

SMASH-UP ON THE SANTA FE.

A Passenger Train Runs Into a Box-Car at Los Angeles.

GOVERNOR MARKHAM ON BOARD.

BUT ESCAPES UNINJURED.

All the passengers badly shaken up. But none seriously injured—Con Riordan knocks out the "Terrible Swede" in the eighteenth round—Rumor current at San Francisco that W. W. Morrow is to be appointed to succeed the late Judge Hoffman.

Special to the RECORD-UNION.
LOS ANGELES, Aug. 21.—A smash-up occurred on the Santa Fe road at the First-street depot to-night, in which Governor Markham and other State officials, United States Senator Felton, Congressman Bowers and others were badly shaken up, and a few slightly injured. A special car containing the Governor and State officials was attached to the regular train from San Diego, which was an hour late. A box-car had been left on the track, and the train ran into it. The shock was a violent one, and many of the passengers were bruised. The engine crushed the obstructing car into splinters. The special car contained the officials referred to, as well as a number of editors returning from the convention of the Editorial Association at San Diego. On the car were Governor Markham, General C. C. Allen and the following staff officers: Colonel F. H. Chadbourne, Colonel R. D. Laidlaw, Colonel Reed Jones, Colonel J. S. Young, Colonel Sanborn and Colonel Cassen. Senator Felton, Congressman Bowers, J. H. Smith, National Bank Commissioner, and his little sons; Selpie Craig, H. Z. Osborne and others were also in the car.

THE PRIZE RING.

Con Riordan Knocks Out the "Terrible Swede."

SAN FRANCISCO, Aug. 21.—Denny Hawkins, the nineteen-year-old local bantam-weight, defeated Walter Cathcart, the forty-year-old bantam of London, in three rounds at the Pacific Club to-night for a purse of \$300. Cathcart, who claimed to be a veteran of the ring, was no match for his opponent.

Special to the RECORD-UNION.
MAT FENNER, known as the "Terrible Swede," was knocked out in eighteen rounds by Con Riordan, formerly of Australia, in a finish fight for a purse of \$100.
Fenner, who is a native of Prussia, is a novice in the ring, having received his training here within the past eight months, but his muscular development, which is above the average, and his ability to fight, made him one of the most formidable looking men in the ring. This was his second finish fight, he having defeated Jack Cunningham of Australia in a similar fight. Fenner was one of the hardest ever seen in this city, and Riordan's superior generalship almost saved him. Fenner having almost knocked him down and laid out his face, Fenner's face was much lathered, and Riordan lost considerable blood from the nose and mouth. At the beginning of the eighteenth round Fenner was completely exhausted. He was completely exhausted, and followed by a stop behind the ear, which dropped Fenner to the floor like a log. He was counted out.

Victoria Notes.
VICTORIA (B. C.), Aug. 21.—The report of sale of the Victoria coal mines to an English syndicate is again revised. The Dumasurs refuse to confirm or deny the rumor.
The United States Commissioners to Behring Sea have returned to Nanaimo on the steamer Albatross, having concluded their labors. The British Commissioners are also returning and will reach Victoria in a few days.
The steamer Frances, which returned from the northern ports to-day. She reports that at Skeena River and the river's mouth she had altogether some nineteen guns, including 10-inch, 8-inch and 6-inch breech-loaders. Unless some of the government gunners turn traitors to the cause, it is likely that the fleet can silence the forts.

