of five miles. A good trail is being made from the Keos mine up on top of the mesa where a good road leads to Ash Fork.

On Tuesday last four smelters at Selby's Works were started up roasting ores, and running night and day. The works are in constant receipt of ore from Arizons, Nevada and different counties of this state, and in a little while the entire establishment will be in operation.—Vallejo (Cal.) Chronicle.

Improve your herds; put in alfalfa; bore wells, and you will find cattle raising the most profitable legitimate investment in the country; for you are then conducting the business on the established principles which insure success, improvement and advancement.

We have seen no mention made of the U. S. Marshal having in custody the Indian, Dutchy, who was indicted by a U. S. grand jury for the murder of a Mormon near San Carlos and, therefore, we presume he is still in keeping of the military at Fort Bowie. It is quite time he was in custody of the marshal where he properly belongs.—Silver Belt.

A herd of cattle numbering 1500 to 1600 head and about 50 horses belonging to S. J. Conners and J. W. Ellison late of Texas, were driven through from Globe on Friday, en route to the Verde country. They came through from Texas to Bowie station by rail and were driven from the latter point. The drive told severely on the stock; a considerable number were lost on the way and all were in poor condition. However, with care, no further losses need be sustained as water is abundant and feed much better between here and Verde. Another drove of 500 head belonging to the same parties will pass through here in a few days.—Silver Belt.

NEWS AROUND THE WORLD.

RAVAGES OF THE CHOLERA.

Madrid, August 10.—There were 4,711 new cases of cholera and 1,511 deaths reported Sunday throughout Spain.

London, August 10.—The sanitary condition of this city is excellent and it is not to be believed that cholera will prevail here.

Marseilles, August 10.—Several officials here are down with the cholera. Trade is drooping owing to the epidemic, and trains are filled with refugees fleeing to Italy.

Paris, August 10.—A report from Marseilles states that the weather is again very warm and the cholera increasing to such an extent that hospitals have been opened for patients. Reports from Toulon state that two deaths from cholera have occurred there and several new cases are reported.

Granada, Spain, August 10.—Granada is to-day in a most deplorable condition, the result of the cholera. The state of affairs is really worse than it was at Naples last year during the cholera epidemic in that city. There are no doctors in Granada now, and the dead bodies of cholera victims lie unburied in the street.

MAXWELL ON BOARD.

San Francisco, Aug. 10.—The steamer Zealandia is just reported four miles out of the harbor, and will be in at 11. Maxwell, the alleged St. Louis murderer, is supposed to be on board.

Later—The steamer arrived in at 11 o'clock a. m. with Maxwell on board in charge of officers.

On the passage from Auckland, Maxwell was manacled at night, and the two detectives kept six hours' watches over him day and night. He maintained perfect ease during the entire trip of twenty-one days, never giving the detectives the slightest trouble. Two carriages were in waiting at the steamer landing, and the detectives with Maxwell, were driven to the prison, where the prisoner will remain until his departure to-morrow afternoon. When accosted in prison he said his name was Dangier, was a Frenchman, native of Paris, and aged 34 years. He acknowledged having known Preller, but beyond this refused to say more, repeating what he had previously stated, that his attorneys had cautioned him about saying anything of the crime with which he is charged. Ex-Police Sergeant Clark said he was familiar with that patois, whereon Maxwell suddenly checked himself and refused to further continue the conversation. Captain Lee prepared Maxwell with clean clothing preparatory to having him photographed. When he had finished his toilet he looked more like the description published than he did when he came over in the ship. The side entrance to the city prison is surrounded by a crowd eager to get a glance at the notorious prisoner. Maxwell positively refused to make any statement respecting the crime he is charged with, saying he had been strenuously advised by his counsel not to open his mouth except to put food in it. He looks cheerful and says he never felt better in his life. He will be taken East to-morrow.

A MURDERESS MARRIES.

Kansas City, Aug. 10.—The Times' Eric, Kansas, special says: Mrs. Francis Morris, who was yesterday found guilty of the murder of her mother, was married last evening to Harry D. Copeland, of Wichita.

AS A RAILROAD ENGINEER.

New York, August 10.—The World prints the following special from Saratoga: "I was shown a dispatch yesterday which says Colonel Fred Grant has accepted the position of engineer of a railroad company, which is backed by the Baltimore and Ohio and Wisconsin Central for the purpose of making a new entrance into Chicago. Colonel Fred Grant will go to Chicago to take charge of this new work as soon as he has time to gather together his father's papers and loose threads of his affairs. Colonel Grant had a very thorough education as engineer at West Point, and should do very well in railroad work. There is no doubt President Cleveland would give him a commission in the army, but Colonel Grant, it is said, has finally resolved to take his chances in civil life.

GRANT'S BOOK.

