

NEW ENGLAND PIONEERS.

They Gather About the Festive Board in Boston.

And Talk Over the Events of Their Recent Visit to California—Their Annual Reunions.

Under the auspices of the Society of California Pioneers of New England a large excursion party started from Boston April 10, 1890, for California. On Monday, the 11th of this month, the second anniversary of that excursion was commemorated by a reunion of pioneers and their ladies and of those who went on that delightful trip, in the United States Hotel, Boston, where, from 2 p. m. to 6 p. m., an hour of pleasant social intercourse was enjoyed in renewing old acquaintanceship and friendships, and in comparing personal experiences.

At 3 o'clock the party marched to the spacious dining hall, where, according to the Salem Register, 184 ladies and gentlemen sat down at the tables; Hon. Frederick Deane, of East Boston, President of the society, called to order and invited Rev. Dr. P. M. Macdonald to invoke the divine blessing. The menu was embellished with appropriate California illustrations and the food was varied, delicious, abundant and promptly served.

Among the veteran pioneers present were Captain Peter Peters and the Rev. Dr. P. M. Macdonald, who was again in 1842 in company with ex-President William Adams, who was also present on this occasion. Mrs. Elizabeth Davis of Roxbury, who crossed the plains in 1843, and who was the only lady among the pioneers for whom a separate table was provided, and Hon. John Conness of Mattapan, who for six years represented the State in the United States Senate, had quite a delegation present at the reunion.

After due attention had been devoted to the banquet, President Macdonald addressed the speaking with an introductory address. He expressed pleasure at seeing so many familiar faces at the festive board. Some of the pioneers were with us until the excursion of 1890, but after leaving the Fitchburg depot on that memorable trip it was remarkable how rapidly acquaintanceship were made and friendships formed; but those friendships are enduring and will last while we live. Extended remarks were made on the social receptions that were extended to the party at different points.

Captain William H. Thomas made a stirring address, in which he gave an interesting reminiscence of the excursion of 1890, and drew amusing contrasts between the California that the pioneers found in 1840 and the California that the excursionists found forty years later. The pioneers feel a just pride at the share they had in laying the foundations of the State on a firm basis of freedom.

Hon. John Conness made a brief address, and paid a tender tribute to General Samuel A. Chapin, a member of the excursion party who died in California on April 17, 1890, and closed with an appreciative sentiment to his memory, and the company then adjourned and drank the toast in impressive silence.

Dr. V. J. Owen of Springfield spoke of the old friendships of the pioneers which were revived by the meeting and gathered in California in 1890, after long years of separation.

Eben N. Walton of Salem, in response to an invitation from the chair, said a few words upon the far-reaching influence of the noble stand taken by the early pioneers, who, in publishing the Pacific States, "built better than they knew," and the world is better to-day for what they did.

Rev. Dr. Macdonald made an excellent speech, showing that California had produced something grander and more sublime than the gold that first attracted attention to the Golden State.

Mrs. Mary A. Davis said she had gone to California when only 16 years of age; that time it was a very rare matter to find women among the pioneers, and in 1840 the ladies of the excursion party had no cause to feel lonesome on their visit to the Golden State.

Captain Thomas submitted a report recommending that the regular meetings be hereafter held at the United States Hotel on the first Tuesday of each month at 1 p. m., with dinner at 2 o'clock, and on motion of Mr. Conness the report was accepted and his recommendation adopted.

Much credit for the very admirable manner in which the arrangements were carried out is due to the committee, consisting of Richard Livingston, William H. Thomas, William H. Browne, E. D. Wadsworth and Josiah Hayward.

The Sound City Soon to Have a New Theater—A Would-be Philanthropist's Dilemma.

ENDS RECORD-UNION: Our city is soon to have a long-felt want supplied in the shape of a new modern theater. Work will be commenced at once, and will be pushed ahead as rapidly as possible. It is hoped to have the theater formally opened to the public by the 1st of October. The house will contain a seating capacity of 1,200, and will contain all modern appliances.

A certain gentleman in our city, in a temporary fit of benevolence, decided to construct on the plans of the California in San Francisco, the Marquien in Portland and the Tacoma in Tacoma. When completed, our city can boast of a theater second to none on the coast.

Whist on my way to Tacoma we passed through a little town by the name of "Thomas." It consisted of a few turn-downed cottages, a public house and hotel. Not a soul was in sight, when down the little village street swagged a mule, with the utmost sang froid it pushed over the side of the road.

Some days ago a party of gypsies landed in our city. From whence they came or what they were, no one knows. The party consists of a man who speaks a queer sort of lingo, which I think must be his native tongue of Romany, his wife, four ragged and dirty children, two performing bears and a little shivering, chattering monkey.

A certain gentleman, who was noted among his friends for his suave and bland manners, left the busy, bustling city and went to a little mining camp. The gold fever was at its height, and tempted by the tales of easy money, he followed. He traveled all day through the heat and dust and toward evening he was overtaken by a feverish chill.

A law was passed last winter in Minnesota affecting the sale of alum baking powders. The interest excited by the bill when proposed led to a long and thorough investigation by a legislative committee of the qualities of all the baking powders sold in that State, with the result that the Royal was shown by very positive evidence from the State Chemist, Dr. Drew, and others, to be the purest, strongest, and in all respects the best baking powder in the market.

She Cracked the Ice. "Do you think any girl ever proposes in leap-year, as they say, Jennie?" he asked. "Not unless she is obliged to," answered the maiden. "H'm! I had thought of that," he said, after a pause.

Their Only Medicine Chest. William W. B. Miller, Deer Lodge, Mont., writes: "I have been using BRANDETT'S PILLS for the last thirteen years, and though I have had nine children, I have never had a doctor in the house except three times, when we had an epidemic of scarlet fever, which we soon banished by a vigorous use of BRANDETT'S PILLS. I have used them for myself two or three nights for a month, for liver complaint, dyspepsia and constipation. In diarrhoea, cramps, wind colic, indigestion, one or two BRANDETT'S PILLS fixed the children at once. A box of pills is all the medicine chest we require in the house. We use them for rheumatism, colds, catarrh, biliousness and impure blood. They never have failed to cure all the above complaints in a very few days."
