

THE FALL CAMPAIGN.

Political Parties Preparing for the Coming Affairs.

MISSOURI REPUBLICANS MEET AT EXCELSIOR SPRINGS

Indiana Democrats Hold a Convention at Indianapolis, Adopt a Platform and Nominate Candidates for State Offices—Ex-Vice-President Morton a Possible Candidate for Governor of New York.

Special to the Record-Union.

EXCELSIOR SPRINGS (Mo.), Aug. 15.—Before convening the Republican State Convention, this morning, the Kansas City delegation, in caucus, adopted a resolution declaring for Colonel L. H. Waters for temporary Chairman, Major Warner's name not being mentioned.

Chairman I. Filley and Major Warner were heartily cheered upon entering. Although both asserted the convention would be harmonious, several fights were known to be on the tapis.

After much wrangling Colonel Warner was finally decided upon for temporary Chairman. Colonel Waters will be made permanent Chairman.

There were 946 delegates present at noon when the convention was called to order.

Chairman Bothwell presented Colonel Warner, who fiercely arraigned the Democratic party for striking down the industries of the country and betraying silver.

Colonel Kerens of St. Louis asked the convention to adopt the following: Resolved, That the Republican party emphatically protests against the importation of such foreign doctrines to our midst, any such out-bound organization, under whatever name, whose secret professions are hostile to religious beliefs of any religious denomination or church organization, and we declare that no such secret organization shall have the countenance of the Republican party.

Resolved, That the Republican party emphatically protests against the importation of such foreign doctrines to our midst, any such out-bound organization, under whatever name, whose secret professions are hostile to religious beliefs of any religious denomination or church organization, and we declare that no such secret organization shall have the countenance of the Republican party.

Louis addressed the convention. The convention then adjourned sine die. The report of the Committee on Resolutions which was unanimously adopted is as follows: "The Democratic party has been in complete control of this Government for eighteen months, and during that time a condition of affairs confronts the country that beggars description, and causes the people to look to the future of our nation with distrust and undimmed alarm. Therefore, the Republicans of the State of Missouri present the following declaration of principles: "We again demand for a system of protective duties, adjusted so every American resource can be developed by American labor, receiving American wages, and we insist upon a tariff that will accomplish these ends. We have but to mention the disastrous results which have followed the mere menace of free trade as conclusive evidence of the wisdom of the Republican party in the past upon this subject.

"We favor the enactment of laws that will prohibit the immigration of anarchists, and demand the strict enforcement of the immigration laws. "We reaffirm the unwavering devotion of Missouri Republicans to the supreme right of every qualified voter, rich or poor, native or foreign born, black or white, to cast a free ballot at public elections and to have that ballot counted as cast, and we demand that the right of every voter under cover of law preventing qualified voters from depositing their ballots and having them counted.

"We declare that the interests of the people demand that every dollar, paper or coin, issued shall be as good as any other dollar. We favor the largest possible circulation of silver, consistent with the permanent maintenance of equal purchasing and debt-paying power of all dollars in circulation. We do not want monopolization of either gold or silver, and we pledge ourselves to continue to work for bimetallism and to bring it about by all means within the power of the Government.

"The Republican party, ever mindful of the patriotic services and sacrifices of the veteran soldiers of the republic, repudiates its position in favor of liberality to the nation's defenders. We favor the granting of pensions to all honorably discharged Union soldiers and sailors whose disabilities and necessities render them thereunto, and we unhesitatingly condemn the illegal action of the Pension Department of the party in power."

INDIANA DEMOCRATS. INDIANAPOLIS, Aug. 15.—The largest convention in the history of the Democratic party of Indiana convened at 10 o'clock to-day. There were 1,747 accredited delegates. Chairman Taggart introduced Governor Matthews as temporary Chairman, who was received with loud cheers. Matthews made a strong speech, in which he declared the Democracy was fulfilling its promises as rapidly as possible. The Democratic platform will be strictly adhered to until complete reform in national taxation is attained.

Governor Matthews denounced the Republican party, which for thirty years enriched the few at the expense of the many, which begot extravagance which reached the uttermost limit of the Government. The Democrats had come into power only to find a depleted treasury and the entire country in a condition that resulted in financial depression. Although enough great obstacles, the Democrats are redeeming one by one the pledges made in 1892. It might not be possible for the present Congress to bring about all the reforms proposed by the Democracy, but a start had been made, and the remainder would be accomplished in the future. He regarded tariff legislation as a step which would be receded from in the future, no matter what party might be in power.

