

ALL BIDS ON PUMPS REJECTED.

Clerk Flint Instructed to Advertise Again for New Bids.

The Funded Debt Commissioners Requested to Present a Report to the City Trustees.

The City Board of Trustees held its weekly meeting last night, Trustees Lawton, Wachhorst, Kent, Davis, Bragg, Tozer, Devine, Pennish and Leonard being present.

Leonard, for the Fire Department Committee, reported that the fire alarm boxes and poles are being put up at Fifteenth and D streets, and he moved that the Superintendent of Fire Alarms be authorized to employ two men to help put them up.

Kent said that the Superintendent on a former occasion employed outside men, and he moved that the men employed at this time be such as had resided in the city for at least a year.

Leonard accepted the amendment, and the motion was carried. Kent moved that the Superintendent of Streets be instructed to put in a man-hole at Second and Q streets. Carried.

Bragg reported in reference to the matter of lost coupons, for the payment of which a requisition had been made, that there were several thousand dollars' worth of such coupons, and the committee to which the matter had been referred reported against such payment.

On motion of Devine, it was decided not to pay any such coupons. A PRIVATE CONTRACT. A petition of property-owners on S and T streets, between Twenty-first and Twenty-second, in relation to grading the street along the block, was received.

L. F. Bremer presented the board, stating that considerable cutting of grade on the ground in the block would be needed. The idea of the property-owners was that the City Surveyor fix the grade, the property-owners have the street graded by private contract, and the Surveyor be then authorized to fix the official grade after the work was done.

Permission was granted to the property-owners to grade the street at their own expense, the City Surveyor to fix the grade. WATER RATES. A lady complained that she had been assessed for water for irrigation, and the matter was referred to the Water Assessor.

Kent favored free water for irrigation, as tending to the improvement of the blocks of the city, and he moved that the City Collector be instructed to prepare a list of water-takers and the amount collected from them. He contemplated introducing an amendment that no charge should be made for irrigation.

Considerable discussion ensued, and the motion of Kent was carried. THE J STREET CONTRACT. Hiram W. Johnson addressed the board in relation to the bids for the improvement of J street with bitumen.

The report of the accompanying Counsel was read, in relation to the failure of one of the bidders to put in a proper check with his bid. He cited the law on the subject of the accompanying Counsel, and stated that the board had a right to reject any or all bids.

Johnson said that he appeared for James Touhey, the next lowest bidder. He said that this report simply indicated the course the board might pursue, but did not touch the question. The law says that a bid that does not conform to the specifications shall not be accepted. Of course the board had the option of refusing all the bids, but he called attention to the fact that Mr. Touhey is the only one who bid.

He refused to give any information about himself, and he did not see why the report of the experts should not be adopted. He believed that undue members had turned some of the bids in the past two weeks.

Mr. Johnson said that he had been approached by Mr. Touhey, and he told him he had bid back up and get a home, and the fellow did so. He believed the board was not to be improperly influenced. He also thought that the board was not to be improperly influenced.

IMAGINED HE WAS IN A HOLD-UP.

August Koch Gets Rattled on a Railroad Train.

He Takes a Header in the Dark, Near Arno, But Escaped Serious Injury.

Drs. Huntington and Ogden were yesterday called upon to examine a man named August Koch, who was laboring under the wild hallucination that he had been in a railroad hold-up and that the robbers were pursuing him. He was sent to the County Hospital.

Koch was brought in from Arno during the day by Constable Quigley of Galt. He was a passenger on the westbound overland express that left this city shortly before 2 o'clock yesterday morning, and as the train was approaching Arno, just beyond the Cosumnes River, Koch, who had before shown no signs of excitement, suddenly threw a window open and flung himself headlong from the car.

At the time, being about 3 o'clock in the morning, and the train was going at full speed. No one in the car knew anything about the man further than that he was from somewhere in the East and that his name was August Koch.

When the train reached Arno word of what had happened was left with the station agent, who, as soon as possible, went back along the track to bring in the body. He found the "remains" alive and well, physically speaking, except for a couple of bruises and a cut in his scalp, and had no difficulty in inducing Koch to accompany him to the station.

The man's explanation of what had occurred, that the robbers pursued and that he had jumped overboard to escape them. No persuasion could induce him to acknowledge that he had been mistaken.

He refused to give any information about himself, and he did not see why the report of the experts should not be adopted. He believed that undue members had turned some of the bids in the past two weeks.

