FRUITS, FLOWERS AND CEREALS.

FAIR AT MARYSVILLE.

The Large Pavilion Glitters With Brillancy-Finest Displays Ever Witnessed in That City.

Special to the RECORD-JOURNAL. MARYSVILLE, Aug. 30.-The ninth annual exhibition and speed program arranged for by the Thirteenth Agricultural District opened to-day in a manner which is gratifying both to the management and the people generally. Certainly this district has never presented such a diversity of products of the soil, and the large pavilion is to-night glistening with the many shaped figures which the taste of man and woman of Yuba and Sutter Counties have constructed by using the contributions of Ceres, Pomona and Flora. Hitherto handsome designs and attractive pieces have been considered as only being possible in a display of citrus fruit. The handsome set pieces of grain and deciduous fruits, under the rays of many electric lamps, contradict that notion, and the result of the present effort has made every farmer and fruit-grower very enthusiastic. By to-morrow night the displays will be complete, and present an unequalled spectacle in the history of country fairs. This show is certainly a novelty.

Special to the RECORD-JOURNAL.

LONDON, Aug. 30.-A Hamburg correspondent of the Standard telegraphs: Since last night there has been an enormous increase in the number of persons attacked and who died, 310 new cases and 310 deaths having occurred to-day. The intendants yesterday issued for the night, the total for the day being 250. A feeling of deep gloom has settled over the city. The loss to the commercial community is reckoned at several million marks daily. The exodus from the city is unabated, and the number of foreigners arriving has fallen to the lowest on record, there being only twenty-nine arrivals in all at the hotels of the city on Monday. The weather is damp and sultry; the temperature in the shade, a condition favorable to the progress of the epidemic.

AT BERLIN.

BERLIN, Aug. 30.-There was a slight abatement of the severity of the cholera epidemic at Berlin on Sunday to-night Monday. The record there shows twenty new cases and eight deaths. At night, for the same period, the record shows seventeen new cases and nine deaths. Three children and a conductor of a sleeping-car attached to a train were seized with cholera during the journey to-day and removed to a hospital at Ludwigslust. The conductor's wife died from the disease on Sunday.

A traveler from Hamburg was stricken with Asiatic cholera at Barnstadt to-day, and the authorities at once ordered the town to be covered with placards containing special sanitary regulations. The price of disinfectants, especially carbolic acid, has risen 100 per cent. in the city since the appearance of cholera. There is a normal increase placing the price of disinfecting articles beyond the reach of the poor. The newspapers advocate gratis distribution of disinfectants.

It is officially announced that cholera is prevalent in sixteen places in Schleswig and in three places in the district of Lauenburg. At Leinberg, a mass of cases occurred, and one case is reported at Neustadt. The patients at Leipzig and Neustadt both came from Hamburg.

The National Standard states that there are three distinct cases of Asiatic cholera at the Meabite hospital in Berlin. Two patients, it says, came from Hamburg, while the third is a Berlin waif laborer. During the past twenty-four hours seventeen new suspects have been taken to the hospital.

CASE IN LONDON.

LONDON, Aug. 30.-The first suspicious case of cholera in London was made to-day. Ida Sanyan, the 4-year-old daughter of a Russian, who arrived here from Hamburg on Saturday, was infected and taken to the London hospital Sunday, suffering with symptoms of Asiatic cholera. Inquiry was made at the hospital to-day and by the statement that she was no improvement. Her parents have not been affected by the disease.

Extensive reports to-day in Hamburg by the East End hospitals in the event of an extensive outbreak of cholera there is the strictest rules have been promulgated to keep both patients and their attendants isolated. The sanitary authorities have had their vigilance increased. Every day lodging-houses are subjected to rigid inspection, and it may truthfully be said that they were never in a better state of cleanliness. Inspection will be kept up as long as there is any danger from cholera.

It is well known that overripe fruit is a dangerous source of cholera, there is a sharp watch kept to see that all fruit is in prime condition. To-day the health authorities have sent upon a Covent Garden market and found many tons of garden fruit exposed for sale. It was all seized and condemned.

PANAMA, Aug. 30.-The Federal authorities of Colombia have issued orders closing Atlantic ports to vessels from all cholera-infected ports.

