Resolutions Adopted by the Atlanta Exhibitors' Association.

Speeches of Tillman and Evans of South Carolina Denounced in Emphatic Language.

During the late Cotton Exposition at Atlanta, Ga., Senator Tillman and Governor Evans of South Carolina made speeches in which they denounced the North and the Union and said they believed that the time would come when the South would rise in favor of the "lost cause." The Exhibitors' Association appointed a committee of five from different parts of the country to draw up resolutions expressing the sentiment of the association on the speeches. The resolutions were drawn by J. A. Filcher, a California Democrat, and were unanimously adopted, as follows:

"Whereas, The public expressions of representative men who have visited the Atlanta Exposition have been of a conciliatory character, marked by evidence of the broadest patriotism and the most sincere fraternity; and

"Whereas, This characteristic has been true regarding the expressions of distinguished visitors, whether those visitors came from the North, the East, the West or the South; and

"Whereas, The friends and promoters of the Atlanta Fair, by reason of the many fraternal expressions their enterprise had provoked from patriots of all parts of the Union, had begun to regard the more friendly relations between the different sections of our common country as one of the best and most gratifying results likely to grow out of their stupendous enterprise; therefore, be it

"Resolved, By the Exhibitors' Association of said Atlanta Exposition, a body composed largely of American citizens and representing all parts of the Union and all shades of political opinion, that we deeply deplore the one marked and flagrant exception to the heretofore prevailing expressions of fraternity, brotherly love, patriotism and loyalty that was made manifest at this exposition on South Carolina day, and in which ex-Governor of that State Ben Tillman, and the present Governor, John Gray Evans, were the offenders.

"Resolved, That we know from our own contact and intercourse for the past few months with Southern people, that in their disloyal and inflammatory utterances those two ranting demagogues are a libel on the better class of Southerners and do not give voice to the prevailing Southern sentiment.

"Resolved, That we sympathize with the Southern States of our Union in the affliction which compels them to endure such blows to their inner worth and such clogs to their merited progress; and we especially sympathize with the ignorance that must yet prevail in South Carolina to make it possible for such scum to rise to the surface.

"Resolved, That for the fame and good name of the Atlanta Exposition, at which these men were unfortunately permitted to speak, we denounce their speeches as being devoid of reason, sense and patriotism, and we repudiate the speakers. In this we feel confident we are but voicing the sense of our country and the earnest feelings of the better people of all the Southern States.

"Resolved, That we sympathize also with the management of this exposition that under the cloak of temporary authority two such fanatics should have been able to intrude their utterances upon the otherwise healthy and satisfactory proceedings that have characterized this enterprise. But while dismissing the utterances of these men as unworthy of further notice from our association or the country, we do not forget that in the general economy of nature mankind must have his troubles and communities their afflictions. It is not many years since that California was greatly annoyed by a brace of ban-

dits, known as Evans and Sontag, and the exhibition witnessed here on the 28th of November is but an evidence that South Carolina, in its turn, is enduring, through its own indiscretions, a season of torment from its Tillman and Evans.

"Committee for the association: J. A. Filcher of California, Chairman; J. William Forts of Maryland, W. F. Anthony of Virginia, Bennett of Tennessee, C. H. Robbins of Boston.

"Approved: GEORGE JOHNSON, "President Exhibitors' Association."

VOICE OF THE PRESS.

Expressions From the Newspapers of Interior California. Santa Barbara Press: War is one of the very greatest calamities that can happen to any nation, and yet this country for some time past has, seemingly at least, been just aching to have some other Government knock the chip from its shoulder. England would not, and now the relations with Spain are so crowded in regard to Cuba that it may be jostled off while Congress is taking its attitude in regard to the insurgents.

AS UNDERSTOOD. Calaveras Prospect: As we understand the funding proposition it puts off the time of payment, reduces the interest in the meantime, but requires ample security in addition to that now held by the Government, thereby making the payment some definite time in the future a certainty. If this is the case, as generally so understood, and if foreclosure would result in sacrifice of millions due or force Government ownership upon the country at enormous cost for the sake of a doubtful and dangerous experiment, for so it looks to us, should clean up the business in the best terms Congress can exact by settlement on sound business principles in refunding the debt.

CONCERNING SACRAMENTO. Fresno Examiner: We do not know just what kind of a man the present Mayor of Sacramento is, but from the way the city papers handle him it would appear that he does not move in a line that indicated permanency in the city, or even in the permanency of the earth. That city has suffered more from financial economy that has resulted from any and all combinations of events. There are improvements necessary to make it attractive that would do more to build it up and produce revenue and place it out of debt than all the parsimonious ingenuity can ever save in the administration of public affairs. It has been treated like a very sick patient in the hands of a quack doctor.

THE UNIVERSITY WINS. San Jose Herald: The Supreme Court has decided the suit of the Government against Mrs. Stanford in favor of the defendant. Every resident of San Jose and Santa Clara County will rejoice that the continued existence of the great university is thus assured. In future years, when the circumstances leading up to this suit have been forgotten; when even the Pacific Railroads question shall have dropped out of sight in some final disposition, the university will still be a power for the intellectual uplift of generations now unborn. This uplift is a result for which the State and the Union, now and hereafter, can join in congratulations.

