

BUSINESS OF THE CITY.

Petitions for Saloon Licenses are Now Rolling In.

The Trustees Postpone the Election of a Harbormaster--Petition to Vacate More Streets.

At the meeting of the Board of City Trustees yesterday the first matter considered was a petition presented by John Olsen, asking the board to declare vacated the streets in the northeastern portion of the city bounded by Twentieth and Twenty-fourth streets and A, B and North B streets. The petition was referred to the Street Commissioner.

FUEL FOR THE DRAINAGE PUMP. Bids for supplying wood and coal for the pump at Eighth and Y streets were opened and the awarding of the contract was deferred until next Monday. Bids were submitted by J. T. Richardson, N. Cathel, M. Hanrahan, E. M. Leitch and the Sacramento Coal Company.

It was decided to postpone final action on the ordinance in relation to the storage of coal and gasoline until next Monday.

The report of City Collector George O. Putnam showing that some \$8,000 of the special police tax had not yet been paid in was received and placed on file.

A recess was taken till 1:30 p. m.

THE SEWERAGE SUBJECT AGAIN. At the afternoon session, after allowing a number of bills, the board took up for consideration the matter of putting in a new discharge-pipe from the drainage-pump at Eighth and Y streets to the river. Mayor Constock was inclined to oppose the purchase of the pipe, which would not, he thought, answer the desired purpose.

After the usual amount of talk on the subject the specifications were adopted, the Mayor adjourned avoiding to vote on the matter himself.

SALOON LICENSES GRANTED. Applications for saloon licenses were received as follows: Cunha & Silva, northeast corner of Second and L streets; W. J. Toland, Fifteenth and N streets; Robert Allen, 1010 Seventh street; W. O. Bowers, Golden Eagle Hotel; M. Voegeli, 519 K street; Joseph Frisch, 708 K street; Theo. Blauth, 407 K street; Seth Galt, 900 Second street; J. O'Connor, 1400 G street; P. Gabrieli, 118 L street; J. C. Winkler, Twenty-eighth and R streets; J. T. Barron, southeast corner Second and L streets; John Stein, 2511 J street; R. Hellman, Twenty-eighth and R streets; Coritt, Nielsen, 613 K street; J. B. Alwood, 1018 1/2 Fifth street; T. J. Baker, 27, Twelfth and C streets; J. M. Gattman, Turner Hall; August Roederger, Third and M streets; Miller & Fisher, 629 K street; Mrs. P. Brydging, Tremont House; Thomas Bitancourt, Twenty-first and O streets; L. Nicolaus, Twelfth and I streets; Jacob Henseler, Twelfth and Q streets; David Schmidt, 129 I street; A. Leck, 230 K street; Charles Dangier, 1828 Third street; H. Schmiege, 307 J street; David Nierell, Eighth and I streets; Felix McLaughlin, 391 I street; Fred Werner, 601 Second street.

The applications were all granted.

MISCELLANEOUS MATTERS. The sanitary plumbing ordinance was taken up, read, and laid over for one week.

Trustee Conklin introduced an ordinance enabling the City Tapper to so arrange the house water-pipe system that the water can be shut off from any one story of a building without interfering with the privileges of persons on any other story. Laid over.

It was ordered that the time for receiving bids for the construction of certain sidewalks be continued for one week.

The sidewalk on the west side of Sixth street, between I and the alley north, was ordered replaced by a new one.

WANTED--A HARBORMASTER. Trustee Conklin called attention to the fact that the Harbormaster was dead, and moved that the board elect his successor, to take office on the first of the month. He nominated Joseph Wiseman for the position.

The Mayor said he would like further time in which to think the matter over; a great many persons had been after him for the place.

Trustee McLaughlin said he would like to have the matter laid over, and as this suited the Mayor, it was so ordered.

STREET SWEEPING. A resolution of intention was passed for the grading and rounding up of Eighth street, from R to W streets.

