

WHAT THE SUPERVISORS DID.

Two Additional Deputies Denied Sheriff Stanley. The Debris Association's Bill Ordered Paid—A Public Pound Refused in Center Township.

It was ordered that the road to be opened through the Burns ranch, south-east of the city, be declared a public highway.

Supervisors Greer, Bates and Black were appointed a committee to act in conjunction with the Fourth of July Committee of Management in providing ways and means for future celebrations of the national anniversary.

Several petitions for saloon licenses were read and granted.

SOME MORE BAD BRIDGES.

At the afternoon session Chairman Greer called attention to the fact that the bridges on the road leading from Franklin to the river are in bad condition.

A resident of that locality explained to the board the dangerous condition of the bridges and the trouble caused to farmers, who had to break new roads to get their crops to the river landing.

Supervisor Jenkins, Chairman of the Road Committee, said he had notified Overseer Bryan to have the necessary repairs made.

Supervisor Black moved that Mr. Jenkins be authorized to compel Overseers to have their districts put in proper condition. So ordered.

DEPUTY SHERIFFS REFUSED.

A communication was received from Sheriff Stanley, in which that official said that, owing to the demands of the Superior Judges for more efficient services in the courts; the semi-annual collection of taxes and other unusual duties imposed on his office by the Legislature; the increase of population, etc., he could not require the services of two new deputies, their duties to commence on September 1st.

The Sheriff further set forth in his affidavit that he now had the same number of deputies employed by his predecessors, but that the duties now required of that department were in excess of those heretofore required.

Chairman Greer said he thought two deputies were more than the Sheriff required at this time, if he required more assistance when the time arrived for the collection of taxes, he would be willing to allow him whatever help might be needed; but he did not believe the Sheriff needed two new deputies now.

Under Sheriff Bugbey explained that the deputies were not asked for until September, and the tax collections would have to be made in October. The new deputies would require some time in which to have their receipts prepared and to familiarize them with the work to be done.

Supervisors Bates moved that the petition of the Sheriff be granted, and that he be allowed two deputies from September 1st and during the pleasure of the board. The motion was lost, Bates and Black voting aye, and Miller, Jenkins and Greer voting no.

AUDITING BILLS.

The board then proceeded with the further examination of demands against the county.

The bill of Dr. McKee, Health Officer at Elk Grove, was laid aside until such time as Dr. McKee might make a report of his transactions and the condition of his district.

Among other bills taken up was one from George Ohleyer, President of the Anti-Debris Association, for \$277.45, Sacramento County collector, for services rendered in securing evidence to be used in the cases pending against certain hydraulic mining companies operating along the American River.

Supervisor Jenkins expressed his disapproval of the bill. He supposed that Mr. Ohleyer had been in the habit of control of the matter, and he (Jenkins) was opposed to paying for the services of men employed in Oroville and other places outside the county.

Mr. Bates held that Mr. Ohleyer had no authority to incur expense without an order of the board. Before Mr. Ohleyer's engagement Mr. Bates had been empowered to have this work done, Sacramento to pay her portion of the expense.

The bill was ordered paid, all but Mr. Jenkins voting aye.

Reports for July were presented by the Superintendent of the County Hospital and License Collector and placed on file.

THAT FOLSOM ALLEY.

Supervisor Bates moved that the opening of the alley in Folsom petitioned for by Mrs. Hannon be granted.

Justice Hartford Anderson of Folsom said that no portion of Mrs. Hannon's property was affected by the closing of the alley. It had been closed for twenty years. A Mrs. Taylor, a poor woman, had a garden there, and she would be unable to pay the expense of erecting a division fence. The opening of the alley would benefit nobody, but would injure Mrs. Taylor and others.

Supervisor Jenkins moved as a substitute that the prayer of the petitioner be refused. The substitute was carried.

FOUND PETITION DENIED.

A petition was received from William Berry, A. Van Maren and other residents of Center Township for the establishment of a pound there.

A remonstrance was also filed against the granting of the petition.

The petition being rejected by the votes of Miller, Bates and Black.

A RECESS WAS THEN TAKEN UNTIL 10 O'CLOCK THIS MORNING.

SAD NEWS FROM HOME.

Mrs. John Blair, while in Europe, learns of Her Father's Death.

For some months past Mr. and Mrs. John Blair of this city have been traveling in Great Britain and visiting Mr. Blair's Scotland home. Not long since, while they were away from here, John Robinson, the father of Mrs. Blair, died and was taken to his old home in Placerville for interment.

