H. H. M. Brown, 45 Bowling Green, New York.

From the best information possessed by this department, it is computed that the aggregate of them, available for public purposes, will not exceed \$18,600,000, viz: from
Customs \$15,000,000
Lands 3,500,000
Miscellaneous 100,000
Add to these the balance available and applicable to other purposes, which it is supposed will be the Treasury on the first of January, 1840 1,556,385

THE MADISONIAN is published Tri-weekly during the session of Congress, and Semi-weekly during the recess, at \$5 per annum. For six months, \$3.
No subscription will be taken for a term short of six months; nor notice paid for in advance.
Price of advertisements.
Twenty lines, or less, three insertions, \$1.00
Each additional insertion, .75
Larger advertisements at proportionate rates.
A liberal discount made to those who advertise by the year.
Subscribers may remit by mail, in bills of solvent banks, postage paid, at our risk; provided it shall appear on a postmaster's certificate, that such remittance is a legal one.
A liberal discount will be made to companies of five or more transmitting their subscriptions together.
Postmasters, and others authorized, acting as our agents, will be entitled to receive a copy of the paper gratis for every five subscribers, at that rate per cent. Subscribers generally, the terms being fulfilled, letters and communications intended for the establishment will not be received unless the postage is paid.

A HIGHLY IMPORTANT CAUTION TO THE PUBLIC.
"Care not to be deceived."
DR. EVANS, 100 CHATHAM STREET, takes the present opportunity of tendering his most unfeigned and warmest acknowledgments, to the numerous patients, afflicted with the various forms of disease incident to humanity, who have confided themselves to his care, and he has the satisfaction of knowing, from many living evidences, that he has removed or relieved their respective maladies, as far as lies within the compass of human means. How distressing to the afflicted is DYSPEPSIA or INDIGESTION? persons all the sources of his enjoyment, and leading in many instances to the miseries of confirmed hypochondria. Long as it has been made the subject of inquiry by medical authors it remains involved in much obscurity. Jaundice, Dropsy, Cholera, and Cholera, also perform a considerable part of the drama of mortal afflictions. DR. EVANS has been singularly successful in the treatment of the above complaints by remedies drawn from the researches of the most eminent physicians in Europe. He has also had great success in curing, through the whole family of delicate diseases, all of which are for the most part aggravated by, and rooted in the constitution, by the Consumption of various morbid humors, as principal, unwholesome and unwholesome in any art, and in the use of the most powerful medicines, and in the use of Dr. Evans' office is supplied with the choice medicines from foreign markets, and compounded on the most scientific principles. A physician is always in attendance; and all the complaints are treated in the hour of need will go off peacefully.

CAUTION!!!
We are called on to caution the public, the Druggists and Apothecaries, against purchasing from any traveler, under whatever pretenses they may be offered, any of DR. EVANS' INVALUABLE MEDICINES, as their unprecedented success in the cure of Consumption, Dropsy, Cholera, Indigestion, and various other diseases, Loss of Appetite, Palpitation of the Heart, Pain in the Head, Breast, Back and Limbs, Dizziness, Restlessness, and all diseases originating in the Stomach, and in the Liver, and its associated organs, &c. has caused a reckless impostor, who it is ascertained, has been travelling through Pennsylvania, Maryland, Virginia, &c. to counterfeit and vend a deleterious imitation of EVANS' CAMOMILE & APERIENT PILLS, and another impostor has introduced into Pennsylvania, &c. a spurious article, purporting to be PATER'S SOOTHING SYRUP, for children when cutting their teeth—both of which are highly injurious to the system, and in order to protect the public against the impositions of such impostors, and to secure them the benefit which his Genuine Medicines never fail in bestowing, he has caused the label of Evans' Camomile & Pills, "to be entered as a copy-right in the office of the Register of the District of Columbia." A notice of which entry is printed on the labels on every bottle of the Genuine Pills, and he has caused the name of Dr. J. L. Paris to be struck out of the label on his celebrated Soothing Syrup, for children when cutting their teeth, so that the label of the genuine syrup reads "DR. WM. EVANS' SOOTHING SYRUP," an infallible remedy for the pain and sickness to which children are subject when cutting their teeth, tested and approved by thousands of mothers and nurses, who have by its early application, not only prevented their children from suffering excruciating pain, but in many instances rescued them from death.

