ST. JOHN, GOV. MCKINLEY AND W. O. WARNER OF NEW YORK.

Prohibition, Protection and Tariff Reform the Leading Issues Discussed—Chairman Harrity Announces the Members of the National Democratic Executive and Campaign Committees—Warm Time at the Silver Party Convention.

Special to the Record-Union.

MADISON (Wis.), July 29.—Ex-Governor St. John of Kansas, Governor McKinley of Ohio, W. O. Warner of the New York Tariff Reform Club, addressed a Monona Lake Assembly to-day. Henry Watterson was also to have spoken, but was taken ill at Chicago.

St. John spoke in the forenoon on prohibition and tariff. He recited the prohibition arguments, and said that under the present system the liquor traffic was growing faster the past three years than ever before. Over the counters of the 250,707 saloons for the country, \$1,507,000, 600 was passed last year. This would pay the national debt.

St. John took the position that the whole tariff system was wrong in principle, because it levies burdens on what we consume instead of what we possess. Fifteen or twenty men control to-day all the means of reaching the markets of the world, and our merchant marine is practically driven from the high seas.

McKinley talks protection. In the afternoon Governor McKinley addressed an audience of 15,000 people. Speaking on the political issues, he said: "What is tariff reform, anyway; who can tell? Cleveland said it was to take the banks' clearings for the week ending July 28th, with the percentage, increase, and decrease, compared with the corresponding week last year: New York, \$47,453,000, an increase of 12.7 per cent; Chicago, \$4,222,000, an increase of 2.4; Boston, \$7,740,000, an increase of 8.3; Philadelphia, \$12,231,000, an increase of 25.7; St. Louis, \$12,988,000, an increase of 8.5; San Francisco, \$14,047,000, a decrease of 1.3; Baltimore, \$15,468,000, no comparison; New Orleans, \$17,231,000, an increase of 17.3; Seattle, \$20,473, an increase of 13.8; Pittsburg, \$16,251,000, an increase of 30.3; Minneapolis, \$6,850,000, an increase of 56.0; Omaha, \$1,007,000, an increase of 39.2; Denver, \$1,704,000, an increase of 17.5; St. Paul, \$5,107,000, an increase of 1.1; Portland, Or., \$1,520,000, an increase of 11.5; Salt Lake, \$1,335,000, an increase of 17.3; Tacoma, \$2,448,000, an increase of 55.2; Los Angeles, \$7,157,000, an increase of 10.1; San Antonio, \$1,085,000, no comparison; Helena, \$1,795,000, no comparison; Spokane, \$755,611, no comparison. Total of the leading cities of the United States, \$149,000,000, an increase of 13.1 per cent, as compared with the same week last year.

WARNER ON TARIFF REFORM. Mr. Warner spoke briefly from the tariff reform standpoint. "Tariff reform," said he, "is the greatest issue of the day. Do not think the farmers are as ignorant of these questions as they were four years ago. A stupendous kick will be made next November. Protection means taking money from one class of people and placing it in the pockets of another through the sanction of the law. The Democrats propose to take the tariff off of articles used by the poor and put them on luxuries, etc." Warner declared that free trade would raise over \$60,000,000 annually, and the advantage of the system is that the amount is taken from outside as far as possible.

A Stevedore Commits Suicide at Port Costa in a Shocking Manner, Cutting His Throat and Disemboweling Himself With a Razor—Hervey Lindley Nominated for Congress From the Sixth District on the Republican Ticket.

Special to the Record-Union.

SAN FRANCISCO, July 29.—The monthly meeting of the State Board of Horticulture was held to-day, Professor C. H. Allen of San Jose occupied the chair. The report of the committee appointed to consider the possibility of establishing a Dried Fruit Exchange in San Francisco stated that a meeting had been held with the fruit-growers and others interested to discuss the question, and it was the sense of the meeting that the season had too far advanced for the successful promotion of an exchange, but resolutions had been passed, asking the cooperation of the associations already formed, and to induce the sending of delegates to a convention to be held in San Jose on November 15th, then and there to organize a Dried Fruit Exchange.

