

TO-DAY'S ELECTION.

The Ballot-Buyers' Method of Beating the Law.

A Trick That Should be Guarded Against—List of the Polling-Places—Hints to Voters.

To-day the people of this city are to decide at the ballot-box who they shall have for Street Commissioner, Chief of Police, City Attorney and Fire Commissioner for the ensuing terms of these offices.

Attention is here called to the fact because it has been such a quiet campaign that many voters may not have heard of it. The places where votes are to be cast are as follows:

- FIRST SUPERVISOR DISTRICT. Precinct 1—North of K and west of Fourth street, polls at 1234 Third street. Precinct 2—North of K, between Tenth and Seventh streets, polls at 906 I street. Precinct 3—North of K, between Seventh and Ninth streets, polls at 914 Ninth street. Precinct 4—North of K, between Ninth and Twelfth streets, polls at 1025 J street.

SECOND SUPERVISOR DISTRICT. Precinct 1—Between K and O streets, west of Third. Polls at southeast corner Second and M streets.

Precinct 2—Between K and O, Third and Fifth streets. Polls at 304 L street. Precinct 3—Between K and K, Fifth and Seventh streets, and K and Y, Seventh and Eighth streets. Polls at Army Hall.

Precinct 4—Between K and Y, Eighth and Tenth streets. Polls at 824 K street. Precinct 5—Between O and Y, west of Fifth street, and between N and Y, Fifth and Seventh streets. Polls at Sixth and N streets.

THIRD SUPERVISOR DISTRICT. Precinct 1—North of G, between Twelfth street and the eastern boundary of Agricultural Park, taking in all the Park south to H street. Polls at southwest corner Thirteenth and F streets.

Precinct 2—Between G and K, Twelfth and Seventeenth streets. Polls at 1603 J street. Precinct 3—Between G and K, Seventeenth and Twenty-first streets, and between K and East of Twenty-first street and Agricultural Park. Polls at 2003 J street.

Precinct 4—Between K and O, Tenth and Twelfth streets, polls at New Pavilion. Precinct 5—Between K and O, Seventeenth and Twenty-first streets. Polls at Twenty-first street.

Precinct 6—Between O and Y, Tenth and Thirtieth streets, polls at Eagle Winery.

TO AVOID DELAY. All voters whose names are on the supplemental register just issued should announce their district and precinct in accordance with the above.

Those who have not changed their precinct residence since the last general election, and all whose names are not on the supplemental register, must announce their district and precinct as appears on the old register.

There will be two registers in use—the old and the new. Voters whose names are on both must go by the new or supplemental one—all others by the old one. This is simple enough to understand, and if voters will take the pains to follow this suggestion the clerks will be saved much trouble, and there will be less delay in casting ballots.

NOTICE TO BE OBTAINED AGAINST. The law says the voter must take his ballot before leaving his booth, and the Election Board of each precinct should see that this provision is enforced.

Those whose names have been under the old ballot system, to purchase votes, admit that the only way by which they can beat the new law by holding voters to their contract is by the latter posting their ballots when they leave the booths. This is done by putting on an innocent air and assuming ignorance of the law.

The purchaser voter wanders out of the booth with his ballot exposed to the purchaser, who catches the rolling so that he can see it. The voter pretends he is looking for a place to deposit it, when in fact he is simply conveying his loss that he has marked the ballot as per contract.

This trick was played at the school election in December, and will be tried again. Let the voters therefore, be on the lookout and prevent it.

TERRIBLE ACCIDENT. A Five-Year-Old Child Gets frightfully Scalded.

The facts were learned yesterday of a terrible accident which befell the little five-year-old daughter of Chris Wahl, who resides in the alley between Thirteenth and Fourteenth, J and K streets, on Saturday.

There was a pool of scalding water in the rear of the Phoenix Flouring Mill, in that block, which had been let out of the boiler. The child, while playing near by, ran into the water, which scalded her so severely that she became bewildered from pain and ran farther into the water, instead of out of it.

