

MORE RETURNS FROM THE COUNTY.

The Republicans Elect Nearly a Straight Ticket.

Party Lines Were, However, Not So Closely Followed as in Previous Campaigns.

Additional returns are given this morning from the county election precincts, still they are not complete, and it may require the official count to determine the results in a few cases.

It is quite safe to say, however, that the Republicans have elected all their candidates, with the exception of two or three.

In the thirteenth precinct of the Third Supervisor District only three straight Democratic tickets were cast and not a single straight Republican ballot, while almost every Populist voted his ticket straight. This shows clearly that the members of the old parties were free and independent voters, and that it was the Populists who were under the party lash.

Grove L. Johnson carried Inyo County by a majority of 189. In this district at the last election Davis' majority was only 13.

LATEST TOTALS.

Following are the totals of the latest county returns received. There are still nine precincts whose election officers have not filed reports for the wishes of the public as to neglect to send in the returns, as requested to do by the RECORD-UNION.

Besides the nine precincts the returns of which have not been received, a few of the others are incomplete. Enough is given of the totals, however, for each candidate to show pretty clearly the result, as most of the precincts to be heard from poll their votes and will not materially alter the result in any case.

It is possible that some of the figures in the list below may be wrong. The computations were made at a late hour this morning, and there was not sufficient time to verify them, but it is believed they are correct, or very nearly so.

NEW KICKING THEMSELVES.

Those Republicans, including certain down-town "sports" and politicians, who worked so hard to elect Jake Heintz Sheriff, are now engaged in that interesting occupation of "kicking themselves" for having gone back on Frank Johnson, who won out in spite of them.

Johnson has an unbroken record up to date, and as he is one of the kind that do not lose their heads in times of adversity, a future full of promise awaits him. As the horse says, he "trains on."

WEATHER NOTES.

The Weather Bureau reports show the highest and lowest temperatures yesterday to have been 78° and 52°, with high northerly winds and clear weather prevailing.

The barometrical readings at 5 a. m. 8 yester were 30.05 and 30.02 inches, respectively.

The highest and lowest temperatures one year ago yesterday were 67° and 43°, and one year ago to-day 64° and 41°.

Auction Sale.

By order of the Superior Court Crowell & Lambert will sell to-day, at Sixth and I streets, the stock of buggies, wagons, etc., of the late H. M. Bernard. The tools and stock of the shop will also be sold to close out the estate.

Cruelty to Animals.

P. Vanzetti was arrested by Officer Douglas last night for cruelty to two horses which, it is claimed, he had been driving all day yesterday.

AN ENORMOUS VINE.

Greater Than That at Hampton Court, It Bears 2,000 Bunches of Grapes.

While in the public mind the great vine at Hampton Court Palace is estimated the most remarkable, even that is excelled in dimensions by the still greater vine at Cumberland Lodge, Windsor Park.

Not only these vines, but probably all other vines in the kingdom, have to give place for extent and productiveness to that most remarkable vine which is just at the present moment carrying the enormous quantity of 82 bunches and a total weight materially exceeding half a ton.

This is growing at Hampton Court, near Richmond, in a vineyard named Marissa House, 11 feet wide. The vine was planted by the present gardener, Mr. Davis, as a cutting, only a year and a half ago, but in three years ago. But finding that all other vines in the kingdom, have to give place for extent and productiveness to that most remarkable vine which is just at the present moment carrying the enormous quantity of 82 bunches and a total weight materially exceeding half a ton.

There are seven main rods or branches running in every direction. They are allowed to carry laterals, or fruiting shoots, on the upper sides only, so that the grapes, now fast becoming black, hang the entire length of the roof in straight even lines, instead of over the top, as is commonly the case. Over 2,000 bunches are cut out after they had set. The value of the crop, estimated at two shillings per pound—which is, as good grapes go, perhaps not a high figure—would be £12. Probably no other vine of any kind in the kingdom could produce such a sum in fruit annually.—London Daily News.
