

WORK OF CHRISTIAN YOUNG MEN.

The Week's Doings of the Sacramento Y. M. C. A.

An Evening at the Debating Club—A Members' Reception Soon—The Recent Convention.

The afternoon meeting of the Young Men's Christian Association on last Sunday was led by Henry W. Tracy. A goodly number of testimonials were given and the singing was much enjoyed.

The general secretary and managers of the Young Men's Christian Association are planning for a members' reception, take place in about ten days.

At the meeting to be held in the parlor to-morrow afternoon reports will be submitted by the delegates who recently attended the District Convention of Northern California at Santa Cruz.

The Santa Cruz people gave the visitors a very cordial reception and entertained them royally. The convention was held in the large and commodious Y. M. C. A. building, from which a debt of \$12,000 has recently been raised by the enterprising people of that place.

The programme of exercises at Santa Cruz consisted of addresses, music and general discussions in relation to the various branches of association work.

Last Sunday morning Secretary Grove F. Ekins of the Capital City spoke in the Adventist Church to a large concourse of people.

The Bible class will hold its regular meeting at the rooms to-morrow morning at 9 o'clock. Secretary Ekins will take

charge. The course of study comprehends an inductive study of the fourth gospel, and the "Lesson of the Day" will be contained in the first five verses of the first chapter of John.

DANIEL WALLACE'S DEATH. It is stated that he was killed to save a Man From Prison.

An inquest was held yesterday morning by Justice Gandy of Oak Park, acting for the Coroner, on the body of D. L. Wallace, who was shot by a man named William Barrett at Wheatland on March 30th.

The ante-mortem statement of Wallace, which was published in this paper some time ago, was that Barrett slung a woman in the face who was at a dance, and when Wallace remonstrated drew a knife on him.

Edward Remington, the proprietor of the saloon where the shooting took place, corroborated Wallace's dying statement. District Attorney Egan and District Attorney McDaniel of Yuba County conducted the examination of witnesses.

After the inquest, Wallace's brother asked McDaniel if there was a man confined in the Marysville jail on a charge of arson. McDaniel replied that there was, and would testify against Daniel Wallace who would have sent him to prison.

Wallace's brother then said that Tom Connelton had told him a few days ago that Barrett threatened to "do up" Daniel as he was going to testify against a pal of his (Barrett's) who was charged with arson, and he was going to put Wallace out of the way.

District Attorney McDaniel said it was true, and that he did not doubt but Barrett had killed Wallace in order to save the man, who was a friend of his, from going to prison.

The jury found that Wallace came to his death from a gunshot wound inflicted by William Barrett.

Now Being Argued.

Argument in the case of B. Ruhl against George M. Mott, an action wherein the plaintiff seeks to recover certain real estate decided by him to the defendant, was begun in Department Two of the Superior Court yesterday.

Robert T. Devlin, one of the attorneys for the plaintiff, made the opening argument to the jury. He was followed by Grove L. Johnson for the defense, who had not finished when the court adjourned. He will resume this morning at 9 o'clock.

The Weather Bureau reports show the highest and lowest temperatures yesterday to have been 72° and 41°, with gentle southerly winds and partly cloudy weather prevailing.

The barometrical readings at 5 A. M. and 5 P. M. were 30.22 and 30.09 inches, respectively. The highest and lowest temperatures one year ago yesterday were 71° and 38° and one year ago to-day 82° and 52°. The river is 21 feet 2 inches.

BECAUSE of its much greater strength, the Royal Baking Powder is more economical than any similar leavening agent.

There will be a presentation of colors at the Salvation Army barracks, 515 K street, this evening. On Sunday night some recruits are to be sworn in. All are invited.

Rev. E. R. Dille of San Francisco was to have lectured at the Central M. E. Church last evening, on "Pioneers, Their Work and Wages," but he was unable to do so on account of illness.

Next Friday evening Rev. Dr. Jewell of San Francisco will lecture at the same church, and will take for his subject "Uncle Sam's Sickness, Colds and Cure."

ROYAL BAKING POWDER.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

THE TRUCKEE SCANDAL.

City School Directors Go There to Inquire Into It.

