Still Being Carried on at Puget Sound Ports.

MONGOLIANS CAPTURED HAVING FORGED CERTIFICATES

A Man, Through His Own Carelessness, Killed in the Shift of a Mine at Angels Camp—Alonso J. Whitman, Who Succeeded in Squandering a Fortune of a Million Dollars Within the Past Few Years, Convicted of Forgery.

Special to the Record-Union. SAN FRANCISCO, June 20.—Collector Wellborn today received telegrams from Tacoma, Seattle and Port Townsend, which notified him that the collectors there have recently captured half a dozen Chinese with forged certificates, bearing the signatures of O. M. Weiburn and his Deputy Thomas Cusick. At Tacoma the forgers tried to have Ah Duck and Ah Look admitted under excellent counterfeits numbered 45,946 and 46,454. At Seattle the same forgers tried to introduce Ah Linn and Wong Chung under certificates numbered 45,656 and 6,565, and at Victoria two Chinese were arrested in possession of excellent imitations of the certificates issued at the San Francisco office.

Speaking of the matter, Collector Wellborn said: "An examination of the records shows that our best interest is any such numbers on our books, hence the purported certificates must be forged. The people who are in the northern part of the coast are very clever, and they were very successful in getting their numbers. The Chinese holding the certificates are under arrest, and every deputy which can be spared will try to discover the forgers who sold the certificates."

"It has been known for some time that the northern and southern borders of the United States are being crossed by the peddlers of cunning imitations of the government certificates. It was for some time believed that the Mexican border would be the principal working place of the counterfeiters, but the vigilance of the deputies has probably driven them to the north. The demand for certificates is growing steadily, and the counterfeiters are ready to sell for \$50 to \$100. Foss said to a Deputy United States Marshal, while on route to the penitentiary, that his land had been sold for \$100,000, and that his number it would have earned half a million dollars in a year. Some of the wealthy Chinamen were willing to pay fabulous prices for the purpose of coming here."

WAGES OF SAILORS.

The Scale Voluntarily Increased by the Ship-Owners' Association.

SAN FRANCISCO, June 20.—The Ship-Owners' Association of the Pacific voluntarily issued an increase in the scale of wages for sailors this morning. During the strike of the union sailors the Ship-Owners' Association refused to raise the wages of sailors from \$25 a month, but intimated that as soon as the strike was over it would readjust wages, and it has kept its word. This morning Mr. W. H. Wadsworth, Secretary of the Ship-Owners' Association, issued the following official scale of wages, which was approved at a meeting of the directors last night: Pacific States or British Columbia, \$30; coal, bar, harbor, Pacific States or British Columbia, \$25; lumber, outside roads, \$20; Hawaiian Islands, \$25; Alaska and Mexico, \$20 to \$25; Asia, Australia, Central America and South America, \$20. Steam craft, bar harbor, \$30 to \$35; outside roads, \$25 to \$30; foreign voyages, \$20 and upward. Steam craft with or without overtime, as preferred.

The ship-owners say the advance in wages will be supplemented later by another, should business justify. The association wants it distinctly understood that its object is not the reduction, but the adjustment of wages, together with the removal of sailors from the operation of certain rates of the Sailors' Union, which would be practically impossible. Now that the sailors show a disposition to act fairly, the ship-owners propose to meet them half way, and more than half way.

SAN JOAQUIN VALLEY ROAD.

Contracts Let for Cars and Materials for a Steel Bridge.

SAN FRANCISCO, June 20.—The Directors of the San Joaquin and San Joaquin Valley Railroad met today and awarded contracts for one hundred and fifty cars and materials for a steel draw-bridge at Stockton. Besides the important action in the line of construction and equipment of the Valley railway, they discussed different propositions for building a line of telegraph along the road, and referred the whole matter back to the Committee on Construction.

Burning Oil.

SAN FRANCISCO, June 20.—Cars containing oil from Santa Paula burned today on the railroad tracks at Seventh and Townsend streets. It is supposed, from spontaneous combustion. An explosion followed, damaging the track and other property. Four thousand gallons of oil were destroyed.