PRECAUTIONARY MEASURES.

Strict Quarantine of All Ports of Entry to be Enforced.

WASHINGTON, Aug. 30.-The official information of cholera in Europe received at Washington to-day was very meager, and confined to one dispatch from the Consul at Bremen. He cabled that there was no Asiatic cholera in that city, and every precaution is being taken to prevent it. The Treasury officials received assurances of the effectiveness of the National and State quarantine services, and they say the department has directed agents to prevent cholera gaining admission into the United States.

Cordon inspection and disinfection is being rapidly established on the seaboard to assist in preventing cholera along the Canadian and Mexican frontiers.

A circular letter on the subject was issued to-day by Secretary Spaulding this afternoon to the Collectors of Customs and others. The Collectors of Customs on the Canadian and Mexican frontiers are directed to exercise the most vigilant surveillance in the examination of immigrants and their effects and co-operate with the officers of the Marine Hospital at each port to prevent cholera from being introduced into the United States.

The Collector of Customs at Ogdensburg, N. Y., and Milford, Maine, were requested to advise the collector at each port in the inspection and disinfection of immigrants at those points should it be necessary.

At many immigrant stations on the north medical inspectors will be stationed to assist the regular immigrant inspector. In case of the establishment of an immigrant station at a port, the collector is drawn to within an hour by telegram from the Secretary and the United States consul should be shut out from the world on the case.

The result of the present epidemic has been to shut off suddenly new orders for shipments of provisions. According to the report of the United States consul there have been received no new orders for shipments to Europe for the last ten days. No dealer dares to order goods from Europe, and the result is that there have been received no new orders for shipments to Europe for the last ten days. No dealer dares to order goods from Europe, and the result is that there have been received no new orders for shipments to Europe for the last ten days.

THE FRESNO TRAGEDY.

MYSTERY STILL SURROUNDS THE KILLING OF McWHIRTER.

Strong Talk of Forming a Vigilance Committee and Ridding the Town of Ruffians.

Special to the RECORD-JOURNAL.

FRESNO, Aug. 30.-The mystery surrounding the assassination of L. B. McWhirter is still impenetrable. No new developments have occurred, and the people are beginning to feel somewhat anxious, fearing the assassin may be able to make his escape. The friends of the deceased are determined to spare no expense in hunting them down, and the reward fund to-day amounted to \$1,000. More contributions will be made. The rewards will probably aggregate \$15,000.

There is good reason to believe that a man with a gunshot wound in his hand was arrested Monday night and is now in jail. They deny in the Sheriff's office that the man is the assassin. Under an inspection of the jail register bears them out. It is quite certain, however, that they would not acknowledge that the assassin had been captured were such the case for fear an attempt would be made to lynch him. Several persons who were in the jail Monday night say it was guarded.

The indignation of the people has not been satisfied, and there is talk of organizing a committee to drive the criminal element out of town.

The number of theories has dwindled to two. The first is that McWhirter's death was the result of political animosity. He had aroused, second, that some private enemy, known only to McWhirter, had perhaps a few others, killed him. The third theory is that the assassin was a member of the Mafia.

The funeral will take place to-morrow morning at 10 o'clock from the family residence, and is expected to be a large one. The coroner's inquest will be held to-morrow afternoon.

INDIAN DEPREDAATIONS.

Trouble With the Apaches in the Mountains of Arizona.

EL PASO (TEX.), Aug. 30.-Joe Beach, better known as "Diamond Joe," the prospector, who left this city a few days ago with a party of Chicago mining men for Arizona, returned to-day from the Chiricahua Mountains, 70 miles east of Limestone, Ariz., and reported Apache Indian depredations in that locality. Kill the half-breed, was at the head of the raiding Indians, and the party stole a large quantity of stock after raiding the valley, after which they returned to the mountains and are secure.

Search reports of prospectors and mining men badly scared, and making out from the mountains to towns in the vicinity. In his opinion this fall will witness a bloody Indian campaign as has ever been known in the South and West.

DEMOCRATIC DAY.

Demonstration in Honor of Gen. Stevenson at Kansas City.

THE VICE-PRESIDENTIAL CANDIDATE WARMLY RECEIVED.