School Directors Sherburn, Driver and Dolan and Superintendent Erlwine were quietly slipped off to Truckee on Wednesday to investigate the scandal involving Miss Lizzie Bernard, one of the city school teachers. The committee took along a Bee reporter, but were careful not to notify the RECORD-UNION of their departure.

Just what their report to the board will be cannot of course be stated at present. A number of Truckeeites were interviewed, and, according to our contemporary's report, many of them denied having witnessed any particularly unbecoming conduct on the part of Miss Bernard and her companions, while others claimed to have heard a great deal. The committee will be expected to make a full report of whatever testimony was taken, whatever its effect may be.

In any event, the so-called investigation will not prove satisfactory to the public, on account of the manner in which it was conducted, and the committee has done the accused teacher a gross injustice in the matter. She is said to have desired a full, fair and open investigation of the charges, and ought to have had one.

The only baking powder yet found by chemical analysis to be entirely free from lime and absolutely pure is the "Royal." This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent processes which totally remove the tartrate of lime and other impurities.

Long Distance Signaling. A detachment from the Fourth Brigade Signal Corps of this city will establish a signal station in the dome of the Capitol to-morrow morning, and from there will communicate, if possible, with a detachment from the Second Brigade Signal Corps of San Francisco, which will be stationed on Mount Diablo. Communication between the two points will be by the heliograph.

For many years the Government has given its orders for Royal Baking Powder in preference to all others, it being found by the official examination superior to the others in strength and purity, and the only Baking Powder that will keep and retain its strength in the climates of the various countries to which it is sent by the Departments.

Lecture Postponed. Rev. E. R. Dille of San Francisco was to have lectured at the Central M. E. Church last evening, on "Pioneers, Their Work and Wages," but he was unable to do so on account of illness.

Next Friday evening Rev. Dr. Jewell of San Francisco will lecture at the same church, and will take for his subject "Uncle Sam's Sickness, Colds and Cure."

EVERYBODY'S COLUMN.

Under this heading the RECORD-UNION will publish short letters from correspondents on topics of interest to the general public. The matter in these communications will be unpublished unless, at the request of the writers, all communications must be accompanied by the name of the writer, not for publication unless so desired, but as a guarantee of good faith.—Eds.

Getting Mud and Soap. Eds. RECORD-UNION: I don't know whether or not this will be allowed space in the columns of your paper. But having a few thoughts upon this water (or slickens) and new pumps question, I would like to express them. We were informed a few days ago by our City Assessor that in the very near future a special tax is to be imposed upon the people of Sacramento in order to get those grand new pumps (we have heard so much about) to pump the city tank full of slickens, filth and refuse of all kinds of disease. Now I think the time has come when the voting element of Sacramento can take a hand in the game and not be taxed for new pumps, when old pumps come clear and pure water and not slickens from the Sacramento river. I often wish our City Trustees, who have so greatly opposed the clean water question, could be made to take the place that the average housewife occupies Monday morning at the wash-tub, with an immense wash, and striving hard to get all finished before lunch. There is a chance that the water has been very clear when she first put it on, when it comes to the last tubful that is needed, to her great disgust, she finds a stream of mud instead. It takes all of one hour for that tubful to get out of her tub, and get water that will do to finish her wash or cook lunch with. I do think it time something was done when it comes to poor people buying new pumps to give us more filth.

We know that the vote of this city has been cast for clean water. But why do the voters submit to this special tax unless by it they get pure water, and not mud or soap, like we are getting at present, both from the river and the board. Respectfully, "BROWNIE."

Y. W. C. A. NOTES. Special Services To-morrow—A Review of the Month's Work.

Special Easter services will be held at the rooms of the Young Women's Christian Association on Sunday afternoon, at 4 o'clock. An orchestra will be present and special singing has been planned for. Talks will be given on "Our Risen Savior," by Mrs. Hesser, the General Secretary, and others. All women will be cordially welcomed.

The past month has been one of progress in all lines. The attendance at the rooms numbered 1627 for March, and during the two days of April nineteen young women have found employment in desirable homes through the aid of the association. Stranger young women have been put in homes and saved from the temptations awaiting them, and, better than all, given a new ambition to live truer, more womanly lives. Certainly, more is more needed in the city, and to those who are not acquainted with it the association most gladly extends an invitation to further investigate its province of effort.

