

OFFICER ARLINGTON'S DEATH.

A Double Inquest is Held by Coroner George Clark.

Arlington Was About to Resign His Position and Leave the City—The Verdict.

Coroner George H. Clark held a double inquest last night in the cases of Police Officer William Arlington and Annie Manning—the former having been killed by the latter, who then committed suicide.

The inquisition was a very complete affair, and some new details were brought out.

Chief of Police Drew was the first witness sworn. He testified that he knew the deceased, and knew he was 40 years of age. He believed that Officer Arlington was a native of Kentucky, and did not know whether or not he had any relatives living.

On the 8th of July, Officer Arlington called the witness into the latter's private office and told him that he had partially made up his mind to resign and leave the city.

He said that he was having trouble with "that woman again" (meaning Annie Manning), and said he feared her. While they were talking, said the Chief, a messenger-boy came in and handed Arlington a note.

This note was from Annie Manning and was to this effect: "Steve has come back and says he is going to stay here. Come down. Maybe you can talk to him."

Arlington read the note and handed it to the witness. He then said that "Steve" was a bad man and that he was drinking. He had made trouble for Annie before, but he (Arlington) had succeeded in quieting him.

Continuing, the Chief said that as he was going down toward Third and L streets he invited Arlington to ride down with him. When they stopped near the house the witness handed Arlington a note.

The Chief testified that he was sitting in a neighboring window call out, "Billy, come in, I want to see you."

Arlington told the Chief that that was "Lennie, who had no legs." He also saw another man inside, through the lace curtains. The Chief then drove off to attend to some business, and returned to the corner of Third and L streets fifteen minutes later.

While there he heard a police whistle, and saw a crowd running toward the Manning house. The Chief drove over to the house as quickly as possible. Going inside he found Annie Manning dead on the floor and Officer Arlington lying near by in a dying condition.

In answer to questions asked by Coroner Clark, Chief Drew said that he had known Officer Arlington about four years, and had also known Annie Manning for some time. He did not know of his own knowledge of their ever having quarreled.

The Chief testified that he had a detailed description of the room in which the shooting took place, its furnishing, and of how the bodies lay.

"Who is the man," he referred to as "Steve" in Annie Manning's note to Arlington?" asked Coroner Clark.

"Steve" was a brother to Annie Manning, replied the Chief, and was a man who was very violent when drinking. It was said that Arlington was the only man who could do anything with him when he was drinking.

In answer to questions by City Attorney Hart the Chief said he made a thorough search of the Manning house and did not find anybody there. He met no man and saw none about the place.

City Physician C. B. Nichols testified that he was summoned to attend Officer Arlington at the Receiving Hospital on the afternoon of the 8th of July. He found him unconscious and very low.

He called, however, and appeared at the hospital, but he was unable to get a statement from the wounded officer, but the latter had not the power of speech.

Dr. Nichols then explained the upper portion of Officer Arlington's skull, showing the hole made through it by the bullet. He said he had performed an autopsy on the remains and had been assisted by Drs. Simmons, White, Gardner and Merrill.

The primary cause of death, he said, was the injury to the brain substance, inflicted by a fragment of bone being driven through the brain by some external force—presumably by a pistol ball. The fragment of bone was found in the left lateral ventricle.

It is, in his opinion, a fragment of powder marks under the scalp, that the injury was inflicted by a bullet fired from a pistol held in close contact with the head. The fragment of bone was found at a depth of two and one-half inches from the upper surface of the brain.

MODERN TRUSTEES.

Two of Them Have No Candidates for Harbor Master.

The Electric Railway Company Asks for a Franchise on P and Seventh Streets—Street Work.

A franchise asked for by J. H. Henry, President of the Central Electric Railway Company, was the first matter taken up at the meeting of the Board of Trustees yesterday.

The clerk was reading the franchise, when Mr. McLaughlin interrupted him and wanted to know if it asked for a road on P street.

The Mayor said he did not know what it was, as he had not heard of it before. Mr. McLaughlin—"Well, we've acted twice on this electric railway business, and I don't propose that the time of this board shall be taken up any longer in considering these proposed franchises.

We have given Mr. Henry our decision twice, and I move that the reading of the franchise be discontinued, and that we proceed with our regular business."

Mr. Conklin said he desired to hear the franchise read in full, and that the reading of the franchise be discontinued, and that we proceed with our regular business."

Mr. Conklin said he desired to hear the franchise read in full, and that the reading of the franchise be discontinued, and that we proceed with our regular business."

COULD NOT AGREE.

The Jury in the Smith Case Renders No Verdict.

They Stood Seven for Acquittal and Five for Conviction—Robert Allen Growing Worse.

The trial of J. D. Smith, which has held public attention for a week, was brought to a close yesterday and ended in smoke. The jury could not agree.

When court convened yesterday morning District Attorney Ryan began his closing argument for the people. He talked from 9 o'clock until noon, and it was a splendid effort.

