

JUDGE SEAWELL OF SANTA ROSA PASSES AWAY

The Day After His Sixtieth Wedding Anniversary.

One of the Early Pioneers of Napa County.

Schooners Collide Near Cape Mendocino—Jackson Crooks Dies of His Wound—Fresno Raisin-Growers Rejoice Over the Prospect of Good Prices—Boy Run Over by a Horse-Cart at Red Bluff—Sierra Ice Company's Warehouse Burned.

SANTA ROSA, June 28.—Judge W. N. Seawell died at his residence in this city to-day after an illness of four weeks. He had reached the ripe old age of 65.

Judge Seawell crossed the plains from his native State, Missouri, in 1853. He settled at that time in Napa City and was identified with the early political history of Napa County, where he held the position of Deputy Sheriff and Postmaster. In 1873 he removed with his family to this city. Here he held the position of Police Judge for ten years.

Judge Seawell died on the morning after the sixtieth anniversary of his marriage, his aged wife surviving him. He was the father of Senator J. A. Seawell of Ukiah, Joseph Seawell of Colusa, George and James Seawell of Healdsburg, and Emmett Seawell, District Attorney of the county, and Mrs. B. S. Wood, Mrs. Matthews and Miss Lou Seawell are the living daughters of the deceased. The Judge was a kind-hearted, sociable man, with hosts of friends and few enemies—one who made life pleasant for all with whom he came in contact.

SHASTA REPUBLICANS.

They Elect Delegates to the Congressional Convention.

REDDING, June 28.—The Republican County Convention, which was called to elect delegates to attend a Congressional District Convention at San Francisco, June 30th, was called to order in Good Templar Hall yesterday at 10:30 o'clock by F. M. Swasey, Chairman of the Republican County Central Committee. Fourth District, W. N. Webb, was elected Chairman and J. M. Gleaves Secretary.

The Committee on Credentials reported eighty-five delegates present, the whole number chosen at the primary elections being 125. The Committee on Platform and Resolutions presented a report, which was adopted, and in which loyalty to the party and individual unselfishness were advocated. A clause lauding the Republican party, its platform and McKinley was contained in the report.

The following delegates were elected after it had been decided to choose one at large and one from each Supervisorial District:

At large, Lloyd Carter; First District, T. J. Perryman; Second District, B. G. Harvey; Third District, Joseph Dinamore; Fourth District, W. N. Webb; Fifth District, A. L. Prior.

Congressman Barham was indorsed for re-election after considerable discussion.

WANT TO ADMINISTER.

Four Applications Made on the Shahamarian Estate.

FRESNO, June 28.—There are four applications for letters of administration on the estate of Stephen Shahamarian, the Armenian who was assassinated several weeks ago together with his son and daughter. One application on file is by the Trustees of the Stockton Insane Asylum of which a daughter of Shahamarian is an inmate. Another is by Jacob Shahamarian, a brother of the deceased, and a third by the Public Administrator, L. H. Church. The fourth is by T. A. Bell, a real estate agent of this city, who asks to be appointed for the reason that the friends of the insane daughter, who is the only surviving heir, want him to act as ad-

GOOD PROSPECTS.

Shortage in the Raisin Crop Likely to Make Prices Good.

FRESNO, June 28.—The shortage of the coming raisin crop on account of the late frosts will undoubtedly be a boon to the industry. Buyers are now in the field offering 2 1/2 cents per pound in the sweat box. This is a better price than growers have realized for the past three or four years under the commission system of selling. The offers are for cash and they start the movement for the dealers to buy from growers instead of handling raisins on the business commission plan.

Because it is short, the crop will be of good quality. About twenty-five carloads of raisins, the last lot in the county from last year's crop, were sold yesterday by George F. West & Sons to the California Raisin and Fruit Company at 2 1/2 cents. Eastern markets are said to be bare of raisins and growers are elated over prospects.

SCHOONERS COLLIDE.

A Tug Tows Them Both Into Port at Eureka.

EUREKA, June 28.—While in the vicinity of Cape Mendocino the schooner Mary Buhne, returning empty from a southern trip, last night collided with the Jennie Thelin, bound for San Francisco, heavily loaded with lumber. The Thelin was struck amidships and immediately filled with water. The lumber prevented it from sinking. Both vessels were badly damaged. The Buhne's bow was injured and the Thelin's side caved in. The tug Ranger towed them into port this afternoon. The crew of the Buhne claim that no side lights were exposed to view on the Thelin and it was not seen until only a few yards away.

MILTON ELSTNER DEAD.

A Pioneer of El Dorado County Passes Away at Carson.

