

THE INDEX

MEDICINE LODGE, KANSAS

THURSDAY, NOV. 3, 1911.

LOCAL NEWS ITEMS.

Vote for men. Locals scarce. Real estate looking up. Business quiet this week. Vote early and vote right. Look out for bogus tickets. Vote for Lindsey for sheriff. Vote for S. J. Shepler for clerk. Let every voter be at the polls. Vote for McNeary for treasurer. It is your ticket before you vote. Dr. Yant, Dentist is at the Lodge. Vote for Milt Clements for coronor. Corn selling on the streets at 65 and 70 cents. Missouri cattle arriving in large numbers. Everything lovely in the political horizon. "Returns come in slow" to that request for wood. Route Lake made a flying visit to the city this week. Just now the average country editor begins to howl for wood. Weather decidedly "waterish" this (Wednesday) morning. Mr. Roll Clark was up from the Clinaron the first of the week. Post Shepler is acting Deputy sheriff. He will make a good officer. Let every Democrat be at the polls—no vote may be of great importance. Country papers next week will probably contain more news and less politics. "All Macmillan," of Pratt county, has been taking in the town since our last. Tom Collins, Evans' loss teamster, is as regular in his trips as a stage company. A grand musical entertainment is to take place in town on the evening of Nov. 15. Heavy rains and very bad roads are reported in the southeastern counties of the state. Horse headlines has been in town and sold a large quantity of goods for his horse. Republicans are busy counting noses this week. The result is not satisfactory to them. Geo. McMillan goes to Penna. to visit his mother who has not seen for fifteen years. A large number of lead pencils are being worn out by politicians who are figuring on results. Job. Story is turning out a fine road wagon for Surveyor Denton. The latter can lend it to Blanton. Lem. Moore is the happiest man in town. If it don't rain on election day, he will probably be elected. Uncle Tom Whitaker, of San City, has lost several fine calves lately. He thinks they died of black leg. The well known "Salt river" will be extensively explored next week. Our folks haven't engaged passenger yet. Capt. Nick Sherlock is in town Wednesday. He looks as if the territorial breeze agreed with him. Born to Mr. and Mrs. John Keys, one day last week, a son—the weight of the infant being standard, of course. Charley Hickman returned last night from Wellington. Wonder what causes the young man to look so happy? Don't believe the stories that may be circulated against our candidates, on the evening of election, without proof. He who runs for office and gets beaten, may live to run another day. The thought is consoling to Republican candidates. Wheat in this county looks very fine. Not a very large acreage was sown, but in appearance it is better than heretofore. As we go to press, the town seems to be very lively. The streets are full of teams, and the stores are filled with customers. Vote for N. B. Blanton for surveyor. We have it, on good authority, that Mr. Blanton is a thoroughly competent surveyor. Singer returned from his electioneering trip up the river very much discouraged, but will turn out boot and shoe work as before. Pierce & Hubbard are expected to reach this place within a week or ten days. They purchased their stock in Dado Co. Mo. Send election returns as soon as possible. The response to Republican candidates will be terrible until their fate is made public. What has the Cresset to say about Mr. Denton as a herd-law man? He is open and notoriously open—and yet the Cresset swallows him whole. About 125 pupils daily attend our public schools. Add to this, those who attend Prof. Mulkey's school and the number will be largely increased. What was the politics of the Republican candidate for treasurer, last fall? His opinions were of an elastic nature and calculated to suit all parties. The Democrat of Topeka, reached us this week. It is a bright, spicy sheet, and deserves the patronage of Democrats, as well as the public generally. Rev. A. O. Bender and wife are registered at Stinson's. He is trying to rent a residence until he can build one. More dwelling houses are needed badly. Several parties in town are going to burn coal in their heating stoves the coming winter. They think it more convenient than wood and equally as cheap. A big dance comes off at Evansville on Monday night, Nov. 7th. The "fatted calf" will be killed—and its mother also, if necessary. Music by Holcombe's Quintette Band. A general good time is anticipated.

The whisky war rages fiercely in the east part of the state. Many prosecutions have been commenced. The Powell, who can make more noise to the square inch than any other four men in the state called Saturday last. Mr. Wm. Davis, of Big Mule, made the index office happy by a liberal deposit Uncle Sam's Legal Tender. A considerable number of persons are preparing to "prove up." The sooner, the better for the rest of the county. Billy Young is selling a large quantity of furniture. He has his goods marked at a low figure and advertises in the Index. Host has a strong force of workmen on his house and will try to have it ready for occupancy before cold weather commences. O. C. Warden will soon remove his family to Medicine Lodge, in order to be near his sheep and cattle.—(Wellingtonian.) Wonder if the Republicans can be as magnanimous with Clements as the Democrats were with a candidate on their ticket? It is reported that Dr. Rigg has been electioneering in Comanche county for several days past. Geography is not his "strong hold."