Bids for the grading and graveling of Fifth street, from N to P, were opened and read. B. Lals was the lowest bidder. Adjourned.

BATTALION DRILL. Companies E and G have an Evening's Practice at Guard Mount.

Companies E and G were instructed last evening at the armory in the ceremony of guard mount, and the several non-commissioned officers in each company were given an opportunity of bringing in the details.

The manner of performing that part of the maneuver was somewhat different from the form laid down in the tactics. Instead of bringing the details into line by the command, "By the left flank, march!" they were brought to the front by the order, "Twos left!" leaving the guard formed in single instead of double rank.

The movement is not as pretty as the one called for by the tactics, and again the first sergeant who commands the detail cannot consistently give the command, "Rear open order!" to dress his squad, for there is no rear rank. The regulars, however, have adopted the new style, and Colonel Guthrie has decided to follow example.

After the drill the band delighted the spectators by playing several dancing airs.

ACCIDENT TO A HORSE. A Brewery Horse Tries to Board a Street-Car and Gets a Fall.

At an early hour on Sunday morning as one of the K-street cars was being driven up that thoroughfare from the depot, a horse attached to a brewery wagon was standing in front of the Capital Hotel. There was plenty of space between the horse and the track, and the car had got nearly by when the horse suddenly threw his head about as if startled out of a nap, and struck the car.

This excited him, and he made a plunge halfway into the rear end of the car. The latter was stopped, and some men had nearly got the horse out when the car-horses took fright and started up, causing the brewery horse to fall.

The driver of the car, George B. Redman, has been on the road for eight years, is one of the best and most careful drivers on the line, and has never had an accident. He says his car had plenty of room, and had nearly passed the horse when the latter got into trouble.

GOVERNOR'S RESIDENCE. The Proposition to Have One Moved by the Board of Trade.

This evening there will be a meeting at the Courthouse of citizens who feel an interest in the matter of securing a Governor's mansion in the city--a suitable place of residence for the present and future Governors of the State.

In addition to the signatures published on Saturday to the petition circulated about the city, the following individuals and firms have signed it as members of the City Board of Trade, showing that the movement has the indorsement of that body:

AMERICAN RIVER LOGGING. The Log Drive Said to Have Been a Grand Success.

Colonel G. W. Cummings, Superintendent of the American River Land and Lumber Company, departed from Placerville for Folsom last Saturday. The Democrat, to look after the timber which is now being landed at the company's booms at that city. The successful rafting of this large lot of timbers down the American River the present season, in addition to the fact that the rain and snow fall has been the largest since the season of 1850-51, demonstrates beyond doubt the practicability of their project.

This plan of transporting was at first doubted by many of our people, who are now gratified to know that it has proven a success and establishes an industry of great importance to this county. The company employ a large force of men and teams, which also necessitates the purchase of large supplies from our merchants, which directly benefits us all.

We may be a little incredulous, but we are disposed to encourage the investment of capital in our county, and more especially when we can see that it will result beneficially to our residents as well as to the investors.

WANDERING INNOCENTS. A "Gang" of Them Will Start Today for the Lakes.

This morning a party composed of Oscar S. Flint, Fred Trout, Adolph Meyer and F. M. Woodson will leave for Lake Tahoe and vicinity on a camping trip, and expect to be gone about two weeks, in pursuit of the festive "beaked beauties" (no allusion to freckle-faced country-girls) and such other game as may fall in their way.

The party has been organized with military precision, and is being commanded by a distinguished "jigadier" and boss of the gang; Fred Trout will furnish all the bear stories, as well as act as chief champion to the mules and woodmen who have been delegated to give the party a superb and everlasting dose of dyspepsia through his cookery, and Meyer will see that no body interferes with the snake remedies and the package of fifty-two illustrated pasteboard tracts that accompany the party.

The firearms taken along would put the State army in the shade, and any heavy bombardment in the Sierra Nevada must be taken for an invasion by a foreign foe. Their camp on the lake will be designated "Camp of the Innocents."

