

BOLD, BAD MEN.

Sent to San Quentin to Serve for Many Years.

Known to Have Committed Seventeen Robberies, and Suspected of Being Murderers Also.

John Stevens and Edward Connolly, the men arrested at Lodi last May for burglaries committed in Calaveras County, and who are suspected of being the parties that robbed the San Andreas stage and killed a young lady passenger, were on Saturday taken from Calaveras to San Quentin, where one is to serve a sentence of thirty-nine years and the other twenty-seven years.

Stevens is supposed to be a fictitious name. He is 28 years old, and does not look a hardened criminal. Connolly is 34 years of age, and was the leader in all the robberies. He is a determined man and would apparently stop at nothing.

Had it not been for the exertions of Sheriff Patten the two would have been at liberty still. He met them in Lodi, and recognizing them from the descriptions distributed, at once placed Stevens and Connolly under arrest.

"The series of burglaries that took place in Calaveras, Tuolumne and Stanislaus last May," said Sheriff Patten in talking about the matter, "was unprecedented in the history of the State. There were seven burglaries in Calaveras, two in Stanislaus and six in Tuolumne."

"When I arrested the two men in Lodi they denied all knowledge of the affair. They were put in separate cells, and by working one man against the other I got Stevens to confess to nine burglaries and Connolly to twelve."

"It appears that on a number of occasions Stevens and Connolly committed the crimes alone. Among the places they robbed in company were three postoffices, in all of which they secured considerable money."

"Nothing seemed to come amiss to them. They broke into a dwelling-house just as soon as they would into a bank or postoffice. Considering the number of crimes they admitted and also the charges that were never pressed, I think the Judge was lenient in letting Stevens off with twenty-seven years and Connolly with thirty-nine years. The latter got the extra dose on account of being the leader."

"I am now working on the San Andreas and Sheep Ranch stage-coach tragedy. The evidence points to Stevens and Connolly as the men who stopped the coach. If things turn out I expect the two men will be charged with the murder of Miss Rodosino. As soon as I land them in San Quentin I will start in to work up the evidence against them both on that charge and in the Oakland train robbery matter."

"I caught the two men on May 23rd last, and as they pleaded guilty, did not take long to settle the matter after the preliminary examination."

Stevens and Connolly are also suspected of being the men who robbed the treasurer and clerk of the Judson Manufacturing Company while the latter was on his way to pay off the hands at the manufactory."

AN AWFUL FATE. That Which Befell Harvey Stockbridge in Nevada County.

A terrible accident happened about eight miles north of Nevada City, on Friday, by which Harvey Stockbridge, a young man of this city, met his death in a most horrible manner.

All that is known of the distressing occurrence is contained in a press dispatch from Nevada City, which states: "Harvey, the 22-year-old stevedore of Mr. Deals of Sacramento, while fighting the forest fire yesterday at Central House, eight miles above this city, was caught under a falling tree, and the body burned to a crisp. The heat of the fire discharging the cartridges in the pistol which the young man carried first attracted the attention of his companions to his fate."

The deceased was the son of Mrs. Deals by a former marriage. He was a young man of rare promise, and his untimely and awful death has brought grief and pain to many hearts in this community.

Harvey Stockbridge was a youth of many accomplishments. He was an engineer, an electrician, an expert in various other callings, industrious and honorable in all things. Lately he had been engaged in prospecting in Nevada County, and it is supposed that, finding the forest on fire, he lent his aid to those who were fighting the flames, and was thus engaged when he met his shocking death.

It has been found necessary to keep from his mother the circumstances of his death, as it is feared that a full knowledge thereof would cause her a fatal shock.

EVERYBODY'S COLUMN. Correspondence of Interest to the General Public.

Under this heading the RECORD-UNION will publish short letters from correspondents on topics of interest to the general public. The matter in these communications will be understood to represent only the views of the writers. All communications must be accompanied by the name of the writer, not for publication, unless so desired, but as a guarantee of good faith.—Eds.

Settled Definitely.

Eds. RECORD-UNION: As your correspondent, A. W. W., in his "angelic" communication of Saturday morning, seems greatly concerned about the sex of those ethereal beings commonly called angels, who inhabit the great beyond, I have taken the trouble to wire our Master of Telegraph and Telephone at Ganges, Mars, to ascertain all the facts in the case.

His reply speaks for itself, and ought to set at rest forever any doubts in the mind of A. W. W. or other terrestrial beings.

GANGES, Mars, 11:45 A. M., Aug. 22nd. G. H. Stipp, General Manager, M. L. T. Company, Sacramento, Cal., U. S. A. Dear Sir:—Your communication concerning sex of angels received. Since angels are not born to die, what would be the need of gender in heaven?

