

NATIONAL CAPITAL.

Morrow Speaks on the Benefits of a Pacific Cable.

IT IS OF VAST IMPORTANCE TO THE PACIFIC COAST.

Representative Farquhar Confident that the Shipping Bill will Become a Law—The House Passes the Sundry Civil Bill—Suit to be Brought Against the Pacific Railroads.

Special to the Record-Union.

WASHINGTON, Feb. 9.—Senator Mitchell's bill to incorporate the Trans-Pacific Cable Company is now in the hands of the Committee on Appropriations in form of the substitute reported favorably by the Committee on Foreign Relations, which enables the President to make engagements with any citizens or corporations of the United States as shall appear to possess the means and facilities necessary to that end for telegraphic communication between the United States and Hawaii, which engagements shall contain provisions sufficient in the judgment of the President to secure to the Government and citizens of the United States early and adequate communication by telegraph with said kingdom upon reasonable terms for a period of not less than fourteen years, in its not exceeding \$3,000,000, but not more than \$250,000 of this appropriation shall be expended in any one year, and this appropriation shall be immediately available, and shall continue to be available for the period aforesaid.

This will be offered as an amendment to the sundry civil appropriation bill when it reaches the Senate. The Committee on Foreign Affairs of the House held a meeting today on the cable bill, and Morrow was first given a hearing. He spoke for nearly an hour, showing the importance of the bill to the whole country, and especially its importance to the coast. The Pacific cable, in his judgment, would be felt more in the commercial world to-day than was the first Atlantic cable. The whole country was interested in the trade of the Orient, and that trade was increasing every day, and nothing would assist in developing it more than the cable. He also touched upon the importance of building up the political relations with the Sandwich Islands.

PACIFIC RAILROADS.

Action to be Taken Against Them by the Government.

WASHINGTON, Feb. 9.—It is learned from a letter recently sent by Taylor, the Commissioner of Railroads, to the Secretary of the Interior that action is about to be taken under a recent decision of the Supreme Court of the United States in the case of the United States, appellant, vs. The Central Pacific Railroad Company. This decision reversed the decision of the Court of Claims, in which it is held that the process of the net earnings of the Union and Central Pacific Companies, upon which 25 per cent is required to be paid to the Government under the Thurman Act, is not to be deducted from the gross earnings, but only the actual operating expenses necessary for repairs and maintenance, and the mortgage bonds, but also there should be deducted all sums paid for improvements, betterments and new equipments. The Supreme Court has also decided, in this decision, and holds that under the Thurman Act the net earnings must be ascertained by deducting from the gross earnings only the actual operating expenses necessary repairs made within a year and interest on first mortgage bonds.

WASHINGTON NOTES.

Matters of Special Interest to the Pacific Coast.

WASHINGTON, Feb. 9.—Speaker Reed was today impounded by Congressmen Clinch and Geary to recognize the San Francisco stock bill, but he said "next" California had enough, as forage of the Thurman Act, 25 per cent of which sums will now be recovered by the Government. The letter received by the Secretary from Commissioner Taylor calls attention to the decision of the court, and suggests that it will be necessary to make a restatement of the accounts, and asks the Secretary for instructions. Commissioner Taylor, under orders from the Acting Secretary of the Treasury, with a view of getting a full report of all the bills for services of the Union and Central Pacific Companies on file in the Treasury Department and not acted upon.

CALIFORNIA FRUIT PESTS.

How the Appropriation Relating Thereto is to be Expended.

WASHINGTON, Feb. 9.—Secretary Rusk has received a number of telegrams from California urging certain parties for appointment as Special Agent of the Agricultural Department in investigation of diseases of fruit trees in California. There appears to be a misapprehension regarding the appropriation for this purpose which is contained in the agricultural bill reported to the House today. The following clause is contained in the bill, and is no change from the bill of last year, which carried the same appropriation and was for the same purpose, viz: "Division of Vegetable Pathology—For investigating the nature of diseases injurious to fruits, fruit trees, grain, cotton and other useful plants; experiments in the treatment of the same, chemicals and apparatus required in the field and laboratory; necessary traveling expenses, the purchase of traps, and illustrations, and for other expenses connected with the practical work of investigation, \$15,000, of which so much thereof as may be directed by the Secretary of Agriculture may be applied to the investigation of peach yellows, California grape rot and light of cotton, pear blight, the disease of orange and the remedies therefor." Five thousand six hundred dollars of this appropriation is to be paid in salaries, of which the chief pathologist is to receive \$2,000, and the two traveling assistants are to receive salaries of \$1,400 and \$1,200, respectively. A clerk is allowed \$1,000, and the balance is to be expended in apparatus, chemicals and traveling expenses. These pathologists are already in the employ of the department, and no change in the force is contemplated. In investigating the disease of peach yellows and other ailments peculiar to

California trees, Secretary Rusk will probably assign one pathologist to Southern California and another to the central and northern portion of the State. It is understood that Secretary Rusk will avail himself of the services of experts in California who are acquainted with the diseases of their localities, and who will be of great assistance to the department pathologists.

CONGRESSIONAL.

The Sundry Civil Appropriation Bill Passed in the House.

WASHINGTON, Feb. 9.—By a vote of ayes 28, noes 23, the Senate today refused to reconsider the vote Saturday recommending the eight-hour bill to the Committee on Education and Labor, and the bill therefore stands recommitted. The Senate took up the House copy-right bill, and Platt made a brief explanation. Frye offered an amendment extending the principles of the bill to maps, charts, dramatic or musical compositions, engravings, cuts and prints, chromos and lithographs.

After a long debate the lithographic amendment was agreed to—ayes 27, noes 24.

Sherman moved to amend Section 4 by striking out the word "prohibited," and inserting in lieu thereof the words "subject to the duties provided by law," so the words, "copyrights here and printed abroad shall not be prohibited, but shall be subject to the payment of tariff duties."

The amendment went over without action. The Senate took a recess until 3 P. M. The argument was then presented, and the Senate adjourned.

IN THE HOUSE.

WASHINGTON, Feb. 9.—The House went into Committee of the Whole on the sundry civil bill. Its consideration was completed, and the committee proceeded to the discussion of the legislative appropriation bill. General debate was postponed until to-morrow, and the bill was read by paragraph for amendment. Hayes of Iowa offered an amendment providing session clerks to representatives, with a salary of \$9 a day. After some discussion this amendment with an amendment fixing the salaries of the clerks at \$100 a month, was agreed to. The sundry civil bill was passed, and the Senate amendment to the fortification bill was non-concurred in.

CONFERENCE WITH INDIANS.

The Commission Hearing the Grievances of the Sioux.

WASHINGTON, Feb. 9.—The conference with the Indians was resumed today. Commissioner Morgan said he had heard enough of the past, and wanted plans for the future. He was prepared to issue orders to the Indians, and he was entitled to receive it, which was cut off in the past. Senator Dawes said if the Indians did their part and were industrious, the Government would do its part and help them become self-supporting. White Chief spoke of the encroachments of the whites upon the Indians' lands. The ratios of coffee, he said, amounted to \$100 a week to each person, and complained of the smallness of the beef cattle given them.

Little-Heart spoke in the same vein. Commissioner Morgan asked such questions as the Indians preferred to answer to stand upon their feet. Major Swords, chief of the Indian police at Pine Ridge, who preferred military agents.

Big Bear, from Sitting Rock, said 80 people insisted on more reservation schools. If schools were located on the reservations, their influence would be felt, not only by the pupils, but by the parents as well.

WASHINGTON NOTES.