Capt. W. B. Estill, Wm. Davis, and Geo. McDowell, of Big Mule country, came in last Monday. They report all quiet in Comanche. Col. W. R. Colcord was in the city Monday night. The Col. starts to New Mexico for the purpose of buying stock for the spring drive. The firm of Story & Ward is dissolved as will be seen by the ad. elsewhere. Mr. Story will continue the blacksmith business at the old stand. Palmer & Co. have put on a new back line running from Medicine Lodge to Harper. Their time table, rates &c will be found in another column. Uncle Et. Youmans has been taking a vacation, which he improved by riding over the range, visiting Evansville, and other points of interest. The sound of the hammer and d. saw is heard in our midst, night and day. Parties are desirous of having their buildings finished before winter commences. That electioneering party, at last accounts, was lost in that wilderness of woe fence, near Lake City. Their for horns were distinctly heard at this place. One of these days our printer will give a "matinee" for the benefit of the rising generation—boys and girls—until which time we hope they will give the office "a rest". Mr. Rowley, of Upper Bear Creek, visited the city and purchased his winter dry goods and groceries of Standiford, Youmans & Co. He reports his stock in fine condition. Why don't our young men make arrangements for a course of lectures during the coming winter? Such an arrangement would be unusually popular with our people generally. See the new advertisement of Mrs. Taylor in another column. She has thus far given satisfaction to her numerous patrons, and has just received a very choice stock of fall and winter goods. Pratt county politicians seem to be boiling over with wrath, just now. If their papers are to be believed, the number of honest men up there is exceedingly small—and newspapers won't lie. Mr. Champion, of Bitter Creek, passed through town yesterday with a small herd of cattle which were recently purchased in Southwest Mo. They stood the trip well and will doubtless winter all right. Uncle Robert Fabburn, of San City, came to town Monday for the first time in seven years. Of course the growth and general prosperity of Medicine Lodge, considerably surprised the old gentleman. Mr. J. N. Bibb, of Lake City, called on the Index this morning, subscribed for the paper, and ordered his brand inserted, which will be done next week. Mr. Bibb is one of the reliable men of the west part of the county, and we shall be happy to have him call again. The new Daily Capital, is on our table. As might have been expected, it is clean, bright and new. With Henry King as editor, it could not well be otherwise. We predict for the Capital an increase of circulation and a career of prosperity. The ladies Presbyterian Social and Music society will meet at the residence of Mr. D. M. Carmichael, Friday evening, Nov. 4th, two miles west-east of town. Every one cordially invited. EMMA TAYLOR, Sec.

Ed. Thompson writes to us from Victoria, Texas, sending his kind regards to all the boys. "The girls, he will, in due time, see in person. He will visit Barber county in the spring. Of course he renewed his subscription to the Index. M. E. Sherry, of the Index, stepped into the office this morning looking "as happy as a big sunflower." His trip has evidently been an enjoyable one, as he comes home in improved health and spirits. Next week he will resume the Index helm. Mr. Lindsey, the Democratic candidate for Sheriff, is busily at work—but not electioneering. He thinks that the people have sense enough to vote without any instructions from him. Judging from the actions of our Republican friends, they are of a different opinion. Vote for Milt Clements for coronor. He has had large experience as an officer, and his election will reflect credit upon the county. So far as he is concerned, partisanship should be ignored. He has claims upon voters, which should be taken into consideration by fair minded people. We have received and read the brief of the attorneys for Barber county in the bond case now pending in the U. S. Supreme Court. It seems to us that our attorneys have made an unanswerable argument, and the Supreme Court can not help deciding for the county. Stillage & Fenlon and A. F. M. Randolph appear for the county. It is expected that the case will be reached during next month.

We have received the quarterly report of the Kansas State Board of Agricultural for the quarter ending Sept. 30th, 1911. The report is of more than ordinary interest, and will be more fully noticed hereafter. Standiford, Youmans & Co. have moved their safe, office, furniture and part of their goods into their new building. They are more than crowded with goods and will get their entire stock into their new quarters as soon as possible. Business at Lake City appears to be lively. Reuben, besides being the heaviest granger in the country, does a large mercantile business, and is "no slouch" as a stockman. Riley, a chip off the old block, is the "rustler" of the firm of M. H. Lake & Co. An order of attachment was issued against Scarce & Sanderson by Justice Davis, at the instigation of D. Dugherly. Amount claimed \$50. The Merchants & Drovers' bank also commenced suit against the same firm. Amount claimed \$612. Stockmen are fast learning that water is an important factor in their business. Land, through which running streams pass, is being rapidly purchased and enclosed by parties who know the value of such locations. Water is as essential to them as grass. The heavy men of the Republican party, Hon. Geo. D. Orner and Ed. Sample, have taken a trip up the river for the purpose of teaching the people how to vote. Of course Ed. votes the whole ticket this year. Last fall if we are not mistaken, the pie didn't suit him. "Things is changed."