A parlor concert will be given at the residence of Mrs. J. O. Coleman, 1118 O street, on Tuesday afternoon at 3 o'clock. The programme of unusual excellence has been prepared.

The noon musicale of next Wednesday noon hour is to be of the nature of a "Kiss Luncheon."

FARMERS' ALLIANCE. It Held Its Quarterly Meeting at Florin Yesterday.

The quarterly meeting of the County Farmers Alliance and Industrial Union was held yesterday at Florin, a large representation being in attendance.

J. A. Simons, Chairman of the committee on a general market of productions of Sacramento County, reported the necessity of establishing such an institution as the best means of distribution between producer and consumer.

A special committee was appointed on the roads of Sacramento County. The object is to investigate bills and work performed under the present system of management by the Board of Supervisors and report to the next quarterly meeting.

The Alliance will hold its next meeting and a picnic at Sylvan Grove on July 4th.

As an invincible combination—the purity, strength and wholesomeness of Dr. Price's Baking Powder.

THE Royal Baking Powder avoids all decomposition of the flour as caused by yeast rising, thereby saving a large percentage of its most nutritive elements, making the flour go one-fourth further.

Boards for Sheriff Johnson. In the Police Court yesterday John Doe No. 1, charged with being drunk, was allowed to go to work, and No. 2 was given two days in jail.

Frank Paddy's sentence for vagrancy was continued indefinitely, as was that of Fred Blake.

An inmate, convicted of stealing some stovepipe, was given six months, the court advising him to take three of them to clean up and fumigate himself.

Michael Magee, convicted of vagrancy, claimed to be a hardworking man, and showed his hands, but the court thought that as he had been begging drinks from saloon to saloon sixty days' rest would do him good, and he was therefore sentenced to sixty days in jail.

New York Girl—Lord Dunlop, did you ever hear the joke about the museum-keeper who had two skulls of St. Paul; one when he was a boy and the other when he was a man? Englishman—No; what is it?—New York Recorder.

Spring Cleaning

Is at hand. This fact means much to the honest housewife. It means many hours of toil. It means that large supplies of strength will be demanded. And yet this is a time when the appetite is poor, and women are likely to be nervous, sleepless, weak and tired, because the blood is impure. Let the impurities be driven out and the blood enriched and invigorated and made to flow in a life-giving current to every part of the body. Then there will be health, strength and a Good Appetite.

"Hood's and I"

While cleaning your house, do not neglect your bodily health, and to the "stone-throwing" in which you live. The only way to put this in good healthy condition is to take Hood's Sarsaparilla to purify your blood. "I take Hood's Sarsaparilla every spring, and it is the only medicine I use through the year. It enables me to do my house cleaning and farm work all through the summer. It helped me very much for palpitation of the heart. I think Hood's Sarsaparilla is the medicine for everyone, and all who take it will never be without it. I have also used Hood's Pills and they are the best I ever tried." Mrs. P. H. ANDREWS, South Woodstock, Conn. Be sure to get Hood's Sarsaparilla.

Spring Medicine

Hood's Sarsaparilla purifies the blood. It sharpens the appetite and makes that strength which overcomes nervous exhaustion, and gives Refreshing Sleep. It cures every form of disease which has its origin in the blood. Those who take Hood's Sarsaparilla as a spring medicine or to purify and enrich their blood are trying no experiment. They will be benefited. If they are suffering from scrofula, salt rheum or other eruptions, they may rely upon a cure. If they are nervous, weak, tired and discouraged, Hood's Sarsaparilla will make them strong, because it will make their blood pure. Spring Cleaning, when the nerves and body have been strengthened by Hood's Sarsaparilla, will completely lose its terrors.

THE CHIEF CHARM

ABOUT THE SPRING MILLINERY IS A its cheapness. The very newest and prettiest styles sell at an astonishingly low figure. The finer flowers are quite expensive, but one can buy very pretty ones for moderate prices. There is hardly a flower in the botanical world that is not imitated and put on this season's hats. The prettiest are the bunches of pink purple and deep red verbenas and the deceptive clover tops, that look as if they must have "grown" as Topsy did. A large hat covered with flowers is the correct thing, and in view of the cheapness of the materials, it is not difficult to be "correct."
