Afternoon Session. The Senate reassembled at 2:30 P. M. the President in the chair, and took up for consideration the appropriation bill. On motion of Mr. Dray the bill, together with several small deficiency bills, were

made cases of urgency.

The Senate Finance Committee offered fifty-three amendments to the bill, generally increasing the sums allowed in the original bill. The amendments were nearly all adopted, and each involved more or less explanation and discussion.
When the clauses making various ap-

propriations for the Bureau of Labor Statistics—aggregating some \$15,000— were reached, Mr. Ostrom moved to strike them all out, on the ground that the cause of labor had never received any benefit from that department. The motion was opposed by Messrs. Crandall, Simpson and Britt. The latter

Board of Viticulture from \$20,000 to \$30,000. He said that he had been informed by prominent wine-makers that the board was maintained in the interest of a few Mr. DeLong explained that the commission could not get along with less

The amendment was adopted-ayes 15, A similar attack was made upon the proposed appropriation of \$30,000 for the uses of the Forestry Commission, and an amendment was offered to reduce the

sum to \$20,000, and it was lost. The committee amendment to the Mining Bureau amendment proposed an increase from \$40,000 to \$50,000, and provided that 60 per cent. of the sum should be expended for geological field work and scientific research.

Mr. Ostrom moved to amend by reducing the sum from \$40,000 to \$20,000. Mr. Campbell of Siskiyou held that there was no necessity for the proposed geological research, as the sum allowed was so small as to make the thing a farce. It would require \$100,000 to do any good in that line. His district had been entirely ignored in the matter.

Mr. Preston read petitions from promi-nent miners of Nevada County asking that the Mining Bureau be fostered, and Mr. Mead also spoke in its behalf.
Mr. Dray said the committee discov-

ered that if the Mining Bureau was to be continued at all, it could not be efficiently maintained for less than \$50,000. The operations of the Forestry and other commissions had been severely criti-cised, and he did not know but that it would be best to abolish some of them. Still, until they were abolished, they should be enabled to accomplish something of moment.

Mr. Preston said it would be better that the bureau be wiped out at one stroke, rather than be slowly strangled

After a long debate the amendment offered by Mr. Ostrom was lost by a vote 5 ayes to 26 noes. Mr. Campbell of Siskiyou then offered to amend by making the appropriation

"Wearing the Green" was quite general in the Senate and Assembly chambers yesterday, and a bow of green ribbon replaced very generally the camellias which have been so popular as bouton-nieres. # ALCOHOL IN SWEET WINES.

Correction of Misstatements by Professor Hilgard. EDS. RECORD-UNION: In correction of the misstatements made in the telegrams sent from Washington concerning the results of the investigation on the alcohol determination in sweet wines, I state that so far as the practical outcome for the wine-makers is concerned the case stands precisely as first stated; the discrepancies arising from the Government method, as shown in the published record, being so great as to render the results utterly untrustworthy and mischievous. The only change resulting from the tests is the shifting of the responsibility from the Government tables upon the method itself, and this is the only retraction that has been made. It is difficult to conceive on what tenable ground the chemical experts of the department could recompered on the competition. mend such a grossly inaccurate process for the estimation of so highly taxed a substance as spirits, for every gallon of which the Government exacts an account from the distiller. How the latter could possibly square his accounts under the showing made by the saccharometer method, involving differences ranging from nothing to one-fifth of the whole, is not stated in the telegrams, but the Commissioner's expressed intention of discarding it for the one recommended by me, proves that a comprehension of the question has dawned upon the powers that be.

# AUSTRALIAN BOXERS.

A Poor Show Plays to a Very Small Audience.

Tier after tier of empty chairs stared at the Clunie Opera House stage last evening, and at what had been advertised as namely, Harris' combination of Ausa poorer show never had the audacity to

ask the people of Sacramento to pay their money out to see.

It had been given out that the event of the evening would be the attempt of Jim Hall, the Australian middleweight champion, to "stop" Charles Turner, the colored boxer, of Stockton, in four rounds.
But Mr. Hall didn't stop Mr. Turner, for the very good reason that Turner was

the very good reason that Turner was not there. At the last moment the management refused to guarantee Turner any money, and the latter, in turn, refused to box.