CARSON (Nev.), June 27.—Milton R. Elstner, long a resident of Placerville, Cal., died in this city to-day. Milton Elstner resided in Placerville nearly all the time between 1850 and 1860, and was very prominent socially and politically. He served as Deputy Sheriff under Buell in 1854 and 1855, and was elected Tax Collector in 1859.

The older citizens of Placerville remember him well, and all speak very highly of him. He kept what was known as the El Dorado Hotel, at one time a prominent hostelry in Placerville, and left here in the early '60s for Auburn.

During his residence in El Dorado County he was perhaps the leading man in the county, and his death revives many memories.

MARRIED HIS NIECE.

The Party Took a Tug and Went Out on the High Sea.

SAN FRANCISCO, June 28.—Vincenzo Maglio, a well-known Italian gentleman of Fresno, and Theresa Maglio, his niece of the same city, were married on board the tug Vigilant at sea this afternoon by Captain Brockway. The father of the bride and his attorney were the only witnesses present. The couple arrived from Fresno last evening and Maglio senior chartered the Vigilant early this morning. When informed by a reporter to-night that marriages between uncles and nieces were illegal, Attorney Rossi, who represents the bride's father, stated that as the ceremony took place on the high sea the State law was not applicable.

DRAGGED BY HIS HORSE.

ANDERSON, June 27.—Daniel Kirkpatrick, a well-known horseman of Northern California, was seriously injured this morning by being thrown from a horse he was riding. The horse threw him from the saddle, and, in falling, one of his feet caught in the stirrup and the animal dragged him for some time. The cinch broke and the unfortunate man's life was saved. When picked up he was unconscious, and it is thought that he is internally injured. His recovery is doubtful.

BADLY INJURED.

RED BLUFF, June 28.—While the Red Bluff hose team was practicing last night for the Fourth of July races a boy named August Bonhof, belonging to Hose Company No. 2, fell, and before the cart could be stopped was run over. The cart with its equipment weighed over 900 pounds. Bonhof was badly injured internally and will probably die. No blame is attached to any one, but the accident has marred that portion of the entertainment planned for the Fourth.

MAYS STILL MISSING.

PORTLAND (Or.), June 27.—The Willamette Steam Mill Lumbering and Manufacturing Company, whose plant was totally destroyed by fire yesterday, went into the hands of a receiver to-day. Charles H. Carey, President of the company, was appointed receiver. Robert Mays, an employe, is still missing, and it is generally believed that he perished in the flames.

A BRUTE ARRESTED.

FRESNO, June 27.—Word reached here to-day that H. M. Peachman and B. H. Hoag of this city had arrested and handed over to the local police at Wawona a man named Barnes, whom they caught in the act of assaulting a half-witted child in the Yosemite National Park. The little one is almost dumb, and can only articulate the single word, "mamma."

JACKSON CROOKS DIES.

SANTA CRUZ, June 28.—Jackson Crooks of Oakland, who was fatally wounded last night by the accidental discharge of his pistol, died this morning. Postmortem examination was made at the request of the coroner, after which it was decided that no inquest was necessary.

EVIDENTLY A SUICIDE.

SAN BERNARDINO, June 28.—The body of G. A. Wingfield, the young Englishman who has been missing for the past week, was discovered by a party of searchers near Harlem Springs this morning. He had evidently committed suicide by taking poison.

NARROWLY ESCAPED.

NAPA, June 28.—About midnight last night the dwelling of Michael Bendetta, in East Napa, was burned with all its contents. Cause unknown. Bendetta was away in the country. His wife and children barely escaped alive.

HARTMAN IS FOR TELLER.

HE WILL PRESENT A RESOLUTION TO THE CONVENTION.

Wants Republican Electors Nominated by It Instructed to Vote for Him.

BUTTE (Mont.), June 28.—Congressman Charles S. Hartman to-day addressed a long public letter to Senator Lee Mantle, Chairman of the Republican State Committee, outlining his plan of campaign for free coinage and giving notice that he will introduce his plan in the form of resolutions to the State Convention.

After relating his position and the positions, past and present, of the Republican party on the silver question, he says he deeply regrets the necessity which impels him to decline to aid in perpetuating the gold standard, with its legitimate and consequent evils upon the producers and wage earners of this country.

The substance of his plan is for silver Republicans to "vote for the electoral ticket which will in my judgment be nominated to procure the election of Henry M. Teller. Mr. Teller is a platformer in himself. His record as a protectionist is read with pride by every advocate of the great principle, and as a leader of the bimetallic forces he is the natural and logical candidate for President. I shall present to the State Convention a resolution instructing the electors nominated by it to vote for Mr. Teller for President and for no other man who is not in favor of the free and unlimited coinage of silver at the ratio of 16 to 1."

