The most practical article on the subject of farm drainage we have ever read was recently published in the Farmer and Stockman. It is entitled "Location of Tile Drains," and is from the pen of Prof. W. H. Stevenson, soil specialist of the Iowa Agricultural College. Professor Stevenson points out the errors that men fall into in draining their land and gives directions for the location of drains so that water is removed with the least possible outlay for labor and for tile. Special attention is given to adequate outlets and to the location of drains in draws and sloughs. The Farmer and Stockman, which prints a number of such special articles by experts in each of its issues, is making itself indispensable to the up-to-date farmer. We are glad to see its circulation increasing in Barber county; for it is the best and most practical farm paper in the States, especially for farmers in the corn belt. We are glad to help along the cause of good farming by receiving Farmer and Stockman subscriptions at this office. Subscribe today.

"Who's that," inquired the comedian of his friend. "I think that he is a manufacturer of oil cloth from Philadelphia," replied the other. "Well, let's send a waiter over to ask him if we can't go up to his room and hear him play on his linoleum" said the comedian. Every stockman in Barber county is being "held up" by the meat trust, the greatest trust in the world.

Great Newspaper Bargain

The Semi-Weekly Capital and the

INDEX

One Year for \$1.50.

The Semi-Weekly Capital, published at Topeka, is one of the best farm newspapers published anywhere. Realizing that a good market report is one of the most valuable features of a farm newspaper, the Capital prints twice a week a full report of all the markets of the world, including Topeka, and the report is absolutely reliable.

It prints all the news of the civilized world fresh from the wires of the Associated Press, covering the field more thoroughly than any of the metropolitan weeklies. But in the matter of Kansas news it has no competitor, its large corps of correspondents enabling it to cover the field thoroughly. Out side of your home paper, you can get more local news from the Capital than from any other paper published.

While strongly republican in politics, its editorials are fair and unprejudiced, and its news columns are open alike to the doings of all political parties.

It is printed twice a week for only \$1.00 per year. Order it in connection with the Index for only \$1.50.

The Santa Fe's new fast passenger train for California. Speedily and certainly, that's the only way Santa Fe passengers go. 'Tis comfortable, though. There are free chair cars and tourist and standard sleepers on this train. 'Tis for you to say which you take. The time's just the same for all. Leaves Newton at 1:50 a. m. daily. Connecting train leaves here at 8:30 p. m.

Let me tell you about this improved service. There are other Santa Fe trains for California—perhaps you'd like to hear about them. Call on or write me. Illustrated descriptive literature free.
