No Change in the Sample Wheat Market in San Francisco.

Strong Upward Tendency to the Barley Market—Dealers in Oats Looking for Better Prices.

The sample wheat market shows no change. The situation is anything but interesting, as shippers are not buying to any great extent and movement is therefore of small proportions.

Dry weather is the prevailing factor just now in the barley situation. Rain is wanted in more than one section, and much depends upon atmospheric conditions for the next week or ten days.

The general situation in Oats is encouraging for the shippers. There is a steady lowering of stocks and dealers are looking for better prices in the near future.

The vegetable market cleared up well this morning with prices steady. Onions are firm.

The supply of Fresh Fruit was augmented this morning by the receipt of a car of Strawberries from P. Small, Mountain View, which sold at 75 cents a basket.

There are no changes in the prices of Butter and Eggs. Butter is quiet and steady.

The poultry market is well supplied and prices are firm.
