

Church Notice.

Services every Sunday, at 10:30, at the Methodist Episcopal Church, on Main street, Prescott. Sunday school immediately after services. Rev. D. B. Wainwright, Pastor.

REV. MR. WILEY, Methodist South, will preach at 11 A. M. and 7 P. M., each Sunday, at T. H. Head's house, on McCormick street.

SPECIAL NOTICES in the reading columns will be charged at the rate of THIRTY CENTS per line for first insertion, and twenty cents a line for each subsequent insertion.

Local Intelligence.

For the very best of watch and clock work go to BERTELING, Montezuma Street, Prescott, Jan'y.

Look out for that Auction at Donahue's residence, across the Creek, to-morrow morning. The celebrated mule "Jim" will then be sold.

The largest assortment of Spring Dress Goods. Clothing, etc., just received at ASHER & Co.'s.

In consequence of the non-disposal of the necessary number of Tickets, the Lottery for the Mining property will not come off. Persons having purchased tickets can have their money refunded by returning the same.

H. ASHER & Co., sole Agents for this Territory for Mott's Air Lamps, the finest and best Oil-Lamp in the world—No chimneys needed. Call and see them at our Store.

T. Otto calls upon all persons having property in his hands as collateral to come forward and tender, and for his creditors to present their claims. See his Notice.

By C. and A. stage leaving on Sunday last, he noticed the departure of Mr. A. E. Davis, Jr. Davis and son, Messrs. J. W. Leonard, and Wm. Parsons, all bound for Mohave County.

MOTT'S PATENT LAMP.—H. Asher & Co., have new lamp for sale that uses no chimney and burns with a flame clear and as steady as gas.

CHANGE OF FIRM.—H. Ellis is about to withdraw from the firm of H. Asher & Co., after which the firm name of the house will be L. Wolberg & Co., H. Asher retaining his interest in the new concern.

Mr. Grady, a young lawyer from Visalia, Cal., as arrived here and proposes to make Prescott his future home. Judging from a very slight acquaintance we should say that he has become a firm friend to the country and has become permanent and prominent.

Nice Ice Drinks at the CABINET.

IMPORTANT TO JURYMEN.—Judge Tweed has notified the Sheriff that the Grand Jurors will not be required to be present until Monday the 8th of May, and Trial Jurors will not be needed until Thursday, the 11th.

GOVERNOR SAFFORD.—The Governor arrived by A. and N. M. Express Co.'s stage this morning, and will visit the District School this afternoon. The school children anticipating his coming have decorated the school-house elaborately with flags and evergreens, and intend to give him a good reception.

Under-Sheriff Standifer arrived in town on Monday morning, having in charge escaped prisoner Burke, whom he captured at Date Creek after a protracted search of several days. This is the second time Burke has temporarily escaped from the jailor, and when captured last as in the act of engaging his services to Jas. Neal.

FIRE LUNER.—The new Saloon adjoining late Restaurant and Bakery, will open to-morrow, Saturday evening, with an elegant Free Lunch, embracing all the delicacies of the season, including Swiss Kaese and Pretzels. Mr. Emil Lauz will be at the "wheel."

THE BOSTON COLONY.—Pardon Spencer, of Rhode Island, who came as one of the Boston colony, arrived here last evening and represents the party quite dissatisfied with the representations made to them by Judge Cousins, and that they will not attempt to remain on the Little Colorado. He looks for a majority of them here on. They view the matter just as the MINER has constantly represented, a good country for individual enterprise and the investment of capital, but not adapted to colonization.

IMMENSE YIELD.—Frank Schultz arrived in town on Monday bringing with him two bars of fine silver bullion weighing thirty-four and half pounds, which he had extracted from 55 pounds of ore taken out of his claim on the Spring Star, in the Peck district. This ore was smelted at the new furnace situated on the Agua Fria, and run by Shaler & Co. Frank tells that he has seven or eight tons of this kind of ore on his dump, with a shaft 35 feet deep on a claim.

SCHOOL ELECTION.—One week from to-morrow, Saturday May 6th, the election will take place to decide whether a tax shall be levied upon the property of this school district or not, for the purpose of paying the deficiency that will be required to finish the new school house. The matter is too plain to any thinking person to require further elucidation; the children must be located, and in order to do it they must have a use to go to school in, and in order to build a use money must be raised to pay for it. If there is any other way to get the money we are not heard of.

All the Fancy Drinks at the CABINET.

ODD FELLOWS' CELEBRATION.—On Wednesday evening April 26th, Arizona Lodge No. 1, I. O. O. F., celebrated the 57th Anniversary of the order, their Hall, corner Montezuma and Gurley streets. After the usual ceremonies, peculiar to the order, Murat Masterson, Esq., was introduced and delivered a very instructive and eloquent address which was listened to with marked attention by a large and discriminating audience. The organ was presided over by Miss Mitchell; Mrs. Behan; Miss Stephens and other ladies and gentlemen of the City constituted a very good choir and entertained the entertainment with excellent music at intervals.