CAUSES OF THE REVOLUTION.
WASHINGTON, Aug. 21.—Pedro Montt, confidential agent of the Constitutional Government of Chile, has distributed to the press a pamphlet entitled "An Exposition of the Illegal Acts of Ex-President Balboa in Chile." The pamphlet is an attempt to succeed in forcing one of his creatures into the Presidential chair. It is his refusal to call an extra session of Congress which legally called upon to do so; his nomination of the Cabinet, which refused to resign when the Congress dissolved; his assumption of dictatorial powers; his suspension of the Government and disposing of the public funds without reference to the Congress; his refusal to submit to the Congress removing him from office, which brought about the final breach between the President and Congress. In addition, he has without authority of law permitted Government paper money to the amount of \$12,000,000; and an inferior metallic coinage, filled the country with spurious money, which caused the loss of the sacredness of private correspondence, guaranteed by the Constitution; refused to obey the decrees of the high tribunal of justice—the Supreme Court; imprisoned many judges; impeded by brute force the courts of justice and forbidden them to print their judgments; suppressed all the public journals that opposed or criticized his acts, sometimes confiscating or ordering the destruction of their printing material; drove into prison hundreds of law-abiding citizens and kept them confined with criminals; imprisoned many of the members of Congress, whose persons under the Constitution are inviolable; dissolved Congress; ordered the election of new Senators and Representatives, although the property of many of the members of the Constitutional Congress had been altered or modified by the election laws by his own arbitrary decrees, which he caused to be applied to the public employes by his Senators or Representatives; the majority of the new members being salaried employes; employed the property of many of his opponents; taken horses, cattle and other property of his adversaries; made use of the public funds according to his absolute will, and in palpable violation of the laws; increased more than three times the pay of the officers and soldiers of his army; enrolled by force an immense number of citizens against their will, and against the laws, cruelly martyred, by flogging and other ignominious tortures, hundreds of respectable citizens, rich and poor, without respect to age or condition; caused to be shot to death many citizens without a legal trial and sentence, and, in short, has used his power as an odious and cruel tyrant.

Attacked by Tramps.
SAN JOSE, Aug. 21.—This morning John J. Farrington, a track walker on the narrow gauge between Lawrence Station and San Jose, was assaulted by three tramps near Santa Clara, and severely beaten about the person. They tried to rob him, but he fought them off for a short time. One of them drew a large knife and made a number of slashes at him. Each slash cut his clothing and skin above the knee. He was severely wounded, and he escaped, and notified the officers, who are in pursuit.

A Fireman Killed.
PORTLAND (Or.), Aug. 21.—Early this morning a fire destroyed the residence of F. L. Tripp. Thomas O'Keefe, a member of Hose Company No. 1, was killed going to the fire. As the hook and ladder truck swung from the house he attempted to jump out. He missed his footing and fell beneath the wheels. He was badly crushed and died soon after. He was unmarried. His mother lives in San Francisco.

Southern California Railroad.
SAN DIEGO, Aug. 21.—The engineering corps at work on the proposed new line of the Southern California Railroad, southward from Temecula is now surveying from Vista, eight miles east of Ocean-side. From Vista the road will run northward to Temecula via Fallbrook, avoiding the Temecula Canyon and other heavy grades, and will open up a fine section of country.

Pine Nut Mines.
CAMBRIDGE (Nev.), Aug. 21.—Small hints are going up in the Pine Nut region now. An excursion will be run Sunday, on which day Bill Zirn will open his mine, Bank of California, to inspection. Some fifty people leave on that day. If the mine proves what his claims are, it will be surveyed and buildings go up at once.

A Bricklayer's Fall.
SONOMA, Aug. 21.—Yesterday, while at work on the Home for Feeble-Minded, a

THE IMMIGRATION PROBLEM.

Secretary Chandler Expresses His Views on the Question.

ALLOW GOOD ONES TO LAND, BUT RETURN THE BAD.

The Morgan Line of Steamers, Which Ply Between New York and Galveston, To be Withdrawn From the Latter Point and Transferred to New Orleans—Three Children of a Prominent Family of Ohio Murdered by Being Imprisoned in an Air-tight Lock Chest.

Special to the RECORD-UNION.
CONCORD, Aug. 21.—In an interview on the immigration question, Senator Chandler, who is Chairman of the Senate Committee on Immigration, said: "I am not sure that we may not, sometime in the not far distant future, reach a conclusion to limit the coming of good immigrants and exclude some of them, but so far as I am concerned that time has not arrived. For the present I am in favor of adhering to the old principle as satisfactory—to exclude the bad and allow the good to come in. The mere fact that Chinese laborers had lowered the wages in our Pacific States would not have been sufficient to justify their exclusion. The fundamental and conclusive objections against the Chinese were that the males came and not the females, except bad females in limited numbers, and that they did not come to stay, but to get their money and go again to China, and there was no possibility of their assimilating into our social life. None of these reasons apply to the Polish Jews and other peoples, to the Hungarians or to the Italians. The good points of these races will assist us in the future to keep out on other grounds."

