

OVERWORKED TEACHERS.

Those in the High School Have No Rest From Labor.

An Additional One to be Employed—Another Class at the Capital Primary School.

At the regular monthly meeting of the City Board of Education...

The committee on Furniture and Supplies reported that various deficiencies had been supplied in several of the schools...

The Chairman of the committee was authorized to make the necessary repairs at the proper time.

H. W. Longdon addressed the board with regard to the "fire reporter," of which J. W. Galt gave an exhibition at the old Pavilion last week.

The consideration of the matter was referred to the Building and Repairs Committee.

E. M. Hoen, a young man in Architect Seidler's office...

The continuous talking and teaching, said Mr. Pond, probably induced much of the sickness from which the teachers had suffered...

Not only this, but they often stayed after school was dismissed to give needed instruction to those who were unable, without this extra instruction, to keep their work up...

In answer to a question Mr. Pond said that poor ventilation of the rooms might have its effect...

On motion of Director Erlwine, the board decided unanimously to employ another teacher, possessing the necessary qualifications, at \$100 per month...

Superintendent Hart reported that the high school diplomas were exhausted, and was instructed to procure two hundred.

The Superintendent introduced the following resolution: Resolved, That from and after this date salaries of teachers shall not be deducted for absence caused by sickness...

The resolution was laid over for a month, according to the rules.

On motion of Superintendent Hart it was ordered that another class be formed at the Capital Primary school from the two first grade classes...

Miss Fay was transferred from Twenty-fourth and N streets to Fourth and Q streets to take charge of the class.

The Board proceeded to elect a substitute in Mrs. Parsons' place, and Misses Barton, Turner, Klotz, Ryan, Long and Mrs. Phleger were nominated...

The matter of German teaching of gymnastics was left to Director Harrison to consider and report at the next meeting.

It was ordered that the matter of placing a telephone in each school be postponed indefinitely.

The Secretary was instructed to proceed to have the rules and regulations printed.

A communication from the President of the Museum Association with regard to teaching the pupils perspective was read and referred to the Committee on Course of Study.

Miss Clara Chandler of Colorado, Miss Klotz and G. J. Smith of Washington, D. C., made application for positions as teachers.

DEFEATED THE PEARL.

Robert Dobbs Outgenerals Him and Wins the Money.

There was a big crowd at Armory Hall last night to see the glove contest between Harris Martin, better known as the "Black Pearl," and Robert Dobbs.

Both are Eastern colored boxers with good reputations, particularly the "Pearl." The latter is one of the most formidable-looking athletes ever seen in this city.

He has massive muscles, immense neck and shoulders and heavy arms. But he lacks quickness and science—and last night even lacked the ability to "slog," as the expression goes.

His opponent more than made up for his disadvantage by the cleverness of his attack. The Pearl was anxious enough, but could not get at his adversary.

For several rounds no blows were struck other than a few light left-hand punches from Dobbs. The men were very quiet of each other. In the fifth round Dobbs suddenly landed a right-hand blow on the Pearl's chin, knocking him against the ropes.

From the contest was somewhat monotonous. Two or three rounds would pass without any work of consequence being done. Then Dobbs would rush forward and deliver several right-hand jolts, which disconcerted the Pearl.

The contest was a good one. There was nothing gory nor brutal about it. The affair was neatly and brightly managed by Harry Ketchum, and the crowd was very orderly one. The contest was for a \$500 purse.

AMUSEMENTS. A large audience at the Opera-house last night witnessed the initial performance of "The Black Pearl," a sensational melodrama, introducing realistic scenes in convict life within Portland prison walls in England.

The new leading man, Mr. Hallett, had the role of the villain, with very little opportunity to prove his mettle, but he had enough of an opportunity to show that he is a practical and capable actor.

Miss Girard, a new face, needs to put more of feeling and animation into the part of Nellie. Mr. Waldron had the low comedy part, and did it thoroughly well.

Jennie Calaf had a touchingly pathetic role, and played herself as good in that as in comedy. The piece took well, was excellently staged, and is certain to run to full houses the week through.

This evening at Pythian Castle Miss Annie Murrells will give a dramatic recital, aided by local talent in music, vocal and instrumental.

Miss Murrells has a beautiful soprano voice, and her performance in the early part of the evening by members of the Sacramento Athletic Club, which will have many new features this season.

