

DAILY RECORD-UNION ISSUED BY THE SACRAMENTO PUBLISHING COMPANY

Weather Forecast. Northern California—Fair; still warmer in the interior; probably slightly cooler along the central coast; fresh northerly winds, probably becoming westerly along the central coast in the afternoon.

A TIMELY PROTEST.

Colonel C. F. Crocker in an interview, reported in the San Francisco Bulletin, expresses his regret that newspapers should so persistently pursue an unjust policy toward railroads in the matter of constantly discovering mere nests of scandals, disagreements and friction among the officers of the companies.

It is probable that the criticism is intended to be applicable to the metropolitan press only. That of San Francisco has developed an aptitude for knowing more about the internal economy of the railroad people's offices and the state of the relations between the officers of companies than the railroad people themselves, and that so much exceeds the truth and so far passes beyond the knowledge of the people gossiped about that the public has learned to receive any and all statements published by the metropolitan press relative to railroad men and their relations toward each other and the public, with unbelief.

Literally the intelligent reader allows all the chatter of this order to come in at one and go out at the other ear without making any impression upon the mind. Nevertheless the mild but firm protest and expressed regret of Colonel Crocker is timely, and so impregnable in its truth that not even the sensational press has had the temerity to print a word of contradiction or denial of its verity.

THE Alameda County Humane Society, aided by the Sheriff of Alameda and a corps of deputies, has made a successful descent upon dog fighters. A pit was raided in the small hours of night, and now thirty-one warrants are out for arrest of the men who at dead of night sneaked off to a low place in Temescal to indulge brutish tastes by compelling bull dogs to tear and maim one another to the death.

Some of these citizens, who must answer in court for their offense against a plain statute of the State, are putting up pitiful mouths and are sending their friends to the Sheriff to beg off and urge him to let them go free of the disgrace of conviction. This, because they are professional men, capitalists, "respectable" and move in "good society."

Nothing is said in behalf of the doggy loafer, and the fellow whose whole life has been passed in the slums and in the dog pits. No one intercedes for these, but really they are more worthy of intercession than these "respectable" law-breakers. The low, brutal fellows, trained by life's association to look upon dog fighting as real sport and nothing serious in the way of cruelty or low morals, are a hundred per cent. more entitled to pity and intercession than are the broadcloth sneaks who indulge in lilliput pleasures and lack the courage to stand up to the results, as men.

We hope that the Humane Society and the Sheriff of Alameda will stand firm and make no distinctions in this matter. Let the law take its course and not make fish of one and fowl of another. Dog fighters are all off of the same piece, whether they wear broadcloth or lindsay woolsey; whether they live in mansions, or loaf around ginmills.

As, hail, and honor to the Directors of the Atlanta Exposition. Some time ago a sub-body of the management granted to a Mexican, J. M. Porteus, and an Ohlan, A. H. Smythe, a concession to hold bull-fights at the exposition. Opposition at once developed, and when the full board met the concession was revoked.

The fact that the news is that cholera is decreasing in virulence in Japan should not induce any relaxation of vigilance, or any weakening in the cleaning-up process here. The cholera is the most uncertain of epidemics; it has its waves of advance and its tides of recession. So long as it exists in the Orient there is danger of its transmission to the Pacific Coast.

NOTE AND COMMENT. It were not so grievous if it would be absolutely amusing—this method the San Francisco papers have of trying the Durrant case irrespective of the actual trial going on in court. Some of the lines of conjecture the papers work out are simply farcical, and some of the interpretations put upon the testimony are ludicrous. Why not allow the court and jury to try the case according to legal methods?

THE PROTEST OF LABOR.

Wage-Earners and the Proposed Freight Rate Reductions.

Petitions to the Railroad Commissioners and to the State Labor Commissioner.

Referring to the action of the Board of Railroad Commissioners concerning the proposed horizontal reduction of freight rates on railroads of 25 per cent., the Los Angeles Express of Tuesday publishes a petition that has been sent up from wage-earners in Southern California, and that is to be presented this week, and which bears thousands of signatures, protesting against the order of the board.

