Too large -the old-fashioned pill. Too reckless in its way of doing business, too. It cleans you out, but it uses you up, and your outraged system rises up against it. Dr. Pierce's Pleasant Pellets have a better way. They do just what is needed—no more. Nothing can be more thorough-nothing is as mild and gentle. One tiny. sugar-coated granule's a gentle laxative—three to four are cathartic. ROSS S., has the fastest record of any Nutwood stallion on the coast, excepting Dawn, 2:18¾, and as a sire will prove to be the equal of any son of Nutwood. His first coits, now 3-year-olds, are very promising, and three of them will drop in the 2:30 list this year, if nothing happens them, as two can now show a 2:30 gait, and they third can trot a mile in 2:50. I will be allowed to serve fifteen approved mares for \$50 the season, at Worth Ober's Training Stables, Sacramento Race Track. Good mares sent to breed to me will have the best of careful handling and kept in any way wished. Accidents or escapes at owner's risk. ### STERLING,

STERLING,

No. 6,223, IS A HORSE OF MOST FASHionable breeding, his sire being by the
sire of the great Nutwood, and his sire's dam,
like that of Nutwood's dam, being by Pilot Jr.
Although it has been the reproach of my
friends that my partiality for Prompter prevented me from giving Sterling "a chance,"
not giving him my best mares flor working
his colts, and he had but few outside mares,
in spite of which, at 11 years old, he had
four 2:30 performers and a son that sired a
filly that entered the 2:30 list at 3 years old
and showed a full mile in her work in 2:19½

—a showing that not ten horses in the world
has equaled. His dam is the dam of a 4-yearold with a record of 2:26, and grand dam of a
4-year-old with a record of 2:30 troiter and the
fastest 2-year-old ever bred in Butte County,
and grand dam of a horse that has sired a
2:30 performer. She has not only won her
way to the "table of great brood mares," but
has demonstrated that she possesses in an eminent degree those invaluable qualities in the
dam of a stock horse, the potency to "breed
on" and the quality of "early development."
Although foaled in Sacramento, what imported horse excels him? W. H. HICKS.
