

FORT BRAGG'S SENSATION.

Martin Denies All Knowledge of the Greenwood Murder.

HE WILL BE CHARGED WITH THE MURDER OF FRED HELDT.

Some Strong Evidence is Obtained Against the Prisoner--Five Buildings Burned at Millville--Shasta County Miners Meet at Redding and Organize--Rich Strike in an Arizona Mine.

Special to the RECORD-UNION.

UKIAH, March 2.—Considerable excitement was caused by the arrival from Fort Bragg to-day of Sheriff McKenzie with a prisoner named Martin, whom the Sheriff thinks is one of the Greenwood murderers.

While Martin was arrested for poisoning Fred Heltd and forging a will, the interest in him is occasioned by his being suspected of the murder in Napa County. Sheriff McKenzie was introduced to Martin as representing a San Francisco paper, claiming that he wished to get the facts of the Heltd poisoning for publication. Sheriff McKenzie tried to get him to talk about his life and experiences, but Martin would tell nothing, and would admit nothing, unless confronted with evidence.

Papers found on Martin are very damaging and show him to be a crook connected in more than one crime. They also show that he has friends who are interested in him.

The stationer aids mentioning Napa County, but made no admission, which is considered important. The murderer of Mrs. Greenwood was known to be a fine horseman and made a business of breaking up at the Hayward Hotel. To-day Martin said he had broken 200 miles on the islands. Those who know him here say his horsemanship is unexcelled.

Having never seen the murderer of Mrs. Greenwood, Sheriff McKenzie of course cannot identify him, but he remarked to-day that Martin was the man there was no use arresting anyone else, as he answers the description so perfectly. After a brief interview with Martin, Sheriff McKenzie telegraphed to Captain Greenwood to come up. He will arrive to-morrow afternoon. Mrs. Heltd arrived from Fort Bragg this afternoon and to-day she was issued a warrant charging Martin with the murder of her husband. She was furious when she saw the witnesses to the signing of the framed will, and who are thought to be concerned in the affair.

Heltd's stomach was brought to town this evening for shipment to San Francisco for analysis to ascertain if he was poisoned.

TWO "SUNS" APPEAR.

An Amusing Newspaper Controversy in San Diego.

SAN DIEGO, March 2.—The rumors that the troubles affecting the San Diego Daily News would take the form of a double issue proved to be true, and two Evening News appeared this afternoon. One was issued under authority of United States Marshal Gard, who had served attachment papers on the old Sun company, and the other was under the management of Warren Wilson.

It was reported on Tuesday night that an injunction would be served against Mr. Wilson's paper, but instead of that an injunction was served on Receiver Smith of the old Sun, and a clash with the Superior Court. He resigned, and the paper was issued by J. R. Wade under orders from Marshal Gard.

Mr. Wilson's plan is to continue to issue his Sun, and the other hand Marshal Gard says the old Sun will issue also. The situation is very amusing and no one knows yet how it will end.

GOLDEN FRUITS.

Ansipicious Opening of the Southern California Citrus Fair.

LOS ANGELES, March 2.—The Southern California Citrus Fair opened this evening. An immense crowd was in attendance, 4,000 persons being in the building. It is generally conceded that it is the finest display of citrus fruits ever seen in this part of the State.

The pavilion is elaborately decorated, presenting a brilliant appearance. There are 1,000 entries, every fruit-growing district in the southern part of the State being represented.

The designs are striking and artistic, and even more elaborate than last year's. The opening exercises commenced with a short address by Governor Markham. The Governor was answered by Hon. Stephen M. White in another brief speech. A musical performance filled in the balance of the evening.

The number of out-of-town visitors is very large. The fair will continue a week.

LOS ANGELES TRAGEDY.

The Mystery Surrounding It is Finally Cleared Up.

LOS ANGELES, March 2.—The mystery of yesterday's tragedy, in which Henry Avok shot and killed Hazel Leighton, an inmate of a disreputable house, and then shot and killed himself, was cleared up to-day.

A San Francisco man who was well acquainted with the murderer says Avok was a tailor in San Francisco, and that the woman was his mistress. Three weeks ago Avok stole a diamond ring from the woman, and she left him and came to Los Angeles.

Avok arrived here yesterday morning, and immediately went in search of the woman. On the train he remarked to some passengers that he was going to Los Angeles to kill a woman, whose photograph he displayed.

Lower California Not for Sale.