The Express also publishes the second petition sent to the Railroad Commission, and which was signed by many thousands of workers for wages. The first petition presented, it will be remembered, had about a thousand signatures. The second, which is with some modifications like the first, is addressed to the Commissioner. The third is addressed to the State Labor Commissioner, and is from Southern California wage-earners. The two last are given as follows by the Express:

To the Honorable the Board of Railroad Commissioners of California: GENTLEMEN: The undersigned, comprising of the Southern Pacific Company, and skilled and unskilled labor generally, represent to your honorable board that they have not been prompted in this petition by any other, minor, or agent of any of the Southern Pacific Company, directly or indirectly, by suggestion or in any other manner; but that they thus act of their own motion and without the knowledge of said company, or any member or agent of it.

We, therefore, freely, with entire comprehension of all the matters and things involved, respectfully protest against the proposed horizontal reduction of freight rates, made by your honorable chairman and Mr. Stanton, and for these reasons, to wit: Such reductions will be inequitable. It will also affect the incomes of the Southern Pacific Company, and it will make even—and we believe of necessity—by reduction of wages, as about all other charges and burdens of said company are fixed and unyielding.

The reduction of wages by said company, the largest employer on the coast, will be a great injury and permanent harm to the grower of grain and all produce, and all farmers and supplies of life, and, therefore, will more than offset the supposed gain for shippers by reason of the proposed reduction because of lessened consumption and other obvious reasons.

We are perfectly and fully aware that this is equivalent to saying that the present rates are equitable, and we say this because we are convinced that such proposed reduction, as moved by your board, will compel such company to cut down wages in order to retrace sufficiently to meet its obligations of maintenance and operation.

Any such result would be little less than calamity to the State and every interest in it. We, therefore, in the name of labor, skilled and unskilled, protest against any such reduction proposed by your board, because, if made, it will strike down fair and living wages to a deplorable level, and that example will be followed by employers outside of said company, and the consequences will be felt deplorably along the line of the industry and trade. Respectfully, etc.

PEITION TO THE COMMISSIONER OF LABOR. To the Honorable Commissioner of Labor, San Francisco, Cal.—DEAR SIR: We, the undersigned representatives of skilled and unskilled labor, following as we do various vocations in the great struggle for maintenance and existence, most respectfully petition you in behalf of the wage-earning class of Southern California to make use of every honorable effort and means within your power as Labor Commissioner to prevent the enforcement by the Honorable Board of Railroad Commissioners of the 25 per cent horizontal reduction on freight rates now charged by the Southern Pacific Company and its leased lines within the State of California. Our reasons for thus petitioning you are as follows:

First—The Southern Pacific Company are the largest employers of skilled and unskilled labor within the State of California. From the organization of that great enterprise up to the present that company has paid a higher wage to the men in its employ than has ever been paid by any like association in this country. For the year ending January 1, 1895, the Southern Pacific Company paid out for labor in this State \$9,660,000.

Second—We believe that any reduction in freight or other charges now in force by the Southern Pacific Company would injure or lessen their income by low operating and fuel expenses would have to be met by a reduction of wages, thus placing the benefits to be derived by a horizontal cut of freight in the hands of the few, to the serious injury of the great industrial classes throughout the State. In the presentation of this matter we have facts and not theories to contend with, for it is in evidence before the Honorable Board of Railroad Commissioners that 60 per cent of the cost of operating the roads is paid for labor, 25 per cent for fuel and the remaining 20 per cent, for interest, profits and other incidental charges. With these incontrovertible facts before us, would it not be well to pause a moment and ask Messrs. Lathrop and Stanton of the Honorable Board of Railroad Commissioners to call a halt to the proposed cut-down an enterprise which employs more men and pays better wages than any other industry in this State; an industry which has always maintained good wages, and which has largely forced other employers to do likewise?

Third—Past experience has taught us that the great land barons of California are controlled entirely by selfish motives, and that they have no use for any class of men which seeks wages or social justice above that of a slave. Fourth—We ask does it seem possible that anyone at this time could be so blinded by party clamor and the appeals of frothing demagogues as to ignore the wage conditions of California, and that, too, at a time when our own State, and in fact, the Nation, is undergoing a financial, commercial and industrial crisis such as has never been experienced on this continent.