AMUSEMENTS. On Tuesday, August 4th, the ladies of the Beulah Club will give a lawn party at the residence of Mrs. Schubert, Eleventh and D streets. The admission will be ten cents.

WELCOME HOME. The Good Templars' Reception to George B. Katzenstein.

Last evening at Unity Hall, Odd Fellows' Temple, a reception was tendered George B. Katzenstein by the members of Sloat and Sacramento Lodges, I. O. G. T., on the occasion of his return to the city after a three-months' visit to Europe.

The following programme was rendered: Address of welcome on behalf of the subordinate lodges, by F. W. Carpen; address of welcome on behalf of the Grand Lodge, by G. D. Kellogg, G. A. T. George B. Katzenstein responded, and gave an account of his visits to the different cities and important places of

Europe which was listened to most attentively; recitation, Ruth Hardy; song, My Hentree; recitation, Belle Stargel; chorus, "Home Again," by Jessie Clark; May Zimmerman, Laura Hartman, L. E. Vandercrook and W. H. Gibson.

At the conclusion of the programme a sheriff Benham of Yolo was in the city yesterday.

ROMAN CATHOLICISM IN INDIA. A missionary journal, published in France, has devoted a series of articles to the progress of the Roman Catholic faith in India during the present century.

In 1800 the number of Catholics in India was estimated at 175,000, and of this number no less than 230,000 were to be found in the Portuguese province of Goa. In 1850 the number of Catholics of that country contained only 42,000. Malabar is credited with nearly 35,000 and Ceylon with over 220,000. But on the assumption that the total population of India is 257,000,000, the number of Catholics in 1850 increased during the last ninety years 1,800 there were only three resident Bishops, in 1850 there were 23; in 1890 there were 645; in 1890 no native clergy, in 1890 there were 150; no members of any religious order, in 1890 there were 1,800; there were 150 belonging to European brotherhoods and 200 belonging to native orders; 600 European and about 2,000 native priests were at work in 1850, against none at the beginning of the century. As to the work undertaken by the Roman Catholic Church, it can point now to some 4,200 schools, and 1,800 from institutions affiliated to the universities down to the elementary schools, in which about 100,000 scholars receive instruction. In 1800 the work of education was non-existent. In works of charity and piety the same increase is noted, and, generally speaking, the writer, M. Louvet, thinks if the resources be made of the weaknesses of human, and particularly of Indian, nature, the Indian Catholics do honor to their faith.--London Times.

That Terrible Camera. The day cannot be far distant when it will become necessary for the law-makers of the land to legislate against the camera, and the same principle that has already been found necessary to legislate against the carrying of concealed weapons, there is always a theory that the general good of the community will regulate these things, and very likely in the long run the good sense of the people will regulate the difference of the community, which comes to the same thing, by allowing a thing to slip out of sight altogether, fulfills the function of a detective camera, in that, in the meantime the irritation of the nuisance demands some more speedy and drastic remedy. It is the opinion of the editor, however, that the law of the situation, and a temperate and dispassionate review thereof, that for an ordinary camera, and for a man of a demeanor punishable by confiscation of the instrument and a fine to be regulated according to circumstances. To be found guilty of carrying a camera is to be punished by imprisonment for life; in a professional by instant death. Could these precise but mild laws be passed and rigidly enforced, it would be a very notable change in the comfort and the moral tone of the community. It is impossible that there should be any further increase of ethical feeling in the land so long as the camera feeling is daily and hourly allowed to creep over the consciences of the individual, and to check this rapidly growing evil, who knows whether civilization will not be brought to last out the century?--Boston Courier.

Salvage, according to Skinner, is from shore, because it strengthened and preserved garments. "But obviously," says Seck, "it is derived from self-edge, that which makes an edge of itself without cutting." Fairholt, however, claims that it was once used for the fold of a seam.