PHOENIX (Ariz.), March 2.—General Luis E. Torres, Governor of Sonora, is here en route to Ensenada. Concerning the rumor of the resurvey of the international boundary line throwing considerable American territory on the Mexican side, he said: "There will be no change that will amount to anything. It may vary a few rods in some places that is all. Our American newspapers are so sensational that they seize every opportunity to build mountains out of ant-hills." Governor Torres further said that the purchase of Lower California never could be made because it was not for sale at any price.

A Sealed Verdict.

SAN FRANCISCO, March 2.—The case of the Alton Jones, for the double robbery of the Redding and Alturas stages on the night of October 19th and 22d last, was argued to-day by Assistant United States District Attorney Shurtleff for the defendant, and at 4 o'clock the matter went to the jury for a verdict. At 9:15 o'clock the jury returned with a sealed verdict, but the three

Judge was not there to open it, the result of the deliberations will not be made known until court convenes to-morrow.

Baseball in the Northwest.

SEATTLE, March 2.—The Directors of the Pacific Northwest Baseball League met this city this afternoon and finally decided on the circuit and other matters for the championship season. After a spirited discussion, it was decided that the league circuit should remain the same as last year, which includes Portland, Tacoma, Spokane and Seattle. It was deemed inexpedient to add a fifth club league, so Spain failed to gain admission. A double championship series was decided upon for the season to be open April 13th, at Spokane and Tacoma. The salary limit was fixed at \$1,500 per month for each club.

Killed on the High Seas.

SAN FRANCISCO, March 2.—The American ship Sargent, which arrived here this evening, eighty-one days from Sydney, reports that on February 16th the crew made a raid on the galley to assault the cook. One of the crew, Charles Brown, had an intention to brain the cook. The mate interfered, and attempted to take the bar away from the sailor, who resisted. The mate then shot him in the eye, killing him instantly. The crew of the ship are indignant, and say it was a cold-blooded murder, and have made a written statement to that effect.

Era-Infesting Insect Pests.

SAN FRANCISCO, March 2.—James McLean, Inspector of Forests for New South Wales, is in the city on his way to Washington to lay before Congress a proposition for the eradication of certain kinds of insect pests. He says Professor Koehne, who was sent to Australia by the California Board of Horticulture to secure parasites for the use of the State, is working with great success. Koehne has discovered a minute parasite which destroys grasshoppers, and some of the parasites will be forwarded to this country.

A Working Grand Jury.

UKIAH, March 2.—All the thirty-one persons indicted by the recent special Grand Jury have been arrested and given bonds, except two Indians charged with the murder of Heltd. Twenty-three indictments were found for rioting at Fort Bragg, three for grand larceny, three for gambling and two for murder.

An Opposition Rain-Maker.

VISALIA, March 2.—Frank Baker, a local druggist, is experimenting in rain-making, and claims to have caused several storms in February. He follows the same system as the Pixley rain-makers. It takes him six days to produce a storm. He promises a storm on the 1st of April, that being the driest time of the spring.

Shasta Miners Organize.

REDDING, March 2.—The miners held a very enthusiastic meeting here yesterday afternoon, and organized an association. They intend to strike on the 1st of April, where specimens of ore can be seen and information about the mines be obtained.

Bally Broken Up.

MENDOCINO, March 2.—Alf Nelson, an old-timer here, fell off a car going up an incline at Greenwood yesterday. The fall was about twenty feet. He broke three ribs, the collar-bone and was otherwise injured.

Rich Strike.

PHOENIX (Ariz.), March 2.—A fabulous rich strike of gold has been made in Humburg District, and miners are flocking to it by the hundreds. The mine is free milling, and runs from \$500 to \$500 per ton.

THE IRONWORKER.

How the Wise King Solomon Recognized His Worth.

The late Joseph Harrison, Jr., after his return from Russia with an ample fortune, delighted to tell the story of the Russian engineers sent out to study railway engineering, passing through England during the war, and being taken to the United States. They selected his firm and its inventions and gave to Eastwick & Harrison a contract for building locomotives for the new railway service in Russia. In his home in Philadelphia Mr. Harrison exhibited a painting by Schusselle, representing a blacksmith seated at the anvil, and a new iron service in Russia. The picture illustrates an event in the feast given by King Solomon at the completion of the temple. To this feast were invited the architects and the officers of the Government, the great painters and decorators that had had to do with the ornamentation of the work which helped to shape the gold and silver and carve the ivory and weave the costly hangings that decorated the walls.