Mr. Johnson said that he had been approached by Mr. Touhey, and he told him he had bid back up and get a home, and the fellow did so. He believed the board was not to be improperly influenced.

He also thought that the board was not to be improperly influenced. He also thought that the board was not to be improperly influenced.

AT LAST A CITIZEN.

Anthony Coolat Naturalized by Judge Johnson Yesterday.

Two naturalizations were effected in Superior Judge Johnson's court yesterday.

One was that of Carl Kaufman, a dry goods merchant, and the other that of Anthony Coolat, the well-known tobacconist and extensive property owner in this city. Mr. Kaufman is a native of Germany and had sponsors were Gus Lavenson and Joseph Hahn.

Mr. Coolat's naturalization was a surprise to those present when his application was taken up, as it will be to hundreds of others who have long known him.

After Coolat was sworn to correctly answer the questions propounded to him by the court, Judge Johnson took occasion to say that it appeared very strange that a man who had resided within the domain of the United States for nearly forty years should at the eleventh hour ask to be placed under the protection of the American flag.

The court intimated that the applicant had not been naturalized by some of the responsibilities of citizenship for the purpose of escaping certain duties that devolve upon citizens.

Mr. Coolat did not explain why he had not before become a citizen, but admitted that his change of heart had come about through a desire to protect his large property in the city of Sacramento.

Coolat is a native of Austria, his sponsors were County Clerk W. B. Hamilton and Deputy Clerk E. F. Pfund.

THE JEWISH PASSOVER. The Jewish Passover commenced at sunset last evening and will continue for seven days, though the orthodox wing of the faith adhere to eight days.

The Passover commemorates the exodus and departure of the Jews from Egypt. Chronologically this departure is uncertain, but can approximately be ascertained as having occurred thirty-two centuries ago.

CHRISTIAN Endeavor societies multiply everywhere. So do the members of Dr. Price's Cream Baking Powder.

HE TOOK BREAD AND MILK. One of the milk wagons of H. Garrett had a lively experience yesterday. The horse attached to it took a notion to run away in the alley between T and J streets.

The wagon along for company, Lamette's bakery wagon stood in the alley and the milk wagon ran into it and carried it clear up to Thirteenth street, where it was overturned and broken. The horse continued on his way and probably reached home.

THE GREATEST adept in the culinary art are particular to use the Royal Baking Powder in their cooking. It is the most popular cook books and the teachers of the successful cooking schools, with whom the best results are imperative, are careful to impress their pupils with the importance of its exclusive employment.

Death of Mrs. Horan. The death is announced in San Francisco of Mrs. Mary Horan, mother of the late Judge M. C. Horan. She was a native of Ireland, and of years of age.

Prompt Payment of Life Insurance. The Connecticut Mutual Life Insurance Company, through their agent in this city, Mr. A. C. Smith, has paid the sum of one thousand dollars (\$1,000), being insurance on her husband's life, the late Alexander Peoples. The amount was paid in eighteen days after proof of death were completed and handed to Mr. Rudolf. Peoples.

RECKLESS RIDERS.

Bicyclists Who Seem to Have No Fear of the Law.

The reckless bicycle rider is resuming his work, but on Sunday proved to be himself the greatest sufferer.

One fellow, who was coming at a clipping day from J street, near the Plaza, did not pay sufficient attention to the street crossings, and before he could stop collided with a wagon that was crossing the street. The result was that his forward wheel was smashed and he took a flying leap of seven or eight feet into the air, and was pretty badly bruised up.

Another reckless individual ran into a cart, containing two ladies and caused the vehicle to be overturned. Boys and men are repeatedly violating the ordinance by riding on the sidewalks in the eastern portion of the city, and but little attention is paid by officers to this portion of the ordinance which provides that they shall use either a lantern, a bell or a horn at night.

Evangelist Finnell's Meetings. Rev. J. A. Finnell delivered another earnest and interesting sermon last evening, taking as his text "Seeking for Jesus among their kinfolks and acquaintances" (Luke II, 26).

He related in a pleasing way the story of Joseph and Mary leaving Jesus behind and said: "How often do we leave Jesus behind? How many fathers and mothers never seek Jesus?" An earnest plea was made for sinners to come and seek Jesus.

To-day, between the hours of 12 and 1 o'clock, the evangelist will speak at the railroad shops.

"I FIND the Royal Baking Powder superior to all the others in every respect. It is entirely free from all adulteration and unwholesome ingredients in baking it gives off a greater volume of leavening gas than any other powder."

Brandreth's Pills are free from injurious substances. They give universal satisfaction.