Rumors That Negotiations Are Pending for the Purchase of Samana Bay by the United States Government for a Coaling Station-Venezuela to be Brought to Terms for Arresting Political Refugees on Board an American Steamer.

Special to the RECORD-JOURNAL.

KANSAS CITY, Aug. 30.-This was Democratic day at Sothalia. The occasion was a great Democratic rally, at which General Adlai E. Stevenson, Democratic candidate for Vice-President; W. J. Stone, Democratic candidate for Governor; Senator Vest and Congressman Heard were the principal speakers. At least ten thousand visitors were in the city. General Stevenson held an informal reception in the morning.

The parade was formed at 2 o'clock and thirty Democratic clubs escorted the distinguished speakers to the city park, where Messrs. Stevenson and Stone spoke on the political issues of the campaign. Mr. Stevenson was widely applauded when he arose to speak, and it was several minutes before the enthusiasm subsided sufficiently to allow him to proceed. His remarks were intensely listened to and frequently applauded. He confined his remarks almost entirely to the tariff, declaring that he was not in favor of any tariff other than the present tariff. He addressed his remarks particularly to the agricultural class, many farmers being present. Mr. Stevenson spoke a few words for the State ticket.

This evening Senator Vest addressed an immense audience under the opera-house and in the Hall of the Opera House. Congressman Heard spoke at a large meeting at the Courthouse. The enthusiasm at both meetings was great.

BROUGHT DOWN WITH BULLETS.

Two Convicts Shot While Attempting to Escape From Prison.

JACKSON (MICH.), Aug. 30.-Edward Huntley, a thirty-year-old burglar, John Davis, a five-year Kalamazoo burglar, and Lige Bullard, a Detroit criminal, attempted to escape from the Penitentiary this morning by climbing the prison walls. Huntley and Davis were fatally shot and all were recaptured. The attempt was made at 7 o'clock and was timed to the best advantage. Huntley and Davis were the first to scale the wall. Huntley was the first to be shot, and fell from the wall. Davis followed him, and was also shot. Bullard followed them, and was also shot. He was the last to be shot, and fell from the wall. The guard fired three times at the men, but missed. His gun then failed to go off. The guard then fired at the men, but missed. The guard then fired at the men, but missed. The guard then fired at the men, but missed.

In some way the convicts had secreted a long ladder near the southwest corner, by which they were enabled to batter down the door to secure his gun. Huntley carried a board shield, four feet long and four feet wide, which he held in front of him to protect him from the bullets and rocks which were directed toward him. Seeing all three of the guards coming, he threw the board shield, and started to run. Clark had put new cartridges in his gun and resumed firing. He struck Huntley twice, one ball entering the right side of his hip, and the other lower down in the back. Freeman came up at this juncture and brought Davis down with a ball in his forehead, which was fatal. Bullard threw up his hands, and was handcuffed and brought in.

THE VENEZUELA INCIDENT.

An Apology Must be Made for Seizing the Refuzuela.

WASHINGTON, Aug. 30.-Orders have been issued directing the gunboat Concord to start for Venezuela at once. The Concord is now at New London, Conn. The purpose of sending the Concord to those waters is to give whatever protection may be needed to American interests in Venezuela pending the settlement of political conditions. Incidentally, however, she will be expected to back up any demand for the extradition of the fugitive in the Caracas Government for his seizure of political refugees on the American steamer Caracas at Puerto Cabello a few days ago.

COALING STATIONS.

Mission of Minister Durham to San Domingo.

NEW YORK, Aug. 30.-When the United States warship Kearsage was about to sail from this port the people were given to understand the old vessel was bound for Honduras. Instead of going there, however, she went to Port-au-Prince. A Washington dispatch now says the vessel has been ordered instead to proceed from Port-au-Prince to San Domingo and thence to Laguaira, Venezuela. So as the Navy Department is advised she is to make this trip for the purpose of conveying Minister Durham on his usual semi-occasional visits of inspection to San Domingo. It is rumored, however, that the present movement of Minister Durham to San Domingo is to close negotiations for the purchase of Samana Bay as a coaling station. The President, it will be remembered, has at his disposal \$25,000 for procuring coaling stations, and it is thought not unlikely that part of this may be expended on Samana Bay and the remainder on Pearl Harbor.
