

DAILY RECORD-UNION

ISSUED BY THE SACRAMENTO PUBLISHING COMPANY Office, Third Street, between J and K.

Weather Forecast.

Northern California—Fair, warmer in the southeast portion; cooler along the central coast; fresh northwesterly winds along the coast.

TO INSPECT THE RIVERS.

The United States Senators for California, accompanied by several Congressmen, members of the Legislature and others, yesterday entered upon an examination of the Sacramento River and contiguous bays, and will to-day begin an examination of the Sacramento River from Redding down, to be followed by an examination of the San Joaquin.

The object of the inspection is to inform the minds of the legislators concerning the actual condition of the navigable streams, with a view to steps to be taken by them to secure from the Federal Government the adoption of measures to counteract the distressingly bad influences of hydraulic mining debris and detritus in the rivers. One account says that the purpose is to inaugurate a system of dredging to clear the channels. This is all right so far as it goes, but it will not be sufficient. What the legislators will see in the way of object lessons, and what they will learn from statistical information to be imparted to them, will lead them, if they are moved at all, to consider far more effective means of restoration of navigation than dredging.

They must consider prevention as a means to the end in view, and we do not believe that dams will be deemed preventive by them since all efforts in that direction, as the RECORD-UNION has repeatedly shown, have either been failures, or have been promoted on lines that are inefficient and must lead to failure. The legislators have undertaken no easy task. Their trip up and down the rivers ought to be deliberate and slow, and their examination detailed. Such examination would convince them that the proper way to remove an evil is to strike at its root.

However, we may expect good from the examination to be made. It is very gratifying to find Federal legislators awakening to the necessity for action on the part of the Federal Government for the restoration and preservation of the navigability of the free highways that are the heritage of all the people. What they will see and learn will largely qualify them to speak by the card when they appear to Congress to give the feather, the Sacramento and the San Joaquin the recognition their importance and the commerce of which they are and should be the carriers demands.

All possible assistance should be given these gentlemen in making their examination and every facility afforded for the ascertainment by them of all the facts. We apprehend that these Senators and Congressmen will find that the RECORD-UNION has not a whit exaggerated concerning the condition of the navigable streams, the menace to which they are exposed, or the actual damage they are taking from the results of hydraulic mining.

When in Chicago on Sunday the English anarchist Mowbray, who came over here to preach anarchy, ruin, the torch and the bomb, began to abuse the stars and stripes, and say that the red flag must supplant that of the United States, a Captain of police laid a heavy hand on the speaker's shoulder and told him he was going too far, the fellow wilted, the crowd of anarchists set up a howl, and Lucy Parsons, the negress, exclaimed: "Liberty is dead in Chicago." "Oh, no," replied the Captain, "but anarchy is dead in Chicago and for all time." That is all right, and it was a brave reply, but what a shame it is that an anarchistic Englishman can come over the water, set about to besmirch the flag of our nation, demand that it be pulled down and the red flag of passion and anarchy run up in its place—what a shame it is, we repeat, that such a thing should be, and no good American be within reaching distance to crush the head of the venomous reptile. The flag stands for all we hold dear; it is the insignia of too broad liberty indeed, since it permits such rascals as Mowbray to come into the land and stir up strife and bad blood, and to preach the overthrow of American institutions. Suppose an American should go upon a platform in London, assail the cross of St. George and the Union Jack and denounce the flag of England as the emblem of wrong, tyranny and slavery, and urge the people to pull it down and hoist the red flag of anarchy in its place—if a mob of sturdy, loyal Englishmen did not then and there throttle the rascal and string him up to the nearest lamp-post, then we falsely estimate English character.

NOTE AND COMMENT. If we are to make guesses as to the truth, the Cuban rebels are about to be recognized as belligerents by one or more of the great nations. They have maintained an orderly government for now thirty days; they occupy the greater portion of the island, and have sent Commissioners to petition for recognition of the fact that a state of war exists upon the island that demand recognition from civilization.

At Delhi, N. Y., a ghost undertook to frighten a bloomer bicycle girl on a bit of retired roadway in the dusk of evening. But the lass alighted from her wheel, picked up a good-sized rock and aimed well, and now the ghost is in the hospital with concussion of the brain and strong probability that he will presently fill a box. It will not do for even ghosts to meddle with the new woman on a wheel and in bloomers.