Her screams attracted attention, and she was soon rescued, but not before one of her limbs was so terribly scalded that the flesh thereon was almost cooked. Even though the child was saved, it will be sadly disfigured and probably shrunk.

OF INTEREST TO FARMERS. Weather Observer Barwick Will Furnish Indications by Telephone.

Weather Observer Barwick goes to San Francisco this morning to consult with Chief Kerkam and Inspector Pague in reference to having a long-distance telephone put into his office for the benefit of our country cousins. The indications will be telegraphed to the Sacramento Weather Bureau office, which will be telephoned to all country stations. Call up and ask for the weather during the ensuing twenty-four hours.

This work will be done between the hours of 11 A. M. and 2 P. M. If it is successful, give our country people the indications at least from eighteen to twenty-four hours in advance, and it is to be hoped that this process will benefit Sacramento and adjoining counties.

WOULD LIKE TO KNOW. A Country Victim Who Thinks Something is Wrong Here.

D. J. Holden was robbed by a couple of women on Second street a couple of weeks ago of \$120, is still trying to find out what the police have been doing toward arresting the female highwaymen.

He says he was assured a week ago by the police that they knew where the women were, and he wants to know why, if such was the case, the latter have not been arrested.

Mr. Holden asks a very perplexing question. The present police department's ways of doing things are very curious, but not in all cases just finding out. There are some people here who are able to see through a ladder.

HIS FIRST ATTEMPT. A Washington Amateur Detective Makes a Sad Blunder.

Capt. R. G. Breckenridge, the amateur detective, has a rival in a Washington saloon-keeper. Yesterday a drummer for a San Francisco jewelry house, named Dan Healy, went over there and dropped into the saloon, where he tried to do business with the proprietor by offering to buy him a watch for \$5.

In doing so he exhibited a number of watches, and the saloon man's suspicions were at once aroused. Drawing his re-

volver he placed the man of many watches under arrest and triumphantly trotted him across the bridge and turned him over to the police of this city, thoroughly convinced that he had bagged a bold thief.

Healy had no difficulty in proving his identity, and was released, much to the chagrin of the Yolo detective.

CHANCE FOR IMPROVEMENT.

A New Owner for the Hopkins-Searles Property Here.

It is said that by the settlement between Timothy Hopkins and Edward F. Searles the former becomes the owner of that portion of Mrs. Hopkins-Searles' estate located in this city.

This will be good news to Sacramentoans, as the new owner is regarded as an enterprising and progressive man, and will doubtless take steps to restore the property from its present dilapidated condition and make it productive and valuable by its location.

In its present condition the Sixth and M streets property is a shocking eyesore to all passers-by.

ACCIDENTAL DEATH. A Japanese Laborer Killed While Working in a Well.

Coroner Clark yesterday held an inquest on the body of Kuwasaki, a Japanese laborer, who met his death on Saturday last while at work cleaning out a well on C. A. Nuttal's place, near Hangtown Crossing.

He had tied a bucket and sent it up. It was insecurely fastened to the rope, and when near the surface it became detached and fell upon him. Deceased was struck and fell into about three feet of water. When taken out it was found that death had resulted from drowning.

The coroner's jury rendered a verdict in accordance with these facts.

MURDER OF ALLEN.

The Indictment Against Mushett, Alias Brady, Dismissed.

Another Continuance Granted in the Case of "Jack" Smith—Mushett Will Testify.

The case of J. D. Smith, the ex-keeper who is under indictment for participating in the murder of Robert Allen, was called up in Superior Judge Van Fleet's court yesterday forenoon, but suffered another continuance.

District Attorney Ryan announced that the prosecution was ready, but A. J. Bruner asked for delay, on behalf of the defense, on account of the absence of Edward Bruner, one of Smith's attorneys.

Judge Van Fleet did not like the idea of granting any more continuances in the case. It had dragged along slowly enough already and he did not propose to keep the jurors dancing attendance upon the court. The judge then set the case for to-morrow and said that he would insist upon its going to trial at that time.

