

THE SCHOOL OF DESIGN'S EXHIBIT.

Its Tenth Anniversary Celebrated Last Night.

Musical and Other Features—Splendid Showing Made by the Pupils of the School.

The Sacramento School of Design celebrated its tenth anniversary by an exhibition of the art works of pupils at the Art Gallery last night.

During the evening there was a pleasant programme of music, as follows: Piano solos, by Mrs. Genung and Miss Theda Genung; songs, by Mrs. Wilbur F. Smith, accompanied by Pearl Jackson on the piano, Professor Vanderhoof on the violin.

The art works on exhibition were of the regular classes: Mary Hinkson, Ernest Hart, Theda Genung, Mary Lewis, Annie Bookhoff, Mabel Edson, Lorraine Hart of Shasta, Mabel Dunlap, Trudie Greenlaw, Chris Weiss, Minnie Kienig, George, Anna Schubert, Kate Dunlap, Miss Blanch, Lucy Heinz, C. Florence Merry, Florence Rogers, Mrs. W. H. Marshall, Miss Carrie York, Fred, Joe, Mrs. Holtman and Anna Wood.

Of the Saturday class: Estill Stephens, Lulu Mason, Daniel Sweeney, Grant Estabrook, Harry Reich, Miss Alexander, Elmer Alexander, Elmer Gardner, Estabrook, Mr. Kilgors of Woodland, Lester Gilfill.

The exhibition will not be open during the daytime this week, as usually has been the case, because the pictures are hung only for artificial light and mainly on screens that close the windows.

It is to be said that the school has never made a better exhibition. The instructors, Mr. Jackson and Miss Blanch, are too modest to say as much, but it was the common judgment last night of all who have attended the exhibitions of the school for ten years.

Necessarily, at a late hour only a few general notes can be made. But, without making distinctions intended to be complimentary, it is to be said that the 150 pencil sketches, all one-hour studies, shown in the library-room is the most significant exhibit ever made by the school.

When found by Officer Miller yesterday the horses were hitched to a heavy day wagon, in which a big load of vegetables was brought to the city.

There were probably a thousand boys, more or less, yesterday engaged in the essentially boyish but decidedly silly and annoying practice of throwing handfuls of flour on one another, just because it was All Fools' Day.

There is something in the air that has never been permitted here. The pen and ink sketches by Master Weiss, a mere lad, testify to a native ability rapidly developing that promises to make him either a caricaturist or a superior sketch artist in life studies, such as will make him a name in the illustration and other pictorial work.

The one-hour studies in color near the southwest corner of the main hall are also especially noticeable and worthy. The most superior fruit picture is a study of a large study in grapes, by Miss Mary Hinkson. It is so complete in detail, so translucent in effect and so good in drawing and color that it is a study that would readily sell as one of that artist's best works.

Did the sketch child hurl his flour more offensively than did the others, or was he the only one that was unable to outrun a policeman?

The United States Government Chemist, after an examination for the Indian Department, made the emphatic statement that "The Royal Baking Powder is the purest in quality and highest in value of any powder of which I have knowledge."

The largest first night audience ever seen in the Clunie Opera-house was there last night to witness the "U and I" farce-comedy performance by the Stewart company. The audience was largely one of ladies and frequently men at "the play."

When we have said this much it is fair to record the fact that the immense audience was pleased; it laughed, and roared, and at times cheered and cheered again. It was pleased; it was gratified to see people on the stage grimace as monkeys and jump as apes; to applaud ordinary singing and ordinary acting.

HE MEANS BUSINESS. El Dorado's Game Warden Intends to Enforce the Law. The El Dorado Supervisors have made an excellent selection for Game Warden in the person of George Zenitgraf of Green Valley.

Being duly authorized and commissioned by the State Board of Fish and Game Commissioners of California as Fish and Game Warden of El Dorado County, I deem it my duty to enforce the laws protecting these animals. The fair-minded people of this county will, no doubt, consider this protection of public benefit, and I certainly cannot be accused of selfish motives as there is neither salary nor fees attached to the office, and the Warden must serve entirely without compensation.

Our game law is not so much out of place as the hunter is when the shooting season is closed. With reference to the violations of our game laws of late, I wish to say that several complaints have been brought to me of parties who violated our deer law, and to doubt these parties are taking great chances to pay the full penalty of the law. I shall surely cause to be arrested whoever proof can be obtained of their guilt.