Mr. George Brown was called upon and made quite a lively impromptu speech. Ex-Mayor Pike also spoke briefly, and as the members of the order did not care to say any more, several outsiders were called upon and of the number Judge F. L. B. Goodwin talked eloquently for a few minutes and convinced those who were not ready aware of the fact, that he holds a place in the scale of oratory superior to anyone that has yet appeared upon the rostrum in these parts. After the celebration closed those who desired to dance were invited to the court house where light music, etc., were provided and a goodly number of ladies and gentlemen enjoyed themselves until half past one in the morning.

Road Viewers' Report.

To C. P. Head, Chairman; L. Bashford, John G. Campbell, George Lount, and T. J. Butler—Road Committee.

The undersigned, to whom you entrusted the duty of examining the country between Prescott and Peck and Tiger mining districts, with a view to selecting the most direct practicable and economical route for a wagon road, beg leave to report as follows:

We left Prescott on Thursday morning, April 20th, and followed the main road leading to the Senator mine, some eight miles, to a point where Lount's ditch approaches the road; from here we followed the line of the ditch, on an excellent grade over easy ground to work to within some four hundred yards of Maple Gulch, where we again struck the road. In this latter distance a ledge of hard rock, and a bridge to build across the Hassayampa near Banning's arastras. From where we left the road round to Maple Gulch, a mile or more, we conclude it would require \$3,000 to construct a good wagon-road. The road over the mountain, by way of Frederick's mill, would cost less, but would not be so good a grade, \$800 would be required to grade down the mountain to the Creek, and say \$1,000 more to widen the Senator mine road as far as Maple Gulch.

From the point on Maple Gulch before mentioned to the Summit between the Gulch and East Hassayampa, by widening the present grade, at a cost of about \$800, a grade of 23 inches to the rod can be had; but to build as we have calculated in our estimates, it would probably cost \$1,400.

From the Summit to the Crook mill, one and a-half to two miles, we estimate a foot of \$1,500. From the mill to a low gap in the range between the East Hassayampa and Turkey Creek, about four miles distant, there are some rough canyons, but no very heavy grades, and we think the road could be built for from \$2,500 to \$3,000.

From this divide to Turkey Creek station, some three miles, the country is pretty rough, but such a road as we have had in view, could be built we think for \$2,000.

From the Station to a point near the Bully Bueno mine, some four and a-half miles, a road is already built, but would require some \$600 to improve it.

From here to Bear Creek, four and a-half miles, there are some hard rocks and considerable brush, and would use up about \$2,500.

From Bear Creek to the Peck mine, say four miles from the point where we would leave the Creek, there is quite a high ridge to cross which we consider a cheaper route than to follow down Bear Creek to the mouth of War Eagle and thence up that stream. From Bear Creek over to the mine will doubtless cost \$4,000.

In making these estimates we do not pretend to any degree of accuracy, but have used our best judgment, in riding and walking over the ground and examining it carefully, without the use of instruments. Should a road be built thus far it would be within easy reach of the Peck, Occident, Prince, Black Warrior, Evening Star, and a great number of valuable mines, and according to our judgment, would be about thirty miles in length, and could be built for about \$17,000 in cash so as to afford a fair means of transportation for light teams—say four horses.

From the Peck to the War Eagle mine on the summit of the Range, some five miles distant, it would probably be necessary to rise at once to a great elevation by winding back and forth on the point that leads past the Lone Juniper mine, and on up the range between War Eagle Creek and Crazy Gulch, for some distance when it would again strike War Eagle Creek and pass the cabin of the Goodwin & McKennon or Coe mine and on up the Creek a sufficient distance to enable it to reach the War Eagle ridge on the entire grade. Once on the ridge the grade would be comparatively easy to the War Eagle mine, and we think could be built from the Peck to the summit of the ridge for about \$6,000.

From the War Eagle to Bradshaw City, some five miles further, the country is very rough, but the road would cost less, and might be built for \$4,000.

The route here described we consider has advantages over any other, in that, it opens up valuable belts of timber that is or will soon be required at both ends of the route, and leads through the very heart of the Hassayampa and Turkey Creek mining districts, which like the Peck and Bradshaw counties, must be comparatively dormant until wagon roads are constructed in order to carry in machinery to work their ores.

A road from Prescott to the Peck mine via Agua Fria could be built at a less cost, estimated by Messrs. Peck and Opdyke, who are familiar with the country, at about \$10,000, and a distance of 36 miles. There is no valuable timber on the route nor other important interests that are not already open to wagon transportation.

All of which is respectfully submitted.

E. G. PECK, GEO. OBYER, GEO. H. COLBY.

Prescott, April 25th, 1876.