The District Attorney then called attention to the fact that Robert Mushett, alias Brady—who was also indicted by the Grand Jury for complicity in the Allen murder—was in court, accompanied by his attorney, Hon. John Egan of Amador County. Mr. Ryan said Mr. Egan had made a number of visits to this city in the interest of his client and had been put to considerable annoyance. It was not the intention of the prosecution, said Mr. Ryan, to push the charge against Mushett, as he had already assisted in bringing the alleged murderers to justice, and would be a valuable witness when the others were tried. It was Mushett, the District Attorney stated, who had first given information to the officers, and he had given testimony for the prosecution at the trial of Gordon, who was convicted of the robbery of Allen. The District Attorney asked, therefore, that the indictment against Mushett be dismissed, but that he be retained in the custody of the Sheriff, to be detained as a witness.

Lawyer Egan approved this course and promised that Mushett would tell all he knew at the trials of Smith and Ferguson.

Judge Van Fleet had the order entered that in accordance with the motion of the District Attorney the case against Mushett was dismissed, the defendant was discharged and his bond exonerated, but it was further ordered that Mushett should be detained as a witness until further order of the court, and Mushett was taken to the County Jail by a Deputy Sheriff.

PURE FOOD IN CONGRESS.

Action Which Has Resulted in the Official Determination of the Best Baking Powder.

The Act of Congress authorizing the examination of the baking powders has resulted in the most unprecedented compliment to the Royal Baking Powder. The tests were made in the Government Laboratory at Washington, and the official report shows that the Royal is superior to all others in leavening strength—being over 30 per cent. above the average. The report also shows the purity of the Royal Powder and the wholesomeness of its ingredients.

This is probably the highest compliment of an official character ever paid to a proprietary article, though no more than the great army of baking powder consumers would expect in behalf of their old friend and favorite.

The result of the official examination, as thus determined, will, of course, make the "Royal" the standard for Government purchases.

Burglar En Route.

Charles Ward, convicted of burglary at San Francisco and sentenced to two years imprisonment, was lodged at the City Prison last evening by Deputy Sheriff Costello of the Bay City. Ward is en route to Folsom, and will be taken there to-day.

SAVING THE HEATHEN.

Conference of the American Baptist Missionary Union.

Interesting Addresses Delivered at Yesterday's Sessions—Topics for Discussion To-day.

The Conference of the American Baptist Missionary Union began in the Calvary Baptist Church yesterday afternoon at 2 o'clock.

The proceedings were slightly altered from the programme announcement, owing to the non-arrival of some members from a distance.

After opening with prayer and singing by the congregation, Pastor J. H. Reider introduced Rev. W. H. Handall of Penryn who discoursed upon "Missions and Prayer." Dr. Randall delivered a very earnest address, which met with close attention. He emphasized the importance of prayer and moral support to the missionaries who labor in distant lands under many difficulties, and stated that the highest aim of Christianity was that of missionary work. He said that missionaries, like poets, were born, not made; that it was easier to find a glad-tempered man such as Carver or Judson, and that the great reliance of the work must rest with the workers.

Rev. Handall was followed by Rev. H. C. Mable, D. D., of Boston, in a very earnest and able address upon missionary work, the difficulties encountered and the immense fields of labor in such countries as China and Africa, with their millions of unenlightened souls.

Rev. May Palmer was then introduced and discoursed upon "Pastors and Missions," stating that the highest duty of Christianity was that of the evangelization of the world.

The addresses were very able, and marked by a degree of earnestness and earnestness. While the afternoon attendance was not large, great interest in the conference is manifest.

At the evening session, a brief address, introduced to a good congregation by Dr. Bruner, who was for many years a missionary in Burma and Southern Asia. Dr. Bruner, in a very graphic and interesting lecture, described the struggles of himself and his fellow-workers in the land of devil and demon worship—the Buddhists, Brahmins and Hindus.