At the feast came unbidden and unrecognized the swarthy smith, forcing his way through the courtiers to the throne of the King, claiming recognition as the artist who had shaped the service in Russia. He was to be measured the possibility of the entire work as his skill had rendered other work possible. He it was who had forged the designs for the other work, and the artists, who acknowledged that without his help they could have done nothing. The wise King, recognizing the justice of the claim, gave to the smith the seat of honor.

From the smith of King Solomon's day to the mechanic of the present, the number of men who have shaped the metallurgist, there were centuries of manual skill displayed in works of art, passing in all countries through periods of time, just as the designer and the bronze work of Japan can be traced from the mythical past to the period of greatest perfection on the threshold of ancient times. The decline of the nation's decline, to rise again, always influenced by the state of education and the nature of the government.—Coleman Sellers in the Engineering Magazine.

Another Girl's Sweetheart.

You are pretty, you are young, you are a little bit of a coquette, and you have just met somebody else's sweetheart, writes Ruth Ashmore in the Ladies' Home Journal. It is all right to be merry, but if you are the girl I think you are you will not give me any coquettish glances, those tender words, and those indistinguishable and flattering suggestions to him. You may be prettier than the girl he loves, but try to make up your mind to do that; you may be brighter and wittier and able to make him feel more at ease, but never for an instant let him see that you are not in love with him. You are one who he will not care to tell her about; but rather act so that when you let the white curtains down over your eyes, he will see that you are with an easy conscience, for you will know that he has come back to the girl he loves, and that he has told her of your kindness, of your coquetry, and that he has ended by saying: "Ye with it all, my dearest, you were ever before me, and I never forgot you." Then you will have one other woman who is your friend, for she will know what you could have done, and she will respect you for your honor and good will.

The first shipment of camel skins for commercial purposes that has ever been received in this country reached New York to-day. The shipment consisted of five bales, each of which contained thirteen skins. The consignment is an experiment on the part of Morocco manufacturers, and promises to develop largely.—Chicago Graphic.

A man has invented a machine which will register the paces and the ground covered by a horse.

THE LUMBERMEN PROTEST.

They Do Not Want Their Product Free-Listed as Proposed.

A LONG PETITION TO CONGRESS OPPOSING THE BRYAN BILL.

"Uncle Jerry" Rusk the Latest Candidate for the Presidency, Put Up by Those Opposing Harrison's Renomination—Justice Field Scores a Point on the Attorney-General—Constitutional Amendments.

Special to the RECORD-UNION.

WASHINGTON, March 2.—The Lumbermen's Convention received and had read to-day a number of protests against the passage of the bill recently introduced in the House of Representatives by Bryan of Nebraska placing lumber on the free list. The convention asks that \$2 per thousand feet be imposed as a duty.

The Committee on Resolutions reported a petition to Congress. The north lumbering industry of the United States is the largest single manufacturing industry of the country, representing an investment of capital not less than \$50,000,000, and furnishing a means of livelihood to at least three millions of people. It calls attention to the fact that all official statistics heretofore published have simply comprehended the manufacture of lumber by milling establishments only, the cutting of trees and transportation of mills being included in the statistics of the world. An earnest protest against the removal of the present duty is made. The report was adopted by a unanimous vote.

POLITICS IN THE EAST.

RHODE ISLAND DEMOCRATS AGREE TO SUPPORT CLEVELAND.

W. C. Wardwell Nominated by Them for Governor—Republican Gains—Hill's Southern Trip.

Special to the RECORD-UNION.

PROVIDENCE (R. I.), March 2.—The Democrats of Rhode Island met this morning for the nomination of State officers and the selection of delegates to the National Convention. Charles E. Gorman was elected Temporary Chairman.

In his speech he eulogized the Cleveland Administration, and the names of those who were greeted with loud applause and a few hisses. A resolution was presented and referred to the Platform Committee instructing delegates to the National Convention to vote for Cleveland. It was received with great enthusiasm.