Several members reported verbally as to fruit products and prices. The general statement was that the prices were too low and the product small, with the exception of Bartlett pears, the crop of which was good.

B. M. Leung brought up the question of the board sending an exhibition of fruit to the Food Exposition to be held at Madison Square Garden, New York, in October next. The only expenses to be incurred would be the cost of space and the care of the exhibit while on exhibition. This expense would be met by assessment, each exhibitor paying his pro rata share and no more.

The chairman appointed A. L. Bancroft, Howard Overacker and J. H. Shute a committee to nominate officers for the next year, and the meeting adjourned.

VACAVILLE BRIEFS. An Election on the Question of Incorporation to Take Place To-day. VACAVILLE, July 29.—After many attempts to have an election to incorporate the town, one was ordered by the Board of Supervisors, and to-morrow the question of incorporation will be submitted to the voters of Vacaville. Everything indicates that the incorporation will carry by a large majority.

Nearly all the buildings injured by the earthquake last April have been repaired. In every case the buildings erected have been improvements on the old ones. The public school building is now well under way and will be ready for occupancy on September 1st.

The ranchers are feeling good over the prices this year. The statement of the Bank of Vacaville shows receipts for fruit of \$234,000 since May 1st, and the receipts for fruit for the same period were only \$101,000—a gain of \$133,000. It is more money than was received last year, and that apricots and plums were light this year, and the season late. The promise of a remarkably successful season is good.

INCENDIARIES IN MENDOCINO COUNTY. WESTPORT, July 29.—A dastardly attempt was made at 2 o'clock this morning to burn the town by filling sacks with shavings and saturating them with coal oil and putting them in a doorway in the center of the block. MCKINLEY TARIFF LAW. Injurious Effect It Has Had on Farmers in the Mississippi Valley. WASHINGTON, July 29.—Hatch, from the Committee on Agriculture, to-day submitted a report on the effect of the present tariff law upon agriculture. It says there has been a steady decline in prices of farming products since the war, while under the same laws other interests have been more remunerative and prosperous.

The report insists that under the low tariff of 1892 agriculture enjoyed the greatest prosperity. The tariff of 1890, which has been in force since, has been to the disadvantage of European nations—our best buyers—against the United States, and in the retaliation which followed agriculture was an irreparable injury. The American farmer is compelled to sell his products in direct competition with pauper and slave labor of Asia and Africa, which sustains our wages averaging less than \$3 per month.

Reciprocity is denounced as a flimsy attempt to deceive farmers. "While of Iowa, in addition to the report, says no class of citizens are so thoroughly handicapped by the protective system as the farmers of the Mississippi Valley engaged in raising hogs and cattle."

Fusion of Kansas presented a minority report. It says the fact that the Democratic in the House, with a majority of 153, are about to adjourn without any effort to repeal the McKinley law should be a question to be asked: whether or not, in the opinion of the majority of the House, the law is wrong and oppressive. The minority report recites the benefits of reciprocity, and asserts that the statement that farms have shrunk in value is a matter of mere assertion, for which there is no data. In no other age, no other country and no other time in this country, has there been a law so economically character passed in which the interests of any class of persons were more carefully guarded than those of the farmer in the McKinley law.

McGarran Claim Bill Vetoed. NEW YORK, July 29.—The President has vetoed the McGarran claim bill. The bill passed Congress one week ago, and has been pending for the last twenty-five years.

The President bases his objection to the bill on the ground that it is so framed as to give full protection to the New York Central, and that it is in full extent of its largest claim, while throwing upon the United States a responsibility the company should bear if the title to McGarran is established. It seems clear to the President that McGarran is not entitled to the relief given by the bill, and that it does not adequately protect the interests of the United States.