His description of the abject condition of these unnumbered heathen was intensely interesting.

In mentioning the evilizing influence of the gospel, he asserted that education without the gospel was a failure; that without the expanded light of the gospel, the educated heathen was, if anything, made more powerfully heathenish. He said that the missionaries have gathered into their churches 27,000 people, notwithstanding the many difficulties met with, and hold them subject to rigid discipline and total abstinence. He mentioned as being some of the most potent charms upon the savages, and instanced with some humor an occasion when a hostile chief was induced to surrender some captive children by a little band of singers. The chief had refused several emphatic demands for the restoration of the captives, but when some of the singing men and women of the missionary camp marched upon him with music he was charmed. He said: "Take them! Your God is great. Only they can save your prisoners."

Dr. Bruner ended his very interesting address by summing up various verses of the gospel in heathenism, and said the foundations of heathenism, idolatry, superstition in Burma and Southern Asia were shaken.

The conference is undoubtedly arousing the interest of the sleeping missionaries, and a larger attendance for to-day is assured.

TO-DAY'S PROGRAMME.

The evening will be resumed this morning and the proceedings of the day will be as follows:

9 A. M.—"The Divine and the Human in the Missionary Work," by Rev. S. C. Keech, 939, address, "The Chief Obstacles in Missions," by Rev. W. T. Jordan, 1612, address, "The Prosperity of the Local Church Related to Interests in Missions," by Rev. A. Banker, 17, D. Barnhill, 11, prayer service, by Rev. T. H. Stevens.

At 2 P. M., address, "The Church's Fellowship in Christ's Travail of Soul," by Rev. H. T. DeWitt, D. D., 225, address, "The Use of Missionary Literature," by Rev. M. House, 3, address, "Woman's Work in Foreign Missions," Mrs. J. S. Norvell of Swatow, China; 3:30, address, the duty of the Church in Evangelizing the World," by Rev. J. D. Green, 439, prayer services, by Rev. J. S. Norvell of Swatow, China; address, by Rev. H. C. Mable, D. D., of Boston.

DURKIN'S AX.

He Wanted to Use It On Officer Lowell, But Did Not.

Officer Lowell had a lively experience yesterday with one Ed. Durkin, who lives at 1813 Front street. Durk came to the police station that Durkin was abusing his wife and her children, and Lowell was detailed to inquire into the matter.

When the officer presented himself the irate Durkin swelled up anew with rage and ordered him to get out. Lowell said he was there to see that members of the family were not abused, and proposed to do so.

At this Durkin made a break for the back-yard to get his ax, but the officer overtook and laid him out with a right-arm swing on the head. This knocked the right out of Durkin, and then Lowell put "the darbies" on his wrists and took him to the police station.

BRIEF NOTES.

Vote to-day for principle, and not for party.

The tule beetles are rusing the season. They came in swarms last night.

Go to the polls to-day and vote as your conscience dictates, regardless of the crack of the party whip.

Callia Parlor, N. D. G. W., paid Sun-set Parlor a fraternal visit last evening at Fraternity Hall, Odd Fellows' building.

A horse and cart were found in the drainage canal on Fifth street, near U, on Sunday, but the whereabouts of the owner are not known.

The death is announced of Alonzo Gore, brother of Mrs. D. S. Hyams of this city. Deceased was a resident of Middletown, Lake County, and 39 years of age.

The cherry trees are now putting forth leaves and blossoms, and the atmosphere is becoming fragrant with the odors of peach, almond and cherry blossoms.

Samuel Ober, the man arrested on Sunday for raising a disturbance at the depot with another Chinaman. No complaint had been entered against him, and the case was postponed until Wednesday.

J. P. Baldwin, who has been in jail for some weeks to insure his attendance as a witness against Andrew Markee, who is awaiting trial for attempt to commit murder, has been discharged on his own recognizance.