Mr. Hartman's plan to keep the silver Republicans within the party lines is vigorously opposed by Hon. Thomas G. Merrill, Treasurer of the American Bimetallic Union. Mr. Merrill said in an interview to-day that it would be the surest way to throw the election into the House of Representatives, where 28 1/2 votes would be cast for bimetal standard man and 16 for a bimetalist, and making positive the election of a gold man.

THIRTEENTH HOLD-UP.

The Daring Robberies in Chicago Still Continue.

CHICAGO, June 28.—The thirteenth hold-up of the summer season resulted about 10 o'clock to-night in the wounding of Rudolph Stiechela, saloon-keeper at Kenzie and Lavitt streets, whom four men attempted to rob, and in the wounding of one of the bandits, who, however, escaped with the others of his gang.

Mr. Stiechela was cut about the head by a wine bottle that one of the robbers broken his skull and the latter died the saloon-keeper, kneeling behind his bar, hit the man with a bullet. Frank Keer, a customer, narrowly escaped death, a bullet from a robber's revolver lodging in a watch he carried in an upper pocket of his vest, directly over his heart.

When the bandits fled Officers Gretza of the Arden-avenue Station, Dudley of the West Chicago-avenue Station, and Watchman Boss of the Park and Railroad pursued them down the Northwestern tracks, the fugitives firing behind them and the officers emptying their revolvers after them. Boss is certain that one his bullets hit the smaller of the men, as he saw him stagger between two freight cars. Search of the yards by officers failed to reveal any traces of the wounded man or his companions.

The police are amazed at the frequency of the hold-ups. One Friday night, two Saturday night and a fourth to-night make a combination that staggers the oldest officers. No man on the force can remember a week so prolific of daring crimes as the last has been, nor can any of them remember a period of three months in the history of the city which so many daring devil robberies have taken place as the last quarter of a year has witnessed.

WHIST CONGRESS.

Californians Win the Match for Unattached Players.

NEW YORK, June 28.—The American Whist Congress, which closed at the Oriental Hotel, Manhattan Beach, this forenoon, is considered by all "whisters" as notable for the large attendance of crack players.

The Executive Committee has decided to hold its midwinter session in Nashville, Tenn., on January 15, 1897. At this session the time and place for holding the next congress will be decided upon.

The contest for the Hamilton championship trophy did not end until 1:20 o'clock this morning, when the Hamilton Club team of Philadelphia was declared the winner by twelve tricks.

The Whist League trophy challenge cup was won by the New York Whist Club by only half a point over the Albany Club team.

The Mirrorpool trophy was won by the Baltimore Club pair, Messrs. A. Hawley McKay and Beverly W. Smith. The straight whist match for unattached players, which was played Saturday night, was won by Mr. and Mrs. Henry Payot of San Francisco by a score of 33 tricks. The prize was a silver-mounted rabbit's foot.

GOES TO GRAY GABLES.

Cleveland Will Leave Washington, and So Will His Cabinet.

WASHINGTON, June 28.—Unless something now entirely unforeseen happens to change his plans, there is every probability of the President leaving here Tuesday morning for Gray Gables, where he will remain for the summer, should not the present even tenor of events be disturbed by complications now expected from any quarter. The coming week is likely also to witness a very general departure of Cabinet officers whose personal presence in Washington is not regarded by them as absolutely necessary during the coming period of midsummer heat and stagnation.

F. Hart, married, three children; John Hoistrich, married, three children; Joseph Zurindo, married, five children.

The one or two mine officials that are left of the Twin Shaft at 9 o'clock to-night say it is hard to estimate the number in the shaft, although they will reach not less than eighty and from that to 125.

The accident is similar to that of the Avondale disaster, which occurred September 11, 1890, when twenty-nine miners and laborers lost their lives. The rescuing party have cleared nearly 900 feet of the debris away and are propping as they go along. The report sent out that the body of Superintendent Langan had been found is not true. At this hour there are no signs of finding the men. It may take until morning before they can be reached.

At 11 o'clock to-night a force of sixty men from neighboring collieries went into the shaft to aid the rescuing party. They will stay until morning. The men are all old, experienced miners.

At midnight, after looking over the situation carefully, the leader of the rescuing party decided the best thing to do was to drive a gangway through the coal in the Clear Spring colliery adjoining, into the Twin Shaft, where it is possible to locate the men. The work was at once begun and is being pushed with all the speed possible. This task, however, will consume three or four days. In the meantime the work will be pushed by the rescuers in the Twin Shaft. It is now the opinion of the most able miners that it will take several days to find the entombed men.

