ISSUED BY THE SACRAMENTO PUBLISHING COMPANY

THE DAILY RECORD-UNION For one year, \$6 00 For six months, 3 00 For three months, 1 50

THE WEEKLY UNION Is the cheapest and most desirable Home, News and Literary Journal published on the Pacific Coast.

Entered at the Postoffice at Sacramento as second-class matter.

Record-Union-Telephone No. 49. For Editorial Rooms, ring one bell. For Business Office, ring three bells.

Weather Forecast. Northern California-Probably fair weather, except scattering showers in the northern part.

THE PERIL OF LOCAL SELF-GOVERNMENT. The just demand for home rule in the incorporated and chartered cities and towns of California has so grown and is now so emphatic that it cannot be resisted.

Everyone remembers how Oakland set up for itself a charter that had the approval of the Legislature as the Constitution provides.

It is evident that the great Powers do not intend to permit Japan to acquire any Chinese territory. The Powers will propose probably the opening of all Chinese ports, but not under Japanese administration in a single instance.

It would seem, therefore, that another patch must be put upon the Constitution, and the sooner the better. We must undo the work of last fall in adopting the alien section, and when that necessary amendment is submitted it will be well to submit with it another declaring that it is not the intention of the Constitution to undo local government grants made under the Constitution itself by any general legislation relating to Police Courts, streets, sidewalks, fire departments, water and light supplies, salaries, local taxation, etc.

In this matter Oakland, Los Angeles, San Jose, San Francisco, Alameda, Stockton, San Diego, Riverside, Fresno, Marysville, and all other cities specially chartered or likely to be, should join hands and work for the common purpose of protecting the right of the people of cities to order their police and local matters as they choose within the limits of charters in harmony with the Constitution.

It might be well for the legislative delegations of those cities to meet informally and call in the law officers and Mayors of the cities and agree upon a plan of action and appeal to the Legislature. We are convinced that the houses are not disposed unkindly in this matter. There are a few men who see in the opportunity the law now gives a chance to clinch towns and cities and make them pay for immunity. But these fellows will not dare to come into the open and do battle against the just demand and petition of the cities.

Constitution patching is abhorrent. It is bad at best, but we have got ours into such a shape now that the best we can do is to patch it, and perhaps after all we are more easily able in that way to whip the entire instrument into shape, by correcting its errors as they develop and reducing this charter of our liberties to a declaration of principles, and by taking from it the character of a code of laws. A Constitution should not legislate. It should lay down broad principles, clearly and without any ambiguity, and there stop, leaving details to the people in their representative capacity in the Legislature.

Mr. HUDSON'S bill, A. B. 622, provides that the Supervisors shall submit to the vote of the people the question of bonded indebtedness for road purposes when ever a majority of the residents of a district affected petition for such submission. Good in principle, that. But we are not clear as to the wisdom of confining it to road districts. Suppose the people of the whole county are affected, or desire to be, why not let them have power to compel Supervisors to submit the question to them, and that, too, without a petition of a majority of the residents of

the county? Far more often will counties wish to issue bonds than will districts. At any rate, make it obligatory on Supervisors to submit such questions on petition of a strength fairly representative. Then, too, it seems to us that taxpayers only should be petitioners, not mere residents.

SEVERAL bills of length and great detail are before the Legislature affecting the National Guard. To attempt to analyze them here is out of the question. It will suffice to say that no legislation should be had that will impair the efficiency of the National Guard of California. It ought to be encouraged, aided and rendered more efficient. It is the right arm of peace and law; it is the school for the citizen soldier; it is a badge of free institutions that need not a vast standing army to maintain them; it is the force behind the law emanating directly from the only sovereign we recognize in this free land—the people. The maintenance of a well-disciplined militia is essential to the preservation of our liberties, and to assure the stability of an indissoluble union of sovereign States.

THE Judiciary Committee of the Assembly has introduced a bill requiring that consent alone shall not constitute marriage; that it must be followed by solemnization; that the fact must be recorded. In other words, contract marriage is to be given a black eye, and de-servedly so. Marriage has been degraded by contract abuses. Matrimony is too closely related to the foundations of well-organized and stable society and government to be made the matter of mere consent or contract, secret or otherwise.

A. B. 591 IS A BILL proposed by the Assembly Committee on Election Laws, it amends the Purity of Election Act so as to cover more fully and better define attempts to bribe voters to vote or not to vote. It is full and sweeping enough to cover all possible present evasions of the law and touches bribery relative to induced candidacy, or inducement to withdraw from, or refrain from becoming a candidate. It would seem to be a wise expansion of the Purity of Elections Act.

NO SUCH measure as is now proposed relating to a Hawaiian cable will pass Congress, nor should it. But present awakened interest in the subject clearly indicates that our Government will so act, and early, as to promote the laying of a cable to the islands. But the Government should not own the line any more than our railroads; if anything of Governmental control enters into the cable scheme, the Hawaiian Government should be equally sharer and contributor.

It is gratifying to know that the United States will not take part in any possible interference; our policy is to avoid all such foreign entanglement.

MR. BULLA'S bill, A. B. 625, requires the Governor in making up the Board of Veterinary Medical Examiners to choose the members from the allopathic and homeopathic schools of veterinary medicine and surgery. This is folly. Why not leave the whole matter with the Governor? Why inject the war of the horse doctors into the statute books?