The following beautiful and instructive lines are from the pen of the late Right Hon. Sir Roderick Grant, late Governor-General of India, and brother to Lord Grenville:
"Blessed is the man whom thou chastenest."
Psalm xliii. 12.
O Saviour! whose mercy severe in its kindness,
Has chastened my wanderings, and guided my way;
Adored be the power which illumined my blindness,
And weaned me from phantoms that smiled to betray.
Enchanted with all that was dazzling and fair,
I followed the rainbow,—I caught at the lot,
And still in displeasure thy goodness was there,
Disappointing the hope and defeating the joy.
The blossom blushed bright, but a worm was below;
The moonlight shone fair, there was blight in the beam;
Sweet whispered the breeze, but it whispered of woe,
And bitterness flowed in the soft-dropping stream.
So, cured of my folly, yet cured but in part,
I turned to the refuge thy pity displayed;
And still did this eager and credulous heart
Weave visions of promise that bloomed but to fade.
I thought that the course of the pilgrim to heaven,
Would be bright as the summer, and glad as the morn;
Thou show'dst me the path,—it was dark and un-
even,
All rugged with rock, and all tangled with thorn.
I dreamed of celestial rewards and renown;
I grasped at the triumph which blesses the brave;
I ask for the palm branch, the robe, and the crown;
I asked—and thou show'dst me a cross and a grave.
Subdued and instructed, at length, to thy will,
My hopes and my longings I vain would resign;
O give me the heart that can wait and be still,
Nor know of a wish or a pleasure but thine!
There are mansions exempted from sin and from
woe,
But they stand in a region by mortals untrod;
There are rivers of joy,—but they roll not below;
There is rest,—but it dwells in the presence of
God.

REPORT FROM THE SECRETARY OF THE TREASURY ON THE FINANCES.
TREASURY DEPARTMENT, December 3, 1839.
The undersigned respectfully submits to Congress the following report on the finances, in obedience to the Act supplementary to the Act to establish the Treasury Department.
It is gratifying to be able to state, notwithstanding the embarrassments of the present year, that the revenues of the General Government have been increased, and the expenditures diminished, and most of the Treasury notes redeemed.
Revenue and means for 1839, exclusive of trusts and the Post Office.
The balance in the Treasury on the 1st of January, 1839, which could be considered available for general purposes, was \$2,460,961 95
The receipts for customs, the first three quarters, as appearing on the Register's books, were \$18,328,303 50
This includes about two millions and three-fourths collected last year in Treasury notes, but not carried on his books till 1839. From this cause the actual receipts in this year will, to that extent, appear larger than they ought.
Receipts from lands the first three quarters, including also some collected last year in Treasury notes 5,417,386 21
Miscellaneous receipts 135,308 78
Eliminated receipts for the fourth quarter from all those sources 5,700,000 00
Receipts on some of the debts against banks not available on 1st January, 1839, but since paid 1,322,686 00
From the third issue of Treasury notes under the act of March 2, 1839 3,857,276 21
Aggregate means \$37,317,813 75
Expenditures for 1839, exclusive of the Post Office and trusts.
Civil, foreign, and miscellaneous, for the first three quarters \$3,649,508 23
Military, for the first three quarters 10,791,799 21
Naval, for the first three quarters 4,713,701 50
Estimate for all, during the fourth quarter 5,600,000 00
Funded debt for year 14,638 99
Redemption of Treasury notes in the first three quarters, interest as well as principal 9,891,759 83
This includes two millions and three-fourths paid in for duties and lands last year, but not carried on the Register's books till 1839. From this cause the expenditures on that account will appear larger by that amount than they actually have been within those quarters.
Estimated amount of notes redeemed in the fourth quarter 1,000,000 00
Aggregate payments 35,661,427 82
Leaving an available balance of money in the Treasury on the 31st of December, 1839, of 1,556,384 93 \$37,317,813 75