In conclusion he said: "Through silver we propose, or can afford, the Democratic party has been the persistent friend, able advocate and brave defender of silver. I do not believe the day has passed when silver, or can afford, in the interests of the people, to turn our backs upon this metal. It is an important product of the country, and from the days of our fathers down through the winds and amazing growth of our country we have found it a useful, safe and valuable medium of circulation."

The platform adopted affirms opposition to the silver question, approves the efforts of President Cleveland and Senators Voorhees and Turpie to redeem the pledges of the last Democratic Convention; condemns the course of the Republican party and the small "coterie of Senators, who, masquerading as Democrats, by threats defeat all tariff legislation, and have temporarily prevented the Democratic party from carrying out its pledges; indorses the income tax law authorizing taxation of greenbacks and the repeal of election laws; declares in favor of the election of Senators by a direct vote of the people; declares the principles of the Party to be unswerving, unpartisan, undemocratic and un-American; declares in favor of every lawful effort to secure for toilers better conditions; denounces every manifestation of violence and mob spirit; declares McKinleyism to be the cause of financial depression; favors arbitration between employer and employees; opposes sundry laws; reaffirms the belief that both gold and silver should be used as the money standard, and both coined without discrimination and without charge for either; and that the chief duty of the restoration of the bi-metallic system; indorses the administration of Cleveland, especially his course maintaining law and order; and that the plank referring to "United States Senators masquerading as Democrats," caused a pandemonium. The names of three, German and Smith were called out in derisive tones all over the great hall.

The following ticket was nominated: Judges of the Supreme Court, George F. Reinhard, Joseph S. Daley; Secretary of State, William R. Myers, renominated;

ROYAL BAKING POWDER.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder ABSOLUTELY PURE

Auditor of State, Joseph T. Fanning; Treasurer of State, Morgan Chandler; Attorney-General, Francis M. Grillich; Clerk of the Supreme Court, C. A. Wellman; Superintendent of Public Instruction, Charles Thomas; State Statistician, Alexander Fulton.

PARIS, Aug. 15.—A reporter of the Associated Press had an interview to-day with ex-Vice-President Levi P. Morton in regard to his political prospects and the movement in New York to tender him a Republican nomination for Governor. Mr. Morton, who appears to be in excellent health, reiterated the statements which he made on August 10th. He said that he had not written a letter expressing his willingness to accept the Republican nomination for the Governorship of New York, and when asked pointedly if he would accept the nomination, he said that he considered it the better policy for the good of the party and the chances in November not to make any statement upon this important subject until he had time to communicate personally with the leaders of the Republican party in New York. The Associated Press reporter gathered, however, from his conversation with Mr. Morton, that if it is the unanimous wish of the party leaders in New York that Mr. Morton should accept the nomination for Governor, he will do so.

COLUMBUS (O.), Aug. 15.—One hundred and fifty delegates representing organized labor in Ohio responded to the call of John McFadden of the United Mine Workers, and met in convention here this morning to form an independent political organization and adopt a platform covering union labor men from the old parties.

BOISE, Aug. 15.—The Democratic State Convention met this afternoon. After the appointment of committees they adjourned until to-morrow.

SEWARD (Neb.), Aug. 15.—The Republicans of the Fourth Congressional District to-day nominated by acclamation for Congress John E. Hayes.

FIREBURN AT CHICAGO. Next of Students of Herr Most Organized to Resist the Building of the Chicago, Aug. 15.—The Fire Department claim to have unearthed a nest of students of Herr Most, organized to burn buildings for the anarchistic sentiment and for revenue from insurance. Seven people were held to-day to await Grand Jury action. They are Karl Herlitz, Mrs. Karl Herlitz, August Nelson, William Scharf, John Bauman, August Shashosky, John Scharf. Many finely constructed bombs have been found, some attached to delicate clock work.

GIVING his testimony against Herlitz and his wife in the Herlitz case, a remarkable story. He stated that he had indisputable evidence to show that an organized gang of students of Herr Most's theories had been operating in Chicago and vicinity. They had been carrying out their theories by burning or blowing up houses to secure insurance.

