

Capay Valley Fruit Lands.

CAPAY VALLEY! The Earliest Fruit Land in the State. Equal in All Respects to the Famous Vaca Valley, Which It Adjoins.

UNPRECEDENTED TERMS. INTEREST ONLY FOR FIVE YEARS AT 7 PER CENT.

Capay Valley is situated in Yolo County, about 90 miles by rail from San Francisco, and is traversed in its entire length by the Woodland, Capay and Clear Lake Railroad, the distance from Esparto to Rumsey being 21 miles.

The Capay Valley Land Company is offering the most fertile lands in this beautiful valley upon terms which enable the purchaser to pay for the land out of its own product, viz: Interest only for five years at 7 per cent. The only condition imposed is that a reasonable portion of the land purchased shall be planted to fruit trees or vines. Land may be bought without this condition on payment of 20 per cent. cash and remaining 80 per cent. at the end of five years, with interest annually in advance, at 7 per cent. The various tracts owned by the Capay Valley Land Company have been subdivided into 10 and 20-acre lots, which are for sale at prices varying from \$50 to \$150 per acre. Similar unimproved land in Vaca Valley has recently been sold at \$400 and \$500 per acre.

These Capay Valley lands are under the most favorable climatic conditions for the prosecution of profitable fruit growing, and the locality has proved itself to be one of the earliest in the State. The grape crop of 1890 from the company's vineyard at Cashmere was picked, dried and shipped to Chicago and Philadelphia before the Fresno County grapes were ripe. The railroad passes through all of the tracts owned by the Capay Valley Land Company, thus insuring excellent shipping facilities; and land may now be purchased in the immediate proximity of either of the following stations: Capay, Cadonasso, Surrey, Guinda, Sauterne, Cashmere or Rumsey.

At many of these places fine orchards of the choicest and earliest varieties of peaches and apricots may already be seen, and during the coming season considerable additional acreage will be planted out. One of the recent sales made by the company was that of the Tanager Tract, containing 600 acres, to a colony association. This tract has been subdivided into forty holdings, all of which will be planted to fruit trees this season.

The fine orchards on the Guinda Tract, where 400 acres have been sold, are especially worthy of mention, and it is a significant fact that several of the blocks are owned by successful Vaca Valley fruit-growers, who expect to make their earliest shipments from here.

Too much stress cannot be laid upon the great advantage to the fruit-grower of being in early locality. In most cases it makes the difference between success and failure. The industrious orchardist of Capay Valley may rest assured that he will derive all the benefits gained by the first fruit shipments of the season, and that 20 acres of this rich land, when the trees are in bearing, will yield a handsome and assured income.

The Capay Valley Land Company has an agent residing in the valley, whose duty it is to show the various tracts to land seekers.

Four townships have been laid out in different points in the valley, viz: Esparto, Cadonasso, Guinda and Rumsey. Town lots may now be purchased at reasonable prices and on easy terms.

The enterprising and flourishing town of Esparto is situated at the lower end of the valley, and \$125,000 worth of substantial buildings have already been erected, including a fine four-story brick hotel, two large brick blocks and waterworks, with pipes laid in the streets, besides extensive warehouses and numerous residences. The town has a postoffice, school-house and a weekly paper, and the fine railroad depot contains telegraph and express offices.

Postoffices have also been established at Guinda and Rumsey. This latter place, situated at the head of the valley, is the present terminus of the railroad. The comfortable little hotel makes excellent quarters for hunters as well as land-seekers.

The advantages enjoyed by the settler in Capay Valley may be thus concisely summed up: A soil of great fertility, yielding bountifully of every crop.

A soil and climate which will ripen all kinds of fruit and vegetables earlier than anywhere else in the State.

A climate perfectly adapted to the curing of raisins and drying of fruit without the aid of artificial evaporators.

A location that is central and close to markets. Railroad communication which enables shipments to be made quickly and cheaply. Lands which are sold cheaper and on better terms than anywhere else in the State.

W. BAKER & Co.'s Breakfast Cocoa. They are made of clear glass as well as tough, as clear as crystal. They fit the shape they are made for. Lamps controls the draft; they are shaped right. Draft contributes to proper combustion; that makes light; they improve the light of a lamp. But they cost a dealer three times as much as common chimneys, and, as they do not break, he is apt to be anxious that they stop his trade. Diminished sales and less profit are not agreeable to him. There are two sides to the question. Have a talk with him. W. BAKER & CO., Dorchester, Mass.

Those who believe that Dr. Sage's Catarrh Remedy will cure them are more liable to get well than those who don't. If you happen to be one of those who don't believe, there's a matter of \$500 to help your faith. It's for you if the makers of Dr. Sage's Remedy can't cure you, no matter how bad or how long standing your catarrh in the head may be. The makers are known to every newspaper publisher and every druggist in the land, and you can easily ascertain that their words are good as their bond.

Begin right. The first stage is to purify the system. You don't want to build on a wrong foundation, when you're building for health. Don't shock the stomach with harsh treatment. Use milder means. You wind your watch once a day. Your liver and bowels should act as regularly. If they do not, use a key. The key is—Dr. Pierce's Pleasant Pellets. One a dose.

Do You Dine? If yes, your dinner should begin with soup. Soup can be most easily, most economically and most expeditiously made with Liebig COMPANY'S Extract of Beef without other meat stock.
