LAND CONTEST.

An Important Case Now Before the U. S. Land Office. There is on trial before Register Thomas Fraser and Receiver Charles F. Gardner of the United States Land Office in this city an important case entitled, Mervin Leach, Myrta Prosser, Elizabeth Jones, Thos. Eding and Thoprebrand, vs. Mervin Leach, Myrta Prosser, Elizabeth Jones, Thos. Eding and Thoprebrand, against Frank M. Potter, commuted homestead, cash entryman.

The questions at issue are whether or not the land embraced in the Mammoth and St. George quartz claims, situated in the southeast quarter of the southeast quarter of the southwest quarter of section 38, township 8 north, range 10 east, M. D. M., in Amador County, is valuable mineral land, and if so, whether it is more valuable for agricultural purposes, and whether or not it was known to be such prior to September 24, 1884, the date of Potter's final entry.

SCOTT CONVICTED.

CHILD SICKLY?

Strength is Not Enough for Proper Growth.

The Young Body Fails to Get Well Nourished.

Needs Richer Bone and Tissue Forming Food.

Body Cannot Grow Without Pure, Sturdy Blood.

Unequaled Value of Paine's Celery Compound.

From birth till past the age of 30 there is growth; some of the bones do not completely knit until the age of 35.

All this time in addition there is the steady waste of the tissues that must be repaired. The demand upon the vitality and upon the powers of assimilation is thus enormous during these years.

What countless numbers of frail youngsters physicians see who pliantly yield to the most potent remedies, only to relapse into their former condition, that the boys and girls are somehow badly nourished.

The weak stomachs and organs of assimilation cannot extract the food for growing nerves and brain in sufficient quantities from the ordinary diet.

A chorus of gratitude has gone up all over the country, from mothers of children once weakly and pale, without promise of ever growing into robust men and women, who have outgrown weakness and a lack of vitality by the use of Paine's celery compound.

It is valuable in all wasting diseases, in cleansing the blood of rheumatism, neuralgia, sciatica, and supplying new and healthy vital fluid—its value can neither be weighed nor measured.

It is a great invigorator of the brain and strengthener and restorer Paine's celery compound is pronounced invaluable by all progressive physicians.
