Wheat Prices Steady and Firm, With a Hardening Tendency.

Fruit Market Plentifully Supplied With Common Grades and Prices Weak.

SAN FRANCISCO, January 20th.

The market opened weaker than last morning owing to a heavy decline in the East, where the markets broke back 1 cent, recovering a little at the close. The effect here was very slight and the prices were steady and firm, with a hardening tendency.

The Eastern markets just now is that the dread of the passage of the anti-trust bill has unnerved operators, who are inclined to be bearish in consequence. There are grave doubts that the measure will be passed, but so long as it is pending so long there will be an uneasy feeling in the speculative markets.

The sales in both wheat and barley were very light to-day, only 800 tons in all changing hands. Of dry wheat, 300 tons of May wheat at \$1.33 1/2 to \$1.34, and 400 tons of May barley at from 67 1/2 to 68 1/2 c.

The vegetable market shows no change, with the exception of firmer prices for Asparagus, which was in light demand for shipping purposes northward.

There were no alterations in the prices of Potatoes, although the market had a firmer tone. Choice onions were firm. Green peas came in light and a slow sale. Mushrooms are plentiful and fairly firm. A few string beans still come in, but hardly enough to quote.

The fruit market is loaded down with oranges from every quarter and prices are weak under a steady demand for shipping purposes. Apples are in good demand and sales of Santa Barbara are reported as high as \$4. There are plenty of apples of dry common varieties and fresh supplies of choice Northern are now expected.

Fruit is in good supply. The poultry market is quiet with an easier feeling to-day owing to a reduced demand. Game came in light to-day and on top of the small receipts yesterday, the scarcity seemed to raise prices, with prospects of a still further advance.

The butter market is weak in all lines, and stock of low grades are accumulating for export purposes northward. Eggs are also easier, the stocks increasing under a slow demand. Cheese is steady.

Flour—Quiet trade, mainly on local account. Net cash prices for Family Extras, \$3.90 1/2 per 100 lbs. bakers' Extras, \$3.90 1/2.