New York, August 10.—In an interview yesterday Colonel Grant said: I think father's book will appear before long. We do not yet know exactly what or how much manuscript there is lost. The last pages my father wrote have not been looked over, and there is a large amount of matter not in form for publication. On my return to Mount McGregor I shall devote the next four weeks to looking over the manuscript. I shall make copies of all his papers and preserve the originals. I am not yet sure whether or not there will be enough matter for two volumes, but what there is will be published with as little revising as possible. The story will be brought down to my father's death, and when this has been done, whatever there is, will be printed.

In regard to his mother's health he said: My mother is physically very strong, and I have no doubt that in time she will regain her usual health. She has been confined unremittently for

long time to my father's sick room. If she had not been very strong, she would have broken down long ago. I think that in a week—with a change of surroundings, she will recover rapidly. As to the future plans of the family, I cannot speak very definitely. We shall all go back to Mount McGregor, and remain till fall, when the family must separate.

Mrs. Grant will doubtless occupy the house on Sixty-sixth street.

DESTRUCTIVE STORM AT GLOBE.

(Silver Belt.)

On Wednesday afternoon Globe was visited by one of the most violent storms witnessed here. Its approach was heralded by the appearance in the southeast of dark and ominous clouds which advanced rapidly until the heavens were overcast, and accompanied by vivid lightning, deep muttering thunder and the roar of water, the storm burst over the town with unowned fury. Rain and hail rode upon the blast and fell in torrents until every hither to dry wash was converted into a river. Final creek was soon bank full and the angry flood fretted as it coursed its way north until it cleared the boundary of the storm. On its turbulent a crate of live ducks rode tranquilly; a spring mattress was likewise carried down stream, also a trunk which doubtless met with rougher usage than it ever had experienced from the hands of a baggage smasher.

The hail industriously harvested the fruit and played havoc with window panes.

A Bailey veomans the loss of fruit from of the vegetation of the hail, and otherwise suffered from the flood of water, as did many of his neighbors from the same cause.

Joseph Thomas, whose place adjoins Dr. Stallo's on the north, sustained a heavy loss by the destruction of his fruit, upon which he had bestowed great care.

Meanwhile the wind was idle as it attended by wrecked buildings which impeded its course.

John Birchett's house was almost completely demolished, and his chicken house, quite a pretentious affair, was so badly wrecked that scarce a vestige of it remained.

The Skinner building on the hill, recently used as dancing school, waltzed around the colorful howling of the wind. It remained intact but now nearly at right angles from its original position.

An outbuilding on the premises of Geo. A. Allen was also partially wrecked.

The torrent of water and mud deluged the apartments of Ed Lyne and A. L. Walker and assistant postmaster Theo. Longman, rendering them temporarily untenable.

The residences of Dr. W. H. Cook and J. W. Frakes on Nob Hill emerged from the storm unscathed, but pretty well shaken up. Mrs. Cook mourns the loss her birds and cages; when last seen they were edging in the upper air, gone for ever from her gaze: Old Boreas also played mad planks within doors, shifting the furniture even to the piano, from accustomed positions.

At the south end, one of the adobe walls of Charles Banker's brewery was blown down and Wm. Kellner, who had sought refuge in the building, narrowly escaped being buried underneath. At Postmaster Kennedy's residence a number of large window panes were broken by the hail and the adobe strewn with debris.

Notwithstanding the damage done, the storm was welcome by our citizens, wearied by the drought and intolerable heat that had prevailed for such a length of time.

SKIRMISH MATCH.

At the late target practice for prizes, and also for members of the Department Team the following persons were successful, having attained the highest score:

Lieut. Bingham, 452; Sergt. Major Seymour, 451; Sergt. McPaul, 421; Private Houston, 430; Sergt. Elzy, 423; Sergt. Pendergram, 421; Sergt. Curtis, 420; Sergt. Cox, 411; Sergt. Meuser, 400; Private Haas, 394; Corporal Berry, 392; Sergt. Warren, 390; Corporal Thompson and Private Waitt as the two alternates.

First Lieutenant T. A. Bingham, corps of engineers, having made the best aggregate score in the contest for places on the Department Team, is announced as the winner of the Department gold medal.

Sergeant Major George Seymour, Fourth Cavalry, having made the best aggregate score in the individual skirmish match, is entitled to the Department silver medal.

CAMP MEETING.

Revs. Green of Prescott, Bristow of Camp Verde, Melton of Florence, and Windes of Miami kindly invite the co-operation of all the christian inclined people of the surrounding country to come in and camp and help to sustain a protracted meeting to commence Friday night, September 18th. It is an undenominational movement, and we trust all will take hold and be as useful as possible.

The above is clipped from a Globe paper. Now just where the protracted meeting is to be held is left with the reader to infer. It is misad, and a fair sample of the Rev. Mr. Windes' descriptive power.

Five months ago, or thereabout, the grand legislative body knowledge its session at the City Hall. Some of the crucial laws were passed at that session that were ever placed on the statute book. Now we find a court of justice occupying the same hall, trying to settle judicial questions and to interpret the true meaning of some of the meaningless bills introduced and passed by the inglorious Thirteenth. Judge Howard holds the situation, but strange as it may appear, a little messenger in the shape of an eagle swallow is in constant attendance and no doubt is an angel messenger sent from an unknown source to assist in unravelling the mysterious laws which emanated from the minds of thirty-six illustrious men last January and February.