PREPARING FOR BATTLE.

CHILE INSURGENTS LAND AN ARMY AT QUINTERO BAY.

Admiral Brown, from his flagship San Francisco, saw the landing of the insurgents. They are all well armed and enthusiastic. The Esmeralda, commanded by Silva Palma, is just outside the harbor. It is expected that she will be joined at once by other insurgent war vessels from Quintero Bay. It looks as if in conjunction with the advance of the land forces upon this city, the fleet will open fire on the forts that defend this harbor.

VALPARAISO (Chile), Aug. 21.—The insurgents effected a landing yesterday at Quintero Bay, only twenty miles north of this city. According to the latest estimate it numbers 8,000 men. It would be nearer the exact figures to say 10,000 men. They were brought down from Caldera on eight transports, three tugs and four warships.

THE MARTINIQUE CYCLONE.

Loss of Life and Property Swelling to Enormous Figures.

OVER TWO HUNDRED PEOPLE SAID TO HAVE BEEN KILLED.

The Death-rate So Far Reported Exceeds Only to Coast Towns—It is Believed That as Many, if Not More, Have Lost Their Lives in the Interior—Troops and Volunteers at Work in All Directions Securing the Injured and Burying the Dead.

Special to the RECORD-UNION.
PARIS, Aug. 21.—The latest reports from the island of Martinique state that 215 people were killed by the recent cyclone. This is in the coast towns alone. The towns in the interior are not heard from yet, and until reports are received from them the total number of killed will not be known. It is thought the number of dead in the interior towns will be equal or greater than in the coast towns. It is known, however, that houses, crops and trees from one end of Martinique to the other are demolished or flattened down beyond all hope of recovery. The loss to the coffee and sugarcane plantations is great. Troops at the disposal of the Government, and a large body of volunteers are busy at work in all directions, securing the injured and burying the dead. The physicians on the island had hardly an hour's rest for the first forty-eight hours following the hurricane's passage, and the citizens of all classes are doing their utmost to help the sufferers and to repair, so far as possible, the damage done.

THE MORGAN LINE OF STEAMERS.

To be Withdrawn From the Latter Point and Transferred to New Orleans—Three Children of a Prominent Family of Ohio Murdered by Being Imprisoned in an Air-tight Lock Chest.

Special to the RECORD-UNION.
ATLANTA, Aug. 21.—The State Alliance adjourned to-day. One resolution, adopted unanimously, "asks the Georgia Legislature to indorse the St. Louis platform as reaffirmed at Ocala, and to instruct its members to oppose any legislation in Congress to shape legislation in conformity therewith."
Senator Gordon's reply to the request that the Georgia Legislature should take the St. Louis platform was not received. The Senator, however, wrote a brief letter in which he stated that he had heretofore made his position clear on this subject, and could not do so more than he has.

MUTINY ON A STEAMER.

Fires Drawn and the Vessel Stopped in Mid Ocean.

THE RINGLEADER KILLED BY THE CAPTAIN.

Heavy Rains and Wind in Missouri Cause Great Damage to Crops, Bridges and Stock Along the Chariton River—Telegraph and Telephone Wires Prostrated in Kansas City—One Thousand Feet of the Washbasin Road Falls Into the Missouri River.

Special to the RECORD-UNION.
NEW YORK, Aug. 21.—Captain Bakker, of the Netherlands Line steamship Oudem, which reached this port last night, reports that twenty-four hours after leaving port on the last trip, he became aware of a plot among the firemen and stokers to take possession of the ship. He went down into the furnace-room and was greeted with hisses. The next day the vessel was stopped without orders from the captain. While they were inquiring the cause of the stoppage, the Chief Engineer and Steward, who had stated that the men had drawn the fire from the furnaces and had threatened his life. The Captain went below and asked what the trouble was. The crowd replied with a general howl, and Peter Dupuis, who was the spokesman for the crowd, said: "We have grown tired of this life, and intend to run things to suit ourselves."
After some more talk in a similar strain, Dupuis picked up a heavy iron-pick and sprang at Bakker. The latter drew a revolver and fired, hitting Dupuis on the head to the floor, and expired a couple of hours later. The rest of the mutineers immediately returned to work. Dupuis's body was buried at sea by government officers.
