OHIO POLITICS.

The Farmers' Union Opposed to Sherman and McKinley.

DETERMINED FIGHT TO BE MADE AGAINST THE LATTER.

The Courts to be Called Upon to Decide the Question as to Who Has the Power to Appoint a City Treasurer for Philadelphia to Fill the Vacancy Caused by the Resignation of Bardsley--More Money to be Raised in Chicago for the World's Fair.

Special to the RECORD-UNION.

COLUMBUS (O.), May 27.--The Farmers' Union of Ohio, in convention to-day, discussed the third party movement, and after the debate a proposition to name an independent State ticket was defeated--63 to 64.

A platform was adopted declaring for an equal and fair distribution of the burden of taxation on all forms of wealth listed at its actual value; school books at actual cost; suppression of all traffic in intoxicating liquors as a beverage; the issue of not less than fifty dollars per capita, full legal tender money, to consist of gold and silver on a parity with each other and paper.

Expressions from many of the delegates show that the farmers will make their strong fight against McKinley for Governor, taking him as the representative of what they call a pernicious tariff system, and against the return of John Sherman to the United States Senate.

S. A. Ellis, State Master of the Grange, who is also president of the Farmers' Union, said: "I do not think there is any show for Sherman's election to the Senate, no matter what may be the action of the farmers with this exception. As for myself, I will vote for no candidate for the Legislature who will not pledge himself to oppose Sherman's return to the Senate. Even should no third party be decided upon by the farmers, they will be sufficiently strong in the next Ohio Legislature to hinder the election of any Senator so antagonistic to their interests as John Sherman."

That the movers of the third party in Ohio, led by Major McKinley, exist in his canvass for the Governorship of Ohio there is no doubt. While it is a thing yet to be accomplished, it is regarded as a certainty by the farmers of the Farmers' Alliance and other sorts. They do not hesitate to predict that McKinley will be beaten by 25,000 majority.

John J. Simpson, who is a pronounced free-trader, has been assigned to campaign work in Ohio, and a programme has been laid out for him. There is no prospect of his being elected, and he will devote considerable time to educating the farmers of the Buckeye State. He will probably go to the State the first of June, and will make another stump tour when the campaign grows hotter, near the time for the election.

TWO CITY TREASURERS.

Gov. Pattison Appoints one and Philadelphia's City Council Another. PHILADELPHIA, May 27.--Both branches of the City Council to-day accepted the resignation of City Treasurer Bardsley. Six Democrats in the select branch elected a formal protest against allowing a man charged with such a serious crime to resign. Richard G. Oellers, business manager of the Record, was elected to fill the unexpired term of Bardsley. The Democrats refused to take any part in this election. While the meeting was in progress the Democrat, George F. Redwood Wright, Governor Pattison's appointee.

Bardsley's resignation will take effect on Saturday next, and the Philadelphia will have two City Treasurers, one named by the City Council and County Commissioners and one by the Governor. The question of who is who will probably be brought before the courts at once.

The investigation to-day developed the fact that Bardsley had considerable dealings with other brokers besides Glendening & Co., and inferences that he speculated through these firms. The report that Bardsley had plotted securities in the sinking fund is denied by Mayor Stuart.

District Attorney Graham to-day took out another warrant for Bardsley's arrest, charging him with perjury in violating his oath of office, in using public money for his own gain.

IN FOUR ROUNDS.

ALEX GREGGAINS EASILY DEFEATS CHARLES TURNER.

He Hammers Stockton's Colored Champion Until Ordered to Desist by the Police. Special to the RECORD-UNION. SAN FRANCISCO, May 27.--About 800 people witnessed the fight between the middle-weights, Charles Turner and Alex Greggains, for a purse of \$10,000, at the Occidental Club this evening. The men appeared in the ring shortly before 9 o'clock, and both seemed in excellent condition. Greggains' superiority in height and reach was very noticeable. Ed Holman was referee.

In the first round Turner assumed the aggressive and landed half a dozen right blows on the body and face, but Greggains responded with several hard right punches on Turner's ear, and the round closed with cheers for the white man.

Both were cautious in the second round. A few blows were exchanged, generally in Greggains' favor. Greggains bled at the eye, but he was a hard one for Turner. He began by forcing, but accomplished nothing beyond following Turner, and afterwards became a good hand and pounded Turner on the head and body, finally sending him down in a heap by a hard right in the ear. Turner rose slowly, and Greggains went after him again, sending him down a second time. Turner arose this time in five seconds. He was staggering around the ring, and another punch from Greggains sent him down a third time. It looked as if Turner was gone for good, but the call of time saved him.

