

THE LOCAL INDUSTRIAL PROBLEM.

A Large Mass Meeting Held at the Plaza Last Night.

Resolutions Passed Calling on the Authorities to Provide Them With Transportation.

The Industrial Army still remains at Agricultural Park, waiting for some action to be taken toward providing transportation for them Eastward. Colonel Inman stated to a Record-Union reporter yesterday that he was informed that the Mayor was in correspondence with Eastern roads to see what could be done in that way.

The men had breakfast yesterday and some provisions remained, in the way of potatoes and bread, tea and coffee. There was no meat, however. Strict discipline is observed, and guards are on duty at all times.

IMPOSTERS DRUMMED OUT.

Yesterday morning a man who was found to have money enough to pay his fare East, but who had been eating with the army and trying to obtain free passage with them, was ignominiously hustled out of the camp. A court-martial was also held on a member of the army, it having been ascertained that he had property both in Oakland and the East. When questioned, he admitted that he had property both in Oakland and the East, whereupon his badge was taken from him and he was expelled from the army, Colonel Inman saying he did not propose to have the people asked to support such men.

LAST NIGHT'S MEETING.

In the evening a mass meeting was held in the Plaza. Several conservative estimates placed the attendance at 1,400 to 1,500, while some persons thought there were 2,500 present. The meeting was a very enthusiastic one, and was addressed by several speakers.

A. B. Sanborn said he had been assured by a competent lawyer of this city that there was no legal obstacle to the case of the men being considered an emergency, and that neither the Supervisors nor the Trustees were debarred from rendering them help. They wanted work, if they could get it, and several of them had accepted places offered them. There is no work in the country, as farmers can get no money to pay for it, and will probably have no crops. He favored the authorities sending the men forward to the East.

BAD ULCERS ON LIMBS.

Suffered five years. Could not Sleep or Work. Perfect Cure by Cuticura.

For five years I had on both my legs three very bad ulcers just above the ankles. One was as large as a five cent piece and was into the bone, and hurt me very much night and day so that I could not sleep for the itching and burning. I had to get up three or four times a night. Did not know what to do with myself, as I could not work. Called a doctor, but he did not do good, and in all I had six of the best doctors I could get, but they could do nothing. I spent dollars after dollars on different kinds of salves, but all to no good. I heard of a great doctor and sent for him, but he gave me no relief. I gave up all hopes of ever getting cured. Nothing did me any good until I tried your valuable CUTICURA REMEDIES. The first application my legs began to feel better, and the itching, smarting and burning stopped. I kept on with them, and after using them for three months I was entirely cured. I used several boxes of CUTICURA, one cake of CUTICURA SOAP, and three bottles of CUTICURA RESOLVENT. Five years I suffered, and can give it to be the fact that people who have such things where I now live. If any one doubts this, come to me, and I will show them with the greatest of pleasure what they have done. I cannot speak too highly of the CUTICURA REMEDIES, and shall recommend them to others as a sure cure. I would not be without them. FRANK T. LITCHMAN, 655 Ferry Ave., Ward 8, South Camden, N. J.

RESOLVENT CURES BABY.

I wish to let everyone know what good the CUTICURA RESOLVENT does for little girls. From the time she was one year old till three, she was one mass of sores and scabs all over her face, hands, feet and neck. Tried several doctors without relief. At last I heard of the CUTICURA REMEDIES, bought seven bottles of the CUTICURA RESOLVENT and she was cured. In 44 four years since she took it so steady, and is now at seven years old healthy child, thanks to the CUTICURA RESOLVENT. FRANK T. LITCHMAN, 655 Ferry Ave., Ward 8, South Camden, N. J.

Albert Curlin said it was a serious question before the people—one not of the past, but of the future. Many people think it is not the duty of the authorities to send the army away, but that they should each man shift for himself. He thought that the government of the State should help them. The Governor should call an extra session to appropriate \$1,000,000, if necessary. He believed it was the duty of every citizen to aid in some way these men to go East. They have been lured here by misrepresentations of plenty of work. He thought resolutions expressing the sentiments of the meeting should be passed. His hearers, he said, were responsible for the present state of affairs, for they had not discharged their duty politically. They had allowed themselves to be led by party. He advised the men of the army to act prudently, as in the past. He hoped this meeting would appeal not only to the hearts, but the pockets of the citizens.

