Mr. Shannahan believed the principle of election was the true one, and that it had worked well when in operation before.

See it grow! You won't have to look back far. 1877 was the year when Pearlina started in to take charge of washing and cleaning.

But look at it now. Every year has been a big advance on the year before—and 1890 a bigger advance than ever.

It's the biggest year, against the biggest opposition—smooth-tongued peddlers to fight against, cheap prices and poor quality, prize packages, imitations of all sorts.

But Pearlina started ahead and has kept there—and now it's farther ahead than ever. A poor thing can't grow like this.

A dangerous thing can't. Find out for yourself why Pearlina grows. Ask about it of some one who is using it.

Beware of peddlers and imitations. JAMES PYLE, New York.

Mr. Bledsoe, in conclusion, claimed that he had the courage to do right even though he saw it was making him unpopular, and he still favored the reduction.

The amendment was lost. Mr. Phillips, making the appropriation \$10,000, was also lost.

The House then rose from Committee of the Whole, and reported favorably on the bill, which was passed by a vote of 28 yeas to 7 nays.

SACRAMENTO, March 3, 1891. C. H. GILMAN, ESQ., Proprietor Red House, Sacramento.

Dear Sir: About seven months ago you made known a desire that you required for your trade an Art School Shoe—one that could be recommended for wear, neatness and a perfect fitter (one seldom found).

After perusing the contents of many trunks of samples shown by representatives of Eastern manufacturers, I selected two lines, "The Red House School Shoe," from Cutter, Lyons & Field, Greenfield, Mass., made of heavy goat, worked button-holes and a genuine rawhide tip on toe, in heel and spring-heel, in youths', misses' and children's sizes.

Also, a fine line of Misses' Dongola and French Goat Button Shoes, spring heel, with a long vamp, square toe (a very dressy shoe), made by a well-known Eastern shoe manufacturer—Thomas Cousins, Norwalk, Conn.

A small order was given for each of the above lines, and in due time they arrived. Upon examination they proved far superior to the samples shown; were placed in stock and sold very rapidly. Since then the orders have been duplicated, only in larger quantities, with special instructions to hurry each shipment, as we found it almost impossible to keep up sales.

Their sales are increasing so rapidly that I have been compelled to keep a shipment on the road almost continually. We are selling the Red House School Shoe in

Youths' and Misses' Goat Button, with a tip, heel or spring, 1 1/2 to 2, for \$1 45. Children's, tip or plain toe, heel or spring, 8 to 10 1/2, for \$1 25. Children's, tip or plain toe, heel or spring, 5 to 7 1/2, for \$1. Misses' French Dongola Button, spring heel, long vamp, sizes 11 to 2, B to E, \$1 75. Misses' French Goat Button, same styles, 11 to 2, C, D and E, \$1 75.

At last I am pleased to say that the trade appreciates Shoes like the above—one that is solid throughout, all worked button-holes and every pair warranted. Yours respectfully,

THE SHOE MAN.
