

BEFORE CONGRESS.

THE BEHRING SEA ARBITRATION TREATY IN THE SENATE.

Both Houses Adjourn Out of Respect to the Late Representative Kendall.

Special to the Record-Union.

WASHINGTON, March 8.—A message from the President, transmitting the recently negotiated treaty of arbitration relative to the Behring Sea fisheries, has just been laid before the Senate.

After an hour's consideration in executive session the Behring Sea arbitration treaty was referred to the Committee on Foreign Relations.

The calendar was then taken up. Among the papers presented and referred were the following: Report of the Chief Engineer of the Army as to mining debris in California.

Squire presented a memorial from the Chamber of Commerce of Port Townsend, Wash., stating that the present status of the Behring Sea sealing fishery works a grievous hardship on its fishermen by depriving them of the rights and privileges which they enjoy in the North Pacific Ocean, and in which they are encouraged and protected by the Government of the United States.

Higgins called the attention of the Committee on Foreign Relations to a resolution offered by him some time since on the subject of the Nicaragua Canal. He desired now to have it referred to that committee.

Higgins' resolution was then referred to the Committee on Foreign Relations. Stanford introduced a bill, which was referred to Committee on Finance, to fix the duty on opium at \$5 per pound.

Fallon introduced a bill to create a California Debris Commission and to regulate hydraulic mining. Referred.

Bills were acted on as follows: The joint resolution to provide an international bimetallic agreement was laid aside.

The bill to prohibit the sale of firearms and ammunition to Indians residing upon reservations was passed.

The bill appropriating \$50,000 for a public building at Alameda, Cal., was passed.

The pure food bill was taken up, the question being on Coke's amendment to strike out Sections 7 and 8.

Faulkner moved to amend the seventh section by striking out the words "that every person manufacturing or exposing for sale, or delivering to a purchaser any drug or article of food, and inserting in lieu thereof the words "that every person who manufactures for shipment and delivers for transportation from any State or Territory to any other State or Territory, any drug or article of food, and every person who exposes for sale or delivery to a purchaser any drug or article of food received from any State or Territory other than that in which he exposes for sale or delivery of said drug, or article of food, which is in the original package, shall furnish samples," etc.

Coke's motion was then rejected. Cockrell moved to strike out Section 9, and it was agreed to.

The second and other sections were amended so as to restrict their application to original unbroken packages.

Morgan moved an additional section providing for the prosecution in any Federal District Court and for confiscation of the proceeds. It was laid on the table.

The bill was then ordered printed.

After a brief executive session the Senate adjourned as a mark of respect to the late Congressman Kendall.

THE HOUSE.

WASHINGTON, March 8.—This morning, after McMillin of Tennessee had given notice that he would call up for consideration the free wood bill, the speaker announced the death of his colleague, Kendall, and as a mark of respect to the memory of deceased the House adjourned.

The speaker appointed a committee to look after the funeral arrangements.

SHALLOW WATER BOAT.

Vessel to Navigate on Both Ocean and River.

Dubuque (Iowa), March 8.—The iron works of this city have undertaken to build a boat on an entirely new plan, the object of which is to navigate the river and ocean. It will have one bow and two sterns, each of which will have a rudder and screw, so if one is disabled there will remain half the power to make port. She will carry an adjustable center-board, which, it is thought, will answer the purpose of deeper draught. The boat will be about 300 feet long and from 30 to 35 feet beam. She will be built entirely of steel, and will cost about \$200,000. It is expected she will carry a cargo in weight equaling about 60,000 bushels of wheat in five feet of water. This vessel, when finished, will be sent with a cargo to the Amazon. She will then go up the river 500 miles or more to the coffee plantations, and take from them direct to the coast. No more have to be transferred half a dozen times before reaching market. The leaders of the enterprise claim that wherever a market is to be reached in shallow water, the Lucas ship will act as a long-felt want. Its experiment is one that will be watched with great interest, as it will open up a new era in combined ocean and river navigation.

EFFECTS OF AN EARTHQUAKE.

What a Prospecting Party Saw on the Colorado Desert.

SAN DIEGO, March 8.—A party of prospectors who were in the New River region of the Colorado Desert at the time of the earthquakes have just returned and bring in a story of a blazing volcano. "We were on the lower Laguna Mountains close to the Mexican boundary line, and about midway between San Diego and Yuma," they say, "when the earthquake occurred. The rocks fell sharply down, and our first thought was to look for an outbreak of a volcano, but to our surprise, instead of an outbreak, the smoke and heavy steam which always rises in the Cocopah region at first entirely disappeared, and the first day after the earthquake the entire desert was as clear as a mirror. That night a change came. We heard rumbling noises, and the next day the smoke returned denser and thicker than ever, and that night from the mountain-tops we could plainly see a flame shooting up. The volcano appeared to be about forty miles away and located in Mexican territory. The flame was not high above the level of the desert, and appeared to come from a pit-hole."

Free Coinage of Silver.

NEW YORK, March 8.—The Wall-street Journal's special says: The Treasury officials, who heretofore have maintained that there will be no silver legislation this session, now say that the passage of the free coinage bill is more than probable. They express no doubt, however, that it will be vetoed. The opposition of a few Senators, this seems the general opinion. Some Pacific Coast Senators and members say if Harrison is a candidate for re-election he may veto a free coinage measure, as to do so would cast him the electoral vote of every Pacific Coast State and probably several of the Western States.

Lieutenant Hetherington's Trial.

Dubuque (Ia.), March 8.—After interviewing Secretaries Blaine and Tracy, Congressman Henderson telegraphed last night that, notwithstanding the recent treaty with Japan, Lieutenant Hetherington will be tried by the American Consul at Yokohama. The appeal will be successfully to the American Minister and to the United States Circuit Court of California. Ex-Mayor Hetherington says he

heartily approves of his son's course in hooding his wife's English seducer and is confident of his acquittal.