Our leading dictionary manufacturer up here says: "Where there is no relation there is no sex. Sex, therefore, is a condition of limited or relative existence, such as human beings."

Angels and all higher intelligences whose existence is unconditioned and who therefore belong to the absolute or real universe, are without the limitation of sex.

From the want of an absolute, or what may be termed a sexual, principle, angels have been the next best thing in your earthly paradise, which is the masculine gender. It would obviously be the same to use the neuter gender.

No far as angels have appeared in the region of Mars they have all been of the female gender, however.

ANGELS. I trust that this explanation will be satisfactory to all concerned and settle the question definitely.

GEORGE H. STIPP, General Manager Mars Interplanetary Transportation Company.

THE COOK AND THE CROCK. A Chinaman Who is Losing Faith in His "Friends" and "Cousins."

A Chinaman who cooks in a K-street restaurant seems to be losing faith in his countrymen. He yesterday announced his determination to stay away from Chinatown, as every time he visits there he encounters a tiger of some sort which devours his hard-earned dollars.

His visit to the haunts of his kindred on Saturday night resulted in his landing a "friend" \$10 for a few hours. When he asked for his money yesterday the impostor told him he was a "diam lian," and further, that if he talked back he

made trouble he would "fight him pretty bad."

"You not hab ten dollah," said the crook, "you all same blackmales—"

The cook feels unequal to the emergency and wails.

MYSTERIOUS CASE. Suspicious Conduct of a Young Woman on the River's Bank.

A young negro woman was seen in the vicinity of the bridge on Saturday night hanging about the river in a mysterious way. When addressed by a workman she said her father had died, and that she was hungry. After sending her a lunch the man reported the case to Chief Rodgers, who went to look the woman up.

Who was not found, however, and it was thought that she may have jumped into the river in her desire to quit this vale of tears and troubles. There has been no other reported missing, however, which is a pretty strong argument against the theory of suicide.

Assorted Sunday Jaws. Mrs. Mary Johnson, the "Denver Terror," and Maggie O'Connell, another dissolute female, occupied the women's cell in the City Jail yesterday, while opposite them the "hobo cell" was occupied by about fifteen selected vagabonds.

The compliments which were interchanged between the parties through the iron doors were made up of the most startling phrases that language could express, and the concentrated profanity in the room would have shamed a crew of pirates. Judge Cravens will have a chance at the collection to-day.

East-Bound Through Freight. SACRAMENTO WON. The Local Baseball Team Reaching for the Pennant. Yesterday Won by the Scott & Gilberts.

The largest crowd of the season visited the ball grounds at Vallejo yesterday to witness the game between the club of that city and the Scott & Gilberts of Sacramento. The game promised to be a good one, as both clubs had won three straight and the jumping of the Scott & Gilberts from fourth place to a close push for first made the Vallejo boys ginger up for the occasion.

In the first inning, by getting two men to bases on balls and an error, the Vallejos scored two runs, and the Sacramento failed to score. Neither side scored in the second or third.

In the fourth McDonald led off with a line drive over second and Stafford followed with a single and a hit. Then Paine drove the ball out for three bases, sending in McDonald and Stafford.

Then Neheroff made another single, making three earned runs in that inning.

Neither side scored after that until the seventh, when the Vallejos tied the score, and in the eighth they added one more, putting them in the lead.

In the eighth Stafford led off and got to first. Paine went out on a long fly, Neheroff advanced Stafford by a nice little hit, and then Campbell drove the ball to the left-field fence in the far corner of the lot, the longest hit ever made in the grounds. The Scott & Gilberts added one more run to their list, ending the game, with a score of 4 to 1.

In the first inning Paine got hit on the head by the finger and the wound bled as if a blood vessel had been severed, but he played the game out, and many remarks were made commending his pluck.

The pitching of good work was the principal feature of the game, the score of which was:

WORE GOLDEN GARTERS.

A Crosses in Tatters at the County Hospital.

An Old Man Found Sick and Starving in a Shanty—He Wore Garters Worth \$600.

The numerous tramps that trudged into the city during the last four days from the southeast approaches will feel like kicking themselves when they learn what a bonanza they missed by failing to "go through" a poor old sick man who lay in his rags at Thirty-first and W streets.

Who was received at the County Hospital yesterday, a man lay sick there, and J. H. Judge and Dr. White were sent to investigate. They found a man there delirious from typhoid fever, and with only a few rags for a couch. He had on his person a permit, dated the 18th, to enter the hospital, but had not been able to reach there, and would no doubt have died from sickness and starvation in another day.