Bill Hall, the local colored boxer, who was recently defeated by Turner, was then sent for and persuaded to stand before his namesake from the antipodes. When the imported Hall put in an appearance on the stage, and the few persons in the auditorium viewed his immense proportions, hight and reach, their

quality.

After the entertainment there was a small-sized riot at the box-office, when the several local boxers who had been engaged by the Australians to assist at the entertainment presented themselves for

### MABEL BROWN FOUND. Officer Gibson Finds Her on the Streets

Near Second and K. Mabel Brown, the little girl who gave birth to a baby about six weeks ago and who has been missing from her home for several days, was found by officer Gibson last evening at Second and K streets and taken to the station-house.

To Captain Lee she stated that she left home because she wanted to go to work and earn some money of her own. She said she did not leave town but obtained employment on Sixth street. Captain Lee ordered her taken to Mrs. Fratt, at Second and K streets, until he could consult with some charitably-inclined people and obtain a place for her

of la grippe, but it was not thought that it would terminate fatally. He rallied about a week ago and it was expected that he would be well about in a few that he would be well about in a few that he would be well about in a few that he would be well about in a few that he would be well about in a few that he would be well about in a few that he would be well about in a few that he would be well about in a few that he would be well about in a good lady, the mother commenced to cry and begged Captain Lee to let the child come with her. "She's the only thing I have," said the mother was a few that he would be well as a few that he well as a few that he well as a few that he would be well as a few that he well as work together, and Mabel can take care of her little baby. It's the first wrong act she ever did, and I want her to stay Mrs. Brown was directed to Mrs. Fratt's house, where her daughter was taken.

WE HAVE before us an artistic work of about one hundred pages, with illuminated covers, colored plates and hundreds of illustrations, many of them made from photographs. This is the catalogue of Vaughan's Seed Store, Chicago, for 1891, and is by far the most beautiful and instructive yet sent out by this thoroughly enterprising and reliable house. All the novelties and a complete list of choice garden, flower, field and farm seeds are offered, together with as fine a collection offered, together with as fine a collection offered, together with as fine a collection of greenhouse plants, palms, cannas, dahlias, gladiolies, lilies, etc., as can be found in the country, embracing many new things never before catalogued. The Vaughan potato is introduced by this house this season. All garden supplies, plows, cultivators, harrows, seed drills and fertilizers are carried in stock. It will pay you to get this book; it is a good thing to have around. Sent free to all who desire to purchase. who desire to purchase.

# The Pacific Improvement Company has recently purchased twelve thousand acres of land in the heart of Tehama County, for the

purpose of promoting subdivision and settlement. This land embraces lands from firstclass Sacramento Valley agricultural land, to land of fair average quality, and is offered at from \$10 to \$20 per acre, in subdivisions of 40, 80, 120, 160 and 320 acres. The terms upon which these lands are offered are especially attractive. They will be sold in subdivisions, as above indicated, by the payment of interest only for three years, at which

time the purchaser can begin the payment of principal by paying the first of five equal annual installments. Thus no part of the principal by paying the first of five equal annual installments. cipal is to be paid for three years, and then the purchaser is to have five years in which to pay five equal annual installments, with interest at the rate of 7 per cent. per annum, making payments extending over a period of eight years. Intending purchasers are assured that this is an opportunity to purchase land of fair average quality at \$10 per acre, and good agricultural land at \$20 an acre, with other grades of land at prices to correspond between these figures. The assertion is frequently made that good

lands, suitable for general farming, and especially adapted for fruit-growing, cannot be had in California for less than from \$60 to \$100 an acre. An examination of the land subject of this advertisement will prove to home-seekers that this is an opportunity for the purchase of good agricultural land at \$20 an acre, and for qualities grading down to fair agricultural land at \$10 an acre, on terms of payment which should make the disposition of these lands to actual settlers a result easy The primary object of the purchase of this

body of land was the breaking up of a large 8:40 P 5:55 A 7:00 P 7:10 A to diligent husbandry. holding for the purpose of promoting its settlement in smaller quantities and its devotion For further particulars call upon, or address, WM. H. MILLS.