Fifth—Again we ask you to use all honorable means to the end that the wage-earning class may not be made sufferers by any unwise move on the part of those who have power to build or destroy the State.

Mr. Kruttschnitt. There is no personal ill will between any of the officers of the company except such as may be found in the newspapers. I have not disagreed with H. H. Huntington as to the Market-street Railway extension. I have not disagreed with him at all—and while I regret this newspaper tendency to create quarrels which do not exist, I recognize that I have no way of checking it. I am always glad to enlighten the newspaper representatives upon matters of public interest so far as I can, and no newspaper representative has ever been deceived by me.

Yesterday was quarterly dividend day with the Capital Gas Company, and the officials and chief stockholders enjoyed their customary banquet.

While handling a sick sheep a few days ago, Henry C. Johnson of H. Glida, was inoculated through a scratch on his hand and now has a bad case of blood-poisoning.

Waiter Iverson was convicted in the Police Court yesterday of having stolen a saw from the grocery store of Bassett & Minford. He will be sentenced this morning.

Motion to Vacate. Philip Oppenheim has filed in the Superior Court a notice of motion to vacate the order of the court modifying the injunction in the case of Louisa A. Oppenheim vs. Philip Oppenheim et al., so far as it directs him to immediately pay the income in his hands as trustee, accrued and to accrue, to the plaintiff.

Sarah A. White's Estate. Charles H. Joy, E. H. McKee and Henry Starr have filed their appraisal of the estate of Sarah A. White, deceased, which consists of \$32,538 in the People's Savings Bank, a lot in the Masonic plat at the City Cemetery, notes amounting to \$1,839 and jewelry and furniture, the total amounting to \$2,408.05.

When Schools Will Open. The Board of Education announces that the public schools of the city will reopen on October 7th. The teachers and pupils have yet twelve days of vacation.

Commissioner of Deeds. Governor Bull has appointed James A. Carter Commissioner of Deeds, to reside in New York City.

SAYS HE SHOT BLANK CARTRIDGES.

The Excuse Tom McCants Gave for His Conduct.

He Also Says He Was So Drunk He Did Not Know What He Was About.

The case of Thomas McCants, charged by young James McClatchy, son of V. S. McClatchy, with assault with a deadly weapon (a rifle) with intent to commit murder, was called in the Police Court yesterday for the defendant's preliminary examination. He was defended by H. L. Buckley and the prosecution was conducted by City Attorney Brown.

McCants on last Saturday wandered about with a Winchester rifle in the neighborhood of Twenty-third and J streets, and it is charged that he fired a shot from the rifle at young McClatchy and two other boys named Dean Lyon and Roy Eldred. They testified to this fact in court yesterday.

The Eldred boy particularly testified that McCants got out of his cart and demanded that Eldred give an account of himself. He threatened to blow the boy's head off if he did not do so. Eldred said he became frightened at McCants' actions and ran away, but before he could get under cover McCants had pulled the trigger of the rifle.

Mrs. Fannie Moore testified that she saw McCants snap the rifle at McClatchy, but it missed fire. He then inserted a fresh cartridge, walked across the street and fired a shot toward J street.

James Contell testified that he had been hired to avoid McCants, as the latter might shoot him. He also heard the shots from the rifle.

J. L. Morten said he heard several rifle reports, and saw McCants with the rifle in his hands. The defendant pointed the weapon at Morten, and the latter retreated into an alley.

Officer M. Fisher testified that he and Officer Wilson found McCants hid in a closet in his house and arrested him. This closed the case for the people, and a young man named Homer Hapeman took the stand in McCants' behalf. He testified that he and McCants were drunk from Angelica wine on Saturday, and in a scuffle over the rifle, McCants fell out of a cart in which they were riding. They had a dispute about something, after which Hapeman took the rifle home. McCants told him on their way to Fisher's house that he had a number of blank cartridges with him. He heard the shots from the rifle.

