

DAILY RECORD-UNION

THURSDAY, JANUARY 15, 1891

ISSUED BY THE SACRAMENTO PUBLISHING COMPANY Office, Third Street, between J and K THE DAILY RECORD-UNION, (Six Pages), Published six days in each week, and THE SUNDAY UNION, (Eight Pages), Published every Sunday morning, making a splendid SEVEN-DAY paper.

THE WEEKLY UNION, (Twelve Pages), News and Literary Journal published on the Pacific Coast.

THE RECORD-UNION, SUNDAY UNION and WEEKLY UNION are the only papers on the Coast, outside of San Francisco, that receive the full Associated Press dispatches from all parts of the world.

Weather Forecast. Forecast till 8 P. M. Thursday: For Nevada, and Northern California--Light rain, turning to snow in the mountains, except fair weather at Keeler; cooler at Eureka and the northern portion.

THE SHIPPING BILL.

The outlook is that the shipping bill will reach and pass the Senate prior to the dominant party surrendering power in the Lower House of Congress to the Democrats. If it is passed and the bill becomes a law, it will reflect credit upon Congress and the Administration.

Scarcely any measure before Congress is more important. We must more conserve our export trade and broaden reciprocity. One of the means to these ends is the sending of the flag in advance of trade. From 1890 to 1889 England paid to promote her shipping interests, more than \$28,178,968, an average of nearly \$100,000,000 a year.

It is impossible for American shipping to contest with bottoms so heavily subsidized as are English ships without the fostering aid of the Government. We ship abroad now, according to the calculations of the Chicago Inter-Ocean, about \$200,000,000 of Western farm products, but not 10 per cent. of them go upon American bottoms.

The problem before us, how shall we make the greater part of our ocean transportation American? Up to 1815 90 per cent. of our foreign trade was done under the American flag, and even up to 1850 we held about 75 per cent. of it, whereas now less than 12 per cent. represents our carrying interest.

The shipping bill as a law must have the effect to enlarge popular intelligence upon the subject of reciprocal exchanges. But we also conserve by such measures American industry in ship-building, whether we admit free metals and other materials entering into the construction or not.

Mr. Saxton, the author of the ballot reform law of New York, has proposed an amendment to the law to make up the official ticket with party heads and vignettes. That is right, and the Federated Trades bill proposed to the California Legislature, should be amended in the same way.

Table with 3 columns: Republican Ticket, Democratic Ticket, Independent Candidates. Lists names of candidates for Governor and other offices.

come confused in selecting his preferences. Mr. Saxton has also proposed an amendment striking out the provision of the New York law requiring the ballot clerks to write their names or initials upon the ballots.

The Record Union is "for" the bill proposed in the California Legislature, and which is sketched in the SUNDAY Express; but it will not give the bill its support with the clause retained requiring the clerks to place their names upon the backs of the ballots.

THE BEHRING SEA QUESTION IN COURT.

The Behring Sea question is now before the Supreme Court of the United States, on the issue whether a British sealer seized in Behring Sea by an American revenue cutter, was lawfully taken. If the court should hold that the revenue officers did not act without territorial jurisdiction, but that they were justified by international law in enforcing the regulations concerning the taking of fur seals in deep water, it is improbable that Great Britain will endeavor to maintain her claims.

The case is brought into court not only with the knowledge, but by the consent and advice of the English Cabinet. It is, therefore, arraignable to conclude that so far as the British Government is concerned, it will acquiesce in the decision should it turn against the claim of the English sealers.

It is not so certain that our Government will abandon its claims should the decision go the other way, for beyond the question of territorial jurisdiction, there are others upon which the court will not pass. One of these will be the arbitration of the question whether the Government of the United States has not the right to enforce regulations for the enforcement of seal fisheries, that cannot exist except they are fostered upon the shores of American islands, between which the seals pass twice annually, and during which passage the British sealers seize them.

ASSEMBLY BILL 4, to require laundry proprietors to keep a register in English of all goods delivered, with an accurate description of each garment, the date of receipt, the name and residence of the owner, etc., and to issue for each package a receipt in English, in detail, describing each article delivered, is a rap at the Chinese. If it were passed it would become a dead letter, for the people themselves would not submit to detailed registration of their linen and that the register should be open to public inspection.

RECENTLY the Pope, according to the dispatches, dismissed all Italians employed at the Vatican, and their places have been filled by foreigners. This step, it is said, has created serious dissatisfaction in the household of the Pope, and it certainly will not tend to strengthen the papal cause in Italy. The Italian officials are likely to make the most of the trouble, for, as is well known, there is no love lost between the Government and the Church.

THE PROPOSITION of Assembly Bill 48 to permit any who choose to buy electric type plates of the State and print and sell the State school text-books, is all wrong. We distrust all this tinkering with the school book printing system. The book system is afloat, and will get its grip upon the system by adroit means if it can, even in preference to open assault. The bill puts the wholesaling of these proposed outside printed books, under regulation to be adopted by the State Board of Education; not a word is said about retail prices. It is not to kill the bill and refer to tack upon the system, which is as yet in its infancy, any new-fangled schemes. The people are jealous of any assault upon the text-book printing law, and will not tolerate any meddling by the book ring.

ASSEMBLY BILL No. 43, proposing to prohibit solicitation for divorce business, by advertisement, circular, etc., is a bad idea. It is possible to stop this advertising by certain parties that they will procure divorces secretly and guarantee decrees of divorce, "no success, no pay," it will be well to do so. These advertising divorce procurers are, nine times out of ten, dishonest, procure commission of perjury, manufacture evidence and deal in any manner of bribery and corruption to gain their ends. The amazing thing is

that reputable lawyers do not proceed against these disgraces to the profession to have them disbarred.

NOTE AND COMMENT. The Redlands Citigrapher has just closed its seventh volume, never having taken a step backward during the three years and a half of its publication, but improving constantly, fully as fast as patronage warranted. It is the nearest weekly in California, and it is always full of live and interesting matter.

AS THE modern railroad train is ahead of the old-time stage coach, so is Hood's Sarsaparilla, a modern medicine, ahead of the old-time remedies. In positive merit it is peculiar to itself.

1776--1891. The First Stove Used in This Country.

THE ABOVE CUT REPRESENTS ONE OF THE FIRST STOVES USED IN THE United States, and was owned by John Post of Utica, N. Y. We presume that Mr. Post was very proud of his stove in those days, but could John Post, or his spirit, be gratified to have of absence for a couple of weeks, in order to visit this city, we could show him some new patterns of Ranges that would fairly dazzle him. Gentle reader, look well at the above cut, and then compare it with one of our 1891 CYCLONE CHAMPION RANGES, and you will then admit that nothing is impossible to man's genius.