The going prosecutor went over the testimony minutely and endeavored to convince the jury that there was nothing lacking but to prove a clear case against Smith.

Judge Catlin's charge to the jury was lengthy. Before he commenced delivering it the absence of juror McKee, who was ill, when the juror arrived, however, he proceeded.

If the jury found that the general reputation of the defendant was generally bad, they would still presume him innocent until he was proved guilty, and would still require a preponderance of evidence to convict him.

It was the duty of the prosecution not only to show Smith guilty, but to show that he was not a sane man, and that he was not sane at the time of the crime.

The reasonable doubt was carefully explained, the Judge saying that belief based on a reasonable and less than an absolute certainty, it was the duty of the jury to weigh the evidence of each of the witnesses, and if they believed that the witnesses Gordon and Casey had been prevailed upon by others to make such statements as they had, they should consider the matter accordingly.

The court carefully read the law defining robbery, and then ordered the Sheriff to take charge of the jury.

The jury retired shortly after 2 o'clock. The large crowd which has been in attendance upon the trial since it began, left, but a few remained and indulged in all sorts of conjectures as to what the verdict would be.

The general opinion seemed to be, however, that the jury would find for the defendant.

And such proved to be the case. At 5 o'clock the jury sent word to Judge Catlin that they desired to go into court. There was a rush for the courtroom when this news became known.

Smith was brought up from the County Jail, and, looking pale and anxious, took a seat between his wife and attorney.

The foreman of the jury said it was impossible for them to agree. One of their wisest members, Mr. McKee, was ill, and it would be cruel to keep them out any longer.

They stood seven for acquittal and five for conviction. Judge Catlin said that if there was no hope for an agreement, there was nothing for him to do but to discharge them.

ROBERT ALLEN'S CONDITION. While District Attorney Ryan was arguing the case to the jury in the forenoon, Mrs. Allen, wife of the victim of the garrotter, received a telegram from Stockton informing her that Mr. Allen was worse, and suggesting that she had better come to his bedside.

This information was kept from the jury, but it was soon noised about the Courtroom. The story spread all over town that Mr. Allen was dead. There was no foundation for this, other than the fact that Mr. Allen was ill.

Mr. Allen is said to be quite low, and may not recover.

As Seen Off the Stage. Those festive youths of this city who went wild over the ballet-girls of the "Lilliputians" troupe when they were here should feel a little cheap when they read what the wild Shasta editor says of them in the *Siswac*.

The "Lilliputians" passed about north on Sunday's train. The ballet on the same train was comprised of the toughest set of old-time axes that ever wore fleshing—built on the same style of architecture as the snake editor of the *Shasta*.

Good Cooking. Is one of the chief blessings of every home. To attract good customers, the puddings, sauces, etc., use Gail Gordon's "Eagle" Brand Condensed Milk. Direct on the label. Sold by your grocer and druggist.

"I've sat here long enough," said Trustee Conklin, "and if there are not to be any more nominees I shall move that Mr. Wiseman be elected by acclamation."

He was reminded that his nominee was not seconded.

CHANGED DAILY FOR WEINSTOCK, LUBIN & CO.

SPECIAL SALE OF SHOES, TO-DAY AT 9:30 A.M.

Ladies' Dongola Button Shoe, opera toe, medium heel, widths D, E and EE. Price \$1 Per Pair.

And at the same time we will endeavor to close out the ODDS AND ENDS Which have accumulated during the past season, together with remnants from past sales.

The goods and prices will be of Interest to Ladies, Misses, Children and Men.

EDISON TALKING DOLLS.

We have a number of Dolls, handsomely dressed and provided with phonographs, so that by turning a crank each recite a verse. Price, \$4.

These Dolls have bisque heads, moving joints, are large size and would be excellent value at the price without the talking feature.

LADIES' BATHING SUITS.

Ladies' Black Jersey Suits with colored stripes, \$4 75, \$6 75, \$7 75 and \$10. Those at the latter price have stockings attached.

Misses' Jersey Bathing Suits, \$2 to \$4 75. We also carry a full line of Men's and Boys' Bathing Suits.

Weinstock, Lubin & Co.

400 to 412 K Street, Sacramento.

I TAKE PLEASURE in informing the ladies of Sacramento and vicinity that I have connected by an arch the store No. 619 to my two large stores, Nos. 621 and 623, which gives me the LARGEST RETAIL MILLINERY STORES on the Pacific Coast or in the United States.

I will endeavor to give you the LATEST STYLES and FINEST GOODS at the CLOSEST PRICES, as I have always tried to do in the past.

A new line of SEASIDE HATS just received from New York. Thanking you for past favors, I remain cordially yours, MRS. M. A. PEALER, 619, 621 and 623 K Street, Sacramento.

JAS. G. DAVIS Furniture and Carpets.

Wall Paper of All Kinds. Send for Price List. 411-413 K Street, Sacramento.

KLUNE & FLOBERG