The temporary organization was made permanent. The platform reported to the convention demands free raw materials; approval of the Bryan bill, and urges its early passage; and favors the placing of iron, coal and timber on the free list. Upon the coinage question it reads: "We favor the American money, whether of gold, silver or copper, and we are equal to the world over." The repealing of the Sherman Coinage Act is favored, and the results of its failure to accomplish its purpose are to be redressed, for a like reason, the free coinage of silver is opposed, except upon an international agreement. The platform closes with the words: "Honor to the victor." The nomination for Governor being called for, a faction accredited to Cleveland named the name of David S. Baker, Jr., Ex-Lieutenant Governor, and W. C. Wardwell was placed in counter-nomination.

The vote resulted in Wardwell being declared the nominee.

For Lieutenant-Governor Charles F. Gorman of Providence was nominated, who was placed in nomination by the Wardwell men. Ives was repudiated by the Newport delegation, and a bitter talk followed, one speaker intimating that Newport would be the scene of a riot.

John J. Heffernan of Woonsocket was unanimously nominated for Secretary of State.

The other nominations were as follows: Ex-Attorney-General Ziba Slocum for that office again; Thomas G. Spencer of Warwick for treasurer.

The platform was adopted without discussion, together with a resolution instructing the national delegates to vote for Cleveland. The delegates for Rhode Island were: Mr. Hon. of Newport, Hugh J. Carroll of Pawtucket, Francis L. O'Reilly of Pawtucket, Lafayette Bartlett of Burrillville, and John J. Heffernan of Woonsocket. W. C. Wardwell, John T. Parker of West Greenwich, Amos J. Lawley of Richmond. The delegation is to leave for Washington to-morrow, and is expected to be in the city to-morrow.

RUSK IS IN IT.

Opponents of Harrison's Will Endeavor to Nominate "Uncle Jerry."

WASHINGTON, March 2.—Jerry Rusk for President is the latest thing in the political line in Washington. Uncle Jerry doesn't know it, and has not been even consulted, but several Republican Senators, eager to defeat Harrison's renomination, have agreed to take up the matter in the Senate.

It is charged that Rusk, if put forward in the convention, will be the strongest, in the West and South.

If the Republican nomination succeeds in bringing out anti-Harrison candidates into line for Rusk, a probable break could be arranged in the convention.

CONGRESS.

WASHINGTON, March 2.—In the Senate to-day Dolph, in presenting petitions from his State favoring Government aid for the Nicaragua Canal, said he was urged in favor of such legislation.

Dolph regarded it as the most important public question that is now, or that has been in the last quarter of a century, before Congress and before the American people. He was not sanguine as to the ability of the canal company to secure the construction and completion of the canal, but he believed that the United States at the head of the matter, and because he desired to have the canal speedily constructed; second, because he believed that the canal, if completed, would be under the control of the United States, and, third, because he desired the canal to be capitalized only at its actual cost.

The value of the canal, when constructed, to the people of the Pacific Coast would depend largely on the amount for which the company was capitalized. He, therefore, was earnestly in favor of Government aid to secure the early completion of the canal.

The Idaho election case was then taken up. Vilas argued in favor of Dubois, and Teller, who was to close the debate, said he did not care to weary the Senate any further and moved a vote.

This, however, was postponed until to-morrow afternoon, and the Senate adjourned.

THE HOUSE.

WASHINGTON, March 2.—In the House to-day the Speaker laid before the members a communication from the Acting Secretary of the Treasury, giving information relative to the importation of salt and in regard to immigration, and they were appropriately referred.

The House then went into Committee of the Whole on the District of Columbia appropriation bill.

Hemphill proposed an amendment reducing the \$1,000 or \$12,000 salary which the Recorder of Deeds of the District of Columbia receives in the way of fees, to a fixed salary of \$3,000 per annum, all fees to be turned into the public treasury after the necessary deductions for clerk hire. This provoked considerable debate, but was finally adopted. The present Recorder of Deeds is ex-United States Senator Bruce of Mississippi.

THE HOUSE ADJOURNED, WITH THE BILL STILL UNFINISHED.

Constitutional Amendments.

WASHINGTON, March 2.—The House Committee on the Election of President and Vice-President to-day authorized Representative Crain to prepare for submission to the House a joint resolution proposing amendments to the Constitution substituting the 31st day of December for the 4th day of March as the commencement and the termination of the official term of members of the House of Representatives and United States Senators. Resolutions were also introduced for the amendment of the term of President and Vice-President.

Mills and Springer.

WASHINGTON, March 2.—Representative Mills is confined to his room with erysipelas. It will be some time before he will be well enough to appear in the House.