The Colusa Morning Herald has suspended publication, the proprietor finding that it did not receive support sufficient to warrant him in continuing. The fact is that the Herald was a better paper than Colusa could or would support. It was bright and newsy, and ought to have been encouraged. Editor Whiting will continue the publication of the Weekly Herald.

It is reported that Queen Victoria is a determined opponent of the use of electricity in any form. If this is true it is another proof of the suspicion that the estimable sovereign of Great Britain is in her dotage and needs a guard.

FRUIT FOR CALIFORNIA'S EXHIBIT.

C. F. T. Refrigerator Cars Offered for That Purpose.

Sacramento Citizens and Fruit-Growers Have an Opportunity to Make a Hit.

The following correspondence between George H. Appel, Agent of the California Fruit Transportation Company, and J. A. Filcher, Manager of the California exhibit at the Atlanta Exposition, will be found of much interest. It is on the subject of keeping the State exhibit supplied with fresh fruit while the exposition is in progress.

MR. APPEL'S LETTER. SACRAMENTO, August 24, 1895. State Board of Trade, San Francisco—GENTLEMEN: Anticipating the opening of the Atlanta Exposition and presuming that your committee will be desirous of forwarding fresh fruits for exhibition, we would be pleased to offer our cars and service, and also to make such arrangements as may prove to our mutual interest. We would suggest that you have your sorted cars of fruit there, same could be held in our refrigerator cars as long as necessary, and the stock utilized as desired. I think that a sufficient quantity of fruit could be sold to meet all expenses, giving you the privilege of exhibiting prior to the sale. Shall be pleased to hear from you. Yours truly, GEORGE H. APPEL, Agent.

MR. FILCHER'S LETTERS. ATLANTA, Ga., September 5, 1895. George H. Appel, Agt. C. F. T., Sacramento—DEAR SIR: Your favor of August 24th, in which you kindly offer your cars and service for the purpose of shipments of fresh fruit to our exhibit, has been forwarded to me from California. We would be glad to receive date of fresh fruit here from time to time, and in the hope that arrangements can be made to do so may I ask that you explain more definitely your idea of what you think would be practical for us to do. Yours very truly, J. A. FILCHER, Mgr. State Exhibit, Atlanta.

ATLANTA, September 15, 1895. George H. Appel, Sacramento—DEAR SIR: I find there is a great interest here in California fruit and with very little encouragement I feel sure the demand for our products could be greatly increased. With the view of helping in this line I am disposed to try and utilize your generous offer dated August 24th, and without waiting for a reply to my letter of some days ago I write now to ask whether you cannot, through J. B. Wright, arrange for substantially free transportation for a carload of fresh fruit from California.

Our exhibit was brought here freight free, and if we can get a car of fruit freight free, or nearly free, and your company furnish the refrigerator service, with the understanding that we may keep part of the fruit in cold storage in the car here for a week or two, I am confident a wonderfully big profit could be made not only for California and its fruit business, but for the fruit shipping business to this point and other places in the South besides. As for the fruit, I think the growers of Sacramento and Newcastle could be interested, through the shipping houses, to get a good deal contributed, but if we had to buy some, or all, I am quite sure that after being exhibited here a few days it would be sold for enough or more than enough to compensate the growers.

There ought to be some organization in a city like Sacramento that would take this subject up and see that our exhibit and work here is supplemented with occasional shipments of fresh fruit. What is everybody's business is nobody's, and hence, while I know you are busy, I will ask you to look into this matter and inform me as to what you think is feasible, promising in return to do what we can to promote your interests in this section. Yours very truly, J. A. FILCHER, Mgr. California Exhibit.

HICKEY ACQUITTED.

The Jury Was Out Only About Half an Hour.

The trial of Mike Hickey, charged with robbing a man named A. P. Booth, was continued in Judge Hinkson's court yesterday.

The court had on Saturday taken under advisement the objection of A. L. Hart, attorney for Thomas Boyle, one of the three defendants in the case, to have his client put on the stand to testify in rebuttal to the evidence of the other two defendants, who swore that they gave Boyle a bicycle wrench that was taken from Booth. Boyle had been ordered to be in court to testify if he could, but when Judge Hinkson rendered his decision that he could be called and sworn, but might refuse to testify if he chose, Boyle was not in court. He put in an appearance later, however, and, on being sworn and asked if he gave the wrench to the other defendants, answered that he did not, and that he had never seen it. After he had testified Judge Hinkson sentenced him to ten days in contempt of court in not being on hand as ordered.

