

SANITARY MATTERS.

Meeting of the City Board of Health Last Evening.

The City Board of Health held the usual monthly meeting last night. There were present Drs. Nichols, Huntington, Parkinson, Ward and Waggoner.

The report of City Physician Nichols for the month of March shows the total number of deaths in the city to have been thirty-eight. Of the deceased nine were under 20 years of age.

Six cases of diphtheria were reported, and one death from that disease. There were three cases of scarlet fever.

The report of Assistant City Physician Ogden gave the number of patients treated at the dispensary as 356; treated in County Jail, 25; in Receiving Hospital, 3; outsiders, 12; total, 396; number of new patients, 278; repeaters, 118; number of burial permits issued, 10; removals, 2.

Sanitary Inspector Herr reported 17 alleys cleaned; cesspools cleaned, 12; cesspools built, 15; repaired, 8; closets cleaned, 7; abated, 1; patent closets put in, 4; vaults disinfected, 22; drains put in, 13; repaired, 11; dead animals removed, 27; diphtheria notices posted, 3; scarlet fever notices, 3; inspections, no cause for complaint, 33; special inspections, 56; nuisances abated, 64; traps put in, 7; vent pipes put in, 7. The report was approved.

The Plumbing Inspector reported that the plans and specifications received during the month of March was 14; first inspections, 14; final inspections, 22; taps inspected and put in, 16; overflow connections, 6; sewer pipe for overflows, 486 feet; water closets set, 27; wash basins, 14; sinks, 27; bath tubs, 25. W. J. Thompson had been arrested for running water pipe without a license and fined \$2 50. The report was approved.

Dr. Huntington called attention to the condition of the alley between Eighth and Ninth, J and K streets, which he stated was still in a bad condition.

The Sanitary Inspector stated that he had notified the parties that it must be cleaned out, and that a partial attempt had been made to do so, but that the alley was flooded after each rain, and that it was nearly impossible to keep it in a good condition.

City Physician Nichols read an application from Charles H. Merry for the position of Milk and Meat Inspector, which was placed on file.

The ordinance which had been proposed by the Board of Health to the City Trustees not having been acted on, it was determined to defer further action in the matter until something was done by the Trustees.

Dr. Parkinson inquired whether or not whooping-cough was now epidemic

in the city, and was informed by the City Physician that not a single case had been officially reported.

Dr. Huntington stated, however, that there were a great many cases in the northeastern portion of the city, and other physicians present also reported a number of cases in which no physician had been called in.

There being no further business, the board adjourned.

AMUSEMENTS.

An attraction of which much has been heard is Morrison's brilliant production of "Faust." This will be seen at the Metropolitan Theater Friday night, April 10th. The presentation is notable, we are assured, aside from the excellence of the company, for its employment of a series of stage effects. Electricity comes into play throughout the production. A cross starting into light by the church wall daunts the fiend amidst his loudest boastings. Flowers leap into glowing blossoms in the scene where Marguerite gives herself to her lover. But it is in the Brocken scene that full "light effects" are attained. Dragons pass through the air, leaving a train of sparks behind, and a veritable cataract of fire descends at the close between the uncanny people of the Sabbath and their illumined chief on the mountain peak above. The Morrison dramatization of Goethe's legend is ascribed to Bayle Bernard of London, and follows the original more closely than other versions. The company is carefully selected and will undoubtedly have a large audience here. The company goes to Marysville Saturday, thus no hurry or cutting. The production will be given in all details here that have obtained elsewhere.

The new stock company at the Clunie Opera-house is superior. It is the most genteel and cultivated stock organization that has been put into the house yet. No company preceding it has been able to present so many handsome, capable women, for instance, graceful, intelligent and actresses of ease, care and spirit. Mina Gleason, Edythe Komen, Agnes Rankin and Charlotte Sheldon constitute a quartet strong at all points, dramatic and personal. Warren Dible and Frank De Camp are two men of the troupe not before mentioned who are thoroughly capable actors, versatile and skilled. These, with Hodges, Lothian, Gleason, Howard, Hutchings, Crane, Spickett and Mrs. Leavy make up a troupe of such breadth and adaptability that anything in comedy, melodrama or society plays can be capably produced by them. The only fear we have is that it will not be possible to maintain so large a troupe, one capable of such varied and good work, on the basis of the prices of admission. "Saratoga" will be repeated to-night. It is well played and moves without a jar or hitch. It is a sparkling, genteel comedy, and well worth seeing.

The funeral of the late David Strauch took place yesterday afternoon from the funeral parlors of Miller & McMullen, and was largely attended. Farmers from all parts of the county came to pay their last respects to their old friend. Rev. Mr. Oehler officiated, and a quartet, composed of Messrs. Genesee and Longbottom and Mrs. Hawley and Mrs. Coppersmith, rendered "Beyond the Smiling and the Weeping," "One Sweetly Solemn Thought," "Passing Away," "Thy Will Be Done," "Abide With Me" and "Just as I Am."