The following resolution was passed:

Resolved, That the 3,000 citizens of Sacramento assembled in this meeting on the 24th day of April, 1894, respectfully petition the city and county authorities of Sacramento to take the necessary steps to employ the industrial army, now encamped at Agricultural Park, to some Missouri River point.

John Hantzman made a few remarks, saying that the appearance of the men of the army told clearly that they needed the serving of help. He called on John A. Sheehan to speak.

Mr. Sheehan began with a sarcastic allusion to the "Golden State," where such misery was seen, and paid his respects to President Cleveland in a bitter way. The time had come, he said, when some relief must be found for these men and others in the same condition. The meeting should not be content with resolutions, but should see that they carried with them something that would arouse the attention of the city and county authorities. This people should remember at the ballot-box the men who are responsible for this state of affairs.

George J. Long had a proposition to make. It was made in San Francisco—to request the Governor to call an extra session of the Legislature and levy a special tax to afford employment to the unemployed men of the State.

Colonel Inman then addressed the meeting, thanking the assembly for the sympathy expressed by them for their men. He was proud to command the army, and defied anyone to call a professional tramp among them. Five-sevenths of them are skilled laborers, fifty-two trades being represented. He had asked the Trustees to put his men at work while awaiting the solution of the transportation question. He would have them clean up the alleys and streets, at a cost of twelve cents a day per man, which would relieve the poor people who are now contributing to help the army.

He had been told that there was no fund at present from which to pay for such work. He would say that if any citizens wanted grass cut or any work done, his men would gladly do it for small pay or for bread. The blacksmiths at the railroad shops had this night sent him \$55.25, and the rolling mills sent \$80 yesterday. The men have a small amount of provisions but no meat. He narrated some touching incidents that had happened at the park.

PROPOSED ACTION.

A committee of five was appointed to present the resolution as the sense of the meeting to the Trustees and Supervisors. It is composed as follows: A. W. Smith, A. B. Sanborn, John Daroux, J. R. Hughes, R. C. Jukes.

It was announced by A. B. Sanborn that if it was necessary to bring more pressure to bear on the authorities, in order to induce them to carry out the wishes of the meeting, another meeting would be called, of which due notice would be given, but it was hoped it would not be necessary.

After the meeting the army was mustered in line and gave three cheers for Sacramento.

By request of a lady who was at the meeting last night, Colonel Inman respectfully asks that the ladies of this city send out to the park any old quilts or blankets that they may have, as the members of the unemployed army sorely need them, many of the men having to sleep without covering.

Real Estate Transfers.

The following real estate transactions have been recorded since our last report: Eliza H., J. H. and Amy M. Hooker to John Mackey—Blocks A and B and Twenty-third and Twenty-fifth streets; blocks C and E and Twenty-third and Twenty-fifth streets; block 1, A street and American River and Twenty-fourth and Twenty-fifth streets; block 2, A street and American street and Twenty-third and Twenty-fourth streets; block 23, American street and American River, and Twenty-third and Twenty-fourth streets; \$2,755.

Auction Sales. At 323 J street Bell & Co. will sell at auction to-day at 10 A. M. a large and varied assortment of household articles, such as parlor sets, mattresses of all kinds, extension tables and dining-room chairs, a Mason & Hamlin organ, one late style gas stove (cost \$25), iron stoves, tables, chairs, carpets and two truck loads of other household goods.

R. E. Greer & Co., at 1004-6 J street, will sell at 10 A. M. to-day and to-morrow, by a special order, the large and elegant line of parlor, bedroom, kitchen and dining-room furniture, carpets, gasoline stoves, crockery, glassware, etc., now on exhibition in their store. Also will be sold one fine phaeton in good order.

