

PREPARING FOR THE STATE FAIR.

The Betting Privileges Awarded for \$15,000.

Detters to Have a Fair Show This Year—Some of the Attachments Appointed.

All the members of the State Board of Agriculture were present at the meeting held on Saturday for the purpose of awarding the pool-selling contract for the coming State Fair and completing many minor details.

There was the usual gathering of applicants for positions during the fair, from laborers to that of riding on horseback in the front of a grand stand.

Before transacting any business, however, the board voted to hold an executive session, the better to expedite business, though Directors John Budd and William Land favored an open session.

The board established a number of rules to govern the fair, some of which will certainly be highly appreciated. Heretofore it has been at times impossible for men who wanted to invest in the pools to get near the selling stand.

There were several bidders for the pool-selling privilege, including the old "stand-by," Killip & Co. They offered to pay the association \$50,000 for the gross receipts from pools sold, provided no book-selling was allowed.

By unanimous vote the pool privilege was awarded to George Rose. Heretofore pool-selling has netted the Association from \$8,000 to \$10,000.

It is said that the pool-selling will have to be a considerable increase this year in the receipts of the pool box to enable the pool-sellers to pull out even.

The board decided to appropriate the sum asked for. The secretary was instructed to invite Hon. J. W. Mitchell of Los Angeles to deliver the annual address at the Pavilion.

A resolution was passed authorizing the Secretary to employ a competent expert to examine the grand stands and the Pavilion to see that both those structures are in first-class condition.

Robert Hayes was selected for the duty of starting the running races, and the contract for printing the speed program was awarded to Thomas Gooden for \$600.

Positions at the Park and Pavilion were filled as follows: Felix Dunn, Financial Secretary.

Entry Clerk, Third and Eighth Departments, Mrs. Clara Parsons. Entry Clerk, Tenth and Seventh Departments, D. J. St. Clair.

Ladies' Department, Mrs. Quigley. Ladies' room, Mrs. Lawler.

Chief Night Watchman, Timothy Lee. The Park employes are: Assistant Superintendent, George B. Folger.

Entry Clerk, Fred Chase. Clerk of Course, D. L. Haekett.

Clerk of the Scales, William Godfrey. Chief Marshal, C. J. Cox.

LINCOLN IS A PROGRESSIVE TOWN.

New Water Works and Electricity are Talked of.

The Local Pipe Works and Fruit Cannery are Giving Employment to Many Persons.

The RECORD-UNION's correspondent at Lincoln, Placer County, has this to say of the prosperity that the place enjoys:

Forward is the word. Improvement continues. Lincoln will surely prove herself a progressive town. The rich and poor, cultured and uncultured, are improving notably this opportunity.

The board is prepared to receive applications for the privilege of conducting examinations, and an extensive collection of fruits, nuts, etc., and insects of all kinds, correctly named.

The next contest will decide whether the trophy goes to Company E or Company G. Yesterday's scores are as follows:

COMPANY E'S FIRST TEAM. Fields, 4 5 3 4 4-20. Handford, 4 4 4 4 4-19. Kiehl, 4 4 4 4 4-19. Nutting, 4 4 4 4 4-19. Hughes, J. L., 4 4 4 4 4-19.

The following scores were made yesterday by Company G's men at their regular practice:

ROAD FUNDS. Transfers From the General to the Districts. At their session on Saturday the Supervisors ordered \$5,549.34 transferred from the General Road Fund into the funds of Districts Four and Five.

The California State Board of Horticulture, which has occupied quarters at 220 Sutter street, San Francisco, for years past, has moved to more commodious apartments in the Mills Building, rooms 1, 2 and 3, fifth floor, where monthly meetings of fruit-growers will be held.

The board is prepared to receive specimens of fruits of all kinds for identification, and of insects and tree diseases. Such specimens must be sent by foot press (charges prepaid), well packed.

It is not necessary to send two specimens of the same kind, but if possible, send by mail should be packed in wooden or tin boxes, and should never be sent loose in a letter.