At 12:30 a. m. a gang of men belonging to the rescuing party who went in at 6 o'clock last night came to the surface and reported that they were making headway, though it was slow work. The roof continues to settle and more or less danger is present. They are within 800 feet of the cave-in. Gas appears to be accumulating, which makes the labor difficult and delays the work to a great extent. No hopes are now entertained for the safety of any of the men.

Wedded in Style.

AVOCA (Neb.), June 28.—Charles Ruhge, a young German of wealth and

prominence, for many years a resident of Nebraska, and Marie Von Arnswaldt were married here yesterday. The bride is a daughter of Baron Von Arnswaldt, a member of the German Reichstag, and the ceremony was on a scale of magnificence never before seen in the town.

INDORSES WHITNEY.

The London "Times" Thinks the Democrat's Will Not Triumph.

LONDON, June 28.—The "Times," in an article which it will publish to-morrow, will indorse the currency views expressed by the Hon. William C. Whitney, but will say it regards his threat to secede from the Democratic party as a last despairing effort to stem the tide of silver sentiment and to save the situation at the Chicago Convention. Possibly, for strict electioneering purposes, the paper adds, the adoption of a silver programme at Chicago will be a good political movement, but the Democrats are in a tight corner and are not likely to triumph in November.

TO RAISE MONEY.

Spain Arranging to Send Reinforcements and Arms to Cuba.

MADRID, June 28.—The Chamber of Deputies has unanimously adopted a bill enabling the Government to raise the sum of \$100,000,000 on the security of the tobacco monopoly, the money to be available for war expenses during the parliamentary recess. The dispatch adds that the Government has completed arrangements for the use of twenty transatlantic steamers during the month of August to transport 40,000 reinforcements and 60,000 rifles to Cuba and also a number of heavy guns to be mounted in the forts at Havana and other places of the island.

CREATED A SENSATION.

Danish Government Prepared to Sell St. Thomas.

LONDON, June 28.—The "Times" to-morrow will publish a dispatch from Copenhagen saying that the suggestion in the Republican platform adopted by the St. Louis Convention that the United States should purchase the Danish colonies in the West Indies creates some sensation. It is believed that the Americans covet St. Thomas for a naval station.

The consensus of opinion in Danish circles is that the Government is prepared to sell at a suitable price.

SIERRA ICE COMPANY.

Its Warehouse and Part of Its Flume Burned.

SUMMIT, June 28.—Fire this evening destroyed the warehouse of the Sierra Ice Company, together with a large section of the company's flume, 300 feet of Southern Pacific track, seventy-five feet of trestle and three box cars at Prosser Creek. The loss to the ice company is estimated at \$25,000. The blaze was subdued by two fire trains ordered from Truckee.

Fought for a Girl.

ST. PAUL, June 28.—Earnice French and Will Hoepner, prominent young men of Eau Claire, in love with the same girl, fought for her hand to-day before sixty people. They fought with four-ounce gloves, the mill being declared a draw after seven rounds. Neither man could stand up without effort when the contest ended.

Killed His Wife.

NEW LONDON (Conn.), June 28.—James Romkey last night killed his wife and then took his own life. They had

been living apart, and although Romkey had repeatedly asked his wife to return to him she refused to do so.

HER IDOL BROKEN.

The Porter Made It Right and They Lived Happy Ever Afterward.

He had just returned from Chicago, where he had been called upon urgent business. The honeymoon was scarcely over, and, besides, it was his first absence from her side since they were made one. The three days of his absence had seemed to both like three long years; but now he had returned and she was in his arms once more, says the New York "World." Promise after promise had been renewed and vows of eternal fidelity exchanged.

"And you will never drink" he murmured.

"Dearest, you know I have never done so," he replied in injured tones.

"And you will never gamble, either, will you, dear?" she asked.

"Precious, I have never gambled."

"And you will never, never use tobacco again, my idol?"

"Never, never again, my dear, since you wish it so."

And she believed him, in her woman's way, and "all was merry as a marriage bell."

But he mentioned his valise, and a little struggle ensued. He would go and get the valise, he said.

No; no; he was tired; she would get it.

No, no—

But yes, yes. Was she going to let him walk across the room for a nasty old valise, and he so tired? How could he think her so cruel? No, indeed. She would go and get it herself, and open it for him, too, and so there.

When she said "so, there," he knew there was nothing else for him but to submit gracefully, and he submitted.

But alas for what followed.

She opened the valise! What was in it? One large empty flask, one meerschaum pipe, one pack of playing cards, new; three packs, ditto, old; a few poker chips, sundries.

That was all.

One of those scenes which "baffle all description" followed, but finally the porter came up and explained that he had sent up the wrong valise.

Both are slowly recovering.

Nero had bulging, nearsighted eyes. He used a small gem in the shape of a lens to observe the gladiators in the amphitheater.