The pall-bearers were George Sermonet, John Kromer, Theo. Derringer, Thomas Cippa, F. Rowe and John Morrison. The interment took place in the family plot at the City Cemetery.

Superintendent Jackson of the Capitol Gas Company was arrested yesterday afternoon on a charge of violating the ordinance relative to digging up a street without permission of the City Trustees.

It is understood that the work done by Mr. Jackson was necessary to repair a leaking gas-main.

FINES FOR CRUELTY.

The Humane Society Claims Them, and So Does the County.

Humane Society Officer Dan Healy recently arrested a Chinaman for driving a horse that was unfit for service.

Yesterday morning the Chinaman was tried before Justice Henry, found guilty and fined \$10, which he paid.

Under the statute of 1874 all fines collected for cruelty to animals shall be paid to the society formed for the protection of the same, if such a society exists, and this has been the rule in all former cases. But Assistant District Attorney J. C. Jones demanded that the fine received from the Chinaman be paid into the County Treasury instead.

The Humane Society, through its Secretary, F. M. Woodson, took issue with Mr. Jones, and as two Acts relative to the case were approved on the same day, and seem to be conflicting, the society has notified Justice Henry not to turn over the fine as directed by Mr. Jones. This, it is intended, will bring matters to a head, and a test suit will be the result.

The section of the code upon which Attorney Jones takes his present stand was approved March 30, 1874, took effect July 1st, and reads as follows:

"Section 1570. All fines and forfeitures collected in any court, except Police Courts, must be applied to the payment of a certificate of costs, when the fine or the forfeiture incurred; and after such costs are paid the residue must be paid to the County Treasurer of the county in which the court is held."

Section 17 of the Act of March 20,

1874, relating to cruelty to animals, will be the basis upon which the test suit will be maintained. It is as follows:

"Every person convicted of any misdemeanor under this Act shall be punished as is by law provided for the punishment of misdemeanors; and all fines imposed or collected in any county under the provisions of this Act shall inure to the society in said county."

This Act took effect immediately.

The action of the Assistant District Attorney has created quite a stir among the members of the society in this city, and some anxiety prevails as to what the result may be.

SUPREME COURT DECISIONS.

SYLLABUS.

(S. F., No. 150—Department One—Filed April 6, 1896.)

Estate of John A. Clary, deceased. Order compelling administrator to pay over to heir the amount of property concealed, with legal interest compounded annually.

Jurisdiction of the Probate Court over an administrator or executor does not cease until his final discharge, and it is only after the payment and delivery of all the property of the estate to those entitled and production of satisfactory proof of the fact, that he is entitled to his final discharge. Until such final discharge the Probate Court retains jurisdiction, not alone of the administration, but of the property of the estate in his hands, and may compel the proper disposition of the latter in accordance with its decree, by punishing the delinquent trustee, if necessary, as for contempt.

Jurisdiction being conceded, for the one purpose, it follows necessarily for the other. The awarding of the interest is but an incident to the right to award the principal. Equity does nothing piecemeal.

To be Congratulated. (From the Stockton Mail.)

The Sacramento "Record-Union" is now a seven-day paper. Sunday last it made its appearance in twelve-page form, and, judging from its contents, its conductors intend to make their Sunday issue specially attractive to those who like pure and wholesome reading. It has one marked merit. It is entirely free from even the taint of sensationalism in the offensive sense of that term, and, in that regard, is a notable exception to the average Sunday newspaper. The people of Sacramento are to be congratulated upon the fact that the "Record-Union" will know no day off so far as they are concerned. Its fidelity to the higher ideals of journalism and its devotion to the home interests of the Capital City have won for it the esteem of a very wide circle of readers.

Action to Sell a Mine.

Scrofula. Infests the blood of humanity. It appears in varied forms, but is forced to yield to Hood's Sarsaparilla, which purifies and vitalizes the blood and cures all such diseases. Read this: "In September, 1894, I made a mistake and injured my ankle. Very soon afterwards, two inches across formed and in walking to favor it I sprained my ankle. The sore became worse; I could not put my boot on and I thought I should have to give up at every step. I could not get any relief and had to stop work. I read of a cure of a similar case by Hood's Sarsaparilla and concluded to try it. Before I had taken all of two bottles the sore had healed and the swelling had gone down. My Foot is now well and I have been greatly benefited otherwise. I have increased in weight and am in better health. I cannot say enough in praise of Hood's Sarsaparilla." Mrs. H. BLAKE, So.