The efficient means in that year will then amount, in the aggregate, to \$30,156,385. If Congress should make appropriations to the extent desired by the different departments, the expenditures for 1840, independent of the redemption of Treasury notes, are estimated at \$20,000,000. Including all the Treasury notes to be redeemed, the aggregate expenditures would be about \$22,750,000. This would leave a deficit in the Treasury at the close of the year, amounting to 2,593,615. But there will be due from the United States for the first of January next, on its fourth bond, about 2,596,575. The principal now due on the Treasurer's deposits in other banks, which suspended specie payments in 1837, is 1,149,904. Should all these claims be collected in 1840, they would present a deficiency, and leave an available balance in the Treasury of nearly 1,062,965. It is not, however, considered prudent to rely exclusively on the collection of these debts. One mode, then, of obviating any difficulty from this circumstance, will be the smallest, which is adequate to secure promptitude and good faith in public payments, so heavy in amount as ours, so unexpected at times in the demands for them, and so dispersed over a wide territory. If the appropriations are not thus reduced, it will be wise to provide seasonally in some other way for the amount of the contingent demand, and of such a balance as to be sufficient to meet all the different departments, as to the sums of money proper for each, and which constitute the basis of the estimates submitted to Congress, the new appropriations required for the next year will equal the sum of \$18,280,600 55. Besides these, the permanent appropriations, which, by existing laws and the modification of them recommended by the Secretary, amount to \$1,586,000. They are in the War Department, \$1,235,000; in the Navy, \$340,000; and public debt, \$100,000. The principal on Treasury notes falling due will be about \$7,500,000 more. The appropriations already made and chargeable, which will remain uncollected at the end of the present year, are estimated by the different departments, at the further sum of \$11,827,971, though that is considered by the undersigned as likely to be about two millions too small. Of these they compute that nearly \$8,270,793 will be required, in order to accomplish the objects contemplated by them. It is proposed to apply \$3,014,711 to the service of the ensuing year without appropriation, and the residue of about \$541,865, not being required for the present year, will be applied to the discharge of the objects, which will go to the surplus fund. It therefore follows, if all the new appropriations called for are made, that the whole charge upon the Treasury in 1840, exclusive of the Treasury notes outstanding, will amount at least to \$31,152,106, of which, as previously observed, it is computed that \$20,000,000 will be expended within that year for ordinary purposes, or two millions and three-fourths more than the amount of the receipts for 1840. From these statements, it must be perceived that our condition in relation to the deposit of another instalment of public money with the States remains much the same as at the close of the year 1838. Consequently, the views then expressed by the department have continued to govern its course. The state of finances also renders it necessary to submit some proposals for the reduction of the public debt, or for any donation of the proceeds of the public lands, while they are all needed to defray the ordinary expenses of the General Government. Besides the further objection to some of these measures, arising from their apparent conflict with constitutional principles, and from the manifest, that the proceeds of the land should be used when needed to discharge appropriations, the deficiency must be made up by the unpleasant alternative of a resort to loans or increased taxation. Explanation concerning the estimates of receipts. The estimates of receipts from duties and lands during the next year have been made for 1839 for the following reasons: A further reduction of certain duties, amounting to nearly \$800,000 will take place after the close of the present year. It likewise happens that subsequent to a large importation and a fall of prices in the articles exported as in 1839, the amount of imports often declines for several years. After 1825, it declined uninterruptedly for six years. The contractions and expansions of our paper currency have at times proved another striking indication of the reduction and increase of imports. Without dwelling here on the intimate connection between them as cause and effect, by means of the foreign exchanges, and the necessity, after overtrading and overvaluing the banks, of drawing on them an amount of specie balances in specie, it may be observed that a diminution in the circulation of paper has been going on for several months. Hence a diminution in the imports has already commenced, and is confidently expected to continue for some time. The country is also supposed to be supplied with foreign merchandise in great abundance, and it was a year ago. This will lead not only to a reduced demand for the importation of more goods, but to a greater export of what is already here, to other and better markets, and thus, by increased drawbacks, and less diminished imports, materially lessen the net receipts from customs. The price of some of our principal articles of export being lower, the same quantity will likewise furnish less ability to make purchases abroad, and where the quantity is larger, the commercial embarrassments both here and here will tend to prevent buying, on either side of the Atlantic, much beyond what is needed for early consumption. The greatly increased liabilities on the part of many corporations and States, for the payments of interest on their stocks, and the heavy demands on the part of the States, will more sensibly affect the revenue. These payments must require millions of exports either in produce or specie, which will lead to no returns in additional imports. It is believed that within a few years past an annual tax or drain on this country has been created, equal to twelve or thirteen millions of the specie.