The circumstances connected with a neighborhood quarrel between Mrs. Phelps and Mrs. Erhardt, residents of Q street, were vented at the Police Court yesterday. They had a spot over alleged trespasses by chickens, and each had the other arrested. Both were discharged.

Yesterday's Weather Notes. The highest temperature yesterday was 78°, or 2° warmer than the day before,

and also the warmest day since October 27, 1891. The highest and lowest temperatures yesterday were 78° and 50°, with a nearly cloudless sky.

The barometrical readings at 5 A. M. and 5 P. M. were 30.17 and 30.09 inches, showing the heated atmosphere has had a depressing effect upon the barometer.

The highest and lowest temperatures one year ago yesterday were 60° and 44°, showing the temperature yesterday to have been 18° warmer than on the same date last year.

The highest and lowest one year ago today were 62° and 42°.

Articles of Incorporation.

Funeral notice hereafter.

Lemon.

The lemon which yields the finest flavor is grown in Sicily, an island in the Mediterranean. It is from the flavoring principle extracted from the rind of this fruit that Dr. Price prepares his Delicious Flavoring Extract of Lemon.

While other lemon extracts in the market have the taste and odor of turpentine, Dr. Price's Extract has its intense lemony taste and smell and this is due to the fine quality of fruit from which it is made.

Changed Daily for Weinstock, Lubin & Co.

Bring the children to see the "Fairy and the Magic Rose" in our large display window. The Fairy appears daily at 10:30 A. M. and 3:30 and 7:30 P. M.

THE OPENING.

A PERFECT SPRING DAY. A NEW STORE. NEW GOODS WITHOUT STINT. PALMS AND OTHER DECORATIVE FEATURES. THROUGHS OF ADMIRING VISITORS.

SURELY A SIGHT WELL CALCULATED TO AT LEAST AROUSE OUR ENTHUSIASM. WE HAVE WORKED LONG TO MAKE YESTERDAY'S SHOWING. BUT ARE DOUBLY REPAID BY ITS SUCCESS.

Where or how shall we begin? What words of ours will picture to your mind the exquisite beauty of the thousand and one things in the Millinery Rooms? There are Hats from New York and Paris; indescribable of course. Flowers, so brilliant and perfect that they seem to have been plucked from some greenhouse of rare exotics. Side by side with them, plain, little wild flowers—some of them exact counterparts of those that will soon be blooming in our California fields.

Then there are Ribbons. Ties will be worn extensively this season, so Ribbons are destined to play an important part in Spring Millinery. The Ribbons are plain, watered, variegated and also in the new macra effects. They come in shades of brown, pink, heliotrope, green and yellow. These are all "colors" for the season, and Dame Fashion is to be thanked for the generous latitude she will allow in that respect.

Turning to Laces, we find the Fine Gauze Silk-like Laces in abundance and their direct opposite, a Heavy Coarse Lace similar to Irish point and seen frequently in the trimming of imported hats.

We have said nothing of the Straw Shapes. The assortment in them seems almost limitless. There are also many "Plates" in fancy braids to be bent in various shapes. The little folds have not been forgotten. There are exquisite Baby Caps in silk crepe, surah and embroidered mulls and hosts of novelties for children's and misses' wear.

The Cloak Department adjoins Millinery and seems to have caught the infectious spirit of the latter's display. It shows in profusion Summer Capes and Reifers, London Box Coats, Ladies' Cover Coats, Waists, Blouses, Etc. Hosts of pretty things are to be seen there and no visitor to the Opening should pass them by.

The departments for Cotton, Wool and Silk Dress Fabrics have crowded everything new to the front. India Silks, Changeable Silks, Wash Surahs, New Woolens, Wide Wale Bedford, Novelty Suits, Imported Scotch Mixtures, Gingham and Novelties in Cottons all abound.

It must not be forgotten that in goods of this kind we have every advantage in obtaining the choicest patterns and designs in the Eastern market, and that our large buying and selling enable us to quote the lowest prices possible.

The "Opening" will continue for a day or so that everyone who desires may have opportunity to visit it.