Referring thereto, the El Dorado Republican says: "It was decided by the family that Mrs. Blair should not be informed of her father's death till she returned to this country, as the information could do no good and would mar the pleasure of her visit there. Accordingly she was not informed of his decease. In Rhosgoch, on the island of Anglesea, a part of Wales, lives another old resident of Placerville in the person of E. R. Howlands, a brother of the two gentlemen of this name now residing here. Mr. and Mrs. Blair being old friends of Mr. Howlands called on him a short time ago to renew their acquaintance. The gentlemen were conversing after tea and Mr. Howlands recently met, and Mr. Howlands turning to Mrs. Blair said: "Here is the Placerville Republican, Mrs. Blair, with news from home. It has just arrived, handing to her the paper will be in his wrapper." "Mrs. Blair opened the paper and almost the first thing that attracted her attention was an account of her father's death that had occurred thousands of miles away and of which she knew nothing until that instant. It was a strange and painful ending of the kindly efforts to keep the painful knowledge from her till the pleasure trip was ended."

POLICE COURT.

The Winery Noters Let Off With Rather Light Fines.

In the Police Court yesterday the cases of Frank Liems, S. J. Goulart and M. J. Lamb, the Portuguese who raised a disturbance at the winery, on Eighteenth street, between O and P, last Sunday, were dismissed on the payment of \$75 costs.

Francisco Reyes was found guilty of

petit larceny and will be sentenced today.

Robert Medscoff, charged with disturbing the peace of a woman in the alley between Second and Third, L and M streets, was discharged.

C. Collier forfeited his deposit for drunkenness.

ACCIDENT TO A PRESSMAN.

Arthur Manley's Hand Badly Lacerated in a Printing Press.

While yesterday morning's edition of the Record-Union was being worked off Arthur Manley, one of the pressmen, had the misfortune to have his right hand caught in the machinery that folds the papers.

The press was stopped as quickly as possible, but the hand was held tightly between the iron, and it was twenty-five minutes before his hand was freed. Machinery could be detached so that the crushed member might be released.

Manley stood the ordeal with great fortitude, when his hand was finally withdrawn it was found to be terribly lacerated. A surgeon was ready to dress the wounds, and found that no bones had been crushed. The injury, however, is very painful one, and the hand will probably be disfigured.

THEY ARE GENUINE.

The Superior Spurious Coins Pro-nounced Genuine.

Frank Miller, A. Abbott and in fact all the better class of coin experts in the city who have examined the quarter-dollar pieces of 1888 pronounce them genuine.

No matter what slight difference some persons believe they can discern between these and other coins, the fact remains, say the bankers, that the suspected ones are genuine.

If any person has more of them than he wants to keep he can dispose of them at any of the banks for a very slight discount.

CULTIVATING WILD STRAWBERRIES.

A. Smith, who lives near the Fourteenth House on the Placerville and Lake Valley road, has been experimenting in the cultivation of wild strawberries.

Finding a large quantity of strawberry vines growing in the canyons near by, he transplanted them, fertilizing and cultivating them carefully, says the Record.

The wild vines have rewarded this care by producing abundantly, the berries becoming much larger by cultivation. Unlike most of the tame varieties, these wild vines bear continuously throughout the summer till late in the fall, blossoming and fruiting. The berries are not large, but are of excellent flavor. In shape they are long and slender. They are desirable vines owing to their bearing continuously.

New Incorporations.

The following articles of incorporation were filed in the Secretary of State's office yesterday:

First Methodist Episcopal Church of Mendocino County. Directors—F. D. Mallam, J. D. Harrison, Mathew Miller, Cornelius Prather and Leslie Hoag.

Kaiser & Chase of San Francisco, capital stock \$50,000. Directors—G. A. Chase, Mrs. Cordelia A. Kohler, Mrs. Eunice M. Chase, Edward C. Chase and Thomas F. Winters.

Culvert & Little Manufacturing Company of Los Angeles, capital stock \$200,000. Directors—S. W. Little, John P. Culbert, J. E. Sherman, Frank H. Jackson and S. M. Little.

Early Crawford Peaches.

Some of the finest specimens of this fruit seen in the market here were brought in yesterday by N. Clark from his twenty-acre orchard just east of the city. The fruit was large, of beautiful color, rich flavor and perfectly free from pests.

This fruit was on route to one of the local canneries, and whoever buys it in its preserved form will secure something good. Mr. Clark may well be proud of his fruit.

THE COLUMN WILL MOVE.

To-Night the Regiment Will Depart for Santa Cruz.

Information for Those Who Desire to Visit the Camp—Rates of Fare, Etc.