After the proceedings in court Herlitz made a full confession. He said he came here from New Orleans five years ago, and met a man named Scharf, who introduced him in an anarchistic doctrine. Later Scharf suggested that the most rational way to secure reversals for capitalists was to get after the insurance companies. Bombs and other anarchistic paraphernalia were adopted for use, and operations were commenced. Scharf did the preliminary work, but left the actual firing to Herlitz, and was to receive 5 per cent. of the money received from the insurance companies. Herlitz said that Scharf had many other pupils, and derived a big revenue for the 5 per cent. It is claimed that the composition of Herlitz for each fire for which he was responsible is \$100.

Will Sue the United States. MADISON (Wis.), Aug. 14.—The State of Wisconsin is about to sue the United States Government for \$7,975,000 on a claim for munitions of war, etc., furnished in 1891, which were paid for only in part by the United States under the Act of July 25, 1891, and for interest on deferred payments.

Fatally Struck by His Wife. HAZLETON (Pa.), Aug. 14.—George Knick of Treese came home last night under the influence of liquor and began upbraiding his wife, using language which reflected on her fidelity. She secured a butcher knife and plunged it three times into her husband's body. He died this evening.

Empress of China Floated. LONDON, Aug. 14.—The Canadian Pacific steamer Empress of China, Captain Archibald Fraser, came home last night reported ashore at Shanghai August 6th, has been floated.

THE GOLDEN RULE

Christianity as a solvent of Social Troubles.

(Seattle Post-Intelligencer.) In the largest sense of the word Christianity, as far as it rests on the principle of the Golden Rule and the command to love one's neighbor as one's self, has thus far been the only thing that has made modern life worth living, and on it rests the only hope of a humane and successful solution of all the great problems that still vex modern society. Modern legal equity, social justice, family affection, public and private generosity, charity and philanthropy were never so potential with the world as they are to-day, and their spirit runs straight back to these fundamental ethics of the founder of the Christian faith. It is true that society may seem to realize the Golden Rule in practice sometimes but slowly and imperfectly, but if we compare the practical humanity of France, England or the United States with what it was a century ago, we shall see that not only the Golden Rule has been actually adopted and realized to a considerable extent in the government of modern life, but even that higher lift of the Christian ideal of love to one's neighbor.

The brotherhood of man was never so much a fact as to-day. The interests of the whole world were never so mutual, the value of international friendship never so highly appreciated. The idea that society is a unit, a body of members whereof if one member suffers all suffer together, was never so firmly grasped as now. Men never before have seen so plainly that they must to some degree love their neighbor as themselves if they would secure their own good. Whether it will or no society is moving in the line of this ideal, short-sighted students pronounce impracticable, and which has never been so truly and grandly stated as in the Sermon on the Mount. In all ages of the world, men have tried this ideal of living, and found it not only practicable, but joyous, and there were probably never so many Christians of this truest type, of all names and creeds, as now, and the simple process of increasing their number is the sure way in which the morality of the Sermon on the Mount will be justified.

STRUCK BY A TRAIN.

Young Man Killed While Walking on a Railroad Track.

CLEVELAND (Ohio), Aug. 15.—Jacob and Charles Greiss, brothers, of Chicago came to Cleveland a few days ago in the hope of procuring employment. They were not successful in their mission and so started for home. Not having money enough they concluded to ride free on freight cars when they could, and to walk when they could not ride. Near Berea, twelve miles from here, early this morning they were struck by a passenger train dashing by, and when Jacob picked himself up he saw the bleeding and mangled remains of his brother, who had been struck by the train, at his feet. The survivor has been furnished means to send the body to Chicago.

Obligations of Settlers.

GUTHRIE (O. T.), Aug. 15.—In the contested case of Thorne vs. Newcomb the Commissioner-General of the Land Office has decided a settler must actually live upon his lot or conduct an active business thereon in order to acquire title, and cannot live elsewhere and hold a Government lot through an agent or by the purchase of another settler's right. This decision will give many thousands of dollars' worth of valuable property to actual settlers instead of speculators.

Blind Renominated for Congress.

JEFFERSON CITY (Mo.), Aug. 14.—The Democrats of the Eighth Missouri Congressional District to-day renominated Richard P. Bland for Congress for the twelfth consecutive time.