What You Need. When you are weary and worn, without an appetite, have no ambition, sleepless, nervous and irritable, is purified, enriched and vitalized blood; and remember

Hood's Sarsaparilla. In the only true blood purifier prominently in the public eye. \$1; six for \$5.

THE STOLEN RELICS.

They Should be Recovered From J. H. Love.

It is understood that James H. Love, who recently decamped from Chicago with valuable relics of pioneer days that belong to the Sutter Fort collection in this city, has gone to Atlanta, Ga., where he doubtless intends to establish another "mining camp" at the great exposition soon to be held there.

Entertainment of Carnival Visitors. ENTS. RECORD-UNION: As an old resident of Sacramento, and one who has always taken a keen interest in the credit of the city, I wish to say that in getting with a good many other people who would I have reversed, and we will be nervous about accommodations for the crowds expected here at the September festivities.

If the Carnival Committee is doing anything about providing accommodations we have not had the news in the press, nor can I ascertain from my neighbors that they are doing anything about being made among them. I do learn that the Native Sons have been busy preparing to take care of their own, that is well enough, but I am sure that the overflow, and what harm may not the good name of the city take if this overflow is not provided for.

We are told that the overflow is a vast number of people here from abroad. Fares have been reduced half, and that alone will invite a large company. It is probable that the Carnival Committee is publishing matter in the country press about the Electrical Carnival, as they should do, but I have made inquiry, and cannot find that they are doing anything about the matter. It is probable that the overflow is a vast number of people here from abroad.

But the Native Sons assure the crowd that they will have 5000 guests from San Francisco alone. Now if as many more come on account of the reduced fares, and on a carnival night, the question is a very serious one—what is being done to provide for their lodging and food? Sacramento cannot take care of 5000 guests in this matter. If there comes a great crowd we must be prepared to decently and pleasantly accommodate it. It can be done if we can take the proper arrangements in plenty of time.

But if we are not prepared, and people have to walk in the streets, and snatch a bite as best they can, let us look out for breakers. We will be told that our best ability to entertain 20,000 visitors has been shown, and we will be told that the overflow is a vast number of people here from abroad.

I claim that the Carnival Committee ought to take a hand in this matter. It is a part of their duty. If not, then let there be at once a special organization formed to see to it. We can, if we try hard, prepare to take care of 5000 guests in this matter. If there comes a great crowd we must be prepared to decently and pleasantly accommodate it.

We ought to look, also, for extension, and for the credit of the city so that human beings can be arranged so that our guests will not be cramped by the narrow streets. It is better that she had no carnival than to make a blunder about it at this critical juncture. What is being done for public thought. So deep is my interest in the city's good name that I would rather walk the streets at night myself than see a single decent carnival visitor compelled to do so for want of lodging. I am not more earnest and patriotic than hundreds of others, but we want organized help. Whenever he heard there was a bridge in his neighborhood he promptly had it laid low. His continuous destruction of bridges several times got himself and his property in tight places, where a bridge would have come in mighty handy, and resulted in an uneasy feeling among his men.

He moved into Virginia in the neighborhood of the Natural Bridge, and one day gave his men permission to inspect the great natural wonder. Two cavaliers, one of a poetic turn, and the other of a worldly, practical turn, happened to go together.

"Isn't this the most stupendous, magnificent, grand view you ever saw?" exclaimed the poetic man, grandiloquently. "Yes," replied the other, "but how beautiful are the works of nature." He continued in this strain several minutes and finally asked the other his opinion. "I don't know about this being stupendous, nor any of that sort of thing, but I'm d—d glad that we have found one bridge that Costly can't burn up."

THE SUPERVISORS. They Must Provide the Public Administrator With an Office.

The Board of Supervisors have been informed by an opinion from District Attorney Ryan that the Public Administrator is entitled to suitable office rooms in the Courthouse. Mr. Ryan states that in case there was no Courthouse or Hall of Records, the board would have the power to secure office rooms for the Public Administrator.