GERONIMO AND HIS INDIANS.

Captain H. M. Kendall, commanding troop A of the Sixth cavalry, was in the city yesterday, stopping at the European hotel, on his way from the Indian front in Old Mexico to Fort Wingate. Those who think that the soldiers have been having a picnic down in that country have only to look at this brosed officer with his threadbare and weather beaten uniform to be undeceived. His personal appearance gives every indication of hard and trying service. Captain Kendall has been with Crawford's command, and they penetrated into Old Mexico through a country of terrible roughness, where great privations were endured. Captain Kendall says the Apaches have all broken up into small bands, and he thinks all but three families will make their way back to the reservation, Geronimo, Mangus, and Natches with their families, he thinks will not come back across the Mexican line. Captain Kendall says that Mangus and not Geronimo, is the real leader of the hostiles, but Geronimo has been credited with leadership because he was better known and was an older man. Speaking of the late battle between the Mexican troops and the Yaqui Indians in Sonora, the captain says that the Mexicans were butchered in a horrible manner, and are reported down there to have lost fully a thousand men. The wily Indians enticed them into a cleared spot in the center of a large canebrake, and from the protection of the thick canes surrounding the slaughter pen shot them down as though they were dogs in a pound.—Albuquerque Journal.

BLAINE, ON GEN. GRANT.

James G. Blaine closed his oration, delivered at Augusta, Me., upon the occasion of memorial services to the dead General, as follows:

For more than twenty years from the death of Lincoln to the close of his own life General Grant was the most conspicuous character in America—one to whom leaders looked for leadership; upon whom partisans built their hopes of victory; to whom personal friends by the tens of thousands offered their devotion. It was according to weakness and strength of human nature that counter movements should ensue; that General Grant's primacy should be challenged; that his party should be resisted; that his devoted friends should be confronted by jealous men in his own ranks, and by bitter enemies in the ranks of his opponents. But all these resentments are buried in the grave which to-day receives his remains. The contention respecting his rank as Commander in Chief, and Unionist and Confederate alike testify to his prowess in battle and his magnanimity in peace. The controversy of his civil administration closes, as Democrats and Republicans unite in pronouncing him to have been in every act and every aspiration an American patriot.

Judge William J. Berry has removed his gunsmith shop to Railroad avenue, the first house west of the Armijo House. The judge is one of the best gunsmiths in the territory and deserves a good patronage. [Albuquerque Journal.]

The Judge must be one of the largest owners of fire-arms in America, providing his customers use him at all his homes as they did in Prescott. Here, when he repaired a gun or pistol, the article was invariably left as part payment for the work. Perhaps he may arrange to arm the Chinese.

Friday's News

A son of Mr. Colgan is quite sick.

Adam Scott is improving from a very severe illness.

To-day has been one of the warmest of the season.

J. H. Lee and daughter were in the city to-day from American Ranch.

San Francisco papers announce the arrival in that city of an Arizona official.

There is no money in the City Treasury. What is to be done for the next five months!

City and County affairs should be handled with care, and great economy exercised.

Quite a number of Prescott people went out to Skull Valley this afternoon to attend the dance.

Our County Hospital has but two inmates, and one of those is about well and ready to be discharged therefrom.

Mr. Mark Wollenburg informed the Miner this morning that there was a new arrival last evening at his residence. It was a fine girl baby.

The many friends of M. Goldwater would like to know why it was that he resigned the office bestowed upon him by almost the entire community.

Col. Andrews, the jolly railroad engineer, took his departure for the East this morning. His book of experiences in Arizona will be looked for with an unusual amount of interest.

The Cataract country is represented as one of the most beautiful sections in the United States. Bridal Veil Falls are especially mentioned as very interesting.

Hon. A. D. Lemon, of Phenix, delivered a fine oration, on Gen. Grant, at Memoria Exercises at Phenix.

One of the finest eulogies to the memory of General Grant seen by us was delivered at Yuma, by Hon. Sam Purdy.

The Tucson Tailings, which by the way was a bright paper, has suspended.

The Albuquerque Journal praises Crook. Not long since it was full of criticisms on that officer.

There are a large number of baking powders in the market containing alum, and some that contain ammonia, but in proportions so moderate that they might be used in safety when proper caution is exercised. Dr. Price's Cream Baking Powder, however, is recommended by chemists as being free from alum, ammonia and any other drug.

LETTER LIST.

The follow is a list of letters remaining in the Prescott postoffice for the week ending Aug. 13, 1885:

- Armstrong R L
- Baldwin W C
- Bannister Oscar
- Buckley A T
- Bush C A
- Carry Geo C
- Chart J S
- Creechman H
- Coates Mr
- Ferguson A D
- Gibson A R