The case was argued and the jury, after being instructed by the court, retired and returned their verdict in favor of Boyle, and Hickey was discharged.

AN INSURANCE CASE.

Both Parties to It Claim That Money is Due Them.

The case of the Travelers' Insurance Company vs. E. Hartman, and Henry S. Bridge and W. G. Holcombe, his sureties, was on trial yesterday before Judge Johnson.

The company claimed that Hartman had retained \$922.40 of the money received by him and refused to pay it over.

Hartman, in his answer, claimed that the firm of Stephenson & Hartman handled all the papers, etc., of plaintiff and that he did not have the sole custody of them, and that the plaintiff was indebted to him, over and above all claims, to the amount of \$322, which he asked judgment for.

W. W. Haskell, Pacific Coast agent of the company, testified that blank policies were sent to Hartman, and that he was charged with them when so sent and credited with the money sent by him to the company. The trial will be resumed to-day.

CHARLES AND SARAH.

Yates Fined \$10, and the Woman Sent Up for Sixty Days.

Charles Yates, the colored peace disturber, pleaded guilty in the Police Court yesterday to having raised a row at the polling-place on Twenty-third street, between N and O, during the Republican primary election last Saturday afternoon. He was fined \$10.

Sarah Nathan, also colored, was charged by Officer George McCann with being a vagrant. The officer said that Sarah was drunk when he arrested her, to which she replied: "You're a liar! You never saw me drunk!" Justice Davis, after remarking that she was always in trouble, sentenced her to sixty days' imprisonment in the County Jail.

INDIAN MANUEL.

Justice Davis Could Not Find Him Guilty as Charged.

Justice Davis yesterday dismissed the case of the Indian, Manuel, charged with having stolen \$20 from a colored woman named Mrs. Giles. The defendant was charged with petit larceny, but the court

said that the charge, if anything, should have been embezzlement. The evidence went to show, he stated, that the money was given to the defendant by mistake for a silver dollar, and if he failed to return it he was guilty of embezzlement, and not petty larceny. Few people of any nationality, said the court, would have done the same as the Indian after he got hold of the \$20 piece. He gave \$18.50 of it to a lady to whom he said it belonged to another party, and that the remainder was his. He should have returned the money the next day, but was too drunk to do so.

HID IN A CLOSET.

Where the Police Found Tom McCants Yesterday.

Thomas McCants, who on last Saturday ran amuck with a Winchester rifle in the eastern part of the city, and came near killing a number of persons, was arrested yesterday by Officers Wilson and Fisher. He had been in hiding since Saturday, and when arrested was found concealed in a closet in his house.

When his case was called in the Police Court City Attorney Brown asked that the hearing be postponed until to-morrow morning in order that he could procure the necessary witnesses for the prosecution.

H. L. Buckley, who appeared for McCants, announced that the defense was ready, but as he had no objection to the continuance it was granted.

SUSPICIOUS ACTIONS.

A Stranger Abandoned an Abused Horse Over in Washington.

Last Friday evening a man drove up in front of Constable Frommel's place of business in Washington, Yolo County, in a black mountain cart to which was hitched a white horse. The animal's hind legs were bleeding profusely, and all attempts to check the flow of blood were futile. Frommel's deputy took charge of the rig, and while he was unhitching the horse the man went away as though he thought he was going to be arrested, and did not return. He has not been seen since. The horse will have to be killed.

EXPERT LEWIS' SALARY.

Controller Colgan to Show Cause for Its Non-Payment.

State Controller Colgan was yesterday served with the alternative writ of mandate issued by Superior Judge Catlin, requiring him to draw his warrant for \$166 66 in favor of Thomas A. Lewis, expert for the State Board of Examiners, as his salary for July, or show cause on the 27th inst. why he refuses to do so.

The Controller claims there is no provision of law authorizing the employment of an expert, and on that ground refused to draw his warrant, hence Lewis' petition for a writ of mandate. Controller Colgan says that he will contest the matter to the end.

Articles of Incorporation.

The following articles of incorporation have been filed in the Secretary of State's office:

Jackson Gate Gold Mining Company. Principal place of business, San Francisco. Capital stock, \$25,000. The following directors: Frederick C. Siebe, J. P. Ellis, J. F. Plagman, Henry Plagman, H. H. Paulsen, San Francisco. Casa Delmas. Principal place of business, San Francisco. Capital stock, \$1,000,000, with the following directors: D. M. Delmas, Paul Delmas, Casa Delmas, Santa Clara County; John E. Richards, F. S. Britain, F. Spangenberg, San Francisco.