The sufferer was unable to give his name, but from the permit it would appear to be "John Son." He was taken to the hospital, and as is usual in such cases, was first treated to a bath. This proceeding was not only a surprise to the patient, but resulted in one to the attendants and Dr. White.

When the old man was stripped they found a sort of garter tied about each of his legs. These garters were made of doubled and the edges sewn together. They had apparently been there for many months, if not for years, and each was found to contain from ten to fifteen twenty-dollar goldpieces, or \$900 in all. In short, the old man's legs were each encircled with a band of solid gold, making a pair of garters such as no lady in the land possesses.

In addition thereto he had something over \$8 in his pockets, and is the wealthiest patient in the hospital. The honor of treating at the hospital for many a day.

How a man will so much ready money could be allowed himself to get in such a condition from lack of medical attendance is not easy to account for, except on the theory that he is a thorough miser—one who would rather die than spend a cent. Dr. White was unable to learn anything concerning the man, owing to the latter's delirious condition.

He is thought to be about 50 years of age, but his appearance is that of one somewhat older.

It was resolved that caucuses be held in the respective city precincts on Friday, the 26th, at 8 o'clock P. M., at such places as may be appointed hereafter by the respective committees.

It is expected that on Wednesday Attorney-General Hart will render his decision in the matter of the application of M. M. Drew for permission to use the name of the State in an action to oust John B. Rodgers from the office of Chief of Police.

A Week's Failures. The Bradstreet Mercantile Agency reports fourteen failures in the Pacific Coast

States and Territories for the week ending August 19th, as compared with fourteen for the previous week, and twenty-three for the corresponding week of 1891.

The failures for the past week are divided among the trades as follows: Three tailors, two general stores, two saloons, two restaurants, one baker, one grocery, one hotel, one wholesale cigars and tobacco and one butcher.

Garrotted and Robbed. Jesse Allen complains to the police that late on Saturday night three men followed him out of the International Saloon and up to Sixth street, between I and J, where they beat and robbed him.

Allen says they took \$17.80 from him, beside a nickel-plated watch with a rolled-gold chain and a green glass charm.

If the money were only bogus the disfigurement of the garrotters would have been complete.

Troublesome Boys. The managers of the Florence Mission had a lively time of it yesterday chasing away the bad boys who persisted in interrupting the services there.

On two occasions persons on the street interfered on behalf of the "kids," claiming that they were being roughly handled. One boy yelled so loud he could be heard blocks away, causing a big crowd to gather at Third and J streets.

A Kangaroo Ranch. A man named L. Quigley, living in the southern part of the county, proposes trying the experiment of raising kangaroos. These animals navigate on two legs. They cannot vote, but they might be able to explain the Australian ballot system to those dull mortals who are troubling at the idea of having to do a little thinking on their heads.

"Frank" Rhoads Injured. A. J. Rhoads met with quite a painful accident late last Friday night. The night being sultry, he did not rest well after retiring, and in tossing about fell out of bed. He struck upon his right shoulder and fractured his collar-bone. A physician was called, and set the bone. Mr. Rhoads is confined to his bed, but expects to be out again in a few days.

DRIED GRAPES. Increased Demand and Higher Prices Therefor.

They are Now Said to be Worth \$70 Per Ton, Equivalent to \$15 for the Green Fruit.

During the past two weeks a surprising increase in the demand for dried grapes of the red wine varieties has been noted by those interested in viticulture in this State. The San Francisco Post states that a number of prominent local houses, such as the Johnson-Loeke Company, W. T. Beck & Co. and others are offering to take large quantities. A little while back there was so little demand that 14 cents a pound could probably not have been obtained, but the price has now advanced to such an extent that 34 cents has been offered and paid. This is equivalent to \$70 a ton for the dried grapes, or about \$15 a ton for the undried fruit—a better price than has been paid for several years back.

The entire crop of the following vineyards for this year is reported to have been contracted for: The Madera vineyard at Madera, the Bullock and Napa vineyard at Atwater, Merced County; Kohler, West & Minturn's and Webster & Sargent's at Minturn. Besides these are large portions of the crops of yet other vineyards have been purchased, among them those of the Fresno Vineyard Company, E. B. Rogers and the Burton estate at Fresno, the Norris vineyard at Fowler, Laithe's in Yolo, and many smaller vineyards in the Sacramento and San Joaquin Valleys.

It was at first supposed that the grapes were being bought up by Eastern winemakers, but it is now stated that they are being disposed of in large quantities to people in the East and also to other vineyards in the prices of California wine and grapes is reported both in San Francisco and New York.

Knights of the Trigger. The members of the Pacific Sportsmen's Club held their regular monthly shoot at the Gerber grounds yesterday.
