

PARROTT'S PITCHING.

It Was Too Much For the Garden City Youths.

And Backed by Superb Fielding, the Senators Succeeded in Whittawashing Their Opponents.

How it was that the Sacramento gave the San Jose team such a drubbing as they did yesterday was a mystery to all who did not witness the battle.

Without having seen the game the sharpest ball cracker would find himself confronted by worse than a gem puzzle in an effort to comprehend how the contest could possibly result as it did.

In the first place, the tall, slender and wiry Parrott was the box for the Sacramento aggregation, and the way he swung his arms, kicked his legs, and shot the ball over the plate must have had a tendency to make the San Jose batters cross-eyed for the time being.

McVey and McGuiken were the only men in the team who appeared to have any nerve when at bat, but they could not make their hits at opportune times.

McHale followed with a single, and Roberts took first base on four balls. A scientific bunt by Parrott toward the initial cushion scored Hustin.

The seventh inning found the Sacramento hitting the ball safe again. Parrott led off with a two-bagger, and Ward—who had been tantalizing Lookabaugh at the bat by bunting fouls in all directions—suddenly smashed the ball hard, and Parrott scored easily.

Even after the ball was fielded, and a group of the San Jose players were standing near the pitcher's box, the ball was sent to the plate, and Spies was safe.

A SLUGGING CONTEST.

San Francisco Defeats Oakland to the Tune of 14 to 10.

SAN FRANCISCO, Oct. 30.—To-day's game was a slugfest, in which the home team came out victorious. The score was San Francisco 16, Oakland 10.

Games To-day and To-morrow. There will be ball games both to-day and to-morrow at Snowflake Park. The

one this afternoon will commence at 2:30 o'clock.

On Sunday there will be two contests. The first will begin at 1 o'clock sharp, and the second shortly after the conclusion of the first.

A SNAKE STORY.

It Is a Little Out of Season, but Fills a Long-felt Want.

Thomas Menke and Ed. Dawson brought to this office last evening "a curiosity," which they found on the Kubicon above Folsom. It consisted of a half-dozen clustered dried snake eggs, from which the young serpents were just emerging.

In that condition some mishap stopped the hatching process, and the eggs and young snakes were muffled by the heat of the sun or the action of water. But if they are rattlesnakes, as the finders believe, then the mother must have been killed just before the time of hatching.

For the rattlesnake is ovoviviparous, its eggs being retained until hatched and the young expelled alive.

It is then hardly probable that the specimens shown are rattlesnakes, for the death of the mother would scarcely have left the young in such a condition as to be preserved in this state, and certainly evidently having been the process of mummification.

Most other serpents are oviparous, leaving their eggs to be hatched by the heat of the sun, and the young when born are able to care for themselves. In very many instances the eggs of serpents are joined in clusters, as in the case with those shown last night.

From one of the cluster of eggs a well-developed snake had made his way a couple of inches from the shell by the heat of the sun, and the young when born are able to care for themselves.

McVey and McGuiken were the only men in the team who appeared to have any nerve when at bat, but they could not make their hits at opportune times.

McHale followed with a single, and Roberts took first base on four balls. A scientific bunt by Parrott toward the initial cushion scored Hustin.

CATCHING THE MAIL.

Changes in the Schedule so as to Meet the Trains.

Improvements in the Letter Box System—Extra Collections and Deliveries.

Owing to the changes in the railroad time-table, which goes into effect to-morrow, Postmaster Coleman has revised his own time-tables, and will amend them so as to make the best possible connections.

The railroad changes give him an opportunity to make some improvements at his office that will be greatly appreciated by the public. For instance, there will hereafter be five mail collections daily instead of four as formerly.

The extra collection will be made in the evening, so as to get the mail from the boxes in time for the Eastern overland and now evening train to San Francisco.

The five collections in the business section of the city will be made at about 3 A. M., 11 A. M., 2 P. M., 5 P. M. and 8 P. M.

The collections in the outside districts will be increased, too. In the future there will be four daily instead of three as heretofore. These will be made at 4 A. M., 11 A. M., 4 P. M. and 7 P. M.

There will also be an extra collection at the Capitol. The carrier will take the mail from there hereafter at 4 A. M., 11 A. M., 4 P. M. and 7 P. M.

Regarding the deliveries, they will be changed, too, so as to connect with the new trains. Owing to the fact that the first West-bound overland will now arrive here later than formerly, the carriers will be an hour later in their rounds in the outside districts, so as to carry the mail brought up by the others.

Mr. Coleman recently obtained permission from headquarters to add six more letter-boxes to the already good supply in Sacramento. This will make an increase of twelve this year, and increasing the total number to sixty-two, besides the six large package boxes.

As soon as the new boxes are placed into position the entire outfit will be overhauled. New cards will be placed on each box, and every box in the city will be painted a bright red color, so as to make it conspicuous.

INFORMATION FOR TRAVELERS.

Simplified Statement of the Arrivals and Departures of Trains.

To-morrow morning the new railroad time schedule will go into effect. It materially changes the time of the arrival and departure of the overland trains, and also those to and from San Francisco by way of Lathrop.

For the information of the traveling public these changes are given below in a simplified form, which will be found of great convenience to the public until they become familiar with the new schedule.

Henceforth trains will depart as follows for San Francisco, via Benicia—local (first and second-class), 6:50 A. M.; overland express, 8 A. M.; by way of Stockton and Lathrop, 10:40 A. M.; local by way of Benicia, 3:05 P. M.; westbound overland, second-class, 7:00 P. M.

Trains will arrive from San Francisco and way stations as follows: By way of Lathrop, 10:25 A. M.; local by way of Benicia, 11:30 A. M.; second-class overland, by Benicia, 11:30 A. M.; by way of Lathrop, 2:50 P. M.; local, by Benicia, 8:40 P. M.; east-bound express, 9:50 P. M.; north-bound Oregon express, 10:20 P. M.

The changes that have been made in the old schedule are shown in the following table, prepared by H. B. Breckenridge, Chief Train Dispatcher of the railroad company:

DEATH'S MESSENGER.

DESPONDENCY is in many respects the messenger of death. We are careless of our health and vigor and energies in youth and early life. We use them up in business, work, pleasure or dissipation, and suddenly find ourselves old before our time, broken down, and exhausted in brain and nerve power, and left without physical energy, nerve, strength or ambition.

MR. FRANK POWELL, well-known resident of this city, writes us as follows: "Before it was too late, I read your issue. This is to express my gratification that I am cured of my troubles—kidney, liver, and catarrh. I had tried various remedies and doctors until almost despairing, but your treatment has brought me health and strength. I feel as a man again. You may use my name for the benefit of others who are afflicted as I was." Signed, FRANK POWELL.