Vacaville and Spinters Telephone Company. Principal place of business, Vacaville, Solano County. Capital stock, \$5,000, with the following directors: L. E. Thurber, L. K. Buck, William H. Buck, F. B. McKeivitt, Vacaville; Henry Bruck, Winters.

Superior Court Notes.

The divorce case of Henry Weber vs. Theresa Weber was transferred yesterday by Judge Catlin to Department 3, to be tried before Judge Hinkson.

Chris Weisel, executor of the estate of Henry Fleigman, deceased, has filed his inventory of the estate, which consists of \$1,170 in the Sacramento Bank. Public Administrator Miller has petitioned the Superior Court for leave to sell the real estate, consisting of lot 12 in block 27 in the town of Folsom, valued at \$150, in order to settle the estate.

A Week's Failures.

The Bradstreet Mercantile Agency reports 21 failures in the Pacific Coast States and Territories for the week ending September 20th, as compared with 14 for the previous week and 18 for the corresponding week of 1894. The failures for the past week are divided among the trades as follows: Seven saloons, 3 general stores, 1 grocer, 2 dairies, 1 plumber, 1 tinmith, 1 bicyclist, 1 blacksmith, 1 drug and 1 fruit.

Continued Till To-day.

The case of Supervisor Morrison on a charge of misconduct in office was set for trial in Judge Catlin's court yesterday morning, but was continued till to-day, the District Attorney and jury being engaged in the Hickey trial.

A New Citizen.

William James Leflar, a native of Canada, was admitted to citizenship yesterday by Judge Johnson, W. J. Webber and W. H. Hamilton being witnesses.

Sole Trader.

The application of Mrs. Levitt for permission to be a sole trader was continued till to-day in Judge Johnson's court yesterday.

GREAT PHYSICAL STRENGTH.

is not necessary to the enjoyment of perfect health, yet strong, healthy organs and faculties give rise to the most delightful sensations of existence. Exercise, common sense and ordinary precaution and you need never be very sick. When you find your stomach troublesome, your bowels inactive, your nerves sensitive—look out! When your weight is decreasing, when your energy is waning, when exertion seems impossible and sleep does not give rest—look out!

Serious illness has its beginning in neglected little things. Even dread consumption comes on by degrees, and may begin with a very slight derangement. Taken in time, 95 per cent. of all cases of consumption can be cured. Taken in time no disease need be really serious. The best safeguard against disease is an active, healthy liver. That means good blood and good blood means good solid healthy flesh.

The germs of disease seek out the weak spots in the body. Don't have any weak spots. If you have them now, clear them out, then, them up, make them strong. Dr. Pierce's Golden Medical Discovery will do it. It searches out all poisonous matter and disease-germs of whatever character. It regulates the action of the organs of the whole body. It forces out impure matter, makes the blood rich and puts new life into every fiber. It makes good, firm, healthy flesh—doesn't make fat. It gives you flesh that you can work with—the flesh that means health, but a reasonable plumpness is essential to the best bodily condition.

Dr. Pierce's Golden Medical Discovery is pleasant to take and you don't have to take an ocean of it to get well either.

FOR CONTEMPT OF COURT.

Judge Johnson Has Ordered Z. F. Wharton Arrested.

Judge Johnson, after the Wharton divorce trial, ordered Wharton to pay his former wife \$20 on the 10th of September. Being informed that he had not done so, the Judge yesterday issued an order that Wharton be confined in jail for contempt of court until he paid it, and he was arrested yesterday afternoon, cutting short his honeymoon.

Pleaded Not Guilty.

John Watson, who gave his true name as Vincent Bailey, was arraigned in Judge Hinkson's court yesterday on a charge of robbery committed on Thomas Hilt and pleaded not guilty.

People's Party To-night.

The various People's party clubs in the city will meet to-night at Pythian Castle at 8 o'clock.

ECZEMA Most Distressing of Skin Diseases Instantly Relieved by Cuticura

WHEN ALL ELSE FAILS A warm bath with Cuticura Soap, and a single application of Cuticura (ointment), the great Skin Cure, followed by mild doses of Cuticura Resolvent (blood purifier), will afford instant relief, permit rest and sleep, and point to a speedy, permanent, and economical cure when all other methods fail.