LODGINGS AND FAMILY ROOMS.—Part of Hatz's building has been fitted up as a first-class lodging-house, including several elegantly furnished double rooms. For lodgings or rooms apply to Emil Ganz, at the Bar of the house.

Wine on Ice at the CABINET.

Plated wire household goods of all patterns at L. BASHFORD & Co.'s.

The Second Quarterly Meeting of the M. E. Church South will be held on the 29th and 30th of April, in T. H. Head's building, corner of McCormick and Willis streets.

REV. ALEX. GROVES, P. E.

Clothing suited to the season, in endless variety and inexhaustible quantities, just received at L. BASHFORD & Co.'s.

Leon Cordier will remove to his new building near C. T. Hayden & Co.'s store between the 1st and 15th of May where he will have a first class barber-shop and several elegant bath rooms. He intends to keep a neat establishment. In the meantime he will still be found next door to the Postoffice. ap74.

Summer Hats of all styles and every material, from straw to wire gauze, at L. BASHFORD & Co.'s.

Pat Hamilton returned this morning from San Francisco.

Jewelry sold at San Francisco and New York prices, at BERTELING'S.

MILL REMOVED.—A. O. Noyes, having secured all the desirable timber within convenient reach of his mill, has removed it some six miles back into the mountains, near the Skall Valley road, where it is now making a fine quality of lumber both clear and common. The yard at the old mill building, in the upper end of town, will be stored full of clear lumber in order to keep a supply well seasoned for the rainy months and winter.

U. S. District Attorney E. B. Pomroy called upon us just as we were going to press. He has been to California, got married and is here to attend the District Court. He wisely brings his wife with him and will not want to go to California between times.

THE GOODWIN MINE.—On Thursday of last week and again on Monday of this week we were at Turkey Creek station, going and coming to and from the Bradshaw mountains, and while there examined some very fine specimens from the Goodwin mine, and conversed with Mr. Holmes, one of the owners who is running a tunnel on the lead. This mine, is situated a short distance from the Station, and was discovered about 1863, and was abandoned on account of Indian troubles for some time, but is now being developed and is in sight for three or four thousand feet along the ledge. The rock assays on an average from \$300 to \$400, to the ton, and picked rock has gone as high as \$900. The ore on top only showed a streak of 15 inches in width, but at a depth of 100 feet it has widened to 63 inches with a very rich status of ore. The mine is owned by Wilson, Collier, Burmaster, Basford and others, is in the midst of the best timber-belt we have seen in Arizona, and right by a lovely stream of water, Turkey creek. We had not time to examine the mine and its excavations but are assured that it is among the best in all the Turkey Creek region, and the wagon road, should one be built from Prescott to Peck and Bradshaw, will pass almost within a stones throw of it. A road is one of the vital necessities of the hour. There are a large number of mines near the Goodwin and all comparatively idle for want of transportation facilities.

MAY-DAY ELECTIONS.—On Monday last an election took place at the school house which resulted in the election of Miss Josie Blount, as May-Queen; Miss Rose Osborn, Crown Bearer; Miss Faustine Jackson, Scepter Bearer; Miss Clara Townsend, Queen of Zephyrs; Master John Bourke, Prime Minister; Master John Stephens, Chief Commissary; Masters Frank English and Alonzo Hill, Captains; Masters John Jackson and Asa Buffum, Flag Bearers; Masters Henry Alexander and Francisco Orduño, Lieutenants.

The teacher will act as Marshal of the day, and the children will meet at the school house promptly at 10 o'clock, A. M., on Tuesday May 2nd, where the band from Fort Whipple will meet them and all march to the picnic grounds at 11, where the crowning of the Queen will immediately take place, followed by speaking by different members of the school, after which the children will engage in frolic, music and a large platform will be provided that the children may dance and have other amusements. Swings are also provided so that every little one may be happy. All parents and friends of the children are kindly requested not to forget that it will take lots to eat. Let everything be ready at an early hour and notify Joe Knott where to call and he will send teams to bring the provisions.

BIRTH-DAY PARTY.—Little Cora Weaver, eldest daughter of Mr. and Mrs. B. H. Weaver, having arrived at the age of Seven years, gave a birth-day party on Wednesday afternoon to her associates and school-mates. The day was clear and beautiful, and as we were permitted to look in upon the happy throng of little innocents, and particularly the little hostess, we thought of the lines of Jean Ingelow:

"There's no dew left on the daisies and clover; There's no rain left in heaven; I've said my 'Seven times' over and over: Seven times one are Seven."

And show me your nest, with the young ones in it, I will not steal them away; I am old! You may trust me, linnets, linnets, I am Seven times one to-day."

Beer on Ice at the CABINET.

The finest assortment of Groceries and fine brands of Liquors and Cigars at ASHER & Co.'s.
