THE OAKLAND EXPOSITION.

Oakland Times: If any person doubts women's ability to make a success of any enterprise, there is no need to look for an example in the women who took hold of the venture soon to have soon realized that they had awakened a strong opposition or else created a spirit of indifference, which, to overcome, they had to call in the women. The latter rallied to the support of the exposition and worked with a zeal and in a way that brought the undertaking to success.

A REMARKABLE EVENT.

STEEN WILL APPEAL.

J. O. Steen was convicted in the Police Court of selling liquor without a license and fined \$100. His attorney, H. L. Buckley, has filed a notice of appeal.

VOICE OF THE PRESS.

Expressions From the Newspapers of Nevada City Herald: It has been accurately demonstrated, says American Machinist, that 80 per cent of the business firms of the country that fail are those that never advertise. There can be no disputing this statement, because it is capable of being run down to a nicety. There is no doubt that many thousands of dollars are annually thrown away in waste that, unless advertised, but on the other hand it is equally true that men who know how to advertise never fail to receive abundant returns.

MUSCLE DEVELOPMENT.

Tulare Register: A writer in the Chronicle suggests that it might be advisable for the human family to suspend study of theologies and isms and practice gymnastics and nerve culture until men and women can jump ditches like dogs and climb trees like cats. In other words, he thinks that we are cultivating our mental faculties to the detriment of physical well-being. Perhaps he is right as to neglect of physical culture and he may not be far wrong in the belief that climbing trees and jumping ditches would be as useful as the general public and also those who have given attention to the enterprise recognize in the women those who gave life and instilled a spirit of courage and confidence in the men.

INDIGNANT SOUTH CAROLINIANS.

Los Angeles Times: There is an indignation protest against the new "Constitution" of South Carolina, and the people of that State, who have had no opportunity to vote upon its adoption or rejection, propose to test its legality. The outcome ought not to be very doubtful. There should be some way of defeating the consummation of so grave a crime as the disfranchisement of half the voters of a State.
