ANOTHER IDIOT YELLS "FIRE" AND CAUSES A PANIC.

An Italian "Indignation" Meeting Broken Up by a Mob--Italian Barbers Nearly Kill a Supposed New Orleans Man--A South Dakota Patriotic.

Special to the Record-Union.

FRANKLIN (Pa.), March 22.—The residence of N. P. Tobin, a leading merchant tailor, was burned this morning and Tobin's remains were found in the ruins.

The body was in a crouched position, with the head resting in a pool of blood with finger-marks on the throat and every indication that he was murdered. Burglars' tools were found about the place, and he probably discovered them at work. Two years ago a great sensation was created by finding the dead body of Tobin's daughter, Mary, in Long Island Sound, and the mystery surrounding her violent death was never explained.

WHERE WAS THE POOL-KILLER?

Another Idiot Yells "Fire" and Causes a Panic.

SPRINGFIELD (Ohio), March 22.—A panic that came near resulting in several fatalities occurred to-night at a religious meeting in the Grand Opera House. A Miss Berry was overcome by heat and fainted. The house was crowded and there was a rush to her side, when some one foolishly yelled "fire!" Thereupon a mad rush for the doors, the people struggling as if mad to reach the outside.

ANOTHER CHURCH PANIC.

SALT LAKE (Utah), March 22.—Almost a panic happened to-night in St. Paul's Episcopal Church. Rector Lane was to preach to the newspaper men, and the house was packed by the fraternity and their friends. The audience had just been seated when the floor gave way, resulting almost in a panic, and the injury of a number of persons. None, however, were hurt seriously.

TEXAS GOVERNOR.

He Makes Some Pointed Remarks About a McKinley Provision.

AUSTIN (Texas), March 22.—The State of Texas owns and runs a sugar farm, worked by convicts. Recently a bill was passed by the Legislature to accept the 2-cent bounty under the McKinley tariff. Governor Hogg vetoed it. The veto closes, in part, as follows: "The State is the sovereign of her own affairs and cannot be disturbed in the legitimate exercise of her prerogatives. If she desires to raise sugar by convict labor, under no circumstances will she consent to ask or accept from any Government a license to do so, nor could she yield to the supervision of her affairs by any other State or Government. It is not subordinate to her own people, but independent by the Government of usurpation become stronger than the law. They are more difficult to overthrow when they are erected on destruction of Constitution and support only in their ignorance. The resistance of all monopolies and exclusive legislation for the benefit of private interests is one of the chief duties of the people, except at the sacrifice of her honor or sovereignty as a State."

WARRING BROTHERHOODS.

The Locomotive Engineers and Firemen at Loggersheads. New Orleans, March 22.—The Pleasance's San Antonio, Tex., special says: The question of federation among the railroad organizations of the Southern Pacific road from New Orleans to Los Angeles hinges on the action of the lodges of the San Antonio and Houston divisions, and at a meeting yesterday for the purpose of deciding the matter no union was reached, here, however, it is possible that no harmony can be established, for the enmity between the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen is so strong that they decline to federate.

RAMPANT ITALIANS.

They Nearly Kill a Man in Chicago--Another Mob Upspring.

CHICAGO, March 22.—Charles Button, a repairer in the employ of the fire-alarm telegraph service entered an Italian barber-shop last night and, sitting himself in a chair, called upon "any member of the Mafia in the shop" to give him a shave. He also announced that he had a hand in settling the New Orleans trouble. The Italians upon hearing this fell on the customer en masse, and beat Button so badly with pokers and chairs that he will probably die.

UNFINISHED MORTARS.

The Ordnance Department Sends Abroad for Carriages.

NEW YORK, March 22.—The Herald's Washington special says: As twelve-inch breech-loading mortars are to be our principal weapons for sea coast defense for the next few years, or until the army ordnance foundry at Watervliet is fully equipped for turning out high power guns, the question of a carriage for mounting and handling these mortars is of immediate importance.

RETAIL LIQUOR DEALERS.

THE GOVERNMENT DOES NOT GRANT SPECIAL PRIVILEGES.

Special to the Record-Union. WASHINGTON, March 22.—Acting Secretary of the Treasury Nettleton has issued the following circular announcing a change in the form of the special tax stamp for retail liquor dealers: "Letters are frequently received stating that in many parts of the country retail liquor dealers claim a permit or license from the United States for carrying on their business; that in many cases where the local law prohibits public drinking-places, the law is openly violated by persons who claim to do business under, at least the moral sanction of 'Federal license,' and that this fact greatly retards the enforcement of wholesome restrictive laws and promotes disorder."

He said that owing to the thickness of the weather he could not locate precisely the length of the Anson's fore deck and ignored the ram. He did not know the fleet was in the bay. None of the men on the lookout saw the man-of-war Curlew and the condition of the anchorage until the helm was starboarded.

MONTREAL, March 22.—Sergeant, the manager of the Grand Trunk road, was to-day seen in reference to the Ottawa dispatch published in the Toronto Dispatch March 20th, upon the subject of the alleged demand of the Grand Trunk for \$2,000,000 prior to the late elections. Sergeant remarked that Sir Charles Tupper was under a misapprehension as to the facts of the case. Sir Charles had said: "The proof of my statement is to be found in a memorandum which was prepared by Hector Cameron, who was present at the interview."

WASHINGTON, March 22.—An application has been received by Secretary Rusk from a Chicago firm for the inspection of hogs designed for export trade under the recent Act of Congress providing for such inspection.

In referring to this law and to that which provides for the regulation by the Secretary of Agriculture of the condition of cattle and carrying vessels, the firm declares that these laws will help farming and cattle raising interests beyond anything it is now possible to estimate. The foreign countries, it believes, will not take our products for human food without inspection, and it is persuaded that by this Act becoming a law millions will be saved to the country.