That of Berlin has proven a great success. Berlin, Germany, is to be congratulated upon the cheap and efficient way in which it utilizes its sewage.

The distribution of the sewage is accomplished by means of underground cast iron pipes. The degree of purification attained has been excellent, as on an average from 95 to 98 per cent. of the organic ammonia contained in the sewage has been abstracted from the farms.

The health of the population living on them and the prejudice against them, which was at first very strong, has almost died out. Berlin is now a model of a city.

Mr. and Mrs. Harry Gillig are now in London. They will return in about a month and will spend some time in the State.

The engagement of E. C. Horst of New York, a well-known hop-bopper, now in this city, and Miss Daisy Brown, daughter of late W. B. Brown of this city, is announced.

George W. Lorenz and George W. Jackson and wife left last evening for Los Angeles, having been called to the bedside of George Lorenz, father of George W. Lorenz and Mrs. George W. Jackson, who has been stricken with paralysis and is now lying very low.

Arrivals at the Golden Eagle Hotel yesterday: Ezekiel Wilson, R. P. Doolan, M. D. Schuck, E. J. Mills, A. T. Spotts, C. W. Cross, Fred G. Gandy, J. M. Ewing, W. C. Mardock, Jno. P. Babcock, G. W. Bothwell, A. S. Lipman, W. A. Davis and wife, Chas. S. Wheeler, C. P. Heining, C. K. Royce, H. Porter, Mr. and Mrs. J. A. Johnson, E. A. Phillip, Warren B. English, Garrett McKerny, came up from San Francisco last night.

NEW ENGINE-HOUSE.

One to be Provided for the Fire Engine at Nineteenth and L Streets.

The regular monthly meeting of the Board of Fire Commissioners was held last evening, all the members being present.

The question of supplying suitable quarters elsewhere for No. 3's engine house, now located at Nineteenth and L streets, was discussed. Plans for a new house were submitted, and after consideration were laid over for future reference.

The question of buying more hose was brought up, but no action was taken. The board then went into executive session, after which it adjourned.

RED SNOW IN THE FAR NORTH. It is Found Elsewhere, but Most Frequently in the Arctic Regions.

One of the greatest curiosities of the Arctic regions and of mountain districts, where snow lies on the ground a large part of the year, is the occasional appearance of red snow. It has been found in all parts of the earth, but most frequently in the Arctic zone and along the slopes of very high mountains.

The patches in Colorado and on the sides of Mount Shasta, in California, and in Polar North America, and particularly in Greenland, there are large tracts of it, sometimes extending for many miles in all parts of the earth, but most frequently in the Arctic zone and along the slopes of very high mountains.

It is a somewhat curious circumstance, says the London Standard, that at the very time when we are told that the characteristic Japanese flower, the chrysanthemum, is about to be introduced to this country, the Japanese have come to the conclusion that a vegetable diet, especially that in which rice is dominant, is more healthful than the diet to which we are accustomed.

It is commonly and truly said that in England we do not make fish as much use as we should properly do of the harvest of the sea, and that the exhibition was socially and financially a brilliant success.

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

THE PISTOL VICTIMS.

No changes were reported yesterday in the condition of Zemarsky and Gillo, the victims of the street fight of last week.

Police Judge Buckley declared yesterday that he should endeavor to have the latter removed from the jail cell where he lies to the Receiving Hospital, which is a little more comfortable.

Attended Burial. About 2 o'clock yesterday morning a Special Officer May was approaching the store on the southeast corner of Third and J streets, three or four young men were seen apparently attempting to remove a shutter so as to gain entrance to the store.

Candidate for Mayor. George H. Stephenson, the well-known insurance agent, announces himself to-day as a candidate for Mayor, "subject to the decision of the people," which means that he will run independently of any party.

Left the Sinking Ship. Governor Markham has accepted the resignation of Frank J. Moffitt, as a member of the State Board of Forestry.

THEY WANT TO BE TALLER. So the Japanese Will Cultivate the Habit of Eating Meat.

A Ruddy Glow on cheek and brow is evidence that the body is getting proper nourishment. When this glow of health is absent assimilation is wrong, and health is letting down. Scott's Emulsion taken immediately arrests waste, regardless of the cause. Consumption must yield to treatment that stops waste and builds flesh anew. Almost as palatable as milk.