Representative Springer's condition has improved to-day, and his family and friends are more hopeful. He grew worse during the night, and his friends were considerably alarmed. It is hoped the crisis, so far as erysipelas is concerned, was reached last night.

Proposed New State.

WASHINGTON, March 2.—J. S. Standley representing the Choctaw Nation of Indians, was heard by the House Committee on Territories to-day in opposition to the Harvey bill for the admission into the Union of the territories of Oklahoma and Indian Territory as one State.

Investigation of "Slums."

WASHINGTON, March 2.—Senator Kyle to-day reported favorably from the Committee on Education and Labor, the Senate joint resolution for an investigation relative to the "slums" of cities.

LABOR MATTERS.

Chicago Shoemakers Go Out on a Strike.

The street cars as a result of Judge Taylor's order that President Fretz turn over all property of the street car company to Receiver Steele, all the strikers have returned to work, and the cars are running as usual.

The street-car trouble is still in court. Arguments in the contempt proceedings against President Fretz, which concluded this afternoon, and the Judge said he would reserve his decision.

Sprinkle's Slayer Lynched.

CAIRO (Ill.), March 2.—News reached here to-night that Amos Miller was hanged at Dexter, Mo., to-day by a mob. His crime was participation in the killing of Acting Mayor Cooper and City Marshal Sprinkle, during the preliminary examination of himself and a companion named Moore for horse stealing, last Saturday afternoon.

After the tragedy the men fled, and were pursued by a posse. Moore, who was wounded in the hip, finding escape impossible, deliberately blew his brains out. Miller was captured yesterday, and the mob took him from the jail early this morning.

Opposing the "Big Three."

NEWARK (N. J.), March 2.—Two Vice-Chancellors sat in the Chancery Court this morning to hear the prayer for an injunction to restrain the Chicago Junction Railway Stockyard Company from executing an agreement to transfer to the "Big Three" packers, over \$1,000,000 of its stock in exchange for what is alleged to be almost worthless lands at Tolleston.

Miller was captured yesterday, and the mob took him from the jail early this morning.

THAT PROMISED SENSATION.

Indictment of a Boston Dentist for Grand Jury Tampering.

HE TRIED TO PREVENT THE WHISKY TRUST INDICTMENTS.

Dr. Nathaniel Ware Has Denied That He Offered the Jurors Any Money, but Admits That He Talked to Them—The Vanderbilts Get Control of the New England Road and Depose 1,000,000 Corbin.

Special to the RECORD-UNION.

BOSTON, March 2.—An announcement yesterday that an indictment had been found against a certain "so-called" Grand Jury, and endeavoring to prevent the indictment of the whisky trust officials, was confirmed to-night and the name of the person is made public.

Dr. Nathaniel Ware Hawes, a dentist, is stated to be the indicted person, but he is not yet arrested.

Dr. Hawes admits having talked with some of the jurors about this case, but that he had any intention whatever of influencing the jury.

According to his statement, having personal friends among the whisky-trust members, he remarked in the course of a friendly conversation with one of the jurors, that if the members of the trust could be heard by the jury, an indictment would not be found against them.

Dr. Hawes and the jurors with whom he conversed were personally acquainted with each other, and these facts are said to account for the indiscretion committed by the former.

NATIONAL LEAGUE RULES.

Some Changes in the Playing of Baseball This Year.

NEW YORK, March 2.—The National Baseball League this afternoon adopted the report of the Committee on National Agreement. The price for drafted players from minor leagues was settled, as announced last night.

The Western Association agreed to do away with two objectionable rules, viz: Compelling players to purchase their own uniforms, and charging them 50 cents a day while on a trip.

The Committee also makes a number of other changes. The number of playing rules were then adopted, among them: The players' bench must be twenty-five feet back from the base lines; if a team refuse to play, the umpire has the right to remove the game from the home plate, the batsman will be entitled to only two bases; no more than two coaches will be allowed at any time; if a base runner advances a base on a fly ball, or gains two bases on a bunt, or hit, or in-field out, or attempted out, he will be credited with a stolen base, provided there is no possible chance and a palpable effort made to reduce the run.

Rule 33 was amended to read: "The umpire to be sole and absolute judge of the play. No person will be allowed to interfere with the umpire's judgment, and he will be allowed to leave his position to approach him but the Captain, and he only to show the umpire the rule." A manager or officer shall go on the field under penalty of forfeiture of the game." A number of additions were made to the rules.

LABOR MATTERS.