The First Artillery Regiment will leave this city this evening by special train at 8 o'clock for Camp Murray at Santa Cruz. The train will consist of an engine, a baggage car, six coaches and a sleeper. Those who desire accommodations in the sleeping car can procure them by paying extra.

The regiment will leave the army at 7 o'clock, or shortly after, in order, if possible, to have the train leave exactly on schedule time, so as to enable the train to make the run to Santa Cruz in about nine hours, arriving there at 5 o'clock Sunday morning.

Company C, Captain Nihell of Nevada City, will arrive on the Colfax local train this afternoon at 2:30 o'clock, and Captain Curson of Woodland will reach here with his company at 4 o'clock. In all there will probably be nearly 300 men in uniform on the special, and beside these, some twenty-five or thirty ladies and children belonging to the families of the officers will go down.

On the arrival of the troops in Santa Cruz they will march from the depot to the camp, about a mile distant, where breakfast will be in readiness, the cooks and waiters having left for the camp yesterday.

The train will go by Benicia to the Oakland mole, thence to Niles and San Jose, and from there to Santa Cruz. The price of a round-trip ticket for each militiaman is \$3.00 and for an outsider \$5.00. Holders of these tickets can go to and return from camp any time during the week, but the railroad company expects all who leave after the main body of the troops to go by way of Stockton, Niles and San Jose and return by the same route.

Lieutenants Maydwell and Ormsby of the Colonel's staff will endeavor to make everybody in camp as comfortable as possible, and Lieutenant Hale will attend to the rifle practice.

Santa Cruz will be alive with Sacramento people next week, and the camp will be their objective point from dress parade to "taps."

The ladies' camp will be the center of attraction evenings. The officers' wives are old campaigners, and know how to entertain visitors to perfection. There will be many good singers in the colony also. The railroad company and family, Mrs. Colonel McKee and family, Mrs. Major Sherburn and family, Mrs. Captain Campbell, Mrs. Captain Seymour, Mrs. Captain Curson of Woodland, and Nihell of Nevada City, and Mrs. Lieutenant Simonds will be of the party. It is not certain whether Mesdames Galt and Cook will be in camp.

David Knox, the efficient Drum-Major, is happy because he will be "in here" now. He is only the bright side of the picture that is shown. It is a lottery here. Each man has a ticket and expects to draw a prize. I, too, expect to draw something, and may be able next January to tell you personally what I have drawn.

The climate here seems healthy and, with care, we think we may be able to retain our health. In fact, we are rather compelled to be careful, for doctors' fees are "some"—only one ounce for drawing a tooth. Should we be unfortunate and "take a fever," our cheapest plan will be to return home for medical treatment.

Yesterday's Weather.

The Weather Bureau's report of yesterday shows that the northerly wind brought the temperature up to 97°, which was 10° warmer than the day before.

The temperatures at 5 A. M. and 5 P. M. were 55° and 89°, while the highest and lowest were 90° and 55°.

The barometrical readings were at 5 A. M. and 5 P. M., 29.98 and 29.88 inches. The highest and lowest temperatures one year ago yesterday were 90° and 62°, and one year ago to-day 97° and 55°. The present weather to be the same as a year ago.

MORE "POINTERS"

They May Assist the Police in the Arlington-Murphy Case.

Dr. Murphy of Peoria, Ill., has been writing more letters to Chief Drew about his son. He pretends not to believe that William Arlington and his son were one and the same person, and yet it is evident that he cannot shake off the conviction that they were.

"THE SPRING OF '50."

A Memorable Year in the Experience of Old Pioneers.

The Hardships Which Men Underwent in the Search for Gold—A Miner's Life in the Diggings.

Those of the earlier pioneers now living will be interested in reading the following letter sent to the Placerville Democrat by Charles P. Jackson of Chicago.

It was written by him to me and shortly after his arrival in the gold region, and gives a fair idea of what nearly every miner of those days experienced in his search for gold among the hills and canyons of California. The letter was sent from Georgetown, El Dorado County, April 28, 1850, and bears the Sacramento postmark, May 3d. The writer's wife had to pay forty cents postage. A feature of the envelope is that it was sealed with a wafer, mastic being of later date.