Married, at Lake City Township, by Rev. J. M. Adams, Mr. P. Larkins to Eliza Florb. No cards. Pat has done good and got married at last. In common with all who know him, we extend our congratulations and wish him and his better half all the happiness possible. The Bedford Pilot, the first number of which is before us, is before us, is the latest journalistic venture. It is published at Bedford, Stafford county, with Geo. T. Solbridge as editor and Theo. I. Kerr, business manager. The Pilot is neatly printed and ably edited, and deserves success. Clink, who is an old printer, took up a "stick" and set up the following, as a sample of his proficiency in the "art preservative": "Many a hnd a little wit feef wilit snowapn fary wlent the abap wv sner to go" He should sell his stock and go into the printing business. George McDowell, whose departure for east is noticed elsewhere, has been a citizen of this and Comanche counties for more than eight years past and has seen the changes that have taken place during that time. In all the trying scenes incident to a frontier life, he has borne himself like a man in all respects, and his friends will welcome him back with pleasure. Little Mule Creek comes to the front again. This time Eliza Gibbs charges Capt. Pardee, he of Fallstaff proportions with having feloniously assaulted and battered "thin affiant kin. The valiant Captain was arrested and upon his application, the case was continued until next Saturday. He denies having used any weapon more dangerous than his tongue—that's enough. Gen. Abbott Cimbelesco, who now resides near Lamona Creek, found his way into the Index office this week. He wore stove clothes, and apparently, a conscience void of offense. He reads the Index, belongs to the "Campbellite" church, votes the Democratic ticket, and generally demeans himself as a christian. Mr. C. once soldiered in the grand army of printers. Mr. A. W. Rumsey informs us that at a recent meeting of stock men held at Kiowa, Messrs. Ewell Bros., Ballinger & Schlupp, Nick Sherlock, Stacy Prox, and J. W. Oliver formed themselves into an association to be known as the Salt Fork and Eagle Chief Pool. Their territory embraces the old range of Ballinger & Schlupp and Ewell Bros. Messrs. I. S. Ballinger, O. P. Ewell and J. W. Oliver are directors and Nick Sherlock Captain.

Mr. Sherry has received a letter from Dr. S. M. Kessler, written at Danburk, N. Y., and dated Oct. 29. The doctor says, "I am heartily tired of the east, and am perfectly willing to forego the pleasures of eastern society for the freedom of western life." He also states that he returns for the purpose of resuming the practice of medicine at this place—an announcement that will be gladly received by his numerous friends in this city and vicinity. Barber county never before was in as prosperous a condition as at present. The past summer has been unusually favorable for the stock market, and cattle are in fine condition to meet the winter. In addition to this, taught wisdom by the experience of last season, a much greater amount of forage has been provided by stockmen than heretofore. The grass is very good, and with an average winter, 99 per cent. of cattle will come out in the spring "right side up."

Doc. Rigg, the Republican candidate for sheriff, gave us a call on Tuesday. His aspect was not ferocious, nor did he exhibit any weapons, offensive or defensive. He denounces the "allegator of them allegation" concerning his conduct as an officer of the Patrol Guards as unworthy of belief, or "words to that effect." He likewise disclaims having charged the county unanswerable foster services as physician for the poor. The doctor makes out a good exparte case and lest his organ, the Cresset, should not do him justice we give him this notice. The charges made against him did not originate with Democrats, nor have they been circulated by Democrats. The most active of his opponents are Republicans, and toward them, his missionary efforts should be directed.

Barber county never before was in as prosperous a condition as at present. The past summer has been unusually favorable for the stock market, and cattle are in fine condition to meet the winter. In addition to this, taught wisdom by the experience of last season, a much greater amount of forage has been provided by stockmen than heretofore. In addition to this, taught wisdom by the experience of last season, a much greater amount of forage has been provided by stockmen than heretofore. The grass is very good, and with an average winter, 99 per cent. of cattle will come out in the spring "right side up."

Barber county never before was in as prosperous a condition as at present. The past summer has been unusually favorable for the stock market, and cattle are in fine condition to meet the winter. In addition to this, taught wisdom by the experience of last season, a much greater amount of forage has been provided by stockmen than heretofore. The grass is very good, and with an average winter, 99 per cent. of cattle will come out in the spring "right side up."
