

THE STATE FAIR.

Interest in the Exhibition Increasing Each Day. Four Running Races in Which the Favorites All Won—Receipts Away Ahead of Last Year.

The glory of a nation, State or community lies in the development of its resources, for such development is but the forerunner of those blessings which make people prosperous, happy and contented.

The exhibition now in progress in this city is one that challenges the admiration of everyone that beholds it. It is a grand representation, in small compass, of the leading industries of the State, as well as of the progress made in the development of her natural resources.

The various halls of the exposition building were never more beautiful nor interesting than they now are in their rich garniture of the results of intelligent industry and labor.

The glory of a nation, State or community lies in the development of its resources, for such development is but the forerunner of those blessings which make people prosperous, happy and contented.

Leaving the county exhibits, the visitor finds much to interest him in the grand display of machinery and ornamental hardware and mechanics' implements.

The California Cotton Mills have a display which shows the progress of that industry in this State, and the possibilities in cotton culture and manufacture.

Rams are shown in all stages, from lusty growing plants to the finished article of cloth, and the result is such as to disarm all doubt as to the value of this new industry, which is struggling along without State aid.

The Bell Conservatory has made beautiful the space just off the main floor to the right as one enters the hall.

It would require columns to mention in detail the many interesting and instructive exhibits that the great building contains.

Last night there was a large number of visitors at the pavilion, and all were pleased with what they saw.

It was announced last night that the play ground in the annex on the north side of the pavilion would be ready to be thrown open today.

Last night's music by the Artillery Band, and the concert solo by Signor Liberati were the features of the evening, and greatly enjoyed by the visitors.

President Cox will deliver the opening address.

at the Park. Four Exciting Running Races Yesterday—Good Attendance.

Yesterday's racing events at the Park were very interesting and attracted a large attendance. The weather was perfect, and the track in splendid condition.

The judges were H. M. LaRue, Fred Cox and Jesse D. Carr. Timers, J. W. Wilson, Henry Agnew and George Woodward. Samuel Gamble officiated as starter.

Prior to and between the races the First Artillery Band rendered excellent music. Two corner solos were given by Signor Liberati, which elicited warm and well-merited applause.

The first race of the afternoon was the opening scramble for two-year olds, and brought to the post the Peer, the Peer, Lucinda, Sam Mount, Bessie W., Undine and Romar.

In the pools the Peer was a hot favorite at \$20 against \$12 for the field. The colts were very unruly, and no less than seven breakaways were made before the flag fell.

The Peer was the favorite in the second race, and the favorite, Ross, some distance back in the crowd. As the half-mile pole was reached Ross was seen to be moving up toward the front and on rounding the turn he took the lead.

Next came the Rosemead handicap, for all ages, one mile and an eighth, for which the starters were George Van Gordon, L. J. Rose's Fairy, and a strong favorite, selling for \$70 against \$30 for the other two.

The day's sport closed with a selling price of \$600, mile heats. The starters were O. Appleby's Fannie F., listed at \$1,000; Cy. Mulkey's Gladiator, \$1,000; Elmwood Farm's Leda, \$700.

First heat—After several false starts the horses got the word, Fannie leading, with Leda close behind.

Second heat—Fannie and Gladiator got away at even terms, Leda lagging behind.

At the quarter pole Gladiator's nose showed in front and they ran in this fashion up to the half-mile pole.

At the same meeting the board adopted a rule to the effect that the class known as "Young Herds" shall consist of two-year-olds and under.

Grand Stock Parade, and Three Trotting and Pacing Races. The first grand stock parade will take place at the Park at 9 o'clock this morning.

Some of the Attractive Features of the Fair. Visitors at the Pavilion should not fail to inspect M. Manasse's display of "Acorn" stoves and ranges.

Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

APPEAL FROM TEXAS.

The Farmers' Alliance Said to be in Danger. W. B. Morrow, of Colvert, Tex., sends the following with the request that it be published for the benefit of the Farmers' Alliance:

"The Farmers' Alliance had its origin in Texas. It was here the first great success was achieved. Its progress and development was the marvel of the age. This order voiced the great heart-throb of the agricultural people of the South and in it centered the hopes of the oppressed farmer and laborer.

"It is right and proper, as these wrongs were done the order in Texas, that the first earnest protest should come from the State that gave the Alliance her existence. A convention assembled at Fort Worth, Texas, on July 10 and 11, 1891, composed of a large number of members of the order, who in the presence of a large standing reputation and talent, were far superior to any meeting of the order in the State, and a strong protest was made against the perversion of the Alliance from its declaration of purposes and called a convention to meet in St. Louis, Mo., on August 15, 1891, to be composed of members of the order from every State and Territory of the Union.