The letter recounts the incidents of the voyage from Panama to San Francisco on an old whaleship, for \$160, and occupying fifty-five days. It ran as follows:

Suffice it to say we all reached San Francisco safely, increased in our corporeal prowess, and, notwithstanding the questionable diet of two-year-old "salt horse" and wormy biscuit, San Francisco we found to be a great overgrown baby of a place, and that the boys who had outgrown his breeches. A majority of the buildings are tents, of every variety of style and situated in all shapes—extending from the top of the hill back to the top of the hill back of the city. It had the appearance of business, but at the time we were there the miners had mostly left for the different mines, and the greater part of the business done seemed to be confined to the gambling houses, of which there are more than in any other place in the world, and, in fact, no one can not go amiss of them, and, judging from the immense piles on their tables, one would infer there is really more money in the hands of the gamblers than in the hands of the miners.

We took the steamer for Sacramento, on the Sacramento River, some hundred miles up—fare \$25 and this was the "got us," but as we were in for seeing the real elephant we did not demur.

Sacramento is a beautiful city, or rather a beautiful place, and, in fact, is overflowing, would be the great mart for California, its large vessels can run up the greater part of the year, and it is so much nearer the mines than any other place, that it is in small quantities, and very fine. It is a place of business, and I know of no other in the country offering the same advantages.

Sutter's Fort immediately adjoins town, and the plain just back is his wheat field. The buildings in Sacramento are mostly cloth and they are now putting up some very pretty wooden blocks. We stopped here but a few days and then broke camp, and, halting at the first diggings, we bought two pack mules at \$5 each, and commenced operations. Four of us worked five days and made \$25. This was our first experience and encouragement, though with little pay. We accordingly sold our pack mules, left our tent and contents standing, took what we could carry on our backs and started for better diggings, of course, then our packs, picks and shovels, and as much grub as we could carry, and we were until it was gone—about thirty pounds for each man to pack. Add to this the increase to our loads from rain—now if we didn't see a little of the elephant, we're none here.

We went to Hangtown, but here found everything dug up that had any appearance of gold, so we started on our backs and started for better diggings, of course, then our packs, picks and shovels, and as much grub as we could carry, and we were until it was gone—about thirty pounds for each man to pack. Add to this the increase to our loads from rain—now if we didn't see a little of the elephant, we're none here.

CHANGED DAILY FOR THE RED HOUSE.

TO-DAY!

(SATURDAY)

FOURTH DAY

—OF OUR GREAT—

August Clearing Sale!

Our reductions are not made on one line of goods to catch the eye of the public, but are made general throughout the whole store. Parties who visit to buy an assortment can readily see the advantages gained by coming to our Clearing Sale.

NEW LINES ADDED TO-DAY:

One case Standard Gingham at.....5c a yard

1,000 yards of Heavy French Shirtings, light ground with neat stripe, cut from 18c to.....10c a yard

One lot of Oriental Sofa Pillows, \$1, cut to.....50c

Handsome Dark Figured 20c Satens cut to.....12c

32-inch Challis, cut from 12c to.....7c a yard

Plaid Dress Flannels, cut from 15c to.....10c

Fancy Elfan Dress Gingham, cut from 12c to 7c

Poika Dot Open-work Organdie Lawns, cut from 28c to.....15c

1,000 dozen Ladies', Misses' and Children's Hose on sale.

All Trimmed Hats in Millinery Department will be sold to-day at special cut prices, which will be less than ever before.

Untrimmed Sun Hats, lace braids, cut from \$1 50 to .39c

85c and \$1 Sun Hats for.....23c

Child's Rolling-rim Sailor Hats, wide satin band, two colors, button on crown, 75c; cut to.....30c

A GRAND SHOE BARGAIN FOR TO-DAY.

Ladies' Best-quality American Kid Button Shoes, medium, round and opera toe, thoroughly made and neatly finished, every pair warranted to give good wear, \$1 49.

GENTS' HOSE.

50c Gents' Black Lisle Thread Hose.....19c

25c Gents' Full-finished Light-color Hose.....12c

25c Gents' Full-finished Fancy-striped Hose.....12c

300 PAIRS OF GENTS' MEDIUM-WEIGHT PANTS.

Different patterns—a mixed lot, formerly sold from \$3 to \$5—all pooled to-morrow for \$2 per pair.

C. H. GILMAN, RED HOUSE, SACRAMENTO.

THE GREATEST SALE ON EARTH.

BOOMING ALONG.

Our sale is booming along, and bargains—yes, wonderful bargains, are being secured by the scores of customers who visit us daily. These grand bargains are not confined to any one department, but are to be had in all our departments—CLOTHING, FURNISHING GOODS, HATS and CAPS, BOOTS and SHOES, etc. We are soon to let the contract on a new and commodious building to take the place of our present structure, that we may have ample room to meet the demands of our increasing trade.

MORE PRICES FOR THE READERS:
