

WON AND LOST.

Yesterday's Games Split Even for the Sacramentos.

They Win at Stockton and Lose on Their Own Ground—An Even Thing at the Bay.

It was with the Sacramentos, another case of "couldn't hit Cobb" yesterday afternoon, and the game went the way contests usually end when San Francisco's crack pitcher does the box work. There is no use denying that Cobb should rank as one of the best pitchers in the profession. He has lots of speed, some very puzzling "twisters" and above all, magnificent control. He pitches just as well in Sacramento or San Jose as he does on the home ground, and the haters of the Senatorial team all admit that he is a puzzler to them.

It would have been too much luck for the Sacramentos to have taken both games yesterday from the San Franciscos, so they dropped the last contest to the visitors by a score of 13 to 4.

"Bessie" McGuirk was not on first base, but "Red" Armstrong was there, and in the first inning or two did not appear to be quite at home. He did not seem to know who ought to field two or three of those ground hits in the direction of first base, and as a result had two errors chalked against him. Nevertheless, "Army" played a good game, and gathered in the throws of the infielders about as neatly as any of them could do. He hit the ball well, too.

Stapleton pitched four innings for the Sacramentos, and his wildness in concert with very amateurish playing by his team—gave the visiting team ten runs. Franco pitched the remaining innings, and held his opponents down in batting.

The San Francisco infield, composed of Cartwright, Sharp, Smith and Britton, did some of the best fielding in the game seen here for a long time. Nearly a dozen difficult ground hits were handled in a manner that could not be improved upon. Smith's chances were all very hard ones.

McCloskey's batting in the game was what saved his team from a "white-wash."

There was a fair crowd in attendance, and more excitement was noticeable than for several weeks. Following is the score:

Table with columns: Sacramento, A. B. R. H. E. S. B. P. O. A. E. and scores for various players like Armstrong, Sunday, etc.

Runs by innings: Sacramento 0 0 1 2 0 1 0 0 4-13, San Francisco 2 0 7 1 0 3 0 0-13.

AT THE BAY. STOCKTON, July 26.—The San Franciscos and Sacramentos played a listless game here today, with no special features. Sacramento hit Young hard, especially in the sixth inning, while Franco kept the others' hits well scattered. The score was Sacramento 10, San Francisco 3.

MORNING GAME. STOCKTON, July 26.—The San Franciscos and Sacramentos played a listless game here today, with no special features. Sacramento hit Young hard, especially in the sixth inning, while Franco kept the others' hits well scattered. The score was Sacramento 10, San Francisco 3.

BOTTOM LANDS.

The Assessment Increased on Those of J. B. Haggin.

No Change Made in the Assessor's Valuation of the Buffalo Breeding Property.

At Saturday's session of the County Board of Equalization the complaint of William Boyne against the assessment of the Buffalo Breeding Company was taken up for consideration.

Rather extended remarks were made by Mr. Boyne in support of his claim that the \$80,000 assessment on the company's property was far too low.

He was replied to at length by Adolph Heilbron, President of the brewery company, who said that the brewery had not yet paid a dividend and probably would not for a couple of years to come; that much of its capital was invested and assessed in other counties; that the buildings would not be either useful or valuable to anyone else if abandoned by the company; that the latter dispensed \$2,000 weekly here for labor, and that its operation was saving from \$20,000 to \$30,000 monthly that formerly went to other breweries outside the county.

M. Boyne was questioned by Supervisor Bates, and the fact was developed that he knew nothing of his own knowledge about the company's wealth.

At the conclusion of the discussion, Mr. Bates moved that Boyne's request for an increase of the company's assessment be denied, and the board unanimously so ordered.

THE HAZARD GRANT. In the matter of the petition of J. E. Camp for a general increase of the assessment on sections 61, 62 and 63 of the Haggin Grant, or Rancho del Paso, the board raised the valuation thereon from \$69 to \$80 per acre.

Those sections lie along the American River and contain some bottom land which, it is claimed, is as good as that on the south side of the assessments run from \$75 to \$80 per acre.

The board refused to grant the petition of John Rooney for a general increase of the assessment on 44,000 acres in the grant, it being shown that the upland was assessed at the same valuation placed upon similar lands adjoining it.

THE SARECHET ESTATE. J. D. Tate, administrator of the estate of the late Emma Sarchet, has commenced suit in the Superior Court against H. L. Sarchet to recover property to the value of \$2,041, which it is alleged belongs to the estate.

HIT WITH A TUMBLER. An intoxicated individual, who gave his name as J. S. Lovelace, had a bad scalp wound dressed at the Receiving Hospital last evening. All he knew about the accident was that he fell in a room and was hit with a tumbler.

HE WAS GIVEN TO GAMBLING, AND LOSING MONEY, TOOK HIS OWN LIFE. There is no further doubt now that James Filve—or Filves, as his name appears to be—really committed suicide. He was the man who was found in a dying condition in the City Cemetery on Friday last, suffering from morphine poisoning.

Changed Daily for Weinstock, Lubin & Co.

SPECIAL SALE OF SHOES, TUESDAY AT 9:30 A.M.

ODDS AND ENDS

Which have accumulated during the past season, together with remnants from past sales. The goods and prices will be of interest to Ladies, Misses, Children and Men.

THE CLOTHING QUESTION.

The advantages we offer the buyer of clothing are many and important. They arise in part from our ability to get the best the country affords, and from the determination to suit each customer as to have their trade permanently.

Few houses anywhere handle as large quantities of clothing as we. Manufacturers are eager to get our trade, and we are able to exact from them the highest grade of work on the one hand, and the lowest prices on the other.

But all these advantages would be of little interest to customers if we did not give them the full benefit of this skill and experience in buying. We have never been among those who take advantage of people, by charging large profits.

With small profits and fair dealing we are able to sell thousands of dollars' worth of clothing where with high profits we would have hard work to sell hundreds.