When the fourth round opened it was plain to every one that the fight was Greggains'. He was perfectly strong, and fought him to his corner, and while Turner leaned helplessly against the ropes Greggains rained a right and left upon his head, Turner being unable to hold his hands up to protect himself. Turner fell to the lower rope, and Greggains continued to pound him, when Captain Douglas, of the police force stepped into the ring and ordered him to stop. Turner sank into his chair, and the referee awarded the fight to Greggains, amid wild cheering among the spectators.

CATHOLIC EMIGRANTS.

Memorial to the Pope Relating to Their Teaching.

NATIONAL LINES ASKED TO BE FOLLOVED IN AMERICA.

Premier Rudini Has an Interview With Minister Foster on the New Orleans Question--The Hamburg-American Steamer Ernest Bismarck Lowers the Record Between New York and Southampton--A Fire in a Petroleum Refinery in France Results in the Loss of Several Lives.

Special to the RECORD-UNION.

BERLIN, May 27.--It is learned that Herr Cahensly is the principal mover in the efforts of the European Catholic emigration societies to induce the Pope to follow distinct national lines in fostering church work among emigrants in America. This subject was referred to in recent dispatches.

Cahensly's championship of the interests of Germans in America has borne fruit in frequent instructions to Herr Von Schlozer, German representative at the Vatican, to use his influence whenever he could. The Austro-Hungarian Ambassador, and Cahensly when he went to Rome to present the memorial of the conference, were met with letters of approval from many prominent European and Canadian Catholics.

Speaking of the nomination of Katzow as Archbishop in America, Ambassador Von Schlozer said to Cahensly: "This is an important step. It will interest all Prussia." He added that he would warmly congratulate the Cardinal Secretary of State for this choice so favorable to German interests.

Mercier of Quebec warmly recommended the plan of the Pope, saying that when he assisted at the Baltimore centenary he felt acute regret on finding there were no Canadians among the American bishops, notwithstanding there are more than a million Canadians in the United States.

It is significant that this whole business has been conducted so far without the knowledge or advice of the American hierarchy. The campaign has been directed solely by a committee in Germany, which, by its activity, has secured the support of every nationality of other European countries. There will be great curiosity to know what view the American bishops will take of the matter. The plan proposed in the memorial seems to be peculiarly adapted for meeting the needs of America in languages and race distinctions of emigrants.

It has been proposed to secure a list of the signatures to this memorial, but the body of the document itself has been obtained. It speaks of the Lucerne Conference as a necessary step to the best temporal welfare of their Catholic fellow-countrymen, who are emigrating to America at a rate which is increasing year by year. These numerous emigrants, says the memorial, could constitute a great power and mighty factor in the development of Catholicity in different parts of America.

It then goes on to detail the plans necessary to carry out these views. First of all, it would be necessary to divide into separate parishes or missions, different groups of emigrants of different nationalities. There would be no nationalities which would be converted into their different languages, and should be obliged to give instruction to all different groups of every nationality. Where there are no Christian public schools, parochial schools are to be established. The list of studies for these schools should always contain the study of the history of the language and history of their adopted country.

Catholic associations of various kinds should be formed to preserve Catholics from the wicked societies of Free Masonry, etc. As often as feasible Catholic emigrants should be sent to the various parts of the world, and should be instructed in the faith of their own race, and should be instructed in the faith of their own race, and should be instructed in the faith of their own race.

"In this way," says the memorial, "the cherished religious and national life of the emigrants will be constantly brought back to their own countries. Where a limited number of different nationalities will not permit of separate parishes or missions, different groups of emigrants of different nationalities should be converted into their own language, and should be instructed in the faith of their own race, and should be instructed in the faith of their own race."

ACTION CANNOT BE TAKEN.

WASHINGTON, May 27.--Respecting the action of the French Government in stationing a warship at St. George's Bay, Newfoundland, to prevent United States fishermen from obtaining bait, it is said at the State Department that action cannot be taken, nor can an opinion as to the merits of the case be given until further advice is received. It has not yet been made clear to the department whether the warship has prevented our fishermen from buying bait, or whether it has prevented French inhabitants from selling it. These are two very distinct and different propositions. In the first case it might be taken as an assertion of authority over American citizens, while in the second case, the French authorities might be exerting undeniable authority over French subjects.

Dominion Politics.

TORONTO, May 27.--A cable from London to the Globe says Professor Goldwin Smith has a brief letter in the Times to-day on Tupper's article in the Contemporary Review, specially dealing with the charge that the Conservatives at the last election had to face a formidable conspiracy to subvert British institutions to Canada and to annex the dominion to the United States. Smith shows that Sir John Macdonald of Ottawa had not dared to utter one syllable on the subject. The charge, he says, is a figment concocted out of materials supplied by reptile agencies for election purposes, and is now discarded. The Canadian Liberals are fighting, he says, not only against protection, but against government by corruption.
