THE DAILY RECORD-UNION, For one year, \$6 00 For six months, 3 50 For three months, 1 50

THE WEEKLY UNION, Is the cheapest and most desirable Home, News and Literary Journal published on the Pacific Coast.

Weather Forecast. For Northern California—Fair, but cloudy and foggy weather along the coast, preceded by light rain at Eureka; cooler at Eureka and warmer at San Francisco.

NOTHING IN COMMON. The San Francisco Chronicle, the great organ of the town of Little Peddlington, otherwise known as San Francisco, in a recent editorial declared that city and country have nothing in common; that their interests are unlike and that no amount of special pleading or artificially created expressions of sympathy and affection can alter the fact.

San Francisco merchants are not creators of commerce, and the best evidence that this is so is found in the statements of the Chronicle. "San Francisco must work alone for the reason that her interests are not identical with those of the country," is a statement of a live journal of the coast. This is a confession that San Francisco's growth is at the expense of the interior. The stupidity which could have penned a statement of this kind could not have been found outside of San Francisco.

where needed and most convenient in the precinct, and will meet the exact demands of the law and defeat its enemies utterly.

The law carefully avoids saying that the voting shall be in a room; it simply says a polling "place" shall be designated and that the stalls or compartments shall be so built as to screen the voter from observation of others while marking his ballot, and that there shall be a guard-rail six feet from the stalls and the ballot-box, and that neither of the latter shall be hidden from the view of the people outside of the rail.

WHY RENT POLLING-PLACES? The officials who must prepare the voting booths for the city election are talking about renting rooms for voting places.

Revolution in Ranges. TWO DOLLARS A MONTH SAVED IN YOUR WOOD OR COAL BILL by using a GRANGE RANGE. The GRANGE RANGE is the only one on this coast that is strictly fire-tight. This means a one quarter of fuel over all other open fire Ranges and Stoves. The GRANGE has taken the Gold Medal in the following States: New York, Massachusetts, Maryland, Rhode Island, Pennsylvania, Ohio and Indiana on strictly scientific principles. The main object to be obtained in Ranges and Stoves was to construct them that they would economize in fuel, as fuel is getting scarce all over the country, and to this end many stove manufacturers offered prizes to the inventor who would perfect this, and after a year's labor the GRANGE RANGE was selected as the Range to take the lead in this fuel-saving invention. Don't fail to call and see these Ranges.
