A STATES' RIGHTS BOGIE MAN. Our esteemed contemporary, the Call, is edited with distinguished ability.

It finds in the Federal intervention relating to the contest between the Southern Pacific Company and the State Board of Railroad Commissioners an evidence of determination on the part of the Government of the United States to obliterate State sovereignty and to establish a centralized Government.

Beyond all this, our contemporary is forever stopped from asking the Government to become the absolute owner of the Central Pacific. That ownership would eliminate State regulation, State control and State taxation.

The law of the State requires that music shall be taught in the public schools. It goes so far as to exclude it from the list of subjects that may be treated orally, thus requiring it to be taught as is arithmetic, reading, language, etc.

It is found, also, that the proposition now before the Board of Education is not to add anything to the curriculum, but to increase the burden of home study or give to the children any more or heavier tasks to add to their present duties.

It is as clear as any other remedy. HADYAN cures debility, nervousness, emulsions, and develops and restores weak stopped quickly. Over 2,000 private endorsements.

TAINTED BLOOD—impure blood due to serious private disorders carries myriads of sore-producing germs. Then comes a hot, pimply, copper-colored spots, ulcers in mouth, old sores and falling hair.

Send for circulars and testimonials. HADYAN MEDICAL INSTITUTE, Stockton, Market and Fifth Sts., SAN FRANCISCO, CAL.

The department of justice has asked permission to be an intervenor, as the only method of protecting the security upon which the Government holds a subordinate lien.

We have been told time and again that the Government built this road; that the money used in its construction belonged to the people of the United States.

Having attempted to limit its gross income to 75 per cent. of that derived by the present rates, the Southern Pacific Company, lessees of the Central Pacific, sought to protect its revenue by enjoining further proceedings in this direction.

We earnestly admonish our contemporary to think in a straight line, but we take the liberty of giving it a brief lesson in elementary law.

THE FOUNTAIN OF YOUTH. It has Never Been Found But Its Powers Have Been Discovered.

It was once thought that a fountain existed somewhere in the world and that all who drank of it would be endowed with perpetual youth. For long ages men sought for this mythical fountain, but it was not until our own times that anything like it was ever discovered.

As an example of what this preparation will do for elderly men and women, we will take the following interesting case. Mr. Walter P. Chapman, of 29 Hanover street, Baltimore, writes: "I consider Duff's Pure Malt Whisky the very best article for the use of elderly persons who require a tonic as well as a stimulant."