THERE is a bill in the Assembly, No. 629, making it a misdemeanor to sell cheese without labeling it either "Pure Cream Cheese" or "Filled Cheese." But are there not other kinds of cheese? Not being expert, we are not prepared to reply. But it would seem to be sufficient as to cheese to apply the old rule of caveat emptor—"Let the buyer beware."

MR. BACHMAN'S Assembly Bill 607 relates to contracts for lighting streets of cities and towns. It requires certain notices, bids to be filed, and bonds for performance to be furnished, and limits contracts to two years. It may affect Sacramento, and our Trustees should ascertain to what extent and if it is desirable or otherwise.

IF Mr. Boothby's bill, A. B. 631, providing for \$100 salary each for members of City Boards of Education includes Sacramento, this city begs to be exempt. It is a measure obnoxious to the policy and beyond the capacity of this tax-burdened community.

A. B. 637, PROPOSES to regulate telephone rental rates. Good enough; if railroad rates are proper subjects for regulation, why not those of so great a public convenience as telephones?

RALLY, you rump-headed youths—there is a bill in the Legislature to prevent the playing of football.

A CERTAIN preacher said that no newspaper that told the whole truth could make a pecuniary success.

Well, how about the pulpit?

EXPERT analyses at the California Midwinter Fair showed Dr. Price's Baking Powder absolutely pure.

THE Salvation Army work. The Salvation Army are going to have a banquet on Saturday, from 5 to 7 P. M., at 515 K street, to which all are invited, the tickets being placed at the small sum of twenty-five cents. The Sunday meetings in Turner Hall at 3 and 5 P. M. will be in charge of the Pacific Coast leaders, Brigadier and Mrs. Keppel, and others. No admission fee is charged at these meetings.

THAT OULVERT. It Was Not Constructed Under the Charter's Conditions.

Judge Catlin yesterday rendered his decision in the case of Mayor Steinman against City Auditor Young, in which judgment was given in favor of the plaintiff. The case was one involving the outlay of \$156 64 by the city for the construction of a culvert under the Third-street approach to the Y-street levee, which work the City Trustees had ordered without consulting the Mayor. The latter brought an action to prevent the Auditor from drawing warrants for the money.

Judge Catlin holds that, under the provisions of the charter, the Mayor's position is correct. He says: "It is a distinguishing feature of the charter that all work done for the city of an estimated value of \$100 must be done under written contract with the lowest bidder, after receiving sealed proposals; and also to make such contract valid it should be approved by the Mayor, or after disapproval by him, it should be sanctioned by the vote of not less than six members of the Board of Trustees."

THE WEATHER. The Weather Bureau reports show the highest and lowest temperatures yesterday to have been 58° and 39°, with fresh southerly winds and partly cloudy weather prevailing.

THE HEMITT CASE. Justice Davis Finds the Defendant Guilty as Charged.

When the case of John Heintz, accused of obtaining goods under false pretenses, was read in the Police Court yesterday morning, ex-Judge Buckley, who appeared for defendant, made a statement to the court to the effect that the prosecution of the case be dismissed, as arrangements had been made to settle for the full amount owed by the defendant.

from the water running over the levee, off the hills and sillage, but the levees are in very good condition. As the river is rapidly receding all danger of the high water is past, and it will not be long before the pumps in all the districts will be in operation.

HOUSE ROBBED. Neil McArthur Runs Up Against a Burglar's Pistol.

Neil McArthur, the Central Electric Railway's foreman, who resides at Twentieth and K streets, had a rather lively experience with a burglar at an early hour yesterday morning.

Being awakened by a noise in the house, McArthur got out of bed, only to encounter a burglar. The latter was armed with a pistol, which he presented at McArthur, preventing the latter from assuming offensive operations. By keeping McArthur at bay the fellow was enabled to escape with \$2 30 which he had gathered in during his brief stay.

Very Good Advice. [From the Alameda Ensign.]

LEHMAN'S WARD. He Encounters Many Impediments in Prosecuting His Claim.

Charles F. Lehman died October 17, 1893. During the latter portion of his lifetime he was the guardian of Jacob Henry Lehman, a minor. After the death of the former his widow, Elizabeth Lehman, was appointed administratrix of his estate and proceeded to settle up his affairs. The minor, Jacob Henry Lehman, claimed that his late guardian was indebted to him in a large sum for moneys received as guardian, and through his present guardian, Emily Augusta Watson, commenced an action against Elizabeth Lehman, the administratrix above-mentioned, to recover the same.

The defendant, by her attorney, Isaac Joseph, filed a demurrer to the complaint on the ground that it was shown in the complaint that no claim for the sum demanded had ever been presented to the administratrix. The matter was argued some time since before Judge Johnson, and yesterday he decided that it was necessary to present a claim for this money, the same as for an ordinary debt against the estate, and sustained the demurrer.

The plaintiff took ten days to amend her complaint, but as the time for presenting claims in this matter has expired and no claim has been presented, it is aimed that the minor will not be able to so state his case as to recover.

Offer of Assistance. [From the Rio Vista News.]

San Jose has asked the State to give it permission to build a high school and a public library on the normal school grounds at that place. We are to make a move for a high school in this little place and will have to find our own ground, but if San Jose is really so poor that it must have assistance, let them send their subscription paper up this way and we will see that they get a few dollars even here. What in the world would or could they have done with the Capital had the people been foolish enough to allow them to confiscate it?