WARRANTY CIRCULATING LIBRARY
IMMEDIATELY EAST of Gadsby's Hotel, Pennsylvania Avenue, is regularly supplied with a number of very new books, (mostly new editions), immediately upon publication, the Magazines, &c. Terms—Five dollars per annum, or one dollar for a single month. Jan 10

A PERFECT CURE OF ASTHMA, FIFTY-FOUR YEARS STANDING, effected by the use of Dr. Wm. Evans' Medicine.—I hereby certify, that I was attacked with the Asthma, in the ninth year of my age, and from that time until the present year, a period of fifty-four years, I have been subject to that disease. For the last five years I have had it almost incessantly, not being free from it more than a few days at a time. I have consulted the most skillful physicians, and tried many remedies, without any relief. In June last I commenced using Dr. Wm. Evans' Vegetable Medicines, and all the distressing symptoms, with others, which it is not essential to intimate.

DR. Wm. Evans' SOOTHING SYRUP, an infallible remedy for the pain and sickness to which children are subject when cutting their teeth, tested and approved by thousands of mothers and nurses, who have by its early application, not only prevented their children from suffering excruciating pain, but in many instances rescued them from death. It is particularly in examining the labels, and also in knowing that Dr. Evans never vends any of his medicine save through the medium of his resident agents, as advertised throughout the Union, or at his Western Office, Louisville, Ky., or at the depot office, 100 Chatham street, New York, where whole orders will be promptly executed on the most liberal terms.

LOST OR STOLEN.
By a system of ceaseless depredation during some years, the undersigned has lost the following property, viz:—An unencumbered estate; a vigorous constitution; a fair moral character; a good standing in society; an active, healthful conscience; also, at the same time, or soon after, the affections of a wife, children and friends. It is supposed that these things were feloniously abstracted from the undersigned by a gang of fellows whom he had long entertained as friends, and who are known to roam about with fair and alluring pretences, for the commission of similar acts; their names are various, such as Rum, Gin, Brandy, Whiskey, &c., and they are known to be harboured at certain places in the city. If any person will aid in bringing the culprits to justice, he shall be rewarded with all that is left to the subscriber, a cup of clear, cold water.

GRADATIONS OF DRUNKENNESS.
There is a Rabbinical tradition related by Fabricius, which has whim, ingenuity, and humor, at least, to recommend it. When Noah planted the vine, it states that Satan attended and sacrificed a sheep, a lion, an ape, and a sow. These animals were to symbolize the gradations of inebriety. When a man begins to drink, he is as meek and ignorant as the lamb; then becomes as bold as the lion; his courage is soon transformed into the foolishness of the ape, and at last he wallows in the mire like a sow.

Public Debt and Treasury Notes.
The condition of the small remains of the funded debt has not materially altered since the last annual report. A statement of it, with the several payments made within the year, is here with exhibited. Although commoded by repeated pressures in the market, and the suspension of specie payments by the banks, within the three last years, the interest and all the principal due on that debt, as well as on Treasury notes, have been punctually paid in specie whenever desired.

THE NEW WORLD.—The largest, cheapest, and most valuable newspaper in the United States.—Subscriptions to the above will be received by F. TAYLOR, New York, or by the proprietors, Messrs. B. W. Gilman, the founders and late editors of the "Brother Jonathan," and is composed of literature, selected from all the best periodicals of England and the United States, and is published weekly, on Wednesdays, at the office of the printer, No. 112 Broadway, New York.