McCants, in his own behalf, testified that he was so drunk he did not know what he was doing, and that he fired the shots. Although in that condition of mind he insisted that he had fired blank cartridges instead of loaded ones. He said he had no intention of shooting the boys, and that he was so drunk that he could not remember the morning.

One of the wrong things in this world is that a woman has to depend upon a man to speak. Her happiness may depend upon him, but she is not permitted to tell her own mind. No man admires a sallow skin, dull and sunken and circled eyes, bloodless lips, sunken cheeks. No man wants to marry an invalid. Very few invalids are attractive to either sex. It isn't natural that they should be. Many a woman's heart's happiness has been wrecked because of a crop of pimples or because of a foul breath, or because of some other unpleasant symptom of an irregularity in the performance of her natural functions.

Health in a woman brings clear complexion, ruddy cheeks, bright eyes, and intelligent. Eternal watchfulness is the price of health. The downward road to disease is fatally easy to travel. Little disorders, little irregularities, little drains lead to the most serious consequences. Put a stop to them! Dr. Pierce's Favorite Prescription will do it without the embarrassment of examinations and "local treatment" so much dreaded by modest women. In nine cases in ten, there is absolutely no need of them. The "Favorite Prescription" has been prescribed by Dr. Pierce for over 30 years and has cured the very worst forms of female trouble. A book of 168 pages, containing much valuable information and letters from hundreds of grateful women, will be sent in a plain envelope, securely sealed, on receipt of this notice, by mail, upon the most secure contract. Put a stop to them! Dr. Pierce's Favorite Prescription, No. 603 Main Street, Buffalo, N. Y.

PAIN'S CELESTIAL COMPOUND.

An Absolute Cure For the Worst Cases of Rheumatism.

The Plain Language of Mr. Oscar Pike—The Greatest of All Remedies Accomplished His Cure After Many Months of Weakness and Suffering—No tedious Waiting for Improvement.

Paine's celery compound is the one known specific for the cure of rheumatism. And it does not need a tedious trial to prove it.

The effect of this best of remedies is straightway felt. Not a week goes by before the pains of rheumatism diminish.

Thousands of men and women have told of the days and nights of pain and feebleness exchanged in a few weeks for activity and strength.

Paine's celery compound has won the reputation of being the remedy "that makes people well." Its good works extend from Oregon to Maine. In every State in the Union there has been piled up in the newspapers and medical journals a tremendous amount of indisputable evidence of the curative power of Paine's celery compound over all forms of rheumatism, debility and diseases of the blood. It cures after nature's plan, by affording nutrition for every part of the body, overhauling the worn-out tissues, and supplying new brain and nerve matter, sending pure blood through the veins, invigorating the whole system and removing the cause of disease.

Mr. Oscar Pike, a well-known resident of Princeton, Maine, recently sent the following unsolicited letter to the proprietors of this wonderful remedy: "Two years ago I was taken sick with what the doctors called the grip. I was improving when I took on a violent cold and chills. It then ran into rheumatism, first in the joints of my shoulders, then down my hands and arms, then all over. Feet, hands and legs swelled. I could not put my hand to my head; could not throw my clothes off; from morning until noon I lay in bed, and could not dress or undress myself, nor get out of my chair without help. For a year and a half I tried all kinds of medicines and sarsaparillas, with little or no relief. I was 73 years old. Some one told me to try Paine's celery compound. After I had taken three bottles I found a marked improvement. I have now taken twelve bottles, and the result is I eat and sleep well, do my own work, and go about as usual, getting in and out of my carriage without help. I have been tempted to put an article in the local paper for the benefit of those that are afflicted as I have been."

Mr. Pike is well known in his locality. He is the founder and President of the North Washington Agricultural Society and Frotting Association. When he goes for his mail, he says, people ask him what he has been doing that he is improving so of late, and he answers as do thousands of others throughout the country: "Paine's celery compound has made me well."

SPECIAL NOTICES.

Vehicles—BAKER & HAMILTON—Hardware, Carts, Buggies, Carriages, Phaetons, Barn Farm and Header Wagons. Wholesale Hardware. Send for Catalogue.