Those Japanese Workmen. The statement published last evening that "the work at East Park was being done by the East Park Association, of which L. L. Lewis is President," is an error. East Park is owned by the East Park Association, but it has been leased to the Central Electric Railway company, who have let the work of clearing it up to a contractor, who is employing Japanese laborers. Mr. Lewis has nothing to do with the work.

The Streets Lighted. Last night the electric current was turned on, and for the first time since the burning of the company's plant, several days ago, the streets were lighted, greatly to the relief of all the residents of the city.

Plasters. If you are thinking about buying a plaster, remember that you will place it upon your body and cannot get a plaster that will be too good for you.

Alcock's Porous Plaster is the best plaster made. Your druggist may have some other plaster on his shelves which is anxious to get rid of, or else some worthless imitation purchased at a low price for the purpose of substitution. Do not accept his "Just as Good" plea, insist upon having the genuine. Alcock's Porous Plaster has no equal.

NORTON BUSH'S WORK IS ENDED.

Death of the Celebrated Painter at Oakland Yesterday.

An Artist Whose Works are Known and Admired All Over the Country.

The death of Norton Bush at Oakland early yesterday morning did not come upon his relatives in the nature of a surprise, for his life's current had been slowly ebbing for weeks past. Here in Sacramento, where the deceased lived for so many years, and where everybody was his friend, the news of his death will be received with pain.

The immediate cause of his death was palpitation of the heart, but the primary cause of his recent illness has been laid to a severe attack of the grippe a few years ago, aggravated by overtaxing his strength at the World's Fair, where he had charge of the California art exhibit. He was attended in his last illness by his brothers David and George, also by his niece.

Norton Bush came to California in 1853 from New York. He received his early education in the city of his birth—Rochester, New York. A natural taste for drawing and painting was encouraged, and his first teacher, William Harris—a painter who had studied under the best English artists, and was of note himself—aided and encouraged him in every way, as he saw his natural talent. After leaving Western New York he studied under Croyse and Turnbull. His first picture, after arriving in California, was one of Mount Diablo, and this is now owned by one of the pioneer citizens.

His pictures have always been very popular, and are to be found in all the public galleries and the art galleries of nearly every prominent citizen in the State. Tropical pictures won him his greatest reputation, and his favorite subjects were those of tropical scenes. He made three trips to Panama after arriving here, and visited also Peru, Nicaragua and the other Central American States and Mexico. In Peru he painted several pictures for the late Henry Meigs, whom he had known in San Francisco. For many years he has been in charge of the art exhibit in the State Fair.

Norton Bush's mother is still living at the age of 81. He has two brothers living in this State—David Bush of San Francisco and George T. Bush of Martinez—and one sister, Mrs. Jasper J. Jones of San Jose, besides a brother in New York.

Returned From Denver.

Ex-Police Captain I. J. Simmons, who went to Denver as agent for the State with a requisition for James Jordan, the Wachhorst diamond robber, returned yesterday.

Simmons says he did not get a glimpse of Jordan while there, the latter being discharged from custody on April 20th of the city while he was waiting for Governor Waite to sign the requisition.

Lost a Leg

But Hood's Sarsaparilla Purified, and Restored Health.

"C. I. Hood & Co., Lowell, Mass. 'Gentlemen—Three years ago a file penetrated one of my legs just above the knee. I was some distance from a doctor and the wound was not properly dressed. Failing to receive the necessary treatment,

Blood Poisoning set in. I became so weak and my system so much run down that I could not turn in bed or help myself in any way. After seventeen months' confinement, my wife took me to Walla Walla, Wash. Here the surgeons amputated my leg half way between the knee and the hip. Following this my health improved slightly but shortly thereafter began to form on my body and caused me much pain and suffering. Several remedies were tried but did not give me relief. Finally Hood's Sarsaparilla was recommended and

I Could See a Change from the first. Gradually I have improved; I am growing stronger and the painful gatherings have disappeared and I am about cured of my