STANDING—MRS. HANNAH BROWNE, wife of Joseph Browne, North Sixth, Williamsburg, completed the last ten years with the Liver Complaint, completely restored to health through the treatment of Dr. Wm. Evans' Syrup.—I hereby certify, that I was afflicted with the above complaint, and in the course of the last ten years, I have been subject to that disease. For the last five years I have had it almost incessantly, not being free from it more than a few days at a time. I have consulted the most skillful physicians, and tried many remedies, without any relief. In June last I commenced using Dr. Wm. Evans' Vegetable Medicines, and all the distressing symptoms, with others, which it is not essential to intimate.

DR. Good's CELEBRATED FEMALE PILLS.
These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removing those complaints which are the result of a weak, nervous, or general debility of the system, obstructions, suppressions, and irregularity of the menses; at the same time, strengthening, cleansing, and giving tone to the stomach, and bowels, and a new and healthy action throughout the system generally. They create a correct, regular, and healthy action of the bowels, and remove giddiness and those complaints which distress females so much at the "turn of life." They restore costiveness, and counteract all hysterical and nervous affections, and are particularly useful in cases of chlorosis or green sickness, they invariably restore the pallid and delicate female to health and vigor.

THE NEW ENGLISH BOOKS.—Just imported and for sale by F. TAYLOR, No. 112 Broadway, New York. Muller's History and Antiquities of the British Race, 2 vols. McCulloch's Commercial Dictionary, brought down to date, 1839. Perry's Religion of Ancient Paganism, 3 vols. Perry's Letters and Correspondence, by Milton, 1 vol. Curran on the Preservation of Hearing, 1 small vol. Curran on the Preservation of Sight, 1 small vol. Curran on Health, 1 small vol. Curran on the History of the Human Mind, 1 vol. Curran on the History of the Human Mind, 1 vol. Curran on the History of the Human Mind, 1 vol.

STANDING—MRS. HANNAH BROWNE, wife of Joseph Browne, North Sixth, Williamsburg, completed the last ten years with the Liver Complaint, completely restored to health through the treatment of Dr. Wm. Evans' Syrup.—I hereby certify, that I was afflicted with the above complaint, and in the course of the last ten years, I have been subject to that disease. For the last five years I have had it almost incessantly, not being free from it more than a few days at a time. I have consulted the most skillful physicians, and tried many remedies, without any relief. In June last I commenced using Dr. Wm. Evans' Vegetable Medicines, and all the distressing symptoms, with others, which it is not essential to intimate.

DR. Good's CELEBRATED FEMALE PILLS.
These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removing those complaints which are the result of a weak, nervous, or general debility of the system, obstructions, suppressions, and irregularity of the menses; at the same time, strengthening, cleansing, and giving tone to the stomach, and bowels, and a new and healthy action throughout the system generally. They create a correct, regular, and healthy action of the bowels, and remove giddiness and those complaints which distress females so much at the "turn of life." They restore costiveness, and counteract all hysterical and nervous affections, and are particularly useful in cases of chlorosis or green sickness, they invariably restore the pallid and delicate female to health and vigor.

GRADATIONS OF DRUNKENNESS.
There is a Rabbinical tradition related by Fabricius, which has whim, ingenuity, and humor, at least, to recommend it. When Noah planted the vine, it states that Satan attended and sacrificed a sheep, a lion, an ape, and a sow. These animals were to symbolize the gradations of inebriety. When a man begins to drink, he is as meek and ignorant as the lamb; then becomes as bold as the lion; his courage is soon transformed into the foolishness of the ape, and at last he wallows in the mire like a sow.

Public Debt and Treasury Notes.
The condition of the small remains of the funded debt has not materially altered since the last annual report. A statement of it, with the several payments made within the year, is here with exhibited. Although commoded by repeated pressures in the market, and the suspension of specie payments by the banks, within the three last years, the interest and all the principal due on that debt, as well as on Treasury notes, have been punctually paid in specie whenever desired.