THE RED FLAG. San Jose Herald: A very persistent effort, it appears, is being made in San Francisco to organize the anarchists of that city into clubs. The chief investigator is one Gorri, an Italian, who is said to have been expelled from Switzerland. His efforts thus far have been mainly devoted to the colony of his countrymen at the metropolis, and he seems to have met with some success. He does not make any secret of his purpose. The anarchists, he says, propose to organize openly in San Francisco, and then to extend their propaganda elsewhere. Whether or not they intend to do anything beyond organizing, remains to be seen. It would be well, however, for the authorities to keep close watch on these fellows. This State is not any more exempt from crime and pauperism than any other commonwealth, but heretofore it has

been spared anarchism, which is their usual offspring. People who come here to advocate it should be speedily taught that, tolerant as California may be of peoples and opinions, the red flag cannot flaunt in this State.

SPANISH APOLOGY. Oakland Enquirer: The prompt action of Spain in expressing regret for the work of the mob in Barcelona is highly creditable. To apologize was the only thing that could be done, but Spain did it with more promptitude than was expected under the circumstances, and instead of humiliating her, this act, by showing that the Government is not swayed by the mob, entitles it to added respect. It is fortunate that at this critical time the Prime Minister of Spain, Senor Canovas del Castillo, is a man really entitled to be considered a statesman; and he is a conservative, but one of a very respectable type.

OF THE CUBANS. Santa Cruz Penny Press: In the first place, the Cubans in rebellion are mostly negroes, unfitted to govern themselves, unripe for American citizenship. If we forcibly lose the grip of Spain on the island, what are we to do with it ourselves? Shall we make it a State of the republic? God forbid. In no way is it fit to enter into the great league of self-governing commonwealths. It is in rebellion, in custom and in right, and there is no place for Cuba in this republic.

TORRENS LAND LAW. Stockton Record: There is little doubt that the Torrens land law will prove as popular in this country as has the Australian ballot system. Cook County, Illinois, which includes the city of Chicago, has adopted the system, and numerous transfers have been made there under the system, though its use is not mandatory on property owners. It is so highly recommended by other States and cities will not long postpone the adoption of the system.

The Torrens law for the transfer of realty titles, if we properly understand it, virtually vests the primary title in the State. The State issues possessory title to a certificate, and at the same time enters a decree quieting all prior claims and adverse titles. When a transfer is made it is simply necessary to call in the certificate and issue another one to the party who makes the purchase.

THE LIQUOR MEN. Los Angeles Times: The determination of the better class of liquor dealers to enter upon a crusade throughout the State against those who violate the law is commendable. The movement is also to be commended in that it is inspired by no hypocritical pretense of piety, philanthropy or benevolence. These liquor men recognize the fact that their business is seriously injured by unscrupulous keepers of saloons and unscrupulous dealers who violate and defying the law. As a matter of self-protection they propose to co-operate with and assist the authorities in enforcing the law and taking away the licenses of those who violate it. The movement is a wise one on the part of the liquor dealers and promises to result in much good all around.

COSTS. Shasta Courier: Oh, no, it don't cost anything in particular to operate railroads. For instance, the new United States law requires all freight cars to be equipped with automatic couplers after January 1, 1898. The Southern Pacific system has two couplings to each car, and the cost will be \$20 per car. The estimated cost for the entire system is \$254,000.

A "SUN" STROKE. Colusa Sun: Capital is sought to be made by the Vanderbit wing of the funding bill discussion out of the admission of Mr. Huntington that dividends to the amount of seventy millions had been paid to the stockholders of the Central Pacific. Should there be a mortgage on the Colusa "Sun," and the publishing company was trying to make a settlement with the creditors, would the dividends heretofore paid out any figure, except in so far as they might determine present value? If John Doe had mortgaged his farm near Maxwell for \$25 an acre, when land in the neighborhood was worth \$50 an acre, and when it came down to \$25 and less and he and his creditors were seeking to compromise so as to secure future payments, would the fact of good crops and good prices ten years ago cut any figure in the proceedings.

LIQUOR DEALERS' ACTION. Los Angeles Record: The State Association of Liquor Dealers has realized that the best interests of all will be conserved by eliminating from the traffic as many of the objectionable features as possible, and under the lead of their former, John W. Mitchell, has commenced a crusade against dives and the robbers who keep them. Without entering into a discussion of the ethics of this much-discussed business, it can be said that the move, is a commendable one, and will be productive of good.

BANKS AND PUBLIC FUNDS. San Bernardino Sun: The other day J. W. McCauley, late City Treasurer of Tacoma, Washington, was sentenced to serve a term of four years in the penitentiary for drawing interest in his own benefit on city funds by him deposited in the Columbia National Bank, and otherwise tampering with and misappropriating public moneys. At the root of his malversations, and probably the first thing to suggest them, was the quite general practice on this coast of depositing public funds in banks with the tacit understanding that in plain violation of the letter of the law the funds thus deposited are to be loaned or otherwise used by the banks in common with other funds.

The inevitable result of this practice is that a custodian of public funds who is not over-scrupulous reasons that if the banks in which he deposits these funds may use them, why may not he? And it is a hard question to answer. In fact, there is no rational negative answer to it, except in the abstract maxim that "two wrongs do not make a right."

Freck of an Insane Woman. A short time ago a lady in Paris became violently insane on the street and was sent to an asylum. Her apartments in the Rue Rambuteau—fine ones, for which she paid an annual rent of 2,000 francs—were then visited. An intolerable stench pervaded them. The demented woman had completely "canned" them with empty sardine boxes, which emitted the most offensive perfume. There were four cartfuls of these odorous boxes. The benefits to be derived from a good medicine in early spring is undoubted. To purify the blood, overcome that tired feeling and gain strength take Hood's Sarsaparilla. The first law that God ever gave man was a law of obedience; it was a commandment pure and simple, wherein man had nothing to inquire after or dispute, for as much as to obey is the proper office of a rational soul acknowledging a heavenly superior and benefactor.—Montaigne.