General Schofield's Narrow Escape.

WASHINGTON, March 8.—This morning, as General Schofield was driving to the War, State and Navy building, his carriage was run into by an express wagon and overturned. It was necessary to remove the general through a window, but fortunately he was not hurt beyond receiving a rather severe shaking up. His escape was due to the coolness of his driver, who managed to control the horses, notwithstanding the overturning of the carriage.

The Raun Investigation.

WASHINGTON, March 8.—Before the Raun Investigation Committee today Chandler, Assistant Secretary of the Interior, was the first witness. He said he never received charges to the effect that young Raun had taken money for illegal transactions, and he had no personal knowledge of any person employed in the Pension Office interested in the refrigeration company, of which Commissioner Raun was President.

Could Make a Number of Gifts.

NEW YORK, March 8.—It is rumored this afternoon that Gould recently made a number of gifts, besides \$25,000 to the university and \$10,000 to the Presbyterian Church, and had given away in all, to various institutions, \$100,000. Gould said, when asked about the matter, that he didn't care to discuss it. He would deny the report.

Death of a Wife-Murderer.

LOWELL (Mass.), March 8.—Edward S. Drew, who shot his wife and then himself last Sunday, died today. Before he died Drew admitted he shot his wife, but did not state the cause of the trouble between them. Jealousy, it is supposed, prompted the deed.

The Brooklyn Bridge Bill Passed.

ALBANY, March 8.—A motion in the Assembly to recommit the Brooklyn Bridge bill, with the amendments of the Governor, to be made a special order for Thursday, was lost. The bill with the amendments of the Governor was passed by a vote of 116 to 4.

Death of Admiral Semmes' Widow.

MOBILE (Ala.), March 8.—Mrs. Annie Semmes, widow of Admiral Semmes, commander of the Confederate cruiser Alabama, died at her home in this city, in the seventy-fourth year of her age.

HAWAIIAN ISLANDS.

TERRIBLE DEEDS COMMITTED BY A WOMAN.

Three Persons Murdered and Another Burned Almost to Death.

Special to the Record-Union.

SAN FRANCISCO, March 8.—The steamship Australia arrived this morning, seven days from Honolulu. She brought the following news, dated March last:

Affairs politically are now quiet in Hawaii, summing up of the returns shows that for all practical purposes the coming Legislature is composed mainly of those opposed to the "missionary" influence, and that the classes as Liberals, Hon. H. P. Baldwin of the "missionary" element has been selected by that party as a candidate for President of the Republic.

The House will meet in May next.

W. Ashford, ex-Attorney General, who was elected representative from one of the "missionary" wards, is now said to be disqualified by reason of refusing to acknowledge the validity of the law, and apparently believes his constituents will not object to his taking a seat in the Legislature.

The United States steamship San Francisco arrived here February 27th, nine days from San Diego, Cal., and anchored in the harbor. The Peninsula will not leave here until after the 17th inst., on which date Queen Liliuokalani will hold a reception and a State ball will be given.

MURDERS BY A WOMAN.

A family of five persons was brought as prisoners from the Island of Lanai on February 21st, charged with the murder of some members of a family, having been introduced in Honolulu. The story, as told, is that remarkable curing powers had secured for Puuloole, one of the female members of the family, the services of a Kahunu, or one possessing of supernatural powers. Acting under the guidance of the spirit of Kihikihiki, which had power over her, she beat her sister Puu into a pulp with a club for questioning her powers.

The furious woman also clubbed to death her weaker kolo, a boy of six years of age, the rest of the family accusing or assisting in the deed. Paa, a brother of the woman, and about 20 years of age, was killed and buried by the family while Kahunu burned him over the face and body with a flaming torch dipped in oil. Kahunu, her fourth victim, was killed by the same means, the family while the woman beat him to death with a club.

As a result of the crime the natives deserted Lanai, where the tragedy occurred.

Dr. Davison, who examined Puuloole, found no reason to suppose her insane, and it is thought the murders were permitted by the family in the belief that Puuloole could restore them to life. Paa, the brother who was burned, is horribly disfigured, but is expected to recover. The trial of the family takes place shortly.

Swimming.

Among the delights of swimming is this, that it gives us our nearest approach to flying. The accomplished swimmer reposes on the surface of the waves as truly as the bird reposes on the underlying atmosphere, and with even greater ease, since the pressure of the water that sustains him is superior to the pressure of the air that sustains a bird, and that tend to draw him down. A bird even of the widest wing must move his pinions to some extent in order to avoid falling, but the swimmer may during an indefinite period remain absolutely quiescent upon the surface of the water. As to his position, gravitation is practically suspended, and atmospheric pressure is obliterated. By the aid of one of the elements of nature he has overridden one great law, to whose ceaseless effects upon our certain philosophers assert that we owe our ultimate dissolution. This constitutes one of the chief pleasures of station; although there are thousands of excellent swimmers who may never have grasped the thought in this direction, and yet have been able to swim in conditions very much as Monsieur Jourdain in Moliere's comedy found that he had been talking in prose all his life without knowing it.—Hiccupping in the Lippincott's.

Royal Baking Powder.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

WITNESS WITH GOD FOR WITNESS.

Human Judgment Had No Terrors for Him.

Frick Dent lay on his back and listened to the howling of the wolves in the timber, and the more oppressive breathing of his partner. He got up, crept across the gritty door, slid on his boots and went to the door. Outside, the dripping forest of evergreen pressed against the window one star was blurred and half smeared out. The heavy cotton comforter lay unrolled, like a mattress, upon the floor. He got up, crept across the gritty door, slid on his boots and went to the door.