Therefore, I will give this notice as a fair warning to prevent trouble or annoyance which may arise from any violations of the law. If our fish and game are not considered more valuable than they have been heretofore, it will only be a matter of a short time when we will be obliged to arrest ourselves at shooting blue jays for quail and jack rabbits for deer.

Now, this would give our county a fair name, when it has always been classed as a leading game county of the State, and I do not see why we should lose such a reputation for the sake of a few non-law-abiding citizens.

BECAUSE of its much greater strength, the Royal Baking Powder is more economical than any similar leavening agent.

That Which a Vegetable Dealer Visited Upon His Horses. Dan Miller, badge officer of the Humane Society, is making an enviable record for himself as the friend of dumb animals. Yesterday he arrested one Pedro Cassell, a vegetable peddler from the vicinity of Brighton, for the inhuman treatment of a team of horses.

Miller had seen the horses in the city once before, and he then warned their owner that he must not again drive them to the city if he did not want to be arrested. Yesterday he saw the same team on Front street, and in displaying his badge told Cassell he must go and answer to a charge of cruelty to animals.

THE Board of Supervisors of Amador County last week passed a resolution "instructing the District Attorney to allow a man named Colburn, charged with felony, to plead guilty, as it would save the county an expense. That the District Attorney or any one else could prevent a prisoner from pleading guilty is a new idea, and the instructions" by the Supervisors to the District Attorney are now as well.

THE ridicule of the high hat bill has had the effect of bringing it greater prominence. The nuisance itself, with which a long-suffering public had patiently borne because it could not bring itself to the point of wounding the sensibilities of the ladies.

There is hope that the farmers may find lines of work that may restore the profit in cereals. Experiments in different parts of the country appear to have settled the fact that clover hogs is thus made to bring about seventy cents per bushel. It still pays to raise that crop, therefore, even if the world is not willing to pay more than one bushel for it as an article of human diet.

THE press, the Legislature and the people of this State are in favor of a new railroad through the San Joaquin Valley. In their assertions concerning the necessity for a new road many papers have been scattered in great quantities upon the Southern Pacific Company. We venture to remind them that within two years after the valley railroad is completed the owners and managers justly severely as they now do the members of the Southern Pacific Company. Railroads are not run for the profit, and this profit must come from the fares and freight of the public. Hence it is that the patrons of any road always seem to have a right to be consulted.

THE State Board of Examiners announced sometime ago that it would not allow bills incurred by state officers, commissions or institutions where the expense did not seem to be wholly economical or necessary. Following out that principle it has resolved that after April 1st it will not allow payment for telephons or telegrams of women. These things must be expected, and by the time the people of the San Joaquin Valley have patronized the new road for two or three years they will think the Southern Pacific Company a model of accommodation to the public.

THE State Board of Examiners announced sometime ago that it would not allow bills incurred by state officers, commissions or institutions where the expense did not seem to be wholly economical or necessary. Following out that principle it has resolved that after April 1st it will not allow payment for telephons or telegrams of women. These things must be expected, and by the time the people of the San Joaquin Valley have patronized the new road for two or three years they will think the Southern Pacific Company a model of accommodation to the public.

ANALYSIS by the chief chemist of the United States Agricultural Department proves Dr. Price's Baking Powder to be superior in leavening strength and purity to all other baking powders.

THE Stage Hands' Union has endorsed John Hantzman for Labor Commissioner.

DEputy Sheriff White of Alameda lodged in the County Jail last night a prisoner named J. H. Sanders, who is to stop in Folsom Prison two years for burglary.

SOMEbody cut loose a barge at the foot of P street the other night, and it was recovered twelve miles down the river. This is the only time that a dangerous one, and the practical joker, thought quite before he wrecks a river steambot and causes loss of life.

John C. Felton, who established the first public school on the Pacific Coast, is left stranded in this city with his family on account of the failure of the governor to sign the bill passed by the Legislature for his relief. He has had published a small book of poems entitled "Sunbeams and Shadows," which he is selling to keep the wolf from the door.

The sea-cypress, a kind of coral, sometimes grows to 10,000 animals on a single branch. The polar currents contain less salt than those from the equator.

ROYAL BAKING POWDER. Highest of all in Leavening Power.—Latest U.S. Gov't Report. "The Nonpareil" ABSOLUTELY PURE
